Forwarded is the Individual Learning Report of PASu RIWS, Ma. Teresa V. Ayson
re: attended training-workshop on Seabirds Identification via zoom.

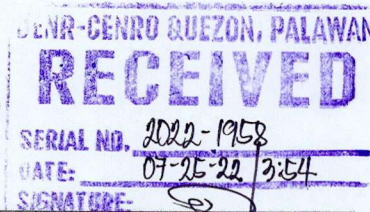

For your information and record.

LEONARD T. CALUYA

INDIVIDUAL LEARNING REPORT

Part I (To be prepared by the participant)

Name of Participant:	Ma. Teresa V. Ayson
Office/Service:	CENRO Quezon- PAMO RIWS Narra, Palawan
Training Title:	Seabirds Identification Training-Workshop
Learning Providers:	DENR-Biodiversity Management Bureau
Inclusive Dates:	July 20-22, 2022
Venue:	Via Zoom

1. EVALUATION OF THE COURSE:

• Technical Content:

The objectives of the training-workshop are:

1. Provide field managers with the skills to effectively identify and monitor seabirds;
2. Identify target sites for seabird monitoring in the Philippines in 2023.

On the 3 days training-workshop the topics that were discussed are:

1. What are Seabirds their habitat, distribution, general characteristics and species in the Philippines;
2. Identifying seabirds on their behavior and description;
3. Basic rules of seabirds survey and research (Data gathering, Census and monitoring survey protocols); and
4. Action plan presentation and workshop for sites and presentation of output per Region.

• Impression/Comments:

1. All topics are very interesting especially the presenter was undoubtedly shared to the participants of their expertise.
2. The main limitations in attending training-workshop via zoom were the poor internet connectivity and interruption of power supply during the lecture which can turn away the focus of the participants.

II. RELEVANCE OF THE LEARNING EVENT TO PARTICIPANT'S WORK/FUNCTION:

PAMO Staff has observed/spotted different types of seabirds species in Rasa Island Wildlife Sanctuary during regular patrolling but, the main problem was that we have no capacity to identify and no HD camera used in that particular activity. Hence, the 3 day learning event is relevant in our day to day monitoring and patrolling.

III. RECOMMENDATIONS:

- Face to face training and actual seabirds identification;
- Issuance of HD camera with telephoto lens intended for birds identification; and
- Fund allocation.

IV. POST LEARNING ACTION PLAN/PROPOSAL:

Proposed Plan/Activity/Output	Time Frame
Re-echo - PAMO Staff	3 days after attended training

Part 2 (To be prepared by the SUPERVISOR)

How will you support the post learning Action/Proposal?

Re-echo to PAMO Staff is important in order to transfer the knowledge gained in the training and to strengthen the birds identification activities in Rasa Island Wildlife Sanctuary specially.

Have you discussed any concerns/resources needed by your subordinate so that he/she can effectively transfer the skills and knowledge gained from the training?

Yes _____

Would you be willing to send him/her again to other training/seminar/conference?

Yes x No _____ Others _____

If yes, please specify courses.

Face to face training and actual seabirds identification.
