MEMORANDUM

FOR : **The Regional Executive Director**
DENR MIMAROPA Region

THRU : The OIC, Assistant Regional Director for Technical Services

FROM : The OIC, PENR Officer

SUBJECT : **COMPLETE STAFF WORK (CSW) REPORT OF PROVISIONAL PERMIT APPLICATION NO. F.L.A.NO. 044001-006-2022 OF RAMON J. APOSTOL LOCATED IN BRGY. LAYLAY, BOAC, MARINDUQUE.**

DATE : November 15, 2022

This pertains to Provisional Permit Application No. 044001-006-2022 of Ramon J. Apostol situated in Brgy. Laylay, Boac, Marinduque.

BACKGROUND:

1. This Provisional Permit Application of Ramon J. Apostol is covered by PPA No. 044001-006-2022, situated at Brgy. Laylay, Boac, Marinduque.
2. It is located along the shoreline of Tablas Strait of Brgy. Laylay, Boac, Marinduque. Further, it is accessible to all types of land and water transportation, and the major thoroughfares are concreted with widths ranging from 10 to 15 meters.
3. It is subject of approved plan Fli 044001-2019-213-D in favor of the herein applicant, containing an area of 1,276 square meters.

FINDINGS:

1. The site is situated at about thirty (30) meters away from the nearest National Road with postal address at Barangay Laylay, Boac, Marinduque. It was found out and ascertained that the Highest and Best Use (HABU) of the area is for Commercial and Eco-tourism purposes.
2. It is adjacent to his own private property identified as Lot No. 3825-B, covered by Transfer Certificate of Title No. 061-12000242 in favor of spouses Ramon J. Apostol and Felomina M. Apostol. Based on submitted Development plan, there are five (5) cottages made of light materials and one (1) kitchenette made of semi-concrete materials shall be erected thereon; with an approximate amount of SIX HUNDRED SEVENTY FIVE THOUSAND THREE HUNDRED EIGHTEEN (Php 675,318.00) PESOS ONLY.

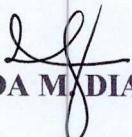

Republic of ~~Philippines~~
Department of Environment and Natural Resources
PENRO Marinduque

3. It shall be developed for bathing establishment (commercial use) and to promote eco-tourism purposes. The proponent's advocacy is for total protection of coastal resources, coastal bio-diversity, balance environment and healthy ecology as far as environmental protection is concerned.
4. Pursuant to Chapter VIII of Commonwealth Act. 141, as amended, Department Administrative Order No. 98-20 dated May 20, 1998 as amended by Department Administrative Order No. 2010-20 dated October 13, 2010, respectively, it is provided that if the property is classified as commercial or industrial, the appraised or re-appraised value shall not be less than the zonal value or market value thereof, whichever is higher.
5. Based on Bureau of Internal Revenue Zonal Valuation, there is no land declared as commercial in Brgy. Laylay, Boac, hence we refer to the nearest barangay which have declared lot as commercial lot and the nearest Barangay is Poblacion Boac. In Poblacion Boac the land declared for commercial purposes have a zonal valuation value of Php 930.00 per square meters; while the Fair Market Value of Land and Improvements (2019 General Revision) from the Assessor's Office of the Municipality of Boac, Marinduque for First Class Commercial (C-1) within the vicinity is THREE THOUSAND ONE HUNDRED TWENTY (Php 3,120.00) Pesos per square meter, hence, the Fair Market value of the area amounting to Php 3,120.00 pesos per square meter prevailed in the Appraisal Report.

RECOMMENDATIONS:

IN VIEW HEREOF, it is hereby respectfully recommended that the herein Appraisal Report be approved and that the authority to lease the land be issued.

For information, record and approval.

MEMORANDUM

FOR : **The Regional Executive Director**
DENR MIMAROPA Region

THRU : **The OIC, PENR Officer**
PENRO Marinduque

FROM : The Appraisal Committee
(Per PENRO Special Order No. 2016-30, Series 2016)

SUBJECT : **APPRAISAL REPORT ON PROVISIONAL PERMIT APPLICATION NO. 044001-006-2022 OF RAMON J. APOSTOL, LOCATED AT BRGY. LAYLAY, BOAC, MARINDUQUE.**

DATE : November 15, 2022

I. SCOPE AND PURPOSE OF THE APPRAISAL

This Appraisal Report covering Provisional Permit Application No. 044001-006-2022 in the name of Ramon J. Apostol is pursuant to Chapter VIII of Commonwealth Act. 141, as amended and DENR Administrative Order No. 98-20 dated May 20, 1998 as amended by DENR Department Administrative Order No. 2010-20 dated October 13, 2010 respectively, in order to determine the current appraised value of the above described government property preparatory to the issuance of appropriate lease contract.

II. PROPERTY IDENTIFICATION, LOCATION AND OWNERSHIP:

The subject land of this appraisal report is identified as foreshore land bordering Tablas Strait under approved survey plan Fli 044001-2019-213-D, bounded on the North East along line 1-2 by Lo 3825-B; on the South East along line 2-3 by foreshore; along line 3-4 by Tablas Strait and on the North West along line 4-1 by Foreshore. It contains an area of 1,276 square meters, located at the South Western portion of Brgy. Laylay, Boac, Marinduque.

This site is situated at about thirty (30) meters away from the nearest National Road with postal address at Barangay Laylay, Boac, Marinduque, devoted for bathing establishment for commercial and eco-tourism purposes.

III. LAND CLASSIFICATION, IMPROVEMENTS AND GENERAL CONDITION:

Based on the Zoning Ordinance of the Municipality of Boac and as per "Schedule of Market Values for the General Revision of Assessments under Provincial Ordinance No. 123 series of 2016", the foregoing property is classified as mixed commercial and eco-tourism purposes. It is accessible to all types of land and water transportation, and the major thoroughfares are concreted with widths ranging from 10 to 15 meters.

Aside from the eco-tourism development the applicant/proponent will introduce in the area, he also aims for the total protection of coastal resources, coastal bio-diversity, balance environment and healthy ecology which is necessary for the sake of environment protection.

IV. STATISTICAL DATA REFERENCE:

Per BIR Zonal Valuation from Revenue District Office No. 62 there is no lot declared for commercial purposes in Brgy. Laylay, Boac, hence we refer to the nearest barangay which have lot declared for commercial purposes and it is in Poblacion, Boac which have zonal valuation of Nine Hundred Thirty (Php 930.00) Pesos per square meter.

Latest approved Fair Market Values of Lands and Improvements (2019 General Revision) from the Assessor's Office for commercial lot in Municipality of Boac is Three Thousand One Hundred Twenty (3,120.00) Pesos per square meter.

Considering that the Fair Market Value of the Municipality of Boac is hiThree Thousand One Hundred Twenty (3,120.00) Pesos per square meter shall prevail in this Appraisal Report in accordance with DAO NO. 20010-26.

V. HIGHEST AND BEST USE:

Pursuant to DENR implementing policy, rules and regulations governing the administration and development of foreshore areas, the proponent adhere for the effective and efficient foreshore management for the conservation and maintenance of an ecologically balance environment.

Further, based on the location, physical characteristics and attributes of the area and its vicinities, the Committee found out that the Highest and Best Use (HABU) of the area is for Commercial and Eco-tourism purposes.

VI. LAND APPRAISAL:

In the light of the criteria laid down by Department Administrative Order No. 98-20, as amended by Department Administrative Order No. 2010-26, the annual rental for the whole parcel of land subject for appraisal shall be not less than three percentum (3%) of the value of the land and one percentum (1%) of the proposed/or current improvement of the land. The PENRO Appraisal Committee has taken foremost consideration of the highest and best use of the property.

WHEREAS, after the said consultative meetings, public meetings and dialogues, the submitted schedule of fair market values for lands, buildings and other improvements was amended based on the result of the public consultations;

WHEREAS, the Sangguniang Panlalawigan of Marinduque in its desire to help its constituents from the present economic condition, acknowledged the need to reduce even further the burden brought about by the General Revision submitted by the assessor;

WHEREAS, the present schedule of Fair Market Values of Lands, Buildings and other improvements was first revised in 1994 and since then, no other revision was undertaken, hence, the schedule of Fair Market Values of Real Property and other improvements in the Province has remained lower compared to the surrounding provinces within the MIMAROPA Region;

WHEREAS, the depressed and antiquated schedule of Fair Market Values has prevented the Province from adequately sourcing its revenues to fund the operation and completion various programs and projects to continually enhance the quality of life of the inhabitants of the Province,

WHEREAS, such a low schedule of Fair Market Values also negatively impacts on the capacity of the owners to generate capital as the fair market value is the benchmark used in determining the collateral value of their properties;

NOW THEREFORE, be it ordained by the 13th Sangguniang Panlalawigan of Marinduque pursuant to Section 212, Chapter 2 of Republic Act 7160, otherwise known as the Local Government Code of 1991, the following:

**PROVINCIAL ORDINANCE NO. 123
SERIES 2016**

**AN ORDINANCE PRESCRIBING THE SCHEDULE OF FAIR
MARKET VALUES FOR LAND AND OTHER
IMPROVEMENT FOR BUILDINGS, MACHINERIES AND
OTHER STRUCTURES FOR THE PROVINCE OF
MARINDUQUE IN ACCORDANCE WITH THE LOCAL
GOVERNMENT CODE OF 1991**

**Section 1
TITLE**

This Ordinance shall be known and cited as "The Revised Schedule of Market Values of Real Property and Improvements in the Province of Marinduque".

**Section 2
CRITERIA**

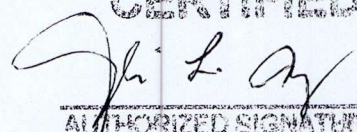

The criteria for sub-classification of residential, commercial, industrial and agricultural lands in the province shall be as follows:

A. COMMERCIAL LANDS

I. FIRST CLASS (C-1) COMMERCIAL LAND

- a) Located along concrete roads;
- b) Where highest trading, social or educational activities in the municipality take place;
- c) Where concrete or high grade commercial or business buildings are situated;
- d) Where vehicular and pedestrian traffic flow are exceptionally busy;
- e) Apparently commands the highest commercial land value in the municipality.

CERTIFIED COPY

AUTHORIZED SIGNATURE 6/15/22
DATE

II. SECOND CLASS (C-2) COMMERCIAL LAND

- a) Along concrete or asphalted road;
- b) Where trading, social or educational activities are considerably high, but fall short from that of the First Class Commercial Land;
- c) Where semi-concrete commercial or business buildings are situated;
- d) Where vehicular and pedestrian traffic flow are considerably busy;
- e) Commands lesser value than the First Class Commercial Lands.

III. THIRD CLASS (C-3) COMMERCIAL LAND

- a) Along concrete or asphalted road;
- b) Where trading, social or educational activities are significantly less than the Second Class Commercial land;
- c) Where average grade commercial or business buildings are situated;
- d) Where vehicular and pedestrian traffic flow are fairly busy;
- e) Commands lesser value than the Second Class Commercial Lands.

IV. FOURTH CLASS (C-4) COMMERCIAL LAND

- a) Along all-weather road;
- b) Where trading, social or educational activities are significantly low but predominant;
- c) Where mixed commercial and residential buildings are situated;
- d) Where vehicular and pedestrian traffic flow are regularly less busy;
- e) Commands lesser value than the Third Class Commercial Lands.

B. RESIDENTIAL LANDS

I. FIRST CLASS (R-1) RESIDENTIAL LAND

- a) Located along concrete road;
- b) Where high grade apartment or residential buildings are predominantly situated;
- c) Where public utility transportation facilities are exceptionally regular towards major trading centers;
- d) Located next to commercially classified lands;
- e) Where water, electric, and telephone facilities are available;
- f) Commands the highest residential land value in the municipality;
- g) Free from squatters.

II. SECOND CLASS (R-2) RESIDENTIAL LAND

- a) Along concrete or asphalted road;
- b) Where semi-high grade apartment or residential buildings are predominantly situated;
- c) Where public utility transportation facilities are fairly regular towards major trading centers;
- d) Located next to the First Class Residential Land;
- e) Where water, electric, and telephone facilities are available;
- f) Commands lesser value than the First Class Residential Land;
- g) Free from squatters.

III. THIRD CLASS (R-3) RESIDENTIAL LAND

- a) Along all-weather road;
- b) Where average grade residential buildings are predominantly situated;
- c) Where public utility transportation facilities are regular towards major trading centers;
- d) Located next to the Second Class Residential Land;
- e) Where water and electric facilities are available;
- f) Commands lesser value than the Second Class Residential Land.

IV. FOURTH CLASS (R-4) RESIDENTIAL LAND

- a) Along all-weather road;
- b) Where low grade residential buildings are predominantly situated;
- c) Located next to the Third Class Residential Land;

ARMANDO ANILAWIGAN
MARINDUQUE
CERTIFIED COPY
6/15/22
AUTHORIZED SIGNATURE DATE

- d) Where public utility transportation facilities are irregular;
- e) Where sources of water facilities are commonly pump wells;
- f) Commands lesser value than the Third Class Residential Land.

V. FIFTH CLASS (R-5) RESIDENTIAL LAND

- a) Along all-weather road;
- b) Where residential buildings are still scarcely constructed;
- c) Where public water and electric facilities are readily available;
- d) Farthest residential land from the trading center;
- e) Transportation facilities are exceptionally irregular;
- f) Predominantly undeveloped residential area.

VI. RESIDENTIAL LAND SUBDIVISION

Residential Land Subdivisions are classified according to the degree of development and facilities, regardless of location from the trading center of the city/municipality. Therefore, their respective schedule of base market values shall be independently established based from the sales analysis of the lots therein. The unit market value for subdivision lots shall not, under any circumstances, be less than adjoining lands classified in accordance with the above criteria for sub-classification.

C. CRITERIA FOR INDUSTRIAL LANDS

- a) Located along concrete, asphalted, first class macadam road, pier, sea coast or navigable water;
- b) Located within a distance of more than 10,000 meters but not beyond 50,000 meters to the major trading center of the municipality;
- c) Where the vicinity is extensively used for industrial purposes;
- d) Commands the highest industrial land value in the municipality.

D. PRODUCTIVITY CLASSIFICATION

1. RICELAND IRRIGATED:

- 1ST CLASS Lands capable of producing an average of 150 cavanes of palay per hectare annually
- 2nd CLASS Lands capable of producing 130 to 150 cavanes of palay per hectare annually.
- 3rd CLASS Lands capable of producing less than 130 cavanes of palay per hectare annually.

2. RICELAND UNIRRIGATED:

- 1ST CLASS Lands capable of producing an average of 130 cavanes of palay per hectare annually
- 2nd CLASS Lands capable of producing 110 to 130 cavanes of palay per hectare annually.
- 3rd CLASS Lands capable of producing less than 110 cavanes of palay per hectare annually.

3. COCONUT LAND:

- 1ST CLASS Lands capable of producing an average of 64 nuts per tree annually
- 2nd CLASS Lands capable of producing 54 to 64 nuts per tree annually.
- 3rd CLASS Lands capable of producing less than 50 nuts per tree annually.

Over	6 to 9kms	- 6 %	- 4 %
Over	9 kms	- 8 %	- 6 %

Distance of property from all-weather road, railroad stations, landing places along sea coast and from trading center (Poblacion), shall be measured from the corner of the lot or parcel nearest to such road or center.

All-weather road includes municipal, provincial, national and all other public roads traversable by truck, cars and other forms of motor vehicle under any kind of weather.

Section 3
GENERAL PROVISIONS

1) ON LAND

1. As a general rule, 100% base value per square meter for commercial, industrial, residential and other special classes of land shall be applied to all lands within the first strip of 25 meters on commercial and industrial section or zones, and within 20 meters on residential sections or zones fronting asphalted or concrete, or all-weather streets or roads.
2. Lands beyond the standard depth (e.i. 25 meters for commercial and industrial lands) and 20 meters for residential land, if any, shall be valued 80% for the second strip, 60% for the third strip and 40% of the base value fixed for the street or road for the remaining area. Provided however, that in case the parcels of land abutting two streets or roads on two with different base values, the stripping and valuation thereof shall be based on the principal street or road with the higher base value, but not lower than the schedule of values of the other street.
3. A reduction of 20% and 50% shall be applied from the base value of lands along gravel, earth or dirt and proposed street or roads respectively. In similar manner, if the roads or streets and/or sections thereof are subsequently improved or constructed, the appraisal and assessment of the same shall be adjusted accordingly.
4. For low and sunken areas of the land, a reduction from the base value per square meter may be allowed due to the cost of filling and compaction to bring the same at par with the adjoining developed lots. Provided however, that such reduction will, in no case, exceed 30% of the base value thereof.

5. Adjustment value for frontage shall be added to the valuation of all commercial lots fronting streets or roads. The same is derived by multiplying the length of frontage in lineal meters by 50% of the unit base value thereof.
6. Corner influence value of 10% of the same value shall be added to the valuation of lots situated at the corner of two streets or roads. Provided however, that if the streets or roads have different base values, the higher base values shall be used in the computation thereof.
7. Vacant or idle lands located in a purely residential area, shall be classified as residential. If such land is located in a purely commercial area, the same shall be classified as commercial. Mixed residential/commercial area, the same shall be classified according to the class which is more predominant.
8. As far as properly applicable, the Schedule of Base Market Value shall be controlling, but where the property to be assessed is of a kind not classified in this schedule or any kind of which the value is not herein fixed, it shall be appraised at the current and fair market value, independently of this schedule.
9. Timber and forest land shall be appraised and assessed in accordance with the provisions of Presidential Decree No. 853 as amended by Presidential Decree No. 888 and as implemented under Assessment Regulations No. 3-78 dated May 15, 1978 of the Ministry of Finance and in accordance with the Manual of Real Property Appraisal and Assessment Operations (MRPAAO) of 2006.
10. Machinery and Mechanical contrivances shall embrace under Section 1 of Presidential Decree No. 1383, amended by Section 3(m) of Presidential Decree No. 464 and as implemented by Assessment Regulations No. 2-79, dated October 16, 1979 and as amended by Assessment Regulations No. 1-80, dated December 9, 1980.

Appraisal and assessment of Machinery shall be governed by Department (then Ministry) Order No. 22-73 dated June 18, 1973 and in accordance with the Manual of Real Property Appraisal and Assessment Operations (MRPAAO) of 2006.
11. Privately owned Timber and Forest Lands shall be valued in accordance with Presidential Decree No. 853 as amended by Presidential Decree No. 888 and implemented by Assessment Regulation No. 3-76 dated February 9, 1976 and in accordance with the Manual of Real Property Appraisal and Assessment Operations (MRPAAO) of 2006.
12. Mineral Lands shall be valued in accordance with the Schedule of Market values for such land as fixed under Provincial Circular No. 3-73 dated January 24, 1973 of the Ministry (now Department) of Finance and in accordance with the Manual of Real Property Appraisal and Assessment Operations (MRPAAO) of 2006.

Section 4
MISCELLANEOUS PROVISIONS

1. The Schedule of Market Values is prepared and submitted for approval pursuant to Section 212 of Republic Act No. 7160, otherwise known as the Local Government Code of 1991.
2. Pursuant to the provisions of Sec. 19 of RA 7160, the Provincial, City or Municipal Assessors shall undertake a general revision of real property within two years after the effectivity of the Local Government Code of 1991 and every three years thereafter. The new and approved Schedule of Market Values shall be applied in the general revision of real property assessments to be conducted from 2016 to 2017, to take effect in January 2018.
3. Appraisal and assessment of real property shall be at its current and true market value.
4. In cases of agricultural land convertible into urban or subdivision land in the future, these shall be classified and assessed as agricultural until such time when it has been converted and developed into a subdivision. The rule also apply to land already approved as part of a subdivision, but has not yet been actually developed for the purpose.
5. Roads or street in urban subdivision, unless already donated and turned over to the government, shall be listed separately as taxable in the name of the subdivision owner on the basis of this Schedule for classes of roads, applying the assessment level applicable. The Schedule are as follows:

SARANGANI PROVINCE
TERRITORIAL DIVISION OFFICE
SARANGANI
CERTIFIED COPY
J. L. G. 6/15/22
AUTHORIZED SIGNATURE DATE

- a. Cemented - P 95.00 / square meter
- b. Asphalted - 75.00 / square meter
- c. Dirt Road - 50.00/ square meter

6. Road and street lots in commercial centers, unless already donated and turned over to the government shall be listed separately as taxable in the name of the listed owner and shall be valued at 10% of the applicable unit values for land classified as such, plus cost of cementing, asphaltting or paving them with gravel and sand.
7. The use of the stripping method in the valuation of property located in commercial centers shall not be applied to properties fronting a street or road with a normal level elevation if said property is traversed by more that one road or street or when there are crisscrossing road or streets within the property, which would defeat the stripping methods as provided for by Section 7.02, Chapter VII of Assessment Regulations No. 7-77, specifically on properties that have given unit values by this Schedule of Market Values.
8. The base rate or per hectare or per tree as fixed in the Schedule for different classes of agricultural lands and its improvements are subject to the applicable adjustments expressed in percentage such as (a) Type of public road where the property is located (b) Distance of property from the public road, and (c) Distance of property from the poblacion. Convenient spaces for application of such adjustments are so provided in the Tax Declaration form (RPA Form No. 1)
9. The value herein provided for agricultural lands shall apply not only to land actually under cultivation or being used for agricultural purposes but also to lands which by their location, fertility and physical features should be considered as agricultural land regardless of whether or not they are under cultivation.
10. Fruit trees and other perennial plants are exempt from taxation except where the land upon which they grow is planted principally to such growth. Trees and other plant improvements which have not yet reached the stage of production are to be considered as non-utilizable improvements and as such, exempt from taxation.
11. Farm lots with an area of less than 2000 sq.m. If actually used as agricultural within and urban area should be appraised as either horticultural or orchard. A portion of a bigger parcel of agricultural land used as urban shall be so classified and appraised as such.
12. Whenever and agricultural land is principally devoted to perennial plants or trees which although non-bearing or not yet productive and have no commercial value but enhances or perceptively increases the value of the land, such land shall be valued and assessed at twenty five (25%) per centum more than the market value of the kind and classes of land to which it belongs according to this Schedule.
13. Agricultural lands with mountainous terrain, the slopes of which is more than 30% or when the soil is rocky or with very poor vegetation shall be allowed a 10% reduction from their value.
14. The schedule of values for miscellaneous agricultural lands shall also apply to multi-crop lands and vice versa where perennial plants and trees that are already fruit-bearing or are productive shall separately be appraised per plant or per tree in accordance with this schedule.
15. Irrigable rice lands whose water supply is derived from irrigation pumps shall be entitled to a 5% reduction as adjusted market value.
16. Agricultural lands already converted by the owner at the time the general revision was conducted into non-agricultural uses already devoid of any agricultural

CERTIFIED COPY

AUTHORIZED SIGNATURE DATE

activity over the premises shall, for appraisal and assessment purposes only, be classified and valued in accordance with this Schedule.

17. When vacant idle lots or when small agricultural/vegetable (fruit) gardens are located in a purely commercial area, the same shall be classified as commercial.
18. Urban areas refer to parcel of land or portion thereof located within the suburb or the poblacion or centers of population or adjacent to residential, commercial or industrial zones, or adjoining national highways or expressways which manifestly command higher market values than ordinary agricultural lands. In their appraisal, the appropriate rules provided for in Chapter 4, Section 2 of BLGF Manual of Real Property Appraisal and Assessment Operations of 2006 may be used.
19. The appraisal of beaches or urban lots shall include not only those that are actually used or developed as resorts but also those parcels which have been the subject of unusual and extraordinary high sales value and potentially due for development and improvement for residential, commercial or industrial purposes.
20. The fair and current market value of all buildings shall be computed on the basis of replacement/reproduction cost new less depreciation.
21. Replacement cost shall be computed on the basis of Schedule of Unit Values of current cost of building materials and labor.
22. This Schedule of Market Values shall be controlling but when the lands, buildings, structures and other improvements appraised are not within the Schedule of Unit Values, it shall be appraised independently of this Schedule and assessed for taxation purposes at the prescribed assessment level for the particular class of property.

The gradual implementation of increases in real property assessments referred to in the Final Provisions shall not apply to properties that have undergone changes in actual use and changes in property classification as provided for under joint Assessment Regulations No. 1-85 and Local Treasury Regulations No. 2-85, dated August 1, 1985.

In determining the increase in real property assessments resulting from the application of this Schedule of Market Values, the base value shall be full Market Value of the same property as reflected in the approved "1994" Schedule of Market Values for Marinduque regardless of whether or not the said schedules were used in full in the computation thereafter, as provided for in Memorandum Order No. 77, dated March 31, 1987 of the Office of the President.

Section 5 **TYPES OF CONSTRUCTION**

For purposes of this ordinance and in order to be consistent with the provisions of the Building Code, all buildings shall be classified or identified according to the following types:

Type V Buildings shall be fire-resistive. The structural elements shall be of steel, iron, concrete or masonry construction. Walls, ceilings and partitions shall be of incombustible fire-resistive construction. All steel structural members, foundation, columns and beams, encased in concrete; reinforced walls, floors and roofs.

Type IV-A Buildings shall be of steel, iron, concrete or masonry construction. Walls, ceilings and permanent partitions shall be of incombustible fire-resistive constructions;

SANE GUNIANO PANALAWIGAN

Except, that permanent non-bearing partitions of one-hour fire resistive construction may use fire retardant treated wood within the framing assembly.

Type IV-B Combination of steel and reinforced concrete structural members; reinforced concrete floors, CHB walls and G.I. roofings.

Type III-A Buildings shall be of masonry and wood construction. Structural elements maybe any of the materials permitted by the National Building Code. Provided, that the building shall be one-hour, fire-resistive throughout. Exterior walls shall be of incombustible fire-resistive construction.

Type III-B Reinforced concrete or wooden floors, hollow block walls, wooden roof framing (truss or rafter type); aluminum or G.I. sheet roofing.

Type III-C Concrete foundation, reinforced concrete or wooden beams and floors, hollow blocks or adobe walls, wooden framing (rafter type), G.I. sheet roofing.

Type III-D Low cost housing-use of modular coordination; mixed materials of concrete and wood.

Type II-A Building shall be of wood construction with protective fire-resistant materials and one-hour fire resistive throughout; Except, that permanent non-bearing partition may use fire retardant treated wood within the framing assembly.

Type II-B Concrete footings, second group wooden structural members (post, beams, girders, floor joists and roof framing), wooden flooring, sidings and partitions (double-walled); G.I. sheet roofing.

Type II-C Concrete or adobe footing, third group wooden structural members (posts, beams, girders, floor joists and roof framing) flooring, sidings and partitions (double-walled) G.I. sheet roofing.

Type II-D Same as C except as to sidings and partitions which are single walled.

Type II-E Same as D except that structural members are substandard.

Type I Building shall be of wood construction, the structural elements maybe any of the materials permitted as follows: nipa houses and similar structures falling under this type.

The introduction of the terms fire-resistive requirements in the building construction in accordance with the National Building Code of the Philippines are defined as follows:

Fire-Resistive Rating means the degree to which a material can withstand fire as determined by generally recognized and accepted testing methods.

Fire-resistive Time Period rating is the length of time a material can withstand being burned which may be one-hour, three-hours, etc.

Fire-Resistive Standard All materials of construction and assemblies or combination thereof shall be classified according to their fire retardant or flame spread ratings as determined by generally accepted testing methods.

Fire-Retardant Treated Wood Lumber or wood impregnated with chemicals and when tested in accordance with accepted fire standards for a period of 30 minutes shall have a flame spread of not over 25% and show no evidence of progressive combustion. The fire-retardant properties shall not be considered permanent when exposed to the weather.

SECTION 5-A
APPRAISAL OF IMPROVEMENTS

All improvements consisting of buildings and other structures shall be valued at its current and fair market value on the basis of the herein schedule of values and adjustment factors established for each class and classified according to their use and construction characteristics.

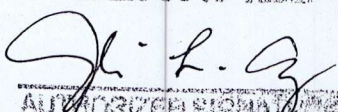

A. The following kinds of buildings are hereby established:

RESIDENTIAL:

1. Single Detached - a detached building designed for or occupied exclusively by one family.
2. Duplex dwelling - a detached building designed for or occupied exclusively by two families living independently from each other in their respective dwelling unit.
3. Accessory Building - a building subordinate to the main building on the same lot and used for purposes customarily incidental to those of the main building such as servant's quarters, garage, pump house, laundry, etc.
4. Town House/Row House - a house of not more than two stories composed of a row of dwelling units entirely separated from one another by partly wall or walls and with an independent entrance for each dwelling unit.
5. Apartment House - a house with apartment for five or more families living independently of one another and doing their cooking on the premises but with one or more entrance common to the apartment.
6. Apartment - a room or suite of two or more rooms, designed and intended for or occupied by one family for living, sleeping and cooking purposes.
7. Residential Condominium - an interest in real property consisting of a separate interest in a unit in a residential building and an undivided interest in common directly or indirectly on the land in which it is located and in other common areas of the building (Sec.2 RA 4726)

COMMERCIAL:

1. Hotel - a building with more than 15 sleeping rooms, usually occupied singly, where transients are provided with temporary lodging, with or without meals and where no cooking facilities are provided in any individual suites.
2. Boarding House - a house containing not more than 15 sleeping rooms where boarders are provided with lodging and meals for a fixed sum paid by the month or week in accordance with a previous arrangement.
3. Lodging House - a building containing not more than 15 sleeping rooms where lodging is provided for a fixed compensation.
4. Office Building - a building mainly used for stores and/or offices.
5. Theater/Movie House - a building specially designed for the presentation of plays, operas, motion pictures, etc.
6. Commercial Condominium - an interest in real property consisting of a separate interest in a unit in a commercial building and an undivided interest in common directly or indirectly on the land in which it is located and in other common areas of the building (Sec.2 RA 4726)
7. Supermarket, Shopping Center, Mall - A building where a variety of goods and services are offered for sale. A large market especially a food store, operated in part or on a self-service, cash-carry basis.
8. Shop - a structure mainly used for dress shop, tailoring, barber shop, etc.
9. Gasoline/Gas Refilling Station - a facility for selling automotive fuel, supplies and services complete with underground tanks and other related mechanical contrivances
10. Recreation Building - a building which houses any form of play, amusement or relaxation and used for recreational purposes like bowling or billard hall, night club, clubhouse, cockpit, gym, etc.
11. Restaurant/Fastfood Building a building solely used as eating place and/or for catering cooked foods.
12. Swimming Pool an artificially created pool or tank, either indoor or outdoor intended for recreational or sports swimming.

DATE

INDUSTRIAL:

1. Factory Building - a building utilized for manufacturing goods or finished products.
2. Refinery Plant - a building mainly used for refining or purifying metals, oil, sugar, and other mineral products.
3. Saw Mills and Lumber Sheds - a closed or open structure mainly used for saw mill operations and storage of lumber.

INSTITUTIONAL:

1. School Building - a building exclusively used for educational or attainment of basic and higher learning duly recognized by the government.
2. Church/other Religious Institution - a building exclusively used for religious rites and/or place of worship.
3. Hospital Building a building mainly used in carrying out medication of sick persons having at least 20 patient beds.
4. Welfare and Charitable Building - a building where the depressed, aged, and incapacitated persons stay, and are cared for, free of charge by members of recognized charitable institutions.

AGRICULTURAL:

1. Barn Sheds an open or closed structure for livestock.
2. Poultry/Hog Houses an open or partially closed shed (either low or tall) for raising poultry & piggery.
3. Grain Mill a structure mainly used for milling of rice and other agricultural products

B. The following are the standards specifications in addition to structural specification of buildings:

1. External Walls
 - a. On concrete or hollow block (cement, ceramic or adobe) mortar finishing painted with locally manufactured paints. ,
 - b. Doubled walled of tanguile or lauan plywood or its equivalent, painted, or varnished with locally manufactured paints or varnish.
2. Ceiling
 - a. Plain cement ceiling - painted with locally made paints beneath concrete floors.
 - b. Beneath wooden floor or roof framing tanguile or plywood painted with locally made paints.
3. Doors
 - a. Exterior - tanguile or lauan or its equivalent ordinary finished panel.
4. Windows
 - a. For Type I, II and II I-A buildings. Simple design steel glass with iron grills.
 - b. For Type III-B, III-C and 111-0 wood glass
 - c. For Type II-E wood capiz
5. Flooring
 - a. On fill and slab floor - cement finish,
 - b. For Type II down to Type kiln dried,
 - c. Other types - sun dried,
6. Electrical and Plumbing - Philippine made materials and fixtures
7. Toilet and Bath -same as above
 - a. Waist coating - 1.50 meters high. Locally manufactured white tiles.
 - b. Toilet and bath for the first 60 sq. m. of floor area or for every two (2) bedrooms or more or less twelve (12) sq.m. each.

C. Adjustment Factors for Second and succeeding floors.

In applying the schedule of unit values for the second floor and succeeding floors, the percentage deduction from the basic schedules of unit values shall be as follows:

Section 6 GENERAL PROVISIONS ON BUILDINGS

1. The fair and current market values of all buildings shall be computed on the basis of the prevailing schedule of unit base construction of buildings. However, for buildings and other structures constructed in low lying areas or perennially flooded localities and in areas where adverse social and economic conditions prevail, a deduction of 15% to 20% may be subtracted from the unit base and construction cost of the type of building being appraised. This is to compensate for such differences in value of the similar types of buildings constructed in ideal and highly developed environments.
2. This schedule of unit values shall be controlling, but when the building or structure to be appraised is not covered by this schedule, it shall be appraised at its current and fair market value independent of this schedule and assessed for taxation purposes at the prescribed assessment level based on the actual use of the property.
3. The assessment level for the building and other improvements shall be the assessment levels provided for under Section 218 of RA 7160 (Local Government Code of 1991) specially on buildings and other structures, par (b) nos. 1,3, thereof and on machineries (c); on special class (d) thereof.

SANGUNIANG PANGALAWIGAN
MARICUQUE
CERTIFIED COPY
 6/15/22
AUTHORIZED SIGNATURE DATE

4. The application on the minimum base value shall depend on the sound judgment of the appraiser or assessor based primarily on the quality of finish or workmanship of the building structures.
5. As a general rule, condominium buildings are assessed based on the separate values of the individual units within the condominium structure and are applied appropriate assessment levels on the market value of the respective condominium units.
6. All condominium units whether residential or commercial shall be assessed on the basis of the Condominium Certificate of Title. However, if the parking units spaces shall have been provided for, the same shall be assessed together with the condominium, unit if the use or ownership has been identified in one person or entity. Otherwise, all parking unit spaces shall be assessed as a whole under one assessment with particular notation on parking space unit number, although a separate certificate of condominium title has been individually issued under the name of one person or entity. If, however for some reason, individual assessment is required for these parking spaces, the assessment level to use for each parking space shall be the assessment level used in the residential unit of the condominium concerned.
7. The physical depreciation table for building indicated in Section 8-A shall be used as the guide in applying the depreciation to old buildings and other similar structures.
8. Deduction of accrued yearly depreciation shall be allowed and applied corresponding for old buildings and machineries. However, issuance of tax declaration for this purpose may be made once every three years, where the aggregate yearly depreciation rates for three years will be computed and covered accordingly.
9. The unit base values were derived from typical building design for each type of building, using the aforecited standard specifications. The use of the unit rates for "extra" or deductions shall be applied depending on the deviation of the construction of the building from the standard specifications, regardless of whether the minimum or maximum and other similar structures.
10. Auxiliary improvements, such as fences, pavements, etc. which may be considered appurtenances of main structures, shall be appraised independently and in the values thereof added to the value of main structures.
11. This schedule of values shall be applicable to new buildings and improvements becoming initially taxable beginning 2018 and to the general revision of all real property assessments for under Section 219 of RA 7160. Provided, however, that in the latter case, allowable depreciation shall be applied.

Section 7
GENERAL PROVISIONS
ON MACHINERIES AND OTHER EQUIPMENT

1. The fair market value of brand new machinery shall be the acquisition cost. In all other cases, the fair market value shall be determined by dividing the remaining economic life of the machinery by its estimated economic life and multiplied by the replacement or reproduction cost. If machinery is imported, the acquisition cost includes freight, insurance, bank and other charges, brokerage, arrastre and handling, duties and taxes, plus cost of inland transportation, handling and installation charges at the present site. The cost in foreign currency of imported machinery shall be converted to peso cost on the basis of foreign currency exchange as fixed by the Bangko Sentral ng Pilipinas.

OFFICE OF THE CITY ENGINEER
MARINQUE

AUTHORIZED SIGNATURE DATE

- 2. For the purpose of assessment, a depreciation allowance shall be made for machinery at a rate not exceeding five percent (5%) of its original cost or its replacement or reproduction cost as the case maybe, for each year of use. Provided, however, that the remaining value for all kinds of machinery shall be fixed at not less than twenty percent (20%) of such original replacement, or reproduction so long as the machinery is useful and in operation.
- 3. Replacement or Reproduction Cost New (RCN) on the machinery shall be determined by dividing the dollar (\$) exchange rate in peso at the time of appraisal (present) by the dollar (\$) exchange rate to peso at the time of acquisition and multiplied by its acquisition cost or original cost. The foreign currency rate shall be fixed by the Bangko Sentral ng Pilipinas.
- 4. The assessment level for machineries and other equipment for different classes based on actual use, shall be those prescribed in Section 218 paragraphs (c) and (d) of RA No. 7160.

Section 8-A SCHEDULE OF DEPRECIATION

STRUCTURAL TYPE	I	II-A	II-B	III-A, III-B	III-C, III-D	III-E
1st 5 Years	5.2%	5.0%	5.0%	4.0%	4.0%	3.0%
2nd 5 Years	4.6%	4.2%	4.0%	3.6%	3.5%	2.5%
3rd 5 Years	4.0%	3.6%	3.4%	3.2%	3.0%	2.5%
4th 5 Years	3.4%	3.2%	3.0%	3.0%	2.5%	2.0%
After 20 Years	3.2%	3.2%	3.0%	2.5%	2.0%	2.0%
Residual Value	10.0%	12.0%	15.0%	20.0%	28.0%	30.0%

STRUCTURAL TYPE	IV-A	IV-B	V-A	V-B	V-C
1st 5 Years	2.6%	2.4%	2.2%	2.0%	1.8%
2nd 5 Years	2.3%	2.2%	2.0%	1.8%	1.4%
3rd 5 Years	2.2%	2.0%	1.7%	1.5%	1.2%
4th 5 Years	2.0%	1.7%	1.3%	1.2%	1.0%
After 20 Years	1.6%	1.4%	1.1%	1.0%	1.0%
Residual Value	33.0%	35.0%	37.0%	40.0%	40.0%

For an excess in the above rates of annual depreciation, bigger rate may be applied in extra ordinary cases, that is , if properly presented and described as in the following instances:
following instances:

1. Damage due to catastrophe (earthquake, fire, deluge, typhoon, etc.)
2. Heavily damaged due to pests (termite, etc.)
3. Established defects in construction
4. Obsolescence

Section 9 BUDGETARY ALLOCATION

The amount of Five Million Five Hundred Forty Seven Thousand Pesos (P5,547,000.00) is hereby appropriated for the implementation of this Ordinance.

Section 10 SEPARABILITY CLAUSE

If any part of this ordinance is held invalid or unconstitutional, other provisions not affected thereby shall remain in force and effect.

ADJUSTMENT OF VALUES FOR AGRICULTURAL LANDS AS TO LOCATION									
TYPE OF ROAD				% OF ADJUSTMENT					
A. Provincial or National Highways				No deduction from the base value of 100%					
B. For other all-weather roads				3% deduction from the base value of 100%					
C. Dirt Roads				6% deduction from the base value of 100%					
D. For no road outlet				9% deduction from the base value of 100%					
Location		Distance (In km.) from		All-Weather Road		Local Trading Center			
A.	Zero	to	1km	0%		5%			
B.	Over	1 to 3	kms	-2%		0%			
C.	Over	3 to 6	kms	-4%		-2%			
D.	Over	6 to 9	kms	-6%		-4%			
E.	Over	9	kms	-8%		-6%			
ADJUSTMENT OF VALUES FOR URBAN LANDS									
CORNERS INFLUENCE				SUBDIVISION ROADS					
SUNKET LOT				Plus 10%		CEMENTED			
FRONTAGE ADJUSTMENT				Minus 1% to 30%		ASPHALTED			
(for Commercial Lot Only)				Plus (50% of Unit Value x length of frontage)		DIRT ROAD			
ROAD LOTS IN COMMERCIAL CENTERS - 10% of Unit Value plus cost of Cementing/Asphalting/Paving.				ASSESSMENT LEVELS					
A. ON LANDS				ASSESSMENT LEVELS					
Residential		Assmt Lev		Timberland		Over		Not Over	
Agricultural		20%				300,000		300,000	
Commercial		40%				500,000		500,000	
Industrial		50%				750,000		750,000	
Mineral		50%				1,000,000		1,000,000	
Timberland		20%				2,000,000		2,000,000	
B. ON BUILDINGS / STRUCTURES				ASSESSMENT LEVELS					
Residential		Assmt Lev		C. ON MACHINERIES		Assmt Lev			
Over		Not Over		CLASS					
175,000		300,000		Agricultural		40%			
300,000		500,000		Residential		50%

MEMORANDUM

FOR : **The Provincial environment
And Natural Resources Officer**

THRU : The Chief, Technical Services Division
The Chief, Regulation and Permitting Section

FROM : The Special Land Investigator-1

SUBJECT : **PRELIMINARY INVESTIGATION REPORT OF PROVISIONAL
PERMIT APPLICATION NO. 044001-006-2022 OF RAMON J.
APOSTOL SITUATED AT BRGY. LAYLAY, BOAC,
MARINDUQUE.**

DATE : November 8, 2022

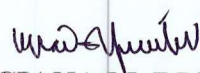

In compliance with your directive relative to the above-noted subject, please be informed that the undersigned conducted preliminary investigation and it was found and ascertained the following findings:

BACKGROUND/FINDINGS:

1. That the land subject of Provisional Permit Application of Ramon J. Apostol is a foreshore land adjacent to his private land identified as 3825 pt., Cad. 544-D, situated at Barangay Laylay, Boac, Marinduque.
2. It is subject of approved plan Fli 0440012019-213-D in favor of the herein applicant, containing an area of 1,276 square meters. The property is located wherein the trend of the land is accessible by land and water transportation. Generally, it is intended for commercial and eco-tourism purposes.
3. Based on development Plan, the proposed improvement are 5 cottages made of light materials and one (1) semi-concrete kitchenette shall be erected thereon with an approximate amount of SIX HUNDRED SEVENTY FIVE THOUSAND THREE HUNDRED EIGHTEEN (Php 675,318.00) PESOS ONLY.
4. Verification of this Office revealed that the land applied for is falls within Alienable and Disposable zone per BF LC Map No. 789, Project No. 1.
5. Finally, the possession and occupation over the area is peaceful, well established and it is free from claims and conflicts. Further, it is suited for the purpose.

In view hereof, it is hereby respectfully recommended that the applicant shall be advised that the said area shall be subject for Appraisal of improvement of this Office.

For information, record and appropriate action.
