Dear all,

Please note some minor revisions on the proposed TOR for the ROV: [Revised BMB TOR ver 3 - CMEMP 2024 Procurement of Underwater ROV PHP 3M.docx - Google Docs](#) <- **LINK**

Minor revisions so as the specifications are not too high/difficult to procure, but should still be of good quality.

The list of equipment serves as a guide for your procurement; any equipment outside of this list may still be procured, so long as these are absolutely necessary for assessment/monitoring of coastal and marine ecosystems/habitats, as must be provided in your respective justifications, experts' advice, etc.

We would provide the advice that the funds be utilized to procure any assessment equipment necessary for your respective Offices.

For your information.
