175

176 PASu Mildred Suza answered and asked Planning Lanie Jane R. Cacacha, provided
177 updates regarding the matter.
178

179 Ms. Cacacha informed the Board that based on the coordination with the planning officer
180 of regional office, that the proposed additional FPO will be subjected to hiring under Enforcement
181 of Environmental Laws within Protected Area and not on the Project Management and Supervision
182 (PMS) as presented last PAMB enbanc meeting. She further added that approval of WFP was
183 pending because it must be supported by the approved minutes.
184

185 Mr. David suggested the PAMB to create a policy or resolution to approve the resolutions
186 even without supporting minutes, he further motioned that approval of WFP must not need

187 approved minutes. CENRO Valle answered that it was required by the Region for their reference,
188 he further suggested that the PAMB can conduct special meetings regarding this matter, to avoid
189 delays in approval of WFP, he also added that Barangay Chairpersons must advise their FPO's to
190 comply the lacking requirements to avoid delays on hiring.

191
192 The presiding officer advised the Barangay Chairpersons to seek assistance to the PAMO
193 regarding the requirements.

194
195 Hon. Zumarraga inquired if the approval will take longer. PASu Suza answered that one
196 of the requirements was the approved minutes and resolutions of November 17, 2021 and it will
197 be submitted promptly after this meeting.

198
199 Contracts of the recent hired FPO's were already prepared while waiting on their
200 compliance to requirements as mentioned by Mr. Herson Caliao.

201
202 Mr. David motioned to conduct special meetings, if needed.

203
204 PASu Suza further informed and asked the board for a resolution of the procurement of
205 motorcycle, pick-up and speedboat was granted by the Department of Budget and Management
206 (DBM) thru an Authority to Purchase dated December 16, 2021 and received by the office on
207 December 28, 2021.

208
209 Mr. Jose Alferez motioned to request DENR PENRO to process and facilitate the
210 procurement of motorcycle, pick-up and speedboat, duly seconded by Mr. David. Majority of the
211 Board voted.

212 213 **VI. Business of the day**

214 215 **1. Implementation of PA user's fee collection in Secret Beach pursuant to** 216 **Resolution No. 51, Series of 2017**

217
218 PASu Suza presented the implementation of PA user's fee collection in Secret Beach
219 pursuant to Resolution No. 51, s. 2017.

220
221 Hon. Jon Tumampil suggested to review the said resolution and make a public consultation
222 with the locals and he is very concerned of the tourists conducting tour in islands/lagoons that may
223 congest.

224
225 APASu Jenuel P. Casel informed Hon. Tumampil that tourists are regulated in entering the
226 lagoons, he further added that the collection presented during PAMB meetings was collected in
227 Big and Small Lagoon.

228
229 Hon. Edilberto Templado Jr. asked if this was already consulted with the tourism. He
230 further suggested to conduct information dissemination prior implementation of the said resolution
231 to avoid the commotion during its implementation.

232
233 Atty. Jefrei Sahagun asked the relevance of said management strategy with the
234 management plan of ENTMRPA and what is the jurisdiction of PA over the area.

235
236 PASu Suza answered that the said area has the same fragile environment with Small and
237 Big Lagoon that needs to regulate the number of tourists same as the implementation in Big and
238 Small Lagoon. The collection will be also implemented to provide environmental protection needs
239 in the area.

240
241 Atty. Sahagun requested to explain the importance of imposing fees in the said area because
242 the Barangay Chairperson mis-interpreted the concept of collection, in fact they are thinking the
243 the PAMO is being restrictive. He further added that it must be implemented on the areas that have
244 the same fragile environment.

PENRO Cayatoc also commented via zoom but inaudible due to the intermittent internet connection in the venue.

Atty. Sahagun grasped the comment of PENRO since they are both on zoom. He explained that prior implementation, it must be discussed with the stakeholders.

CENRO Valle explained that this resolution was already approved since 2017 and was already implemented in Small and Big Lagoon but not in Secret Beach, although as per resolution it must also be imposed in the said three areas.

Atty. Sahagun asked of what is preventing the PAMO implement the approved resolution. Ms. Daria Eborá answered that the PAMO was only asking for comments and approval of the members.

Hon. Zumarraga advised to still conduct information dissemination prior to implementation. It was acknowledged by the Presiding Chair and Secretariat.

However, Municipal Tourism Officer (MTO) Sharmaine D. Nur, commented that as of this moment, implementing such rules is inefficient on coping with the economic crisis of El Nido, she further added that Secret Beach is no longer congested these days and there is no existing mooring buoys. She also stated that the whole ENTMRPA was considered fragile not just the mentioned areas.

PENRO CDS Chief, Rhodora Ubani commented that the resolution is amendable in relevance with the existing issues and concerns.

Ms. Sharmaine Nur motioned to hold temporarily the proposed collection and thoroughly review the implementation of Resolution No.51, s.2017 particularly the collection of PA user's fee in Secret Beach. It was seconded by Atty. Jefrei Sahagun via zoom. Majority of the Board voted for the said motion.

2. Proposed collection of PA users fee in Cagbuanga Falls, Bgy. Villa Paz, El Nido

Mr. Herson Caliao presented the result of validation and inspection of Cagbuanga Falls located at Sitio Mabengeten, Bgy. Villa Paz, El Nido, Palawan.

Mr. Caliao added that prior implementation of the proposed collection, the following must be accomplished:

1. Site assessment;
2. Delineation;
3. Biodiversity Assessment;
4. Training for Tour Guides;
5. Capacity Building with the Barangay Local Government Unit (BLGU); and,
6. Preparation of Comprehensive Development Plan.

Atty. Sahagun asked the purpose of presentation. PASu Suza answered that this office initiated the inspection due to the conducted Biodiversity Friendly Enterprise (BDFE) consultation with them, this was one of the identified projects of barangay.

Ms. Nur commented that they are also coordinating with the barangays, highlighting their unique aesthetics. She further added that she supports the way ahead activities of PAMO and recommended to add the Nagkalit-kalit Falls and Bulalacao Falls.

CDS Chief Ubani, advised that this can be managed by the People's Organization (PO) with the assistance of PAMO, LGU and Tourism Office to guide them on how to managed. She further suggested to review the guidelines of Community Based Sustainable Tourism (CBST).

Ms. Nur asked if the Barangay can also collect fees aside from ETDF. PASu Mildred answered that this is possible, she further shared the collection of fees by the LGU from the hikers

in Mt. Mantalingahan Protected Landscape (MMPL), which offers unique nature and activities that can be only experienced there. She further emphasized that the El Nido is a Protected Area, not just an ordinary place to visit.

Ms. Nur, acknowledged the answer of PASu and reiterated that the Barangay can imposed fees too. She added that currently, they have on-going CBST in Bgy. New Ibajay, which can also be implemented in Bgy. Villa Paz, if possible.

Without further comments, Ms. Nur motioned requesting the PAMO personnel to conduct delineation of boundaries including Nagkalit-kailt falls and Bulalacao Falls. Mr. David seconded on the said motion including the facilities and trekking.

PASu suggested to create team to include Municipal Tourism Office and biodiversity experts on the said delineation.

Mr. David commented that the motion was for further study, the PAMO is already oriented and have the authority to invite the academe or other agencies if necessary. The resolution will be drafted for its management.

Hon. Zumarraga also added to conduct delineation of boundaries on the said barangay and was agreed by the CENRO.

CDS Chief Ubani added that for biodiversity assessment include PCSD on the team. It was noted by the Secretariat.

3. Presentation of Green Economy Model (GEM) report and updates

CENRO Alan L. Valle presented the updates on Green Economy Model (GEM) conducted by the CENR Office. In compliance monitoring on the delineated legal easement and inventoried affected establishment. Reports for Maligaya, Masagana & Corong-corong were already submitted but needed to review the migrated data to the new matrix based on the format provided by the RO on Nov 30, 2021. Completed monitoring in Buena Suerte & Bucana but need to review output data prior submission of MOV. A total of 46 PVC pipes were planted in Bgy. Villa Libertad, 135 in Pasadena and 217 in Sibaltan. Hiring of GEM enumerators.

However, the following are the issues and concerns during the delineation;

1. Easement delineated in Poblacion, El Nido (Buena Suerte, Masagana, Maligaya, Corong-Corong) is only 3 meters which does not conform with the provisions of RA 11038;
2. Relocation area;
3. Livelihood assurance;
4. Land reclassification of potential relocation sites;
5. Just compensation of the affected houses/structures/establishments;
6. Solid waste management;
7. Illegal activities within mangrove areas; and,
8. Lack of manpower for delineation team.

4. Task Force Build Back Better (TFBBB)

CENRO Valle continued his presentation with the additional agenda presented above, the Task Force Build Back Better (TFBBB). He informed the board that this TFBBB was established by virtue of Executive Order 120, s 2020, Chaired by the DENR Secretary and Co-chaired by the DPWH Secretary having 26 members. It shall focus on the post-disaster rehabilitation and recovery phase in typhoon-affected areas, beginning with those hit by typhoons Rolly and Ulysses. The Tasked was to expedite, lead the implementation and monitor post-disaster recovery and rehabilitation efforts of the national government in typhoon-affected areas.

He also presented the good stories from TFBBB, mechanisms for regional leadership of DENR in TFBBB and the proposed next steps.

369

370 PASu Suza presented the establishments within PA without PAMB endorsement or tenurial
371 instrument/SAPA for four (4) barangays within ENTMRPA.
372

373 Mr. David commented that requirements and guidelines regarding SAPA applications and
374 processing must be reviewed and established to expedite the process and to let us collect the fees
375 immediately because the investors are already having profits operating within the Protected Area
376 without paying the government which is supposed to be utilized to protect the environment and
377 regulate infrastructures.
378

379 He further motioned to review locally the policies and guidelines of DENR to expedite
380 SAPA application process, duly seconded by Mr. Jose Alferez. Majority of the Board voted
