73 *Upon reading with some corrections, the minutes of the previous meeting was*
74 *approved through the motion of Ms. Luzviminda C. Alto, seconded by Mr. Reynaldo*
75 *B. Dormido.*

76 **5. Matters Arising from the Previous Meeting**

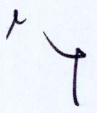

77
78 Ms. Luzviminda C. Alto, asked about the status of the query to the Legal
79 Personnel from the DENR-Regional Office regarding the legal personality of the
80 ExeCom Chairperson to enter into contract.

81
82 According to Forester Sanico, due to busy schedule, he didn't have the time to
83 raise the issue to the Regional Office regarding the matter. He then committed that he
84 will request a special meeting with Conservation and Development Division (CDD)
85 personnel to clarify issues concerning SaCa MPAN.
86

87 MPDC Alto asked why the venue for second quarter meeting was held again in
88 Sablayan considering that it was agreed in the first quarter meeting that the next venue
89 will be in Calintaan. Forester Sanico replied that the changes was due to conflict of
90 schedules of the ExeCom members in time with the transition of the newly elected
91 officials in the recently concluded 2022 National Election.
92

93 **6. Presentation of Draft Manual of Operations**

94
95 The draft Manual of Operations for SaCa MPAN was presented by Forester
96 Alvin E. Sanico. The body agreed that he will continue reading the contents then the
97 body may interrupt if there is any comments or suggestions.

98 For the Introduction, MPDC Luzviminda Alto mentioned that in the
99 Introduction, it is a way of putting the context. She then suggested that it is important
100 to mention that there are existing local MPAs in the Province of Occidental Mindoro
101 whether it is initiated by the locals or the LGUs. Mr. Norman Novio, representative of
102 the Municipal Mayor of Sablayan, added that it should also be site specific and the
103 legal basis for the establishment of MPAN should also be mentioned in the
104 Introduction. MPDC Alto, further suggested that if possible, the flow of discussion of
105 ideas regarding MPA network can be from national level down to local. She then
106 suddenly clarified if what "N" in "MPAN" stands for, if it is "Networking" or
107 "Network". Forester Sanico answered that it is "Network".

108 For the Overview under 2.1 Scope of Application, Mr. Rolando Paglicawan,
109 suggested that the paragraph should start with "This manual of operation shall apply
110 to Sablayan – Calintaan Marine Protected Area Networking (SaCa MPAN) two
111 Municipalities, instead of starting with "Pursuant to R.A. 8550 and that legal
112 basis mentioned can be inserted to Introduction.

113 For 2.2 Declaration of Policy, MENRO Delmer Garingalo observed that the
114 congruence of sentences of the enumerated policies is not uniform. He emphasized
115 that if the sentence started with a noun, verb or adjective, then it can also be done to
116 the succeeding sentences, for uniformity.

117 For 2.3 Guiding Principles, in number 10. Fairness and Sincerity, Mr. Norman
118 Novio suggested that instead of "sincerity" it can be changed into "inclusivity" since
119 sincerity is immeasurable.

120 For 2.4 Definition of terms, MPDC Luzviminda Alto, suggested to add more
121 terms to define, i.e. Civil Society Organizations, Reef fish, Environment, Natural
122 Resources, Network, etc. MENRO Garingalo asked if the definition of terms are
123 scientific or operational. Forester Sanico answered that it can be both scientific and
124 operational.

125 For 3. Vision and mission statements, there was no clear agreements for
126 Vision and Mission. The body decided to skip it and agreed that it can be discussed on
127 the next meeting. As suggested by Mr. Norman Novio, since the next venue for the
128 meeting is in Calintaan, he requested LGU Calintaan if they can come up with more
129 precise Vision and Mission that can be presented on the third quarter meeting.

130 Since there is still confusion regarding where the ExeCom stands as far as the
131 SaCa-MPAN is concern, MENRO Duquil suggested to Secretariat to ask for a
132 clarification to the Regional Office. Forester Sanico committed to set a meeting with
133 the Regional Office to discuss issues regarding the SaCa-MPAN.

134 MPDC Alto directed the Secretariat to change the word "management board"
135 into "executive committee" in the previously prepared documents (i.e. Notice of
136 Meetings, Attendance sheet, Minutes of previous meetings) and the same with the
137 documents to be prepared in the future, for consistency in the approved MOA.

For 3.3 Purpose of Manual of Operations, MENRO Garingalo suggested that instead of paragraph it should be presented in bullet form.

For 4.3 Powers and Functions of the SaCa MPAN Executive Committee, the listed functions were removed since they realized that the ExeCom can only recommend appropriate policy changes, to the DENR, LGU's and other government authorities if the situation warrants and cannot approved such projects or programs for each MPA, since, the Local Chief Executive can only do so.

For 4.4 Terms of Office of SaCa MPAN Executive Committee, under number 1, Mr. Rolando Paglicawan, suggested that the duration for the term of Chairperson can be equal with the terms of office of a Municipal Mayor which is three (3) years instead of two (2) years.

For 4.5 Nomination of Permanent Representatives, Forester Sanico mentioned that there will be changes in the list of permanent representatives submitted in the first quarter and he will again send a communication letter to the ExeCom for their permanent representatives.

Mr. Herold S. Castro, representative from DENR CENRO San Jose, suggested in 4.5.1 that except from submitting the permanent representative of the ExeCom to attend regular and special meetings, they shall also submit an appointment/nomination for their chosen representative. For 4.5.2, Hon. Rolando Paglicawan, representative of Municipal Mayor of Calintaan, suggested that if the ExeCom member is holding a permanent position like the MENRO and MPDC, they can nominate a permanent representative from their respective Offices, meanwhile, if the ExeCom member is an elected official, it is their prerogative to choose who will be their respective representative during their term.

For 6.1 Regular Meetings, Hon. Paglicawan, suggested that schedule for SaCa MPAN meeting is every third Friday of the second month of every quarter instead of every third week of the second month of every quarter. Mr. Herold Castro clarified who will be signing the Notice of Meeting, Forester Sanico then answered that for the meantime it will be the CENRO. Mr. Castro then suggested that it should be the PENRO since the SaCa MPAN is covering a two municipalities. MPDC Alto agreed to the latter's suggestion.

For 7.2 Approval of Programs and Projects, MPDC Alto highlighted that only technical assistance can be given by the ExeCom (and that is when the LGU requested for it), since only the Local Chief Executives have the power to approve or disapprove projects/proposals within their respective area of jurisdiction.

For 7.4.1 Strategic Action Plan (SAP), MPDC Alto asked if the SAP is different from the management plan. Forester Sanico answered that the SAP is the management plan per se of the network.

For 7.5 Monitoring and Evaluation, Mr. Joselito Tiongson, representative from the MENRO Sablayan suggested that include the MENROs as member of the M&E

team since their office is the one implementing projects specifically the Locally Managed Marine Protected Areas (LMMPAs)

After the presentation and corrections of the draft Manual of Operation, MENRO Garingalo asked if when the ManOps will be finalized. MPDC Alto then suggested that after incorporating the comments/suggestions during the second quarter meeting, the edited draft may be presented on the third quarter Executive Committee meeting of the SaCa MPAN. She then requested the Secretariat to present the edited draft ManOps on August 19, 2022 at Calintaan, Occidental Mindoro as agreed venue for the third quarter SaCa MPAN ExeCom meeting.

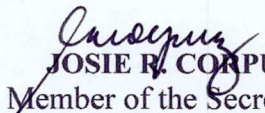

7. Other Matters

Forester Sanico informed the body regarding the possible conduct of research by the UP-MSI since they have signified interest to conduct research specifically for Locally Managed Marine Protected Areas (LMMPAs).

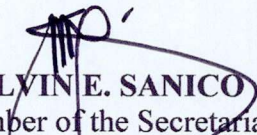

III. Adjournment

Having no other matters to discuss and with the agreements reached, the meeting was formally adjourned at around 3:02 pm through the motion of MPDC Luzviminda C. Alto seconded by Mr. Rolando Paglicawan.

106

107 Pertains to Number three (3), Ms. Alto asked who will be the Executive
108 Committee Chairperson considering there were two municipal mayors.
109

110 Forester Sanico answered and suggested that maybe after the election and if
111 the body agree and through the finalization of the Manual of Operations, the
112 newly elected two Municipal Mayor will supposedly alternate every two years
113 as a chairperson.
114

115 Ms. Alto also asked if there will be a legal personality in behalf of the
116 Chairperson to enter into contract.
117

118 Forester Sanico said that this matter should be referred to the legal personnel.
119

120 Pertains to number six (6) the DENR will be the Secretariat.
121

122 Pertains to number Eight (8), Forester Sanico mentioned that the Executive
123 committee's composition and function has been stated in the approved MOA
124 for SaCa-MPAN. He was hopeful that after the election and if the Manual of
125 Operation and Strategic Management Plan has to be finalized and adopted, by
126 the third or fourth quarter of 2022, the body can decide who among the
127 Municipal Mayors of Sablayan and Calintaan will be the first to sit as
128 Chairperson for the SaCa-MPAN.
129

130 He also mentioned that what was presented above as a Manual of Operations
131 was just an outline/framework and the detailed structure will be sent through
132 email to the members on the second quarter of CY 2022 subject for their
133 comments, corrections and approval.
134

135 **B. Inventory Of Policies And Ordinances With Regards To Coastal**
136 **Resources Management**
137

138 For. Sanico discussed that the SACA-MPAN is the only MPAN left in
139 MIMAROPA so that the strengthening phase, guidelines on CRM ordinances
140 in two municipalities are necessary. Inventory of policies and ordinances
141 between Sablayan and Calintaan should be harmonized then to be submitted to

both Sangguniang Bayan and if they will both agree and grant, a special session between the two municipalities will be set to tackle the adoption of the said policies and ordinances.

Both municipalities were requested to submit their respective Policies and Ordinances relative to coastal resource management not later than April 1, 2022. The draft for detailed manual of operation was assumed finished and will be send to each members email by the secretariat on the second week of May.

Mr. Novio added on the first part and suggested that there should be a policy of engagement. Private entities outside the sphere of LGU's such as NGO's should be looked at for some policies to apply as a counterpart.

MENRO Duquil asked, if the ordinances tackled was only about the marine protected area because if CRM, this will include coastal and marine resources and therefore, OMA ordinances will also be considered.

Forester Sanico said that they should strictly follow the local MPA's policies.

182 **E. Other Matters**

183
184 Ms. Alto asked if the DENR can share budget for the joint activities to be
185 conducted aside from sponsoring the meetings or could it be possible to
186 add/propose in the next year MPAN budget the allocation for the basic
187 functionality of the network.
188

189 Forester II Sanico answered and explained that as for the MPAN's level three
190 which pertains to sustainability; parameters were both municipalities should
191 be harmonized in the continuous conduct of activities as well as in budget
192 allocation. If there might be activities that need to be executed and in need of
193 assistance or budget, the Provincial Government may take provide assistance being
194 part of the MOA. The DENR function is to provide technical assistance. Sooner the
195 spearhead and overall management of the SaCa MPAN will be then slowly lay
196 down to the municipalities and provincial government. Therefore, as much as
197 possible both LGU's 2023 WFP, activities in relation to MPAN should be
