THRU

The Chief CDD and Chief, PMD

FROM

The PENR Officer

Puerto Princesa City

SUBJECT

REOUEST FOR APPROVAL RE: REVISED PHYSICAL TARGETS OF FY 2022 WORK AND FINANCIAL PLAN FOR COASTAL AND MARINE ECOSYSTEMS REHABILITATION

SUB-PROGRAM

In connection with our approved Work and Financial Plan for FY 2022, respectfully submitted herewith the Revised Work and Financial Plan for Coastal and Marine Ecosystems. particularly the physical target under Monitoring of corals, seagrass and mangroves of Malampaya Sound Protected Landscape and Seascape (MSPLS) and the targets under Green Fins Implementation.

Please be informed that the MSPLS requested to reduce their target on mangroves and seagrass monitoring since the originally approved area was based on the 2017-2018 assessment were mostly located outside the Protected Area. This has been verified by the PAMO thru the recent ground-truthing they have conducted.

Further, as agreed during the Green Fins Roadmapping held last April 5-8, 2022 at Cebu City, the Monitoring and Evaluation of Dive Shops for El Nido and Coron under the Green Fins Implementation is not feasible since "monitoring and evaluation" is only part of the process of "assessment of Green Fins Member". For CENRO Coron, assessment is not possible because they have not reached fifty (50) dive logs which is a requirement to become Green Fins Assessor, thus they were advised to conduct alternative activities on Green Fins such as coastal clean-up with Green Fins members and Green Fins Awareness Raising Session with DENR.

Attached is a copy of the email-instruction from the CRFMS of CDD.

For information and consideration.

Revision of Green Fins Target

CRFMS CDD <cri>fmscddmimaropa@gmail.com>
To: PENRO CDS <penropalawanpawczms@gmail.com>

Tue, Jun 21, 2022 at 2:58 PM

Dear Sir/Mam.

Please be informed that CENRO Coron and ENTMRPA has a target on "monitoring and evaluation of dive shops "for green Fins which is only part of the process involved in the assessment of Green Fins members in demonstration site.

The said target was discussed with the Biodiversity Management Bureau (BMB) during the Green Fins road mapping at Golden Prince Hotel, Cebu City on April 5 -8, 2022 and this should be revised to "assessment of Green Fins members/snorkel operators for the El Nido site. The assessment will be conducted by Green Fins Assessors who had undergone assessors training with the Reef World Foundation (RWF). For CENRO Coron which has the same target with El Nido, Assessment of GF members/dive shops is not feasible since CENRO personnel are still in the process of accumulating fifty (50) dive logs as one of the requirements for assessors training.

In lieu of this, CENRO Coron is recommended to conduct activity among the alternative activities on Green Fins for CY 2022, such as coastal clean-up for the fourth quarter and Green Fins awareness raising session with other DENR staff.

Furthermore, you are instructed to ensure that the number of Green Fins members to be assessed and the Green Fins alternative activities to be conducted shall commensurate the allotted budget for the Green Fins Monitoring and evaluation as stipulated in the approved Work and Financial Plan (WFP) for CY 2022 and kindly submit the revision of the said target using the revision form attached on or before June 30, 2022.; Thank you and best regards.

For your information and compliance.

MEMORANDUM

FOR

The Regional Executive Director

MIMAROPA Region

1515 L&S Bldg., Roxas Blvd.,

Ermita, Manila

THRU

The Chief CDD and Chief, PMD

FROM

The PENR Officer Puerto Princesa City

SUBJECT

REQUEST FOR APPROVAL RE: REVISED PHYSICAL TARGETS OF FY 2022 WORK AND FINANCIAL PLAN FOR

COASTAL AND MARINE ECOSYSTEMS REHABILITATION

SUB-PROGRAM

In connection with our approved Work and Financial Plan for FY 2022, respectfully submitted herewith the Revised Work and Financial Plan for Coastal and Marine Ecosystems, particularly the physical target under Monitoring of corals, seagrass and mangroves of Malampaya Sound Protected Landscape and Seascape (MSPLS) and the targets under Green Fins Implementation.

Please be informed that the MSPLS requested to reduce their target on mangroves and seagrass monitoring since the originally approved area was based on the 2017-2018 assessment were mostly located outside the Protected Area. This has been verified by the PAMO thru the recent ground-truthing they have conducted.

Further, as agreed during the Green Fins Roadmapping held last April 5-8, 2022 at Cebu City, the Monitoring and Evaluation of Dive Shops for El Nido and Coron under the Green Fins Implementation is not feasible since "monitoring and evaluation" is only part of the process of "assessment of Green Fins Member". For CENRO Coron, assessment is not possible because they have not reached fifty (50) dive logs which is a requirement to become Green Fins Assessor, thus they were advised to conduct alternative activities on Green Fins such as coastal clean-up with Green Fins members and Green Fins Awareness Raising Session with DENR.

Attached is a copy of the email-instruction from the CRFMS of CDD.

For information and consideration.

Revision of Green Fins Target

CRFMS CDD <crfmscddmimaropa@gmail.com>
To: PENRO CDS <penropalawanpawczms@gmail.com>

Tue, Jun 21, 2022 at 2:58 PM

Dear Sir/Mam.

Please be informed that CENRO Coron and ENTMRPA has a target on "monitoring and evaluation of dive shops "for green Fins which is only part of the process involved in the assessment of Green Fins members in demonstration site.

The said target was discussed with the Biodiversity Management Bureau (BMB) during the Green Fins road mapping at Golden Prince Hotel, Cebu City on April 5 -8, 2022 and this should be revised to "assessment of Green Fins members/snorkel operators for the El Nido site. The assessment will be conducted by Green Fins Assessors who had undergone assessors training with the Reef World Foundation (RWF). For CENRO Coron which has the same target with El Nido, Assessment of GF members/dive shops is not feasible since CENRO personnel are still in the process of accumulating fifty (50) dive logs as one of the requirements for assessors training.

In lieu of this, CENRO Coron is recommended to conduct activity among the alternative activities on Green Fins for CY 2022, such as coastal clean-up for the fourth quarter and Green Fins awareness raising session with other DENR staff.

Furthermore, you are instructed to ensure that the number of Green Fins members to be assessed and the Green Fins alternative activities to be conducted shall commensurate the allotted budget for the Green Fins Monitoring and evaluation as stipulated in the approved Work and Financial Plan (WFP) for CY 2022 and kindly submit the revision of the said target using the revision form attached on or before June 30, 2022.; Thank you and best regards.

For your information and compliance.
