One of these initiatives is the adoption of the LAWIN forest and biodiversity protection system as a national strategy for forest and biodiversity protection in the Philippines by virtue of DENR Administrative Order No. 2018-21, Section 1 of which provides that it is the policy of the State to protect, conserve, properly utilize and sustainably manage forest and biological resources to ensure environmental security, serve as an engine for economic growth and socio-cultural development, reduce disaster and climate risk and improve ecosystem services for the welfare of and equitable benefits of the present and future generations.

In the province of Palawan, the implementation of LAWIN system was commenced in year 2017. The identified Forest Conservation Areas in every CENTRO are duly maintain by the rangers (mostly Forest Rangers) using the LAWIN Application System downloaded in the Cellular Phones in aid of planning activities like the map of current forest cover, identification of conservation objectives, formulation of desired future forest condition, formulation of measurable conservation targets and identification of strategies to achieve the targets.

For almost five (5) years of LAWIN implementation in the province of Palawan, it is necessary to assess its efficiency and further in relation to project
