MEMORANDUM

FOR : The Regional Executive Director
DENR MIMAROPA Region
1515 DENR By the Bay Building, Roxas Boulevard,
Barangay 668, Ermita, Manila

THRU : The OIC, ARD for Technical Services

FROM : The Provincial Environment and
Natural Resources Officer

SUBJECT : SUBMISSION OF ACCOMPLISHMENT REPORT ON LAWIN
PATROLLING WITHIN THE AREA OF RESPONSIBILITY OF
CENRO ROXAS PALAWAN FOR THE PERIOD OF
NOVEMBER 2022

Respectfully forwarded is the memorandum of CENRO Roxas, Palawan dated December 1, 2022 relative the above subject.

As reported, a total of 90.50 kilometers distance were patrolled for the month of November 2022. In addition, there were several threats recorded during the said period, these threats were already addressed and/or no further action needed. *(Please refer to the attached matrix of the report)*

For information and further instruction.

For the PENRO;

DAVID F. DALINO
LMO III/ Chief, Patents, Deeds & Permitting Unit
In Charge, Office of the PENRO

Summary Patrol Report

Region 04B - Roxas-Pal

Number of days analyzed: 29 1 Dec 2022 11:39 AM

This report presents the patrol performance and quality of the implementing unit during the above stated period of time (number of days). The report contains information on accomplishment rate, coverage and intensity of patrolling in different forest types on patrol distance covered per patroller. The information is meant to provide a basis for patrol planning for the next planning period and implementation of adaptive measures to enhance patrolling as necessary.

Overall accomplishment rate*

Level of Accomplishment

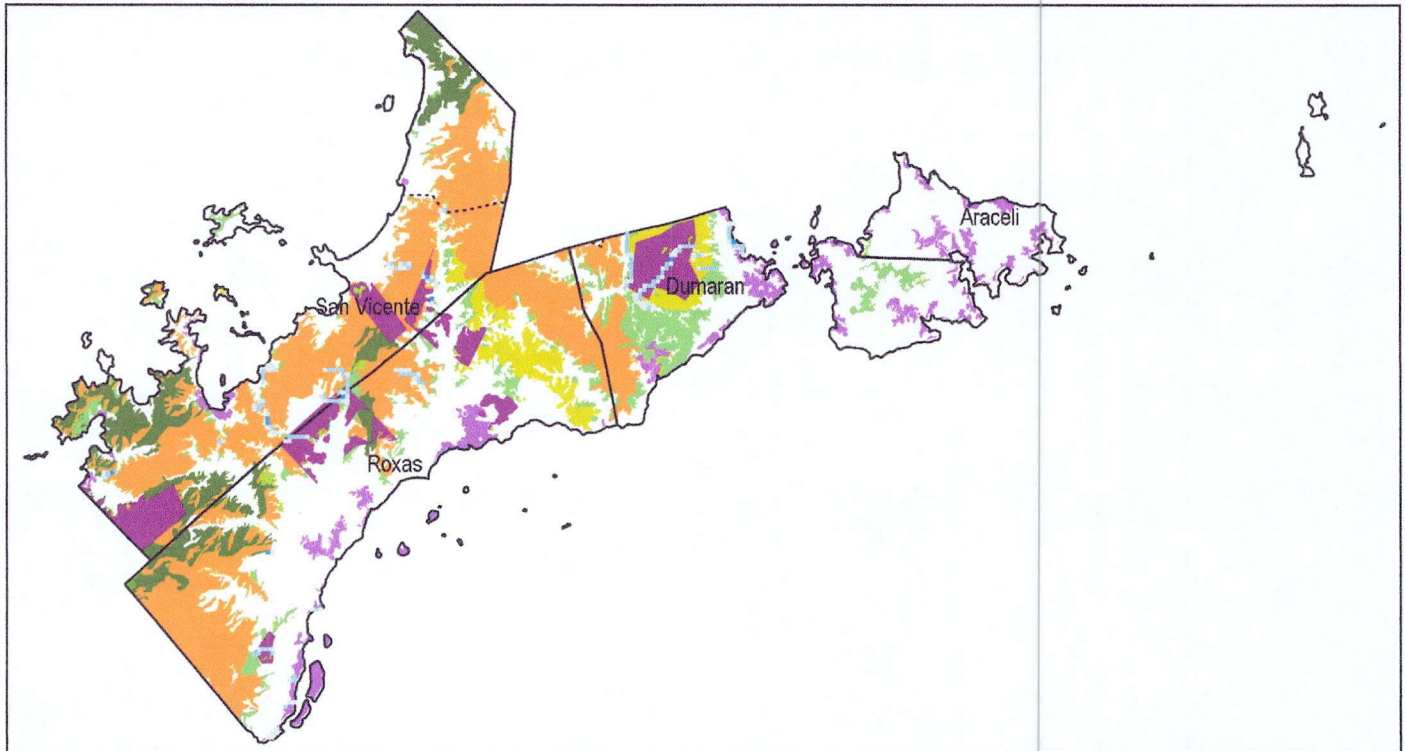

● Accomplishment
● Target

Accomplishment* for the period 90.50
Target* distance for the period 108.00

Accomplishment Rate:
83.8%

*Target is computed based on 10km target per team of 4 DENR patrollers per month

Patrol coverage and intensity

Republic of the Philippines
Department of Environment and Natural Resources
Lawin Forest and Biodiversity Protection System

Patrol distance covered by each forest ranger

Forest Ranger	Patrol Distance Accomplished
Mark Anthony Ortega	41.96
Donne Sabroso	38.84
Merma Saddin	37.05
Charlie Rabang	34.23
Enrique Jardin	34.23
Roy Mercader	34.23
Alvin Maduro	29.29
James Tajon	29.29
Rogelio Yaquitin	29.29
Ryan Giganto	29.29
Alonso Tabangay	19.05
Bobby Garcia	19.05
Markwilliams Sotoza	19.05
Ronnie Jann Ian Mabitasan	19.05
Armando Gabayan	7.92
Lemuel Bacalla	7.92
Marco Angelo Marquez	7.92
Christopher Padrones	6.85
Rommel Allan Llaniguez	4.42

Summary Threat Report

Region 04B - Roxas-Pal

Number of days analyzed: 29 1 Dec 2022 11:46 AM

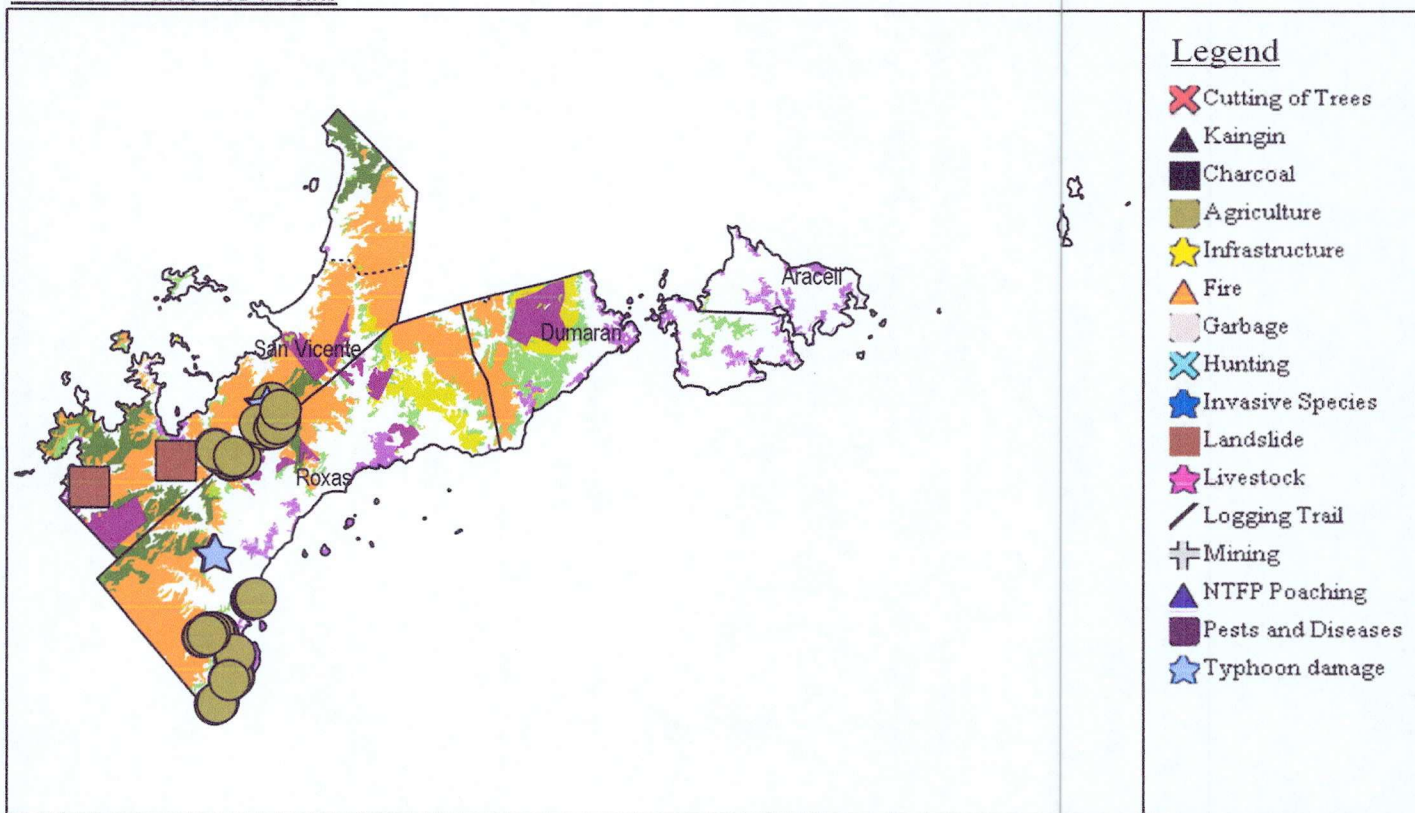

This report presents information for the implementing units of DENR to effectively plan and carry out actions for addressing observed threats to the forest.

Threats observed and level of response required

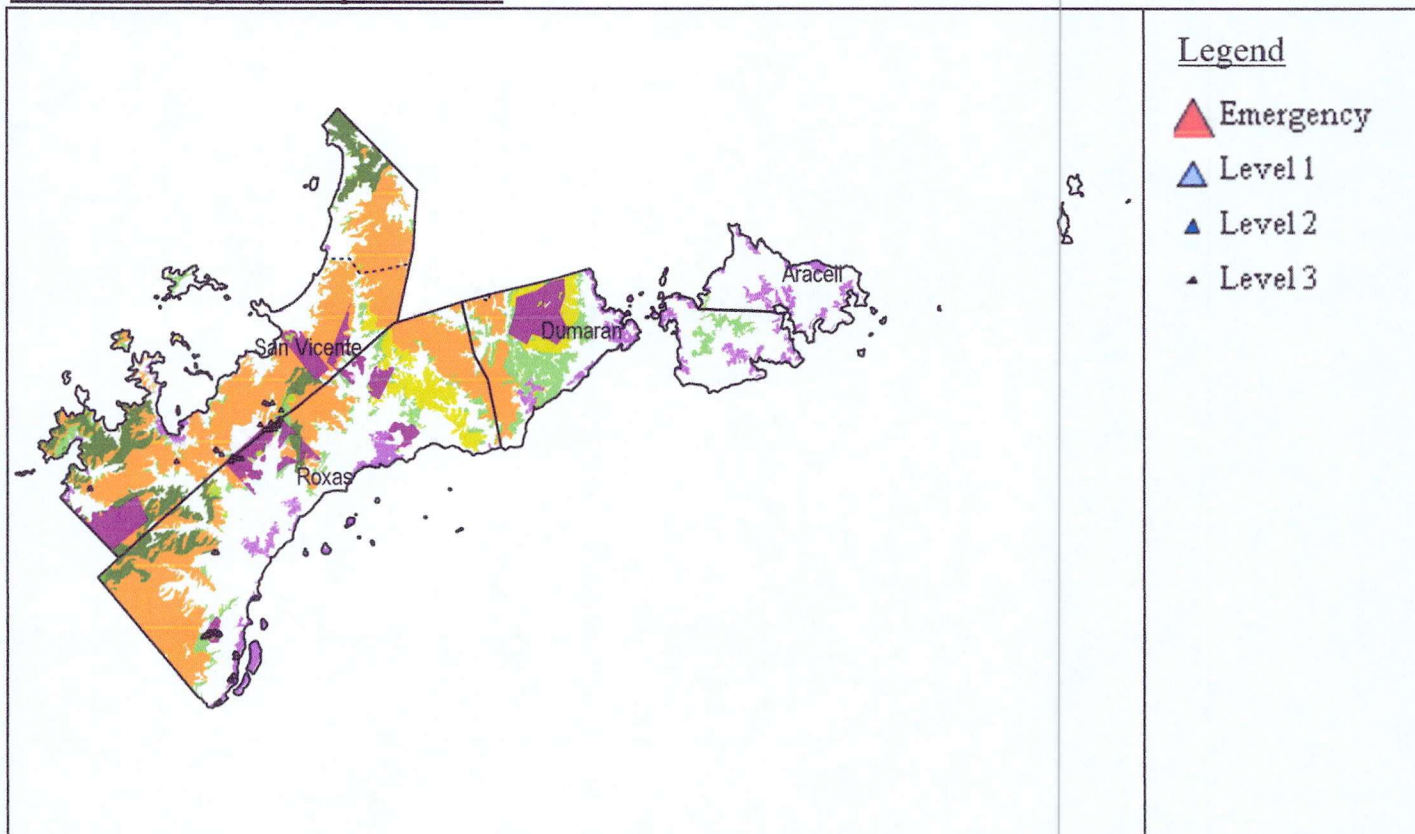

Threat	No. of Observations	Emergency - Immediate action required!	Level 1 - Action required within a week	Level 2 - Action required within a month
Annual and Perennial Farming	76	0	0	0
Typhoon-related Threats	10	0	0	0
Landslide and Mudslide	3	0	0	0

Location of observed threats

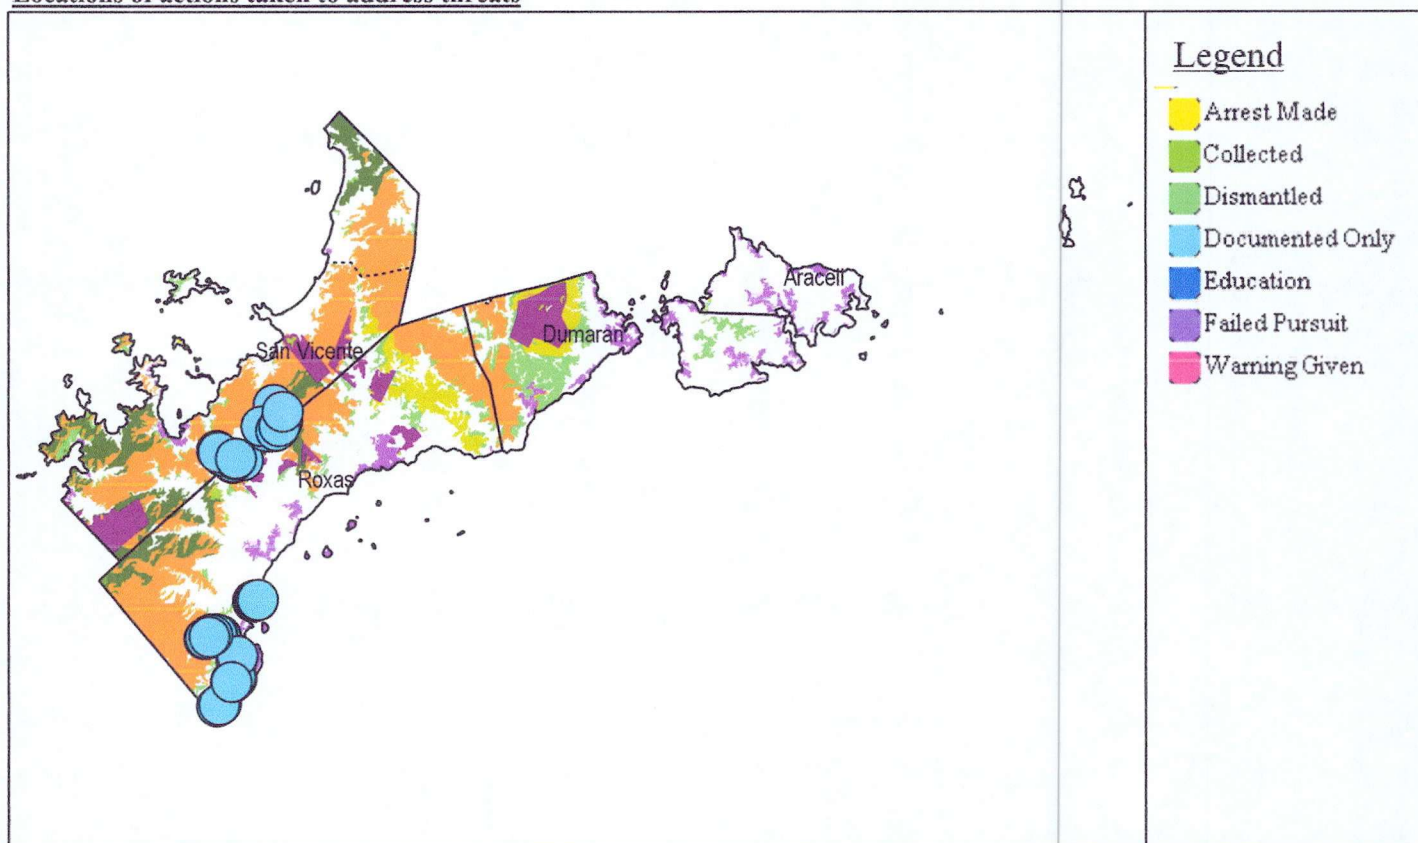

Locations and urgency of responses needed

Locations of actions taken to address threats

Actions taken to address observed threats during patrols

Forest Protection Effectiveness Report

Region 04B - Roxas-Pal

Number of days analyzed: 29

1 Dec 2022 11:38 AM

This reports presents trends in observations of forest condition, regeneration, threats and indicator species. The combined presentation allows for an evaluation if protection efforts are effective, conservation targets are met and the forest achieves the desired future forest condition. Protection efforts are effective, when records of forest condition, regeneration and indicator species show an upward trend towards more observations more and denser regeneration, particularly in degraded forest areas. Increasing trends in indicator species suggest that the improved forest condition is providing a better habitat for forest dependent species. All trends presented are put in relation to the patrol effort to provide comparability. Forest cover data were derived from 2003 and 2010 NAMRIA land cover maps.

Trends of Observations per Patrol Kilometer in the Forest Conservation Area

Trend in Threats

A decreasing trend in threats in the forest conservation area mean effective forest protection; an increasing trend means the opposite.

Trend in Indicator Species

An increasing trend in indicator species in the forest conservation area means effective forest protection; a decreasing trend means the opposite.

Trends in Regeneration Density

An increasing trend in regeneration means effective forest protection; a decreasing trend means the opposite.

Trends of most common Threats
