MEMORANDUM

FOR : The Regional Executive Director
DENR MIMAROPA
1515 DENR By the Bay Bldg., Roxas Boulevard,
Barangay 668, Ermita Manila

THRU : The OIC, Assistant Regional Director for Technical Services

FROM : The Provincial Environment and
Natural Resources Officer

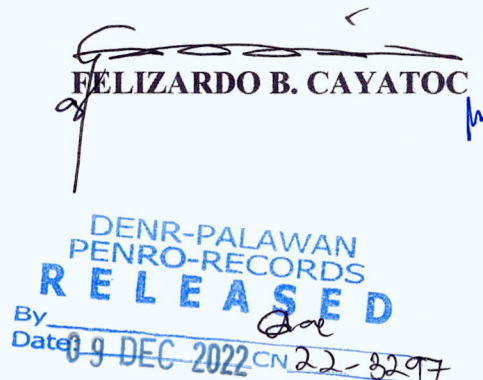

SUBJECT : **APPROVED MINUTES OF PROTECTED AREA
MANAGEMENT BOARD (PAMB) ENBANC MEETING OF
MALAMPAYA SOUND PROTECTED LANDSCAPE AND
SEASCAPE (MSPLS), TAYTAY-SAN VICENTE, PALAWAN ON
SEPTEMBER 9, 2022**

Forwarded is the memorandum dated November 21, 2022 from CENRO Taytay along with the Approved Minutes of Protected Area Management Board (PAMB) Enbanc Meeting of Malampaya Sound Protected Landscape and Seascape (MSPLS).

The meeting was conducted on September 9, 2022 at Tay Lelong's Pension House, Barangay Poblacion, Taytay, Palawan. The said minutes of the meeting was approved during the succeeding meeting on November 3, 2022 at the same venue. Attached also are the Resolutions Nos. 02 – 07 series of 2022.

This serves as Means of Verification (MoV) for the target activity on the Protected Area Management and Development.

For information and record.

SUBJECT : **APPROVED MINUTES OF PROTECTED AREA MANAGEMENT BOARD (PAMB) ENBANC MEETING OF MALAMPAYA SOUND PROTECTED LANDSCAPE AND SEASCAPE (MSPLS), TAYTAY-SAN VICENTE, PALAWAN ON SEPTEMBER 9, 2022**

Respectfully forwarded is the memorandum dated November 18, 2022 of Protected Area Superintendent (PASu) Clarissa P. Pador being an accomplishment and **Means of Verification (MoV)** on the target activity on the Protected Area Management Board (PAMB) meeting under 001 Protected Area Management and Development of Malampaya Sound Protected Landscape and Seascape (MSPLS), Taytay-San Vicente, Palawan.

The minutes cited pertains to the meeting last September 9, 2022 at the Conference Hall of Tay Lelong's Pension House in Poblacion, Taytay, Palawan. It was presided by Political Affairs Officer Mr. Zanie P. Seracarpio of the Office of the Honorable Congressman who approved it on November 3, 2022 at the same venue during the next succeeding PAMB meeting.

Please confirm the receipt hereof. Thank you.

MEMORANDUM

FOR : The Community Environment and Natural Resources Officer
Taytay, Palawan

FROM : In Charge, CDS/Protected Area Superintendent
Malampaya Sound Protected Landscape and Seascape (MSPLS)
Taytay – San Vicente, Palawan

SUBJECT : **APPROVED MINUTES OF PROTECTED AREA MANAGEMENT BOARD (PAMB) ENBANC MEETING FOR MALAMPAYA SOUND PROTECTED LANDSCAPE AND SEASCAPE (MSPLS) TAYTAY – SAN VICENTE, PALAWAN ON SEPTEMBER 9, 2022**

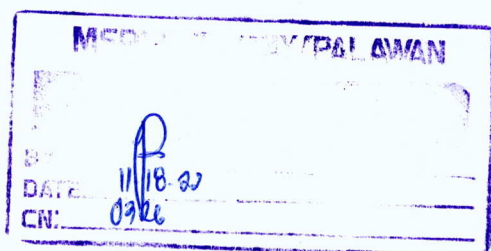

Respectfully submitted is the abovementioned subject relative to the target activity of Protected Area Management Board (PAMB) meetings under 001 Protected Area Management and Development Sub-Program of Malampaya Sound Protected Landscape and Seascape (MSPLS) Taytay – San Vicente, Palawan.

Please be informed that the PAMB Enbanc meeting was held at Tay Lelong's Pension House, Barangay Poblacion, Taytay, Palawan on September 9, 2022 and was approved on November 3, 2022 at the same venue. Attached are the following;

1. Approved minutes
2. Photo documentation
3. Received copy of Notice of Meeting
4. Resolution No. 2 to Resolution No. 7, Series of 2022, enumerated below;
 - ✓ Resolution No. 2, "Resolution endorsing the prescribed measurement of nets used in Talakop fishing activities within the outer sound and proposed MPAs of MSPLS."
 - ✓ Resolution No. 3, "Resolution endorsing the re-opening of Kuyawyaw Falls at Barangay Cataban, Taytay, Palawan."
 - ✓ Resolution No. 4, "Resolution requesting for an assistance from Mines and Geo-Science Bureau (MGB), Environment Management Bureau (EMB), Local Government Unit (LGU) and other concern OGAs in the conduct of assessment and validation on Sand and Gravel within MSPLS."
 - ✓ Resolution No. 5, "Resolution imposing fees for commercial filming and photography in MSPLS."
 - ✓ Resolution No. 6, Resolution enjoining potential partners who are intending to submit project proposals/development for communities and areas within MSPLS to secure PAMB endorsement prior to submission of the proposal to prospective local and international funders"
 - ✓ Resolution No. 7, Resolution adopting the procedures for evaluating and endorsing research proposals in MSPLS"

For information and record.

98 **I. Ang Pormal na Pagsisimula ng Pagpupulong**

99

100 Ang PAMB-Enbanc na pagpupulong ay pormal na nagsimula sa ganap na ika-10:25 ng umaga

101 sa pangunguna ni Mr. Zanie P. Seracarpio na sinundan ng panalangin ni G. Primitivo J. Villarma, Jr. at

102 Pambansang Awit ng Pilipinas. Ang miyembro na dumalo ay may kabuuang bilang na dalawampu't pito

103 (27) at ang hindi dumalo ay labing apat (14) samantalang ang iba pang mga dumalo ay may bilang na

104 labing lima (15).

105

106 **II. Ang pagbasa ng paksa ng pagpupulong**

107

108 Binasa ng tagapanguna ang paksa ng pagpupulong.

109

- 110 **I. Call to order**
- 111 **II. Determination of quorum**
- 112 **III. Presentation of provisional agenda for approval**
 - 113 1. Reading and approval of the minutes of the previous meeting
- 114
- 115 **IV. New Business**
 - 116
 - 117 1. Resolution No. 2, "Resolution endorsing the prescribed measures of nets used in Talakop
 - 118 fishing activities within the Outer sound and proposed MPAs of MSPLS."
 - 119 2. Resolution No. 3, "Resolution endorsing the re-opening of Kuyawyaw Falls at Barangay
 - 120 Cataban, Taytay, Palawan."

3. Resolution No. 4, "Resolution imposing conservation fees for camping, trekking, mountaineering, Irrawaddy Dolphin watching, snorkelling and other educational tourism activities in MSPLS."
4. Resolution No. 5, "Resolution requesting for an assistance from Mines and Geo-Science Bureau (MGB), Environment Management Bureau (EMB), Local Government Unit (LGU) and other concern OGAs to conduct assessment and validation of Sand and Gravel within MSPLS Taytay – San Vicente."
5. Resolution No. 6, "Resolution imposing fees for commercial filming and photography in MSPLS."
6. Resolution No. 7, Resolution enjoining partners who are intending to submit projects proposals/development for communities and areas within MSPLS to secure PAMB endorsement prior to submission of the proposals to prospective local and international funders"
7. Resolution No. 8, Resolution adopting the procedures for evaluating and endorsing research proposals in MSPLS".

V. Other official matters

1. Letter of Mr. Nestor Dosal regarding his project proposal located at Barangay New Guinlo, Taytay, Palawan.
2. Presentation on Orientation on I-FIT Tool
(Philippine IUU Fishing Index and Threat Assessment Tool)
3. Presentation of MSPLS accomplishment for CY 2022
 - 2nd semester BMS presentation for CY 2022
 - Enforcement accomplishment in MSPLS
 - IPAF collection as of September 9, 2022

VI. Adjournment

III. Ang pagtalakay sa katitikan ng nakaraang pagpupulong

Inilahad ni PASu Clarissa P. Pador sa kapulungan ang provisional agenda. Matapos ang pagbasa ay itinanong ng tagapanguna kung may nais idagdag sa pag-uusapan. Sa kadahilanang wala nang iba pang idadagdag sa pag-uusapan ay iminungkahi ni PB Zaldy B. Escasinas na pagtibayin ito na senigundahan naman ni Kagawad Virgilio F. Diaz ng Barangay Pancol.

Binasa ng tagapanguna ang katitikan nang pagpupulong na isinagawa noong ika - 28 ng Abril taong 2022.

Tinanong ng tagapanguna na kung nag-issue na ng tempory endorsement para sa Binga Beach Brothers, Inc.?

Sagot ni PASu Pador hindi po nagbigay ng temporary endorsement ang board.

Paglililaw ni Josephine G. Dela Cruz PO representative ano pa ang kulang ng nasabing proyekto na ito ay nasa Alienable & Disposable (A&D) area, may titulo ang paglalagyan ng proyekto, iminungkahi niya sa board na iendorso ang proyekto base sa pinag-usapan noon nakaraan pamb enbanc meeting. Ang Certificate of Non-overlap ay noon nakalipas pang isinumite sa NCIP na hanggang sa ngayon ay hindi pa dumadating ang clearance, hindi na natin kailangan patagalin sa board dahil ang proponent ay may nauna ng ginawang pag-uusap sa mga local na mamamayan ng Binga ay maaari na silang bigyan ng PAMB resolution.

Tanong naman ni PB Abraham Calaor na kung ano ang status ng proyekto, on-going ba ang construction o stop?

Sagot ni PASu Pador may tatlong (3) rest house-glamping type, hindi pa totally develop ang lugar dahil hinihintay pa nila ang approved PAMB Resolution bago sila mag full construction ng area at kompleto na ang kanilang papel.

179 Dagdag ni PB Nerie Varquez nanghihingi ng update ang Binga Beach Brothers, Inc. regarding
180 sa application nila, kasi nahihirapan silang magcomply ng papel sa TIEZA dahil wala pa silang ECC na
181 siyang requirement.

182
183 Lahad ng tagapanguna na malinaw naman sa lahat ng PAMB members ay pumayag na e-endorse
184 ang project ng Binga Beach Brothers kahit ang kanilang Certificate of Non-Overlap ay hindi pa
185 dumarating mula sa NCIP na kanila itong isinumite noong pang September 2021.

186
187 Dagdag pa niya, kung wala ng iba pang concern, any motion to approved the previous minutes
188 ng April 28, 2022.

189
190 Sa kadahilanang wala nang iba pang katanungan at mungkahi sa proyekto ng Binga Beach
191 Brothers ay iminungkahi ni PB Zaldy B. Escasinas ng New Guinlo na eendorso at pagtibayin na
192 senigundahan naman ni Punong Barangay Abraham Calaor ng Talog.

193
194 Tanong ni PB Tumampil ay ang patungkol sa PAMB endorsement of fishery structures within
195 MSPLS na hindi nagbibigay ng endorsement ang board?

196
197 Nilinaw ni PASu Pador sa kasalukuyan ang PAMB ay hindi maglalabas ng Resolution para sa
198 mga fishery structure dahil mayroon Memorandum galing sa Regional Executive Director na temporary
199 moratorium sa pagbibigay ng PAMB Resolutuon; bukod doon ay hindi pa final ang ginagawang
200 Protected Area Suitability Assessment (PASA) ng Malampaya Sound, gayundin ang pag-aaral na
201 ginagawa ng Western Philippines University (WPU).

202
203 Dagdag pa nya sa Malampaya Sound PLS ay nagkaroon ng pagsosona para sa marine area,
204 dalawa (2) lang ang sona sa protected area, ang Strict Protection Zone (SPZ) at Multiple Use Zone
205 (MUZ). Ang SPZ ang sona kung saan hindi maaari ang mga gawain panghanapbuhay, kung sa karagatan
206 ito ay ang mga lugar kung saan matatagpuan ang mga bahura/corals.

207
208 Ang MUZ naman ay ang lugar kung saan doon ang mga hanapbuhay ito ang sona para sa mga
209 fishery structures kagaya ng baklad, green mussel culture at fish cage. Nagkaroon ng konsultasyon at
210 pagsangguni sa lahat ng barangay kung saan ilalagay at mga fishery structures. Matapos na maituro sa
211 mapa ang mga lugar ay nagkaroon ng ground truthing o aktuwal na pagbisita sa karagatan kasama ang
212 kinatawan ng BFARMC at mga barangay officials para malaman kung tama ang lugar na itinuro.

213
214 Ang Barangay Cataban po ay hindi kasama sa sonang ginawa sa ating karagatan dahil ang marine
215 area ng nasabing barangay ay sakop ng Protected Area ng El Nido-Taytay Managed Resource Area, El
216 Nido, Palawan.

217
218 Dagdag ni PB Tumampil na para sa renewal ng application ng mga fisheries structure ay hindi
219 maaaring sama-sama may mga sona kung saan ang mga proyekto.

220
221 Paglilinaw ni PASu Pador tama po may kanya-kanya sona ang bawat fishery structure at mayroon
222 area nakalaan na hindi maaaring baguhin dahil ang bawat fishery structures ay may coordinates at walang
223 magpatung-patong na structure. Sa ngayon lahat ng renewal ay walang enindorso ang PAMB dahil
224 mayroong memorandum galing Regional Executive Director na temporary moratorium hangang hindi
225 natatapos ang PASA ng Malampaya Sound at ang resulta ng pag-aaral ng WPU.

226
227 Dagdag ng Tagapanguna pending ang approval ng mga renewal ng mga existing structure at
228 inaantay ng board ang resulta ng pag-aaral na ginagawa ng WPU kung saan maaaring sundin ng
229 tanggapan ng PAMO ang nasabing pag-aaral, ang pag-aaral ba na ito ay isinasagawa ng WPU ay para
230 malaman ang carrying capacity o para hindi magsampaw-sampaw ang mga fishery structures?

231
232 Sagot ni PASu Pador, ayon sa kanilang project proposal ay titingnan kung sapat pa ba ang area
233 para sa mga existing fishery structure, malaman sa kasalukuyan kung ilan ang bilang na nakalagay sa
234 inner at outer Malampaya Sound, at ilan pa ang maari ilagay na fishery structure.

235
236 Mungkahi ng Tagapanguna sa secretariat na magbigay ng kopya ng research na ginagawa ng
237 WPU sa lahat ng PAMB members kapag natapos na ang pag-aaral at magbigay ng kopya sa PAMO-
238 MSPLS.

Sagot ni PASu Pador na kapag nagsubmit na ang WPU ng resulta ng pag-aaral sa loob ng Malampaya Sound ay susulatan na ilahad ang naging resulta sa PAMB Enbanc meeting.

Tanong ng Tagapanguna kung nagawan na ng paraan ang mga proyekto ng Barangay Local Government Unit na nasa loob ng timberland dahil nahihirapan ang mga barangay magcomply sa mga requirements lalung-lao na sa ECC?

Sagot ni PASu Pador sa ngayon po ay walang natatanggap na Resolution o Inquiry hingil sa proyekto ng BLGUs na nasa timberland na sa loob ng protected area. Kanya rin nabanggit na mayroong pronouncement ang Regional Office na ecategorized ang mga proyekto kung ito ba ay dapat mag-apply ng SAPA or mag-aplay ng Government Special Use Permit (GSUP). Sa ngayon ay nagkokonsepto pa at wala pa DAO para sa nasabing usapin. Lahat ng BLGUs project nasa loob ng timberland ay isinumite at naghihintay ng comments galing sa ating Regional Executive Direktor at PAMB Chairperson.

Dagdag ng tagapanguna na karamihan ng mga barangay ay nasa loob ng Malampaya Sound, at dahil wala ng concern tuloy na tayo sa approval ng previous minutes.

Matapos ang pagtatama sa katitikan ng nakaraang pagpupulong inirekomenda ni PB Zaldy B. Escasinas ang pag-endorso nito na sinegudahan naman ni Kagawad Virgilio F. Diaz ng Barangay Pancol.

IV. New Business

1. Resolution No. 02, Series of 2022 "Resolution endorsing the prescribed measurement of nets used in Talakop fishing activities within the outer sound and proposed MPAs of MSPLS."

Iprenisenta ni PASu Pador ang nilalaman ng nasabing resolusyon, ayon sa kanya ito ay base sa reklamo at sumbong ng tao lalung-lalo na ang mga hanapbuhay ay pangingsda dahil ng ibang mangingsda ay gumagamit ng mga ibang pamamaraan sa paghuli at nadadamay ang maliit na isda at iba pang lamang-dagat. Kaya minarapat na gumawa ng Resolution para sa tuloy-tuloy na pakinabang sa loob ng Malampaya Sound lalung-lalo na ang paggamit ng talakop. Ito ay ang angkop na sukat ng mata ng lambat, gaano kalapad at lalim kung nakaladlad sa dagat.

Tanong ni PB Escasinas bakit talakop lang, paano ang baring? Dapat kung gagawa tayo ng resolusyon kasama na lahat para walang ligtas. Kasi ang baring mas pino, salang-sala lahat ng lamang-dagat samantala ang talakop ang mata ay katulad ng sa fish cage.

Pahayag ni PASu Pador nagpasalamat at ipinahayag na sa susunod na PAMB meeting ay pag-uusapan, at hiningi rin ang mga mugkahi para malaman bukod sa talakop ano pa pang ibang pamamaraan ng pangingsda ang dapat gawan ng Resolution bukod sa talakop dahil kayo ang nakakaalam. Mayroon mga mata ng lambat sa outer sound lang ginagamit na wala sa inner sound. Ayon sa napagkasunduan noon consultation ang papahintulutan lamang na gagamitin mata ng lambat ay numero 8, 7, 6, 5 at 4 lamang para sa talakop at baring. Ang mga nabanggit na mata ay sa outer Malampaya Sound lang gagamitin at hindi maaari mga MPAs sa Isla Mayaman, Turaw Bay, Taitai Bay, Calabugtong, at Malapena; Rakit-rakit reef sa Binaluan, Barge Laot and Tabi in Barangay Tumbod.

Tanong ni PB Escasinas na kung ilang meters ang isang fathom?

Sagot ni PASu na 1.8 meters.

Tanong ng Tagapanguna na kung ano ang sukat ng lambat.

Paliwanag ni PB Escasinas na by meters ang sukat ng fathom o lalim ng dagat.

Tanong ng Tagapanguna na 1.8 meters ang isang (1) fathom, ilan ang haba?

Dagdag ni PASu Pador ang one (1) yard po ay equivalent to 1.94 meters iyan ang ilalagay.

Tanong ng Tagapanguna kung siya ay bibili ng net sa tindahan ano ang available? Ano ang dapat bilhin?

Pahayag ni PB Escasinas na per meter at ang taas ay binabase nila sa mata ng lambat at kung bibili tanungin muna ang mangingisda kung ano ang gusto, dahil maaari magpapasadya at ipapadugtong ang nais na sukat, mayroon nabibili na bulto pero kung sobra ang sukat putulin at idugtong sa haba, depende sa lalim ng dagat na pag-aryahan.

Tanong ng Tagapanguna kung ang mga binanggit na mga areas ay iyon ba ang mga lugar na exempted o bawal pangisdaan sa loob ng inner Malampaya Sound?

Ayon kay PASu Pador tama po at ay mayroon din mga lugar na bawal pangisdaan sa outer Malampaya Sound.

Iminungkahi ng Tagapanguna na iyong mga barangay na nakasakop sa mga bawal na lugar na pangisdaan ay magbigay ng opinyon.

Ipinagbigay alam ni PASu Pador na ang Barangays Tumbod, San Jose, Banbanan, Pancol at Liminangcong ang mga lugar na bawal pangisdaan dahil doon naitalaga ang Strict Protection Zone dahil doon makikita ang malulusog na mga corals na pangitluga ng mga isda at ibang uri ng lamang-dagat.

Dagdag ni Forest Ranger Ricardo S. Tandoc na base sa pag-iikot sa Malampaya Sound ay mayroon ng mga Marine Protected Areas at ang iba naman ay proposed. Isasama na ito sa mga lugar bawal pangisdaan upang hindi na puntahan ng talakop at kapag sila ay nahuling nangisda ay maaari silang hulihin. Ang ibang mga area ng MPA sa MSPLS ay approve na, tulad ng Barge Laot at Barge Tabi sa Tumbod samantalang ang iba ay proposed pa lamang at ito ay tuloy-tuloy na pinuprotekahan ng kasama ang Malampaya Foundation, Inc. na tumutulong para maging MPA ang mga nasabing lugar.

Ayon kay PB Escasinas ay napansin niya na ang mata ng lambat ay may sukat na otso (8) hanggang apat (4) kaya nabanggit niya na napakalaki naman ng sukat na otso (8) samantalang ang talakop na ginagamit nila dati ay may sukat na dose (12).

Ipinahawag ni FR Tandoc na ang sukat na dose (12) ay hindi na ginagamit dahil base sa public hearing at consultation na ginawa sa lahat ng barangay na sakop ng MSPLS ang napagkasunduan ay otso (8) lamang, ang sukat na dose (12) ay destructive na. Wala na ring sukat na siyam (9) upang lumusot ang mga maliliit na isda kaya ang sukat na mata ng lambat ay otso (8) hanggang apat (4) lang. Ang sukat na apat (4) ay ginagamit din sa pang-alimasag. Dagdag pa niya na ang baring-baring na maliliit ay sa mababaw lamang at may tatlong (3) dipa ang sukat at simula ng ibawal ang lift nets (bukatot padaraw/pailaw) ang mga dilis ay lumalapit na sa tabi. Kaya sa Barangays New Guinlo at Old Guinlo ay mayroong baring-baring na maliliit at ito ay mano- manong ginagawa. Hindi sila maaring mag-arya o mangisda sa apat (4) na dipa dahil sa mababaw lang sila. Siguro sa susunod na PAMB yun ang kailangan maisaayos.

Ayon kay PB Nerie Varquez ang kanyang suhestyon ay tanggalin ang baring at hindi na isama sa resolusyon ng talakop dahil kung titingnan ang sukat ng mata ng lambat ay 8, 7, 6, 5 at 4 at ayon kay FR Tandoc na yung mga baring-baring ay ginagamit lang sa tabi. Kaya naming ang kanyang suhestyon ay tanggalin at gawing talakop na lang ang resolusyon.

Iminungkahi ni PO representative dela Cruz na gawaan din ng resolusyon patungkol sa maliliit na baring-baring sa susunod na pagpupulong.

Sagot ni PASu Pador na isasama ito sa susunod na agenda.

Sa kadahilanang wala ng iba pa katanungan sa nasabing usapin inirekomenda ni PB Tumampil ang pag-apruba nito na sinegundahan ni POs representative dela Cruz.

2. Resolution No. 3, "Resolution endorsing the re-opening of Kuyawyaw Falls at Barangay Cataban, Taytay, Palawan."

Ipinahayag ni PASu Pador na ang Kuyawyaw Falls ay isa sa source of income ng Malampaya Sound PLS - IPAF at ito ay temporarily closed simula noong panahon ng pandemic COVID-19, sa ngayon ay bumabalik na ang mga turista local at banyaga. Dahil dito hinihiling na mabuksang muli dahil isa rin ito sa source ng livelihood ng taga Barangay Cataban maging ng mga na organisang local tour

guide. Ayon pa kay PASu Pador ay napag-alamang kahit temporarily closed ay mayroong mga turistang pumapasok na walang abiso o permiso.

Ayon kay POs representative dela Cruz ay hindi pa matukoy kung ang Kuyawyaw ay wala ng mga tumbang kahoy gawa ng bagyong Odette sapagkat may lumapit sa kanya na nanghihiram ng chainsaw ng kanilang organisasyon, at sinabi na Kuyawyaw Falls gagamitin dahil maramin mga tumbang kahoy na kailangang putulin. Ang kang mungkahi, na makipag-ugnayan muna sa PAMO-MSPLS at DENR para malaman kung legal ba ang gagawin pagpuputol.

Pahayag ni PASu Pador ay magkakaroon ng ocular inspection sa Kuyawyaw falls bago muling buksan ang nasabing lugar dahil noon bagyong Odette ay madaming kahoy ang natumba at kailangan linisin ang lugar at halos dalawang (2) taon nakasara.

Tanong ng Tagapanguna kung mayroon bang pinapatupad na bayad sa lugar, at magkano?

Pagbibigay-alam ni PASu Pador na mayroong entrance fee na binabayaran na halagang P100.00 at may kaukulang Official Receipt sa lahat ng mga turista pumapasok, lokal at banyaga.

Tanong ng Tagapanguna kung mayroong share ang barangay sa kita.

Sagot ni PASu Pador na ang barangay ay mayroong sarili ginagawang paniningil na P100.00 kapag Filipino at foreign ay P130.00 with official receipt issued.

Iminungkahi ng Tagapanguna kung maaring madagdagan ang title, dahil ang resolusyon ay para lang sa re-opening ng Kuyawyaw o baka pwedeng gumawa ng isa pang resolusyon na nakalagay ang mga fees and requirements bago pumasok sa falls.

Pahayag ni PASu Pador noon hindi pa pandemic ay nakapaskil sa collecting center sa Kuyawyaw kung magkano ang babayaran at mga Do's and Dont's sa loob ng Falls.

Tanong ng Tagapanguna kung ang Kuyawyaw falls ay under the management ng PAMO.

Sagot ni PASu Pador opo dahil ang Kuyawyaw falls ay within Malampaya Sound PLS at ang pangangalaga at pag-iingat ay nasa Protected Area Management Office katuwang ang Barangay Council ng Cataban.

Sa kadahilanang wala ng iba pa katanungan sa nasabing usapin inirekomenda ni PB Tumampil ang pag-apruba ng Resolution na sinegundahan ni PB Natividad M. Gabriel ng Tumbod.

3. Resolution No. 4, "Resolution imposing conservation fees for camping, trekking, mountaineering, Irrawaddy Dolphin watching, snorkeling and other educational tourism activities in MSPLS."

Inilahad ni PASu Pador ang nilalaman ng nasabing resolusyon. Ayon sa kanya ay naging kapansin-pansin na maraming mga turistang local at international na pumapasok lalung-lalo na sa Malampaya Sound para sa Irrawaddy dolphin watching na walang permit mula sa PAMO. Kagaya ng mga mountaineering, trekking at camping sa Mount Capoas na walang mga permit. Dagdag pa ni PASu Pador na bago makapasok ang mga turista sa Malampaya Sound ay mayroon approved Access visitor's permit na kukunin sa PAMO, mayroon number of days ng pagpasyal sa area. Kanyang inihalimbawa ang ang trekking at mountaineering, ang suggested ay five (5) araw lang at beyond five (5) days ay kailangan nilang kumuha ng Special Permit na may approval ng PAMB or PAMO, inilahad din nya ererekomendang fees, kapag lokal guest po ay P100.00, kapag foreign guest po ay P200.00 at kapag student/minors and senior ay 50% off.

Ayon naman sa Tagapanguna ay mayroong existing passport system ang Municipal Tourism ng Taytay kung saan naninigil din sila ng visitor's fees sa mga tourism destination, dagdag pa ng tagapanguna na bago e approve ng board ang nasabing resolusyon ay magkaroon ng pag-uusap sa Municipal Tourism Officer.

Saad naman ni PASu Pador na makikipag-ugnayan sa Municipal Tourism Officer tungkol sa collection ng fees para sa mountaineering, trekking and camping within Malampaya Sound.

Mungkahi rin ni PB Tumampil na mas maganda na makipag-ugnayan muna sa Municipal Tourism para sa ikaayos ng resolusyon at sa kadahilanang mayroon pang gagawin pakikipag-usap sa Municipal Tourism ng Taytay ay ipagpaliban muna ang pag-endorso nito at isasama na ito sa susunod na PAMB Enbanc meeting.

Sinusugan naman ni PO representative dela Cruz ang mungkahi ni PB Tumampil na ipagpaliban muna ang nasabing resolution.

Inirekomenda ng Tagapaguna na pending muna ang nasabing Resolution at makipag-ugnayan muna sa mga Municipal Tourism Officer.

4. Resolution No. 5, "Resolution requesting for an assistance from Mines and Geo-Science Bureau (MGB), Environment Management Bureau (EMB), Local Government Unit (LGU) and other concern OGAs to conduct assessment and validation of Sand and Gravel within MSPLS vicinity."

Ipinahayag ni PASu Pador ay matagal ng issue ang extraction ng grave and sand sa ilog ng Cataban at lahat ng approved na CSAG ay sa Barangay Cataban. Dagdag pa niya na sa last na pag uusap with Regional Executive Director (RED) Lormelyn E. Claudio and Mayor Christian V. Rodriguez, ang plano ay magkaroon ng assessment/validation sa Cataban River para malaman kung ang area ba ay angkop pa na kuhaan ng sand and gravel kasi aside sa mga approved CSAG ay may ibang mga contractor na doon din kumukuha maging ang iba pang mga lokal na kumunidad na malapit sa Cataban river ay doon din kumukuha para sa personal use na gamit gaya ng paggawa ng bahay na walang kakayahan bumili.

Tanong ng Tagapanguna kung mayroon bang bilang ng mga permittee ng CSAG?

Sagot ni PASu Pador na sa kasalukuyan mayroon pong apat (4) na permittee pero ang isang (1) CSAG renewal ay denied last CY 2021, tatlo (3) na lang ang naiwan at expired na rin lahat. Dagdag pa niya sa loob ng Protected Area ayon RA 11038 ng Section 20 ang commercial sand and gravel/quarrying ay isa sa prohibited acts.

Tanong ng Tagapanguna kung mayroong existing na tatlo (3) CSAG, ilan naman ang mga nag-apply?

Sagot ni PASu Pador ay walang mga new applicant for CSAG. Dagdag pa niya na kasama ang taga Mines and Geo-science Bureau (MGB) para magbigay ng kanyang suhestyon sa gagawin assessment sa Cataban river.

Ipinagbigay-alam ni G. Francis Jade Cometa na sa ngayon ay walang active na permittee sa Cataban river lahat ay expired at subject for renewal. Mayroong nag-apply pero ito ay sa Talogon River at tributary ng Cataban river ngunit pasok na sa Barangay Bagong Bayan, El Nido, Palawan.

Iminungkahi ni PB Tumampil na mas magandang ma-inspection muna at ma-validate para malaman kung pwede ba o hindi na dapat kunan ng sand and gravel ang Cataban river.

Tanong ng Tagapanguna kay G. Cometa kung papaano ang proseso sa pag apply ng quarrying?

Sagot ni G. Cometa na sa application ng CSAG isa sa requirements na hinihingi ay area status clearance at kinukuha sa opisina (MGB), ang application form mula sa PMRB ang requirements ay Barangay Clearance, Municipal Clearance at Province Clearance last ang area clearance mula sa Region. After makuha lahat mga clearances ay kailangan niyang e pasurvey ang river para makuhaan ng coordinates ang mga kanto kung hanggang saan pwedeng kumuha ng gravel. Pagkatapos ay ibibigay sa MGB ang mapa kasama ang mga coordinates kasama din ang narrative report na nanggaling sa Geodetic Engineer papunta sa opisina (MGB) for status clearance. Dagdag pa niya doon makikita sa area status clearance kung ang area ay open or close for mining, ito ay nakasaad sa RA 7942 or Philippine Mining Act of the Philippines. At ayon sa RA 7942 na kapag ang area na ay close mining ito ay ang mga declared Protected Area, isa sa mga provision ng RA 7942 for mining within declared PA ay naka base lang din sa ENIPAS Act of 2018, at kung ano ang nakalagay na bawal sa ENIPAS Act ay bawal rin po sa RA 7942.

481 Ayon naman sa Tagapanguna halimbawa kung mayroon mag-apply para sa quarrying permit
482 nakapaloob na doon ang assessment at validation galing sa opisina ng MGB?
483

484 Saad naman ni G. Cometa ay validation lang ang gagawin ng opisina ng MGB samantalang ang
485 assessment ay Private Mining Engineer at iyon ang tinatawag na geological assessment report na
486 isusumite sa opisina ng MGB at ang opisina ng MGB ang mag-validate ayon sa nakasaad sa report.
487

488 Tanong ng Tagapaguna sa iminungkahing resolusyon, kung ano ang magiging pakay nito? Ang
489 layunin ba nito ay para makapagbigay lamang ng ulat sa ginawang pagtatasa at pagsusuri?

490 Sagot ni PASu Pador para malaman ang kasalukuyang kalagayan ng Cataban River dahil sa
491 matagal na panahon ay walang assessment na ginawa at walang report mula sa Mining Engineer, at
492 makita kung angkop pa bang makunan ng sand and gravel ang kahabaan ng ilog na siyang tanging-ilog
493 na pinagkukunan. Dagdag pa niya noong mga nakalipas na PAMB Enbanc meeting ay pinag-usapan at
494 iminungkahi ng board na baka maaaring bigyan ng human consideration at payagang kumuha ng graba
495 at buhangin sa ilog ng Cataban para sa pangsariling gamit gaya ng pangbahay ng mga mamamayan na
496 walang kakayahan bumili dahil sa bayan ng Taytay pangunahing problema ay ang legal na pagkukunan
497 ng graba at buhangin.
498

499 Ayon naman kay PB Tumampil ayon sa ipinaliwanag ni G. Cometa n g MGB ang Cataban River
500 ay kasama sa closed mining dahil ang barangay ay parte ng protected area ngayon ano ang dapat namin
501 gawin dahil may mga maliit na proyekto ang barangay na nangngailangn ang graba at buhangin?
502

503 Saad naman ni G. Cometa mayroong mga permittee sa munisipyo ng Roxas at Puerto Princesa
504 City. Dagdag pa niya, kung ang proyekto ay under contract ay sila na ang bahala sa mga raw materials
505 na gagamitin gaya ng sand and gravel. Samantala, kung may mga barangay project na na kailangan ng
506 sand and gravel ay maaring mag-apply ng gratuitous permit pero ito ay para sa non-commercial purposes.
507 Nabanggit rin niya na ang nakalagay sa ENIPAS Act ang bawal ay ang commercial at large scale
508 quarrying dahil dito kung kailangan ng submaterials para sa barangay projects ay mismong Barangay na
509 ang magpa-implement, maaring mag-apply para sa government gratuitous permit provided na ang
510 makukuhang graba ay hindi ibebenta kundi gagamitin lang mismo sa barangay project. Ngayon kung
511 ang project ay under contract sila na ang bahala, huwag ng makialam sa contractor dahil on the first place
512 nagkaroon ng bidding ang project at alam nila kung saan sila kukuha ng graba at buhangin.
513

514 Ayon naman kay PB Nava, Jr., mahirap talaga magpagawa ng infrastructure ng Barangay dahil
515 sinubukan na niya ang sinasabi ni G. Cometa na mag-apply ng gratuitous permit, tinuruan siya ng PMRB
516 ngunit ang kanyang request ay denied dahil daw sa pinagbabawal ang pagkuha ng graba sa ilog. Dagdag
517 pa niya bakit mayroon mga na-approved na CSAG na samantalang nasa loob ng protected area?
518

519 Sagot ni PASu Pador na ang mga naunang mga CSAG ay noon pang mag naunang taon at kanya
520 nang inabutan, ipinahayag rin nya na mayroon ng na denied for renewal ng CSAG na kung matandaan
521 ay enendorso ng board subalit ito ay denied ng PAMB Chairperson.
522

523 Ayon naman kay Kagawad Walter Ambasa ng Poblacion na resolusyon ay para sa assessment at
524 validation ng Cataban river mas maganda na malaman ng board kung ano ang magiging resulta maging
525 ito ay negative o positive ang resulta.
526

527 Sa kadahilanang wala ng iba pa katanungan sa nasabing usapin inirekomenda ni PB Tumampil
528 ang pag-apruba nito na sinegundahan ni PB Abraham V. Calaor ng Talog.
529

530 **5. Resolution No. 6, "Resolution imposing fees for commercial filming and photography in** 531 **MSPLS."** 532

533 Ibinahagi ni PASu Pador ito ay may kaugnayan sa mga pumapasok sa loob ng Malampaya Sound
534 PLS at nagsasagawa ng photography at filming na walang pahintulot at ginagamit ang mga nakuhanang
535 larawan para sa mga commercial purposes kagaya ng pagpapalabas sa television. Ipinagbigay-alam rin
536 niya, na ang resolusyon ay mayroong corresponding fees na P5,000.00 per day ito ay base sa mga ibang
537 protected area sa Palawan. Ayon pa sa kanya, ito ay upang magkaroon ng dagdag na kita ang Malampaya
538 Sound, para maregulate lahat ng mga pumapasok at mapangalagaan, may mga dokumento kinakailangan
539 isumite sa PAMO bago aprubahan ang kanilang gagawing activity at may ibibigay na permit.
540

Samantala ang naging suhestyon ni POs representative Dela Cruz na kung maaring isama sa whereas ang penalty kapag hindi sila susunod sa protocol ng PA.

Mungkahi ni PASu Pador na baka mas mainam kung paalisin sila sa area dahil kung penalty ang ipapataw ay magiging precedence at baka isipin ng ibang proponent na maaari palang magconduct ng activity na hindi kumuha ng permit at magpenalty na lamang. Dagdag pa niya na sa permit ay nakasaad kung anu-ano ang hindi nila dapat gawin at bilang ng mga crews na papayagan sa lugar.

Mungkahi ni POs representative Primitivo J. Villarma, Jr. ay huwag na hintayin ang meeting ng ExeCom dahil tatagal ang pagkuha nila ng permit kung maari ay sa PAMO na sila kumuha.

Sagot ni PASu Pador na kung pumapayag ang PAMB na ang PAMO ang magbigay ng permit sa pamamagitan ng Protected Area Superintendent ay kanilang tinatanggap maaari rin ipatawag ang Project Development Committee (PDC). Ang nasabing committee ang mag evaluate ng mga commercial filming and photography at isama din ang video filming na papasok sa Malampaya Sound.

Sa kadahilanang wala ng iba pa katanungan sa nasabing usapin inirekomenda ni PB Jon O. Tumampil ang pag-apruba nito na sinegundahan ni PB Alexander B. Avenue ng Alacalian.

6. Resolution No. 7, Resolution enjoining partners who are intending to submit projects proposals/development for communities and areas within MSPLS to secure PAMB endorsement prior to submission of the proposals to prospective local and international funders"

Pahayag ni PASu Pador ang nasabing resolusyon ay batay sa mga proyekto sa loob ng Malampaya Sound na kung saan ay funded ng Non-Government Organization (NGOs) na hindi dumaan sa PAMB for endorsement at ang nangyayari ay nagpaalam na lang sa board na mayroon na silang ilalagay na proyekto, na kung sila ay nagkaroon ng coordination ay mas maayos at nakapagmungkahi ang board para sa magandang paglalagyan ng proyekto. Sa kasalukuyan ay may isang NGO na may proyekto sa outer Malampaya Sound at nalaman na lamang ng PAMO na sila ay nakakuha ng pondo subalit hindi dumaan sa PAMO at PAMB. Dagdag pa niya at dahil walang resolution sa ganitong mga gawain ay minarapat na pagtibayin ang nasabing resolution upang maiwasan na maulit ang pagpasok ng ibang NGOs.

Sa kadahilanang wala ng iba pa katanungan sa nasabing usapin inirekomenda ni Kagawad Walter E. Ambasa ang pag-apruba nito na sinegundahan ni POs representative Primitivo J. Villarma, Jr.

7. Resolution No. 8, Resolution adopting the procedures for evaluating and endorsing research proposals in MSPLS".

Inilahad ni PASu Pador na lahat ng mga nagnanais na mag conduct ng research sa Malampaya Sound PLS ay kinakailangang magsubmit ng research proposal sa PA Managment Office bago ilahad sa board for endorsement para maiwasan ang avoid duplication of research at upang maiayon sa nakasaad sa Protected Area Management Plan (PAMP). Dagdag pa niya na mayroon mga pag-aaral na dapat gawin sa loob ng P.A. na kung saan ay wala pang research na naisagawa kung kaya ang board ay maaring magrecommend kung saan maaari pang magconduct ng research.

Sa kadahilanang wala ng iba pa katanungan sa nasabing usapin inirekomenda ni PB Escasinas ang pag-apruba nito na sinegundahan ni PB Calaor.

V. Other official matters/announcements

1. Letter of Mr. Nestor Dosal regarding his project proposal located at Barangay New Guinlo, Taytay, Palawan.

Ibinahagi ni Ms. Maria Mojena Gonzales-Plasus, kinatawan ni Mr. Nestor Dosal ang mga sumusunod na layunin ng kanilang panukalang proyekto tungkol sa fingerling Nursery sa Barangay New Guinlo, Taytay, Palawan.

- ✓ Their main concern is the availability of good quality milkfish and green grouper fingerlings.
- ✓ Currently buying fingerlings from PPC and directly stocking them in the cages.

- ✓ Requesting assistance from WPU-ATBI to improve their current practices.
- ✓ Represent a sizeable community of fisherfolk in the area.
- ✓ To provide opportunity of the locals of New Guinlo to engaged in another source of livelihood.
- ✓ Their main concern is the availability of good quality milkfish and green grouper fingerlings.
- ✓ Currently buying fingerlings from PPC and directly stocking them in the cages.
- ✓ Requesting assistance from WPU-ATBI to improve their current practices.
- ✓ Represent a sizeable community of fisherfolk in the area.
- ✓ To provide opportunity of the locals of New Guinlo to engaged in another source of livelihood.
- ✓ New Guinlo has a potential to become supplier of the Bangus in Palawan.
- ✓ Relatively high income compared to existing livelihood (mussel and herring) of the locals of New Guinlo.
- ✓ Supply of Bangus fingerlings is readily available at BFAR.
- ✓ Government agencies provide assistance to those who engaged in Bangus Aquaculture.

a. Current Problems

- ✓ High mortality of Bangus fry
- ✓ High production cost of Bangus in New Guinlo
- ✓ Inefficient culture of Bangus

b. Proposed Solution

- ✓ Get fingerlings at smaller sizes so that the transport will be easier and they are less susceptible to extreme stress
- ✓ Fingerlings can grow bigger until they reach the ideal size for stocking in cages
- ✓ Fish are much more acclimatized and in better condition for them to survive the conditions in the open water

c. Fingerling Requirements

- ✓ Fingerling requirements: 300,000 fingerlings per cycle
- ✓ 1 delivery – 20,000 fingerlings
- ✓ Nursery pond – will be used to condition fingerlings first prior to release in the cages.

d. Benefits of having nursery in the area

- ✓ Increase in the survival rate of Bangus fingerlings
- ✓ Availability of well - conditioned fingerlings for farmers
- ✓ Help promote and improve the bangus industry in Taytay, Palawan

Iminungkahi ni PB Alexander B. Avenue na magkaroon muna ng ocular inspection sa paglalagyan ng conditioning pond ng bangus fingerling sa Barangay New Guinlo kung angkop ba ang lugar na paglalagyan, dahil ayon sa paliwanag ito ay ilagay doon sa ilog ng Baong na maraming bahay sa magkabilang pampang. At pinangalawahan ni PB Escasinas na magkaroon muna ng inspection sa area dahil mayroon sona ginawa para sa mga marine areas ng Malampaya Sound.

Inirekomenda ng Tagapaguna na pending muna ang pag-endorse ng proyekto ni G. Dosal hintayin muna ang resulta ng inspection ang mga taga PAMO-MSPLS sa naturang lugar na paglalagyan ng bangus fingerling.

2. Presentation on Orientation on I-FIT Tool (Philippine IUU Fishing Index and Threat Assessment Tool)

Inilahad at iprenisenta ni EMS I Ana Liza D. Marasigan ang patungkol sa orientation on I-FIT Tool (Philippine IUU Fishing Index and Threat Assessment Tool).

a. Rationale

- ✓ We are already doing a lot to address IUU fishing
- ✓ We have many accomplishments in our efforts against IUU fishing
- ✓ And even some stories on intensified law enforcement operations

b. How can these work help us fight IUU fishing?

- ✓ IUU Fishing advantage is its covert nature;
- ✓ Need to keep the general public engaged and up-to-date on what is happening with IUU fishing;
- ✓ Science-guided and evidence-based planning for targeted, purposive and measurable reduction of IUU fishing in hotspot areas;
- ✓ Provide basis to increase resources needed and generate additional support from community and other groups to eliminate IUU fishing in a whole-of-government

- / whole-of-community approach.
- c. **Why IUU Fishing Index and Threat Assessment Tool (I-FIT Tool)**
- ✓ “IUU fishing in the Philippines is believed to be widespread although its actual magnitude remains to be quantified.” (NPOA-IUU, EO 154, s. 2013)
 - ✓ **current measures are output-based** (e.g., number of patrols, number of apprehensions, cases filed, settled, etc), while useful, do not show state of IUU fishing and its impacts
 - ✓ other measures such as remote sensing / satellite data (e.g., VIIRS Boat Detection, AIS) and anonymous reports only provide a partial perspective on the IUU fishing occurrence / incidences
 - ✓ global/regional rankings are valuable at a macro level but too focused on international commitments and too generalized to sufficiently inform fisheries management at the LGU and even at the FMA or at the country level
- d. **What IUU Fishing Index and Threat Assessment Tool (I-FIT Tool)**
- ✓ **a collection of “tools”** to (a) assess the status of IUU fishing in a given area, (b) identify other longer-lasting and targeted solutions to reducing IUU fishing, and (c) track the progress towards preventing, deterring, and eliminating IUU fishing in Philippine waters across various levels of governance, from municipal waters to fisheries management areas to the entire country
- e. **IUU Fishing Index and Threat Assessment Tool**
- ✓ **A collection of “tools”** to guide the development of IUU Fishing Reduction Plans and assess interventions towards deterring, preventing, and eliminating IUU Fishing in Philippine waters across various levels of governance, from municipal to national.
 - ✓ Envisioned to be used regularly (e.g., annually)
- f. **Why is there IUU fishing?**
- ✓ Benefits outweigh the costs
 - ✓ Usually seen in terms of “monetary”
 - ✓ But can be other factors that the individual values
 - ✓ BENEFITS and COSTS can be non-monetary!
- g. **What else can we do to reduce IUU fishing?**
- ✓ **Part A. IUU Fishing Assessment Guide**
 - Complete guide kit for facilitating a **1-day workshop** to assess IUU fishing prevalence, vulnerability, and responses in an area of interest;
 - Focused on stakeholder discussion and diving deep into the IUU fishing issues
 - Required workshop to fill out **PART B. IUU Fishing Index Scoring Form.**
 - ✓ Includes:
 - Facilitators’ Guide (detailed process agenda and session guides)
 - Powerpoint presentations
 - Activity instructions
 - Forms
 - ✓ **Part B. IUU Fishing Index**
 - Standardized scoring form to allow for objective comparison of IUU fishing across different areas and scaling up of information;
 - To be filled out as part of the IUU Fishing Threat Assessment Workshop (not separately)
 - 23 indicators grouped into Prevalence, Vulnerability, and Response components
 - Can be used to track your progress towards eliminating IUU fishing
 - Contains Annexes of forms to help rate the indicators
 - ✓ **Part C. IUU Fishing Reduction Planning Guide**
 - Complete guide kit for facilitating a 1-day workshop to develop a targeted and purposive plan to reduce specific IUU fishing threats the area of interest;
 - On-going development with DA-BFAR (for completion by end of May 2021)
 - Will contain similar types of content as in PART A. IUU Fishing Assessment Guide
 - Will be developed closely with DA-BFAR through a series of workshops

using the outputs from the Masbate and Cebu assessments as inputs

h. **Communicating Results**

- ✓ Fisheries Dashboard / BFAR FPED Fisheries Resources GIS
- ✓ Near real-time feedback
- ✓ Summarization
- ✓ Provincial, Fishing Grounds, FMAs, etc.
- ✓ Data analytics

i. **Potential Uses of I-FIT Results**

- ✓ Evidence-based tracking of IUU fishing prevalence over time
- ✓ Can identify other ways to reduce IUU fishing where other sectors can participate (not just Bantay Dagat or FLE teams)
- ✓ Aids fishery managers in adjusting their IUU fishing reduction interventions based on important vulnerability factors
- ✓ Prioritized targeted responses
- ✓ Justify need for additional resources to combat IUU fishing
- ✓ Can eventually serve as a performance indicator matrix for DA-BFAR and LGUs and other fishery management bodies

j. **I-FIT Flow**

- ✓ Assessment (1 day)
 - By individual LGU
- ✓ Planning (1 day)
 - By multi-LGUs / Provincial level
- ✓ **Final Outputs:**
 - IUU Fishing Index + Assessment highlights
 - IUU Fishing Reduction Plan
- ✓ **Cycle** (1st time is hardest; succeeding should be faster)
- ✓ Assessments & Planning should be **timed with preparation of Annual Work & Financial Plans** for following year

k. **What does an I-FIT Tool implementation entail?**

- ✓ Coordination with LGUs
- ✓ Support / leading facilitation for 2x 1-day workshops
- ✓ Support for 1 day workshop on IUU Fishing Assessment (budget for venue, meals)
- ✓ Support for 1 day workshop on IUU Fishing Reduction Planning (could be part of annual planning) (budget for venue, meals)
- ✓ Encoding the data

l. **BFAR thru Fish Right are willing to support interested NGOs and HEIs:**

- ✓ Training of trainers/ facilitating teams.
- ✓ Access to I-FIT Tool website and materials
- ✓ Support in consolidating, analysis (for cluster of LGUs) and visualization (Fisheries Dashboard)
- ✓ Inclusion of data in National Report
- ✓ Community of Practice and venue for sharing of lessons and enhancing the tools

3. **Presentation of MSPLS accomplishment for CY 2022**

a. **Biodiversity Monitoring System**

Iprenisenta ni Forest Ranger Tandoc ang resulta ng isinagawang Biodiversity Monitoring System (BMS) para sa ikalawang semestre ng taon. Kasama sa presentasyon ang iminungkahing interbensyon sa pamamahala ng PAMB, mahahalagang obserbasyon, buod ng field diary, transect walk, transect swim, photo documentation, Focus Group Discussion (FGD) at Irrawaddy Dolphin monitoring sa mga itinalagang monitoring sites sa loob ng MSPLS.

Inirekomenda ng board na patuloy na isagawa ang Information, Education, Communication (IEC) campaign at pagpapatrolya at pagsubaybay sa naiulat na chainsaw, magkaroong ng koordinasyon sa Palawan Council for Sustainable Development (PCSD) patungkol sa pagkakaroon ng hindi rehistradong chainsaw ng ilang residente sa Barangay Banbanan, Taytay, Palawan base sa resulta ng ginawang Fous Group Discussion (FGD) sa nabanggit na barangay.

1 September 2022

HON. RHEA A. MARTIN
Punong Barangay
Panco, Taytay, Palawan

Madam,

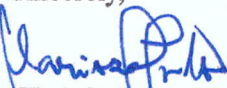

Greetings from PAMB MSPLS...

Please be informed that a PAMB Enbanc meeting was scheduled on 9th day of September, 2022, 9:00 o'clock in the morning at Taylelong's Pension House, Barangay Poblacion, Taytay, Palawan.

Below is the order of the meeting:

1. Call to order
2. Determination of quorum
3. Presentation of provisional agenda for approval
 - a. Reading and approval of the previous minutes for PAMB Enbanc meeting held on April 28, 2022
4. New Business
 1. Resolution No. 2, "Resolution endorsing the prescribed measures of nets used in Talakop fishing activities within the Inner sound and proposed MPAs of MSPLS."
 2. Resolution No. 3, "Resolution endorsing the re-opening of Kuyawyaw Falls at Barangay Cataban, Taytay, Palawan."
 3. Resolution No. 4, "Resolution imposing conservation fees for camping, trekking, mountaineering, Irrawaddy Dolphin watching, snorkelling and other educational tourism activities in MSPLS."
 4. Resolution No. 5, "Resolution requesting for an assistance from Mines and Geo-Science Bureau (MGB), Environment Management Bureau (EMB), Local Government Unit (LGU) and other concern OGAs to conduct assessment and validation of Commercial Sand and Gravel (CSAG) within Cataban River."
 5. Resolution No. 6, "Resolution imposing fees for commercial filming and photography in MSPLS."
 6. Resolution No. 7, Resolution enjoining partners who are intending to submit projects proposals/development for communities and areas within MSPLS to secure PAMB endorsement prior to submission of the proposals to prospective local and international funders"
 7. Resolution No. 8, Resolution adopting the procedures for evaluating and endorsing research proposals in MSPLS".
5. Other official matters
 1. Presentation of MSPLS accomplishment for CY 2022
 - 2nd semester BMS presentation for CY 2022
 - Enforcement accomplishment in MSPLS
 - IPAF collection as of September 9, 2022
6. Adjournment

Sincerely,

CLARISSA P. PADOR

Resolution No. 2, Series of 2022

“RESOLUTION ENDORSING THE PRESCRIBED MEASUREMENT OF NETS USED IN TALAKOP FISHING ACTIVITIES WITHIN THE OUTER SOUND AND PROPOSED MARINE PROTECTED AREAS OF MALAMPAYA SOUND PROTECTED LANDSCAPE AND SEASCAPE (MSPLS)”

WHEREAS, the Malampaya Sound Protected Landscape and Seascape (MSPLS) has a total area of 200,115.00 hectares which includes 111,339.00 hectares of marine and 88,115.00 hectares of terrestrial environments, it belongs to the territorial jurisdiction of two (2) municipalities with twenty-two (22) barangays, because of its rich fishing grounds, the Malampaya Sound is called the fishing bowl of the Philippines;

WHEREAS, the NIPAS Act of 1992 as amended by Republic Act 11038 known as the Expanded National Integrated Protected Areas System Act of 2018 provides that the Protected Area Management Board (PAMB) shall approve policies, plans, and programs, proposals, agreements, and other related documents for the management of the protected areas and shall ensure the implementation of programs as prescribed in the Management Plan to provide employment to the people dwelling in and around the protected area;

WHEREAS, the Malampaya Sound is an important resource that provides food and income to various people of Taytay, its biologically rich marine and estuarine ecosystem significantly contribute to the fisheries industry and provides various ecosystem functions as well, it is home to diverse wildlife species some of which are endemic to Palawan while others have high conservation priority status such as the infamous and critically endangered Irrawaddy Dolphins (*Orcaella brevirostris*);

WHEREAS, the abundant resources in the Malampaya Sound continuously attract dwellers to settle in the area, particularly in its coastal barangays, the growing population may cause environmental degradation and biodiversity loss due to excessive fishing pressure and uncontrolled use of fishing gears, one of the recommendations to have sustainable fishing activity in the area is to have policies concerning the proper use of fishing gears.

WHEREAS, it was recommended that the fishing nets allowed for Talakop fishing must have a mesh size range of 4 to 8 centimeters, the nets must have an estimated total length of 120 -150 yards (110 – 137 meters) which is equivalent to five spans (“panyo”) of commercially available nets and a depth range of 12 to 15 fathoms (23-27 meters), the area for Talakop fishing activities shall be in the outer part of the Sound except in declared MPAs located in the Islands of Mayaman, Turaw Bay, Taitai Bay, Calabugtong, and Malapena; Rakit-rakit reef in Binaluan, Barge Laot and Tabi in Barangay Tumbod.

WHEREAS, the RA No. 10654 that amends the Philippine Fisheries Code of 1998 states that all motorized boats, boat crews, and fishnets should be registered and the fishing vessels allowed to fish within the outer part of Malampaya Sound shall not be more than (3) gross tons.

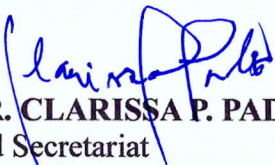

NOW THEREFORE, BE IT RESOLVED AS IT IS HEREBY RESOLVED upon unanimous approval of the members to favorably endorse the Resolution endorsing the prescribed measurement of nets in Talakop fishing within the Outer Sound and proposed MPAs of MSPLS;

RESOLVED FURTHER, that the copies of this resolution be furnished to the DENR-MIMAROPA Regional Executive Director and other concerned agencies/offices for information and appropriate action.

Adopted, this 9th day of September, 2022 at Tay Lelong's Function Hall, Barangay Poblacion, Taytay, Palawan.

I hereby certify the correctness of this resolution.

Resolution No. 3, Series of 2022

**“RESOLUTION ENDORSING THE RE-OPENING OF KUYAWYAW FALLS AT
BARANGAY CATABAN, TAYTAY, PALAWAN ”**

WHEREAS, the NIPAS Act of 1992 as amended by Republic Act 11038 known as the Expanded National Integrated Protected Areas System Act of 2018 provides that the Protected Area Management Board (PAMB) shall approve policies, plans, and programs, proposals, agreements, and other related documents for the management of the protected areas and shall ensure the implementation of programs as prescribed in the Management Plan to provide employment to the people dwelling in and around the protected area;

WHEREAS, the Kuyawyaw Falls is one of the tourist attractions in the municipality of Taytay, since August CY 2019, its tourism activity generates income for the MSPLS through the entrance fees collected, likewise, it also provides alternative livelihood to the local people of Barangay Cataban through tour guiding;

WHEREAS, in accordance with the COVID-19 health safety guidelines of the IATF to close all tourism destinations and other similar facilities to protect the communities from the unseen virus, the Kuyawyaw Falls was temporarily closed during CY 2020-2021;

WHEREAS, the Kuyawyaw Falls tourism destination is currently open for business but with precautionary measures due to the remaining threat of COVID-19;

NOW THEREFORE, BE IT RESOLVED AS IT IS HEREBY RESOLVED upon unanimous approval of the members to favorably endorse the Resolution endorsing the re-opening of Kuyawyaw Falls at Barangay Cataban, Taytay, Palawan, copies of this resolution be furnished to the DENR-MIMAROPA Regional Executive Director and other concerned agencies/offices for information and appropriate action.

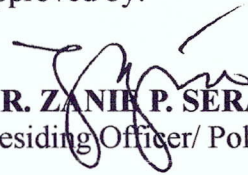

Adopted, this 9th day of September 2022 at Tay Lelong’s Function Hall, Barangay Poblacion, Taytay, Palawan.

I hereby certify the correctness of this resolution.

Resolution No. 4, Series of 2022

“RESOLUTION REQUESTING FOR AN ASSISTANCE FROM MINES AND GEO-SCIENCE BUREAU (MGB) AND ENVIRONMENTAL MANAGEMENT BUREAU (EMB), LOCAL GOVERNMENT UNIT (LGU) OF TAYTAY, AND OTHER GOVERNMENT AGENCIES (OGAs) IN THE CONDUCT OF ASSESSMENT AND VALIDATION ON SAND AND GRAVEL WITHIN MSPLS”

WHEREAS, the NIPAS Act of 1992 as amended by Republic Act 11038 known as the Expanded National Integrated Protected Areas System Act of 2018 provides that the Protected Area Management Board (PAMB) shall approve policies, plans, and programs, proposals, agreements, and other related documents for the management of the protected areas and shall ensure the implementation of programs as prescribed in the Management Plan to provide employment to the people dwelling in and around the protected area;

WHEREAS, the Cataban River is one of the large rivers within the Malampaya Sound Protected Landscape and Seascape (MSPLS), it is the main source of potable water for household and agriculture use in Barangay Cataban;

WHEREAS, the Cataban River is also one of the sources of sand and gravel in Taytay area, most of the approved commercial sand and gravel quarrying operations were located within the stretch of Cataban River, it is also the primary source of sand and gravel needed for the construction of houses and buildings in the community, likewise, it is also the source of sand and gravel for national projects such as road and bridge construction in the area, unregulated extraction of sand and gravel in the Cataban River may result to habitat degradation, siltation, coastal erosion, and other environmental problems.

WHEREAS, it is stipulated in Section 20 of RA 11030 of ENIPAS Act of 2018 that engaging in commercial or large-scale quarrying within the protected area is prohibited;

WHEREAS, to address the environmental concerns and to optimize the use of resources, it is hereby requested that a thorough validation and assessment of the sand and gravel resource in the area must be carried out;

NOW THEREFORE, BE IT RESOLVED AS IT IS HEREBY RESOLVED upon unanimous approval of the members to favorably endorse the Resolution requesting assistance from Mines and Geo-Sciences Bureau, Environment Management Bureau, Local Government Unit of Taytay, and other government agencies OGAs to conduct an assessment and validation of Commercial Sand and Gravel within Cataban River;

RESOLVED FINALLY, that copies of this resolution be furnished to the DENR-MIMAROPA Regional Executive Director and other concerned agencies/offices for information and appropriate action.

Adopted, this 9th day of September 2022 at Tay Lelong’s Function Hall, Barangay Poblacion, Taytay, Palawan.

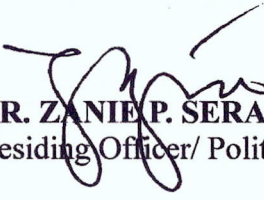

I hereby certify the correctness of this resolution.

Resolution No.5, Series of 2022

**“RESOLUTION IMPOSING FEES FOR COMMERCIAL FILMING AND
PHOTOGRAPHY IN MALAMPAYA SOUND PROTECTED LANDSCAPE AND
SEASCAPE”**

WHEREAS, the NIPAS Act of 1992 as amended by Republic Act 11038 known as the Expanded National Integrated Protected Areas System Act of 2018 provides that the Protected Area Management Board (PAMB) shall approve policies, plans, and programs, proposals, agreements, and other related documents for the management of the protected areas and shall ensure the implementation of programs as prescribed in the Management Plan;

WHEREAS, among the powers and functions of the PAMB and Protected Area Superintendent as stipulated in DAO 2019-05 is to set fees and charges in accordance with existing guidelines, recommend appropriate policy changes to the DENR and other government authorities, and collect and/or receive pertinent fees, charges, donations, and other income for the protected area; provided, that such fees, charges, donations, and other income collected/received shall be reported regularly to the PAMB and the DENR in accordance with existing guidelines;

WHEREAS, Malampaya Sound Protected Landscape and Seascape is endowed with biologically diverse ecosystems, such as tropical rainforest, mangrove, estuary, seagrass, and coral reef, it is home to many attractive wildlife species like the Palawan Hornbill, Palawan Peacock-Pheasant, Palawan Bearcat, Palawan Pangolin, and the popular Irrawaddy Dolphin; the MSPLS also has interesting natural formations such as white beaches, caves, waterfalls, islands, bays, coves, and the majestic Mt Capoas, the only mossy forest outcrop with an elevation of 1,013 meters above sea level; these beautiful attractions are potential subjects for commercial filming and photography;

WHEREAS, all applicants for commercial filming and photography activity in the MSPLS must secure a permit from the PAMB Chairperson and or at Protected Area Management Office, the issuance of the permit to undertake such activities is subject to terms and conditions which may be imposed upon prior evaluation of the proposed activities;

NOW THEREFORE, BE IT RESOLVED AS IT IS HEREBY RESOLVED upon unanimous approval of the members to favorably endorse the Resolution imposing a fee of Php5,000.00 per day for commercial filming and photography within the MSPLS.

RESOLVED FURTHER, that all the film crew and staff of the video and photography productions must follow the directions, instructions, and orders from the MSPLS Staff to ensure that the impact of the activity on the resources and the people is strictly minimized.

RESOLVED FINALLY, that copies of this resolution be furnished to the DENR-MIMAROPA Regional Executive Director and other concerned agencies/offices for information and appropriate action.

Adopted, this 9th day of September 2022 at Tay Lelong’s Function Hall, Barangay Poblacion, Taytay, Palawan.

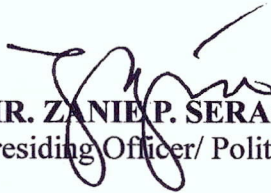

I hereby certify the correctness of this resolution.

Resolution No. 6, Series of 2022

**“RESOLUTION ENJOINING POTENTIAL PARTNERS WHO ARE INTENDING TO
SUBMIT PROJECT PROPOSALS FOR DEVELOPMENT FOR COMMUNITIES AND
AREAS WITHIN MSPLS TO SECURE PAMB ENDORSEMENT PRIOR TO SUBMISSION
OF THE PROPOSAL TO PROSPECTIVE LOCAL AND INTERNATIONAL FUNDER”**

WHEREAS, the Malampaya Sound Protected Landscape and Seascape (MSPLS) has a total area of 200,115.00 hectares which includes 111,339.00 hectares of marine and 88,115.00 hectares of terrestrial environments, it belongs to the territorial jurisdiction of two (2) municipalities with twenty-two (22) barangays;

WHEREAS, the NIPAS Act of 1992 as amended by Republic Act 11038 known as the Expanded National Integrated Protected Areas System Act of 2018 provides that the Protected Area Management Board (PAMB) shall approve policies, plans, and programs, proposals, agreements, and other related documents for the management of the protected areas and shall ensure the implementation of programs as prescribed in the Management Plan to provide employment to the people dwelling in and around the protected area;

WHEREAS, the harmonious and collaborative efforts among stakeholders are important factors in the success of the management of the MSPLS, hence the linkage with different government organizations, funding agencies, and non-government organizations must be strengthened and sustained;

WHEREAS, to avoid the duplication of project proposals submitted by different organizations and to address the concerns in efficiency and optimization of resource use, the collaboration between the project proponents and the Protected Area Superintendent (PASu) can be synergized by subjecting the project proposals to evaluation before the submission to funding agencies and subjecting the project operations to regular monitoring by the Protected Area Management Board (PAMB);

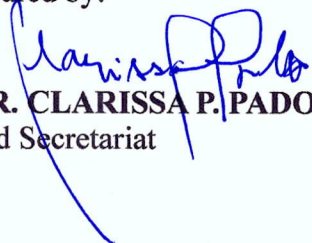

NOW THEREFORE, BE IT RESOLVED AS IT IS HEREBY RESOLVED upon unanimous approval of the members to favorably endorse the Resolution enjoining potential partners who are intending to submit project proposals for communities and areas within MSPLS to secure PAMB endorsement prior to submission of the proposal to local and international funder;

RESOLVED FINALLY, that copies of this resolution be furnished to the DENR-MIMAROPA Regional Executive Director and other concerned agencies/offices for information and appropriate action.

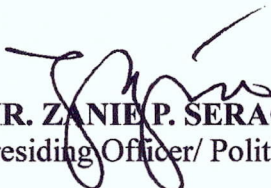

Adopted, this 9th day of September 2022 at Tay Lelong’s Function Hall, Barangay Poblacion, Taytay, Palawan.

I hereby certify the correctness of this resolution.

Resolution No. 7, Series of 2022

**“RESOLUTION ADOPTING THE PROCEDURES FOR EVALUATING AND
ENDORISING RESEARCH PROPOSALS IN MALAMPAYA SOUND PROTECTED
LANDSCAPE AND SEASCAPE”**

WHEREAS, the NIPAS Act of 1992 as amended by Republic Act 11038 known as the Expanded National Integrated Protected Areas System Act of 2018 provides that the Protected Area Management Board (PAMB) shall approve policies, plans, and programs, proposals, agreements, and other related documents for the management of the protected areas and shall ensure the implementation of programs as prescribed in the Management Plan;

WHEREAS, many institutions and individuals who are interested to conduct scientific research on Malampaya Sound Protected Landscape and Seascape (MSPLS) are requesting PAMB endorsements;

WHEREAS, one of the strategies in the MSPLS management plan is to have scientific research and monitoring programs with well-defined objectives, purpose, and indicators for up to date and reliable science-based decision-making, the scientific studies done in the area may provide crucial information that can be used in the management of MSPLS.

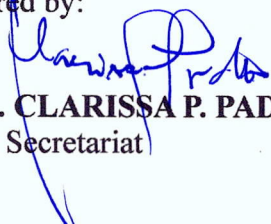

NOW THEREFORE, BE IT RESOLVED AS IT IS HEREBY RESOLVED upon unanimous approval of the members to favorably endorse the Resolution adopting the procedures for evaluating and endorsing research proposals in MSPLS and impose the collection of an application fee of Php500.00 from the proponent/researcher;

RESOLVED FINALLY, that copies of this resolution be furnished to the DENR-MIMAROPA Regional Executive Director and other concerned agencies/offices for information and appropriate action.

Adopted, this 9th day of September 2022 at Tay Lelong’s Function Hall, Barangay Poblacion, Taytay, Palawan.

I hereby certify the correctness of this resolution.
