MEMORANDUM

FOR : The OIC-Community Environment and
Natural Resources Officer

FROM : The Undersigned

SUBJECT : **REPORT ON THE CONDUCTED INSPECTION AT
SCOTTLAND INC. LOCATED AT SO. TANDUL,
BARANGAY, BINTUAN, CORON, PALAWAN**

DOCUMENTS
ATTACHED :

1. Environmental Compliance Certificate
2. Forest Land Use Agreement for Tourism Purposes
3. SEP Clearance
4. Compliance Monitoring Sheet for Forestry Tenure (FLAgT) (2022)
5. Annual Accomplishment Report for CY 2021

This pertains to the verbal instruction of OIC-CENRO Rodney G. Verian to conduct inspection at Scotland, Inc. Sitio, Tandul, Brgy. Bintuan, Coron, Palawan.

Please be informed that on June 24, 2022, the team composed of DENR personnel together with some members of Sagip Coron led by Mr. Rodolfo Cadampog coordinated first to the barangay before proceeding to the area. Barangay Kagawad Ricardo Balbutan and Barangay Kagawad Romy Alvarez accompanied the team.

Engr. John Bryan Amado of Scotland Inc. assisted us in the conduct of said inspection.

Scotland Inc. has a total FLAGT area of 16.3 hectares. The Forest Land Use Agreement for Tourism Purposes was issued on December 3, 2015 (FLAGT No. 01-2015) and will expire on December 2, 2040. The Environmental Compliance Certificate was also approved on June 14, 2014 Bearing No. ECC-4B-1206-0084. Likewise, the corresponding SEP clearance was also issued on September 28, 2012.

The proponent has on-going development of 4.6 hectares based on reading of Global Positioning System (GPS). There are twenty three (23) on-going structures, twenty (20) are intended for guest/visitors which includes the receiving area, cafeteria, canteen, swimming pool, jacuzzi, clinic, spa etc. While the other structures are STP, desalination and siltation/soil erosion mitigating structures.

The Project area was already fenced with cyclone wire on the three (3) sides and open at the beach front.

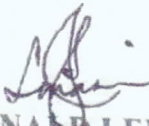

During the inspection, Mr. Rodolfo Cadampog said that he saw the SEP clearance of Scotland Inc. that the project area has only a total of 4-5 hectares. Engr. John Bryan Amado asked him if he can give him a copy of the said SEP Clearance but cannot provide any. However, on the SEP clearance the area is not indicated. But on the ECC and FLAgT it is clearly stated that it covers 16.3 hectares.

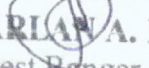

No observed quarrying activities except cut and fill since the terrain is hilly. Mitigation measures on some part are already constructed to avoid soil erosion.

Records of this office, showed that the Proponent is religiously paying their annual rental and submitted their annual accomplishment report for CY 2021.

For information, record and further instruction if any.
