## MEMORANDUM

**FOR :** The Regional Executive Director  
DENR MIMAROPA Region  
1515 DENR By the Bay Building, Roxas Boulevard,  
Barangay 668, Ermita, Manila

**THRU :** The OIC, ARD for Technical Services

**FROM :** The Provincial Environment and  
Natural Resources Officer

**SUBJECT :** SUBMISSION OF ACCOMPLISHMENT REPORT ON LAWIN  
PATROLLING WITHIN THE AREA OF RESPONSIBILITY OF  
CENRO ROXAS PALAWAN FOR THE PERIOD OF OCTOBER  
2022

Respectfully forwarded is the memorandum of CENRO Roxas, Palawan dated November 2, 2022 relative the above subject.

As reported, a total of 106.34 kilometers distance were patrolled for the month of October 2022. In addition, there are several threats recorded during the said period, these threats were already addressed and/or no further action needed. *(Please refer to the attached matrix of the report)*

For information and further instruction.

## Summary Patrol Report

Region 04B - Roxas-Pal

Number of days analyzed: 30

2 Nov 2022 11:55 AM

This report presents the patrol performance and quality of the implementing unit during the above stated period of time (number of days). The report contains information on accomplishment rate, coverage and intensity of patrolling in different forest types on patrol distance covered per patroller. The information is meant to provide a basis for patrol planning for the next planning period and implementation of adaptive measures to enhance patrolling as necessary.

### Overall accomplishment rate\*

#### Level of Accomplishment

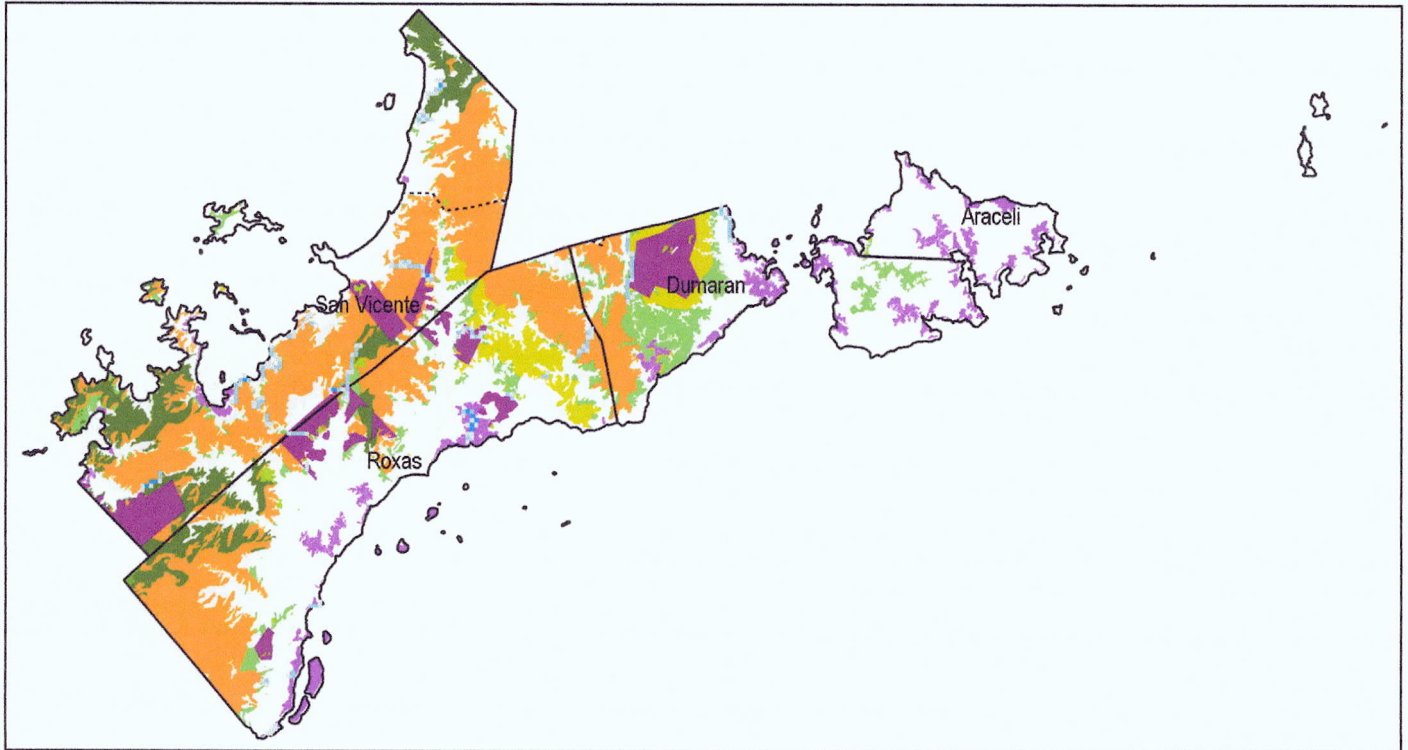

● Accomplishment  
● Target

Accomplishment* for the period	Target* distance for the period
103.67	108.00

**Accomplishment Rate:**  
95.99%

\*Target is computed based on 10km target per team of 4 DENR patrollers per month

### Patrol coverage and intensity

Republic of the Philippines  
Department of Environment and Natural Resources  
**Lawin Forest and Biodiversity Protection System**

Patrol distance covered by each forest ranger

Forest Ranger	Patrol Distance Accomplished
Alonso Tabangay	41.80
Markwilliams Sotoza	41.80
Ronnie Jann Ian Mabitasan	41.80
Marco Angelo Marquez	30.35
Alvin Maduro	29.87
Ryan Giganto	29.87
Armando Gabayan	26.72
Christopher Padrones	26.72
Joven Aquino	26.72
Lemuel Bacalla	26.72
Bobby Garcia	26.62
James Tajon	24.23
Donne Sabroso	23.74
Mark Anthony Ortega	22.46
Rogelio Yaquitin	19.74
Charlie Rabang	18.64
Enrique Jardin	18.64
Roy Mercader	18.64
Merma Saddin	17.85
Rommel Allan Llaniguez	12.63

## Summary Threat Report

### Region 04B - Roxas-Pal

Number of days analyzed: 30

2 Nov 2022 11:54 AM

This report presents information for the implementing units of DENR to effectively plan and carry out actions for addressing observed threats to the forest.

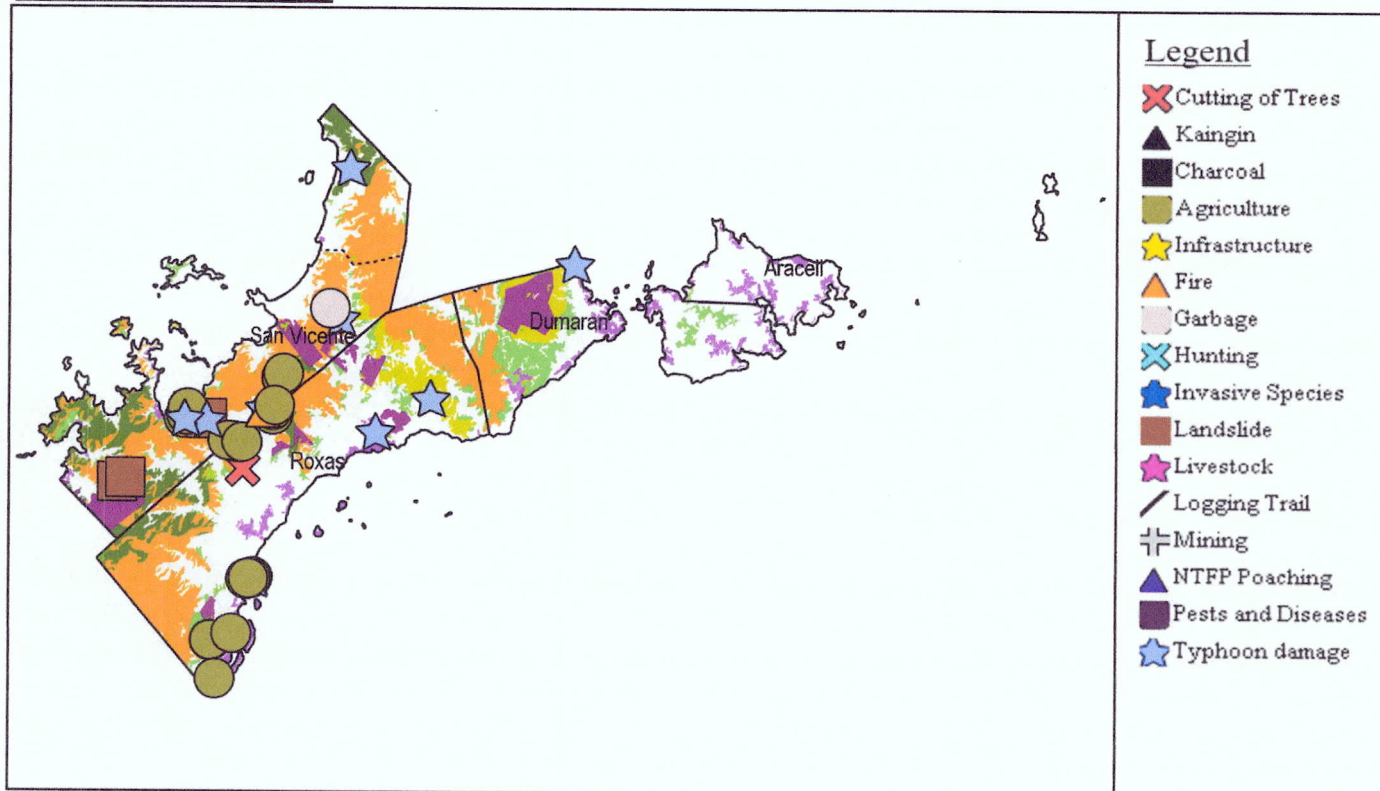

### Threats observed and level of response required

Threat	No. of Observations	Emergency - Immediate action required!	Level 1 - Action required within a week	Level 2 - Action required within a month
Annual and Perennial Farming	35	0	0	0
Typhoon-related Threats	13	0	0	0
Fire	7	0	0	0
Landslide and Mudslide	3	0	0	0
Cutting of Trees	1	0	0	0
Garbage	1	0	0	0

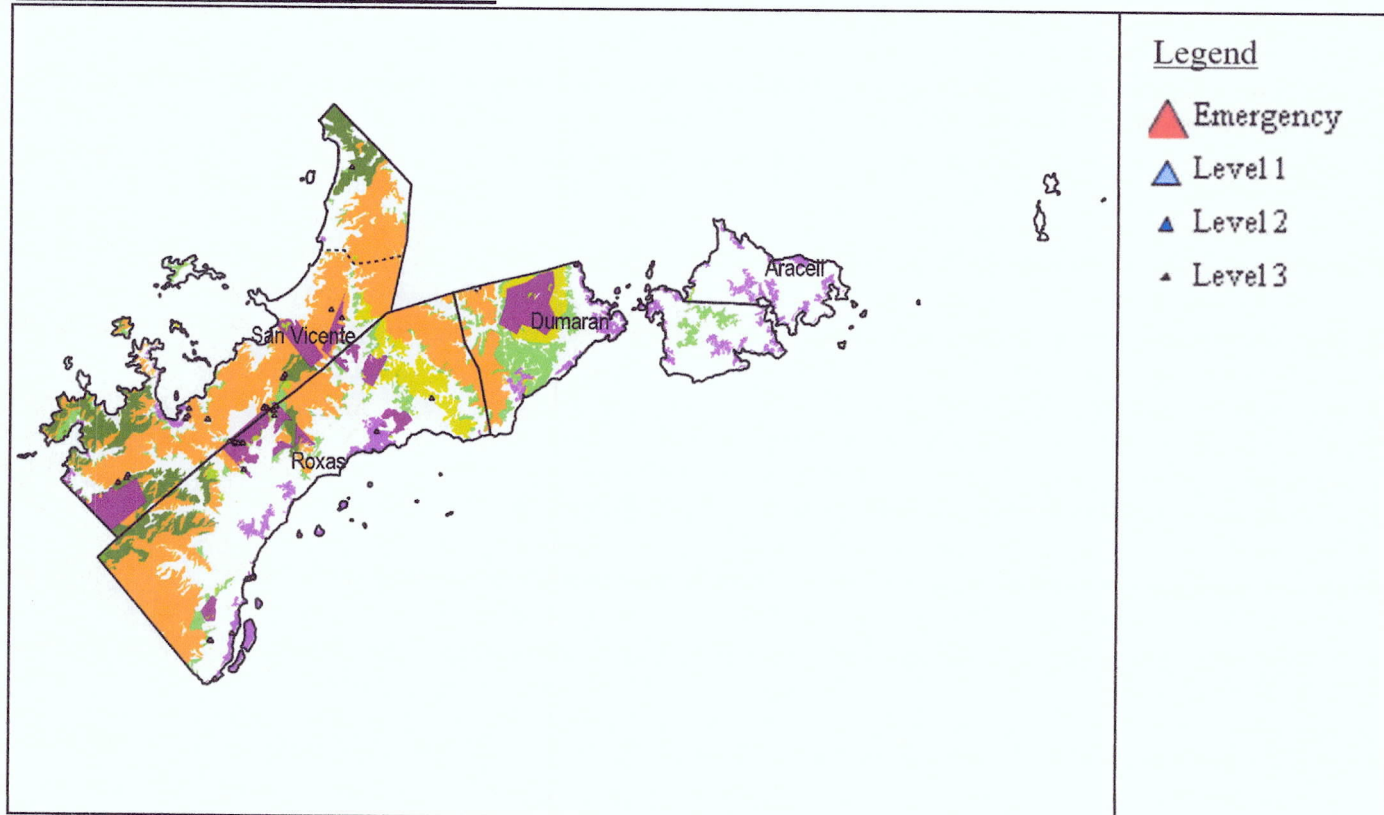

Location of observed threats

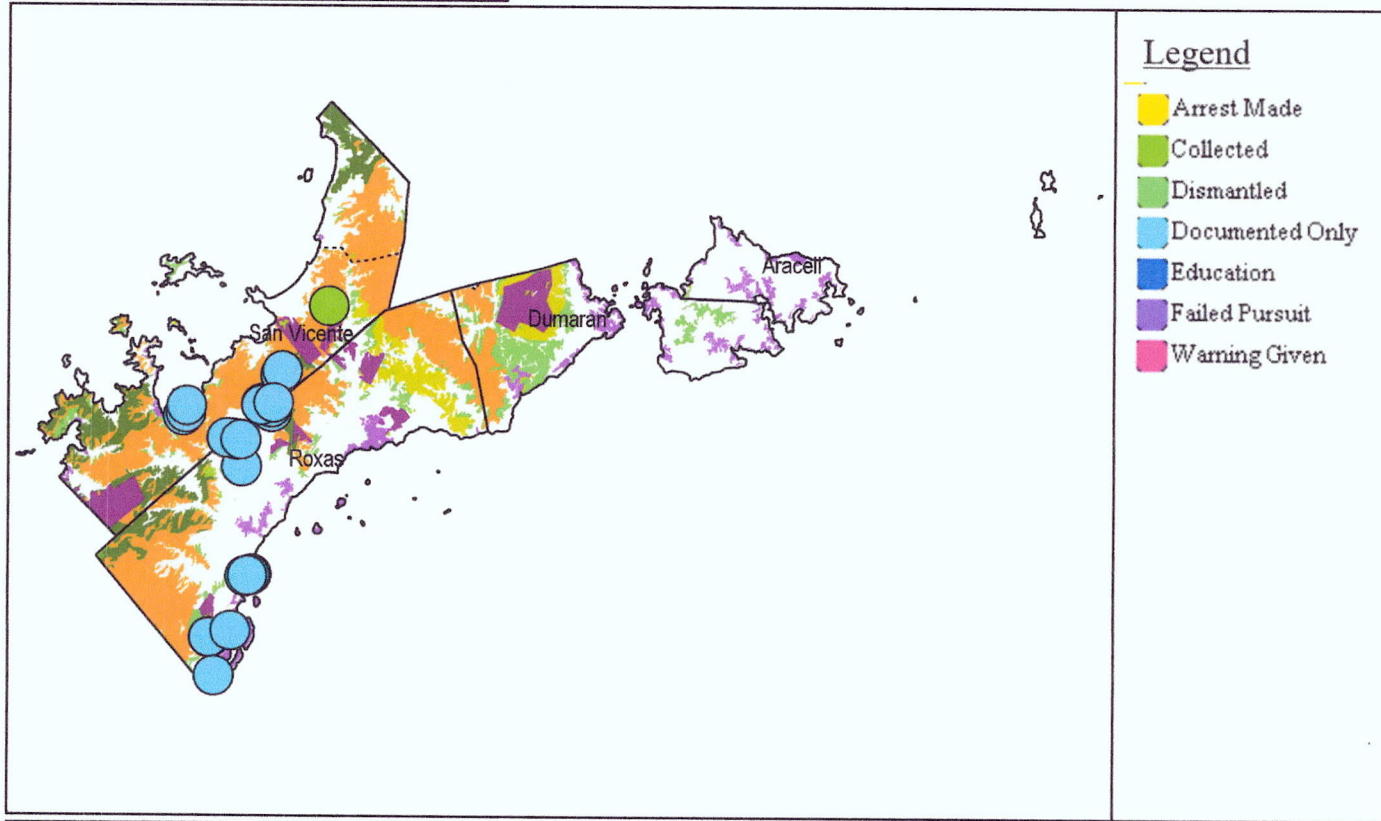

Locations and urgency of responses needed

**Locations of actions taken to address threats**

**Actions taken to address observed threats during patrols**

## Forest Protection Effectiveness Report

### Region 04B - Roxas-Pal

Number of days analyzed: 30

2 Nov 2022 11:56 AM

This reports presents trends in observations of forest condition, regeneration, threats and indicator species. The combined presentation allows for an evaluation if protection efforts are effective, conservation targets are met and the forest achieves the desired future forest condition. Protection efforts are effective, when records of forest condition, regeneration and indicator species show an upward trend towards more observations more and denser regeneration, particularly in degraded forest areas. Increasing trends in indicator species suggest that the improved forest condition is providing a better habitat for forest dependent species. All trends presented are put in relation to the patrol effort to provide comparability. Forest cover data were derived from 2003 and 2010 NAMRIA land cover maps.

### Trends of Observations per Patrol Kilometer in the Forest Conservation Area

#### Trend in Threats

A decreasing trend in threats in the forest conservation area mean effective forest protection; an increasing trend means the opposite.

#### Trend in Indicator Species

An increasing trend in indicator species in the forest conservation area means effective forest protection; a decreasing trend means the opposite.

Trends in Regeneration Density

An increasing trend in regeneration means effective forest protection; a decreasing trend means the opposite.

Trends of most common Threats
