MEMORANDUM

FOR : The Regional Executive Director
DENR MIMAROPA Region
1515 L&S Bldg. Roxas Blvd. Ermita, Manila

THRU : The ARD for Technical Services

FROM : The OIC, PENR Officer

SUBJECT : **CONSOLIDATED REPORT ON THE CONDUCTED
ACTIVITIES IN LINE WITH THE CELEBRATION FOR
MONTH OF THE OCEAN 2022 WITHIN THE
ADMINISTRATIVE JURISDICTION OF PENRO
OCCIDENTAL MINDORO**

In line with the celebration of this year's Month of the Ocean 2022 with the theme, "Protect and Restore Ecosystems and Biodiversity," PENRO Occidental Mindoro conducted various activities within the administrative jurisdiction.

Please be informed, CENRO Sablayan, Occidental Mindoro conducted several activities such as 1.) Kick-off activity through a motorcade around the town of Sablayan on March 4, 2022; 2.) Coastal Clean-up at So. Tabuk, Brgy. Buenavista, Sablayan on May 6, 2022; 3.) Symposium/Lecture on the Celebration of Month in Occidental Mindoro State College- Sablayan Campus on May 13, 2022, attended by students and selected faculty staff which were discussed about Marine Ecosystem, present status, threats, and possible help to employ to conserve and protect the marine ecosystem;; 4.) Operation Baklas of Election Tarpaulin on May 10, 2022 within MAPSA and Sablayan; 5.) Marine Biodiversity Conservation Camp in Apo Reef Natural Park on May 26-27, 2022, participated by Sangguniang Kabataan in coastal barangays and officials of Bureau of Jail Management and Penology in the Municipality of Sablayan; lastly, 6.) Culmination Day of 2022 Month of the Ocean by conducting Coastal Clean-up cum SCUBASURA on May 31, 2022 in Free Beach Area, Sablayan, respectively. Likewise, the CENRO San Jose conducted series of activities of CEPA campaigns in partnership with the Task Force Cali-Kasan that was attended by different partners including the Fraternity Organizations, Municipal LGU, Barangay LGU, other government offices, ENR Ambassadors of Calintaan, Occidental Mindoro and also, PENRO Ernesto E. Tañada, DENR Task Force Tayo ang Kalikasan Executive Director/Assistant Director, SCIS – Maria Matilda A. Gaddi, SCIS DCD Chief – Adona P. San Diego and team.

Republic of the Philippines
Department of Environment and Natural Resources
MIMAROPA Region
PROVINCIAL ENVIRONMENT AND NATURAL RESOURCES OFFICE

In addition, on May 20, 2022, the PENRO Occidental Mindoro conducted a coastal clean-up activity in Barangay Lumangbayan, Abra de Ilog, Occidental Mindoro in coordination with the Local Government Unit of Abra de Ilog, which resulted to the collected thirty (30) sacks of non-biodegradable wastes. Prior to the clean-up, short program was held, wherein the Brgy. Captain of Lumangbayan expressed their willingness in participating to environmental activities and informed that there are volunteers from other organizations have regular clean-up activities within the said barangay. In addition, PENR Officer Ernesto E. Tañada explained the effect of the waste being washed in to the sea as it negatively affects the marine resources in the Verde Island Passage (VIP) which recognised as the "Center of the Center of Marine Biodiversity" and how proper solid waste management greatly contributes to its protection and conservation. This activity had a total of one hundred eighteen (118) participants were composed of barangay health workers, barangay police, barangay kagawad, Philippine Coast Guard and PENRO Personnel.

Attached are detailed reports of the said activities.

For your information and record.

3. Activity Proper

On May 4, 2022 at 6:30 in the morning, the DENR-CENRO Sablayan, spearheaded by CENR Officer Anastacio A. Santos conducted a kick-off activity for the Month of the Ocean 2022 with this year theme "The Science We Need for the Ocean We Want", thru a motorcade around the town of Sablayan.

The activity was also participated by the Local Government Unit of Sablayan, Occidental Mindoro thru its Municipal Environment and Natural Resources Office headed by Mr. Robert P. Duquil, bikers from 20/20 KPH group, and the members from the Philippine National Police (PNP).

After the motorcade, the participants proceeded to Municipal Plaza for a short program hosted by Ms. Helen M. Alcober. The program was started with a prayer led by Forest Ranger Reynaldo Barrera. It was followed by a welcome remarks given by CENR Officer Santos. He extended his greetings and appreciation to everyone who attended the event. He emphasized that the ocean plays an important role to humanity so there's a need to protect it. He also reminded and encourage everyone to actively participate and show support in the upcoming series of events in line with the celebration of Month of the Ocean.

MENRO Robert P. Duquil also gave a message in behalf of Honorable Mayor Andres D. Dangelos. He greeted everyone and mentioned that Mayor Dangelos is thankful for the invitation of the DENR-CENRO Sablayan in the said event. MENRO Duquil also assured that their Office will fully support and participate in all the activities to be conducted by the DENR-CENRO Sablayan.

Lastly, PASu Krystal Dayne T. Villanada of Apo Reef Natural Park discussed the schedule of upcoming events such as Coastal Clean-up at So. Tabuk, Brgy. Buenavista, Sablayan, Occidental Mindoro on May 6, 2022 (Friday), Mini Symposium/Lecture for the Celebration of Month of the Ocean at Occidental Mindoro State College on May 12, 2022 (Friday), Operation Baklas of Election Tarpaulin at MAPSA and Sablayan Area on May 18-20, 2022, Mini Bio-Camp at ARNP on May 19-20, 2022 and the Launching of the Year of the Protected Area Campaign on May 23, 2022 of the Department of Tourism in coordination with the DENR.

I. TITLE

ACTIVITY REPORT ON COASTAL CLEAN-UP AT. SO TABUK, BRGY. BUENAVISTA, SABLAYAN, OCCIDENTAL MINDORO.

II. OBJECTIVES

Every May, Month of the Ocean is celebrated as mandated by Presidential Proclamation No. 57 issued on 1998. This endeavour focuses the spotlight concerning the ocean wherein various activities and programs are being conducted.

The primary aim of holding this event is to make the people aware to save the ocean for the present and future generations. This year's theme celebration is focus on "Protect and Restore Ecosystems and Biodiversity".

III. PARTICIPANTS

The coastal clean-up was conducted in collaboration with Municipal Environment and Natural Resource Office and participation of Bureau of Fire Protection (BFP), Philippine National Police Sablayan MPS, Bureau of Jail Management and Penology (BJMP), Regional Mobile Force Battalion (RMFB), Special Action Company (SAC), Pollution Control Officer and ECC Holders, Occidental Mindoro State College and Tau Gamma Phi/Sigma.

IV. HIGHLIGHTS

To end the celebration, a coastal clean-up was conducted at So. Tabuk, Brgy. Buenavista, Sablayan, Occidental Mindoro on May 31, 2022. The invited participants have designated areas to be cleaned. Moreover, divers from CENRO Sablayan, ARNP-PAMO, PENRO Occidental Mindoro and MENRO Sablayan have collected garbage from the underwater in the Free Beach area in Brgy. Poblacion, Occidental Mindoro. A total of 85 partially full sacks of garbage were collected.

At the culmination ceremony, the CENR Officer Anatacio A. Santos expressed his gratitude to the participants of all the activities. In his message, he stressed the importance of restoration of marine ecosystem to the environment and to the people, he encouraged everyone to help the government. Certificates of participation were awarded to participants who attended the clean-up.

V. PHOTO DOCUMENTATION

Photos and drone shots during the clean-up are attached.

SUBJECT : **SUBMISSION OF ACTIVITY REPORT ON THE
MARINE BIODIVERSITY CONSERVATION CAMP
HELD AT APO REEF NATURAL PARK FROM MAY 27-
28, 2022.**

Respectfully submitted is the Activity Report on the Marine Biodiversity Conservation Camp held at Apo Reef Natural Park from May 27-28, 2022. The event was participated by members of Sangguniang Kabataan in coastal barangays and officials of Bureau of Jail Management and Penology.

Attached herewith is the narrative report and its appendix.

For information and record.

KRYSTAL DAYNE T. VILLANADA

I. TITLE

ACTIVITY REPORT ON MARINE BIODIVERSITY CONSERVATION CAMP IN APO REEF NATURAL PARK.

II. INTRODUCTION

In the Philippines, the month of May each year is celebrated as the *Month of the Ocean* (MOO). This is being conducted by virtue of Presidential Proclamation No. 57 issued in 1998 during the administration of former President Joseph Ejercito Estrada. This year, the theme of MOO is "*Protect and Restore Ecosystems and Biodiversity*" which is also listed as one of the Ocean Decade Challenges.

The Department of Environment and Natural Resources (DENR) is among the agencies mandated to conduct activities during the annual celebration of the Month of the Ocean. In accordance to this mandate, the DENR Community Environment and Natural Resources Office – Sablayan (CENRO-Sablayan) prepared a series of activity with the goal of increasing the engagement of locals towards the conservation marine ecosystems within its jurisdiction. This report focuses on the Marine Biodiversity Conservation Camp which was facilitated by Apo Reef Natural Park – Protected Area Management Office (ARNP-PAMO) and participated by the youth leaders of Sablayan, Occidental Mindoro.

III. OBJECTIVES

This activity aimed to a.) provide youth leaders a background on marine ecosystems and, b.) orient them on existing citizen science initiatives that they can participate in.

IV. PARTICIPANTS

The Marine Biodiversity Conservation Camp at Apo Reef Natural Park was participated by members of the Sangguniang Kabataan (SK) in coastal barangays of Sablayan and Bureau of Jail Management and Penology (BJMP) officials. It was facilitated by personnel from ARNP-PAMO and Municipal Environment and Natural Resources Office (MENRO) of Sablayan.

V. HIGHLIGHTS OF ACTIVITIES

The Marine Biodiversity Conservation Camp was held at Apo Reef Natural Park, Sablayan, Occidental Mindoro from May 27 to 28, 2022. The program was opened by Ms. Anna Ritchelle D. Nicanor, Special Collecting and Disbursing Officer of ARNP-PAMO. She oriented the participants on the goals and objectives of the Camp and ran through the schedule of activities. In addition to these, she discussed the code of conduct which the participants were expected to follow. Ms. Hugo Salvador, CMEMP Extension Officer of ARNP-PAMO, delivered a lecture on marine ecosystems afterwards.

Ms. Salvador started her presentation by providing a brief background on three marine ecosystems: mangrove forests, seagrass meadows, and coral reefs. All of which are present in Sablayan and are well-known among the locals. She highlighted the state of these ecosystems both globally and locally, providing data from best-available science, and the threats that they face. The threats tackled were climate change (primarily sea temperature rise and ocean acidification), Crown-of-Thorns Starfish (CoTS) outbreaks, land reclamation, overfishing and destructive fishing practices, illegal poaching, and marine pollution. Ms. Salvador closed her lecture by enumerating ways how the youth and other citizens of Sablayan may help in the conservation of the marine ecosystems discussed. Here, she presented existing citizen science initiatives that the participants may contribute to including the Mindoro Citizen Scientists, Mindoro Biodiversity Wildlife Watch, and Philippine Coral Bleaching Watch. These initiatives will be further discussed later in the day.

Mr. Joselito A. Tiongson, Park Maintenance Foreman of MENRO Sablayan, was the last speaker of the morning. He introduced the locally-managed Marine Protected Areas (MPAs) in Sablayan to the participants and provided them information on the management zoning that is being implemented in each MPA. Furthermore, Mr. Tiongson discussed the results of their recent coral reef assessments using Reef Check, highlighting the decrease in coral cover and fish abundance observed in some MPAs this year.

In the afternoon, Ms. Salvador presented the process of contributing to citizen science initiatives, focusing on the initiatives of PCBW and Mindoro Biodiversity Conservation Foundation Incorporated (MBCFI). She ran through the Bleaching Report Form which the participants may easily access online and the rules to be followed when joining Mindoro Biodiversity Wildlife Watch and Mindoro Citizen Scientists. At around 3:00 PM, the participants together with ARNP-PAMO personnel proceeded simulate the conduct of a basic coral bleaching and CoTS surveillance. The participants were towed from Ego Wall to Aladin while in snorkeling gear. Afterwards, they discussed their observations with the facilitators. Some participants recorded minimal bleaching (>20% of coral colonies are bleaching) and all of them did not record individuals of CoTS.

After the simulation activity, certificates were awarded to each of the participants who attended the Marine Biodiversity Conservation Camp. The awarding was led by Ms. Anna Ritchelle D. Nicanor and MENR Officer, Mr. Robert P. Duquil. Each participant also received a token from ARNP-PAMO. MENRO Duquil then delivered his closing remarks, thanking the participants for their attendance and encouraging them to use what they have learned to help conserve the marine ecosystems in Sablayan.

The participants and facilitators rose early the following morning to conduct a coastal clean-up activity and daytime nesting beach survey along the sandy beach in Apo Island, Apo Reef Natural Park. Different marine litter types were collected during the coastal clean-up activity including single-use plastic and derelict fishing gears (DFGs). Meanwhile, there were no fresh sea turtle tracks recorded during the day. Ms. Salvador resorted to using old tracks to discuss the nesting habit of green turtles (*Chelonia mydas*) and hawksbill turtles (*Eretmochelys imbricata*) and method used acquire data from the tracks left by nesting sea turtles. After these activities, everyone had their breakfast and headed back to mainland Sablayan.

VI. CONCLUSION AND RECOMMENDATIONS

The topics covered in the Marine Biodiversity Conservation Camp were relevant to the participants of the event. The lecturers were successful in delivering the presentations to a non-science audience. This was evidenced by the active participation of the SK members and BJMP officials

It is recommended for future Marine Biodiversity Conservation Camps to have a larger number of participants from the youth and longer duration. Doing such will improve the learning outcomes of the activity but at the same time, entail the need to procure additional survey equipment such as snorkeling gears.

VII. PHOTOS AND ATTENDANCE

4 Venue: Occidental Mindoro State College, Sablayan, Occidental Mindoro

5 Date: May 13, 2022

6
7 Attendees:

8 *(Please see attached attendance sheet)*

9 **I. Opening Program**

10
11 The meeting started at around 1:30 in the afternoon with an invocation and singing of the
12 National Anthem thru an AVP presentation.

13 Information Officer Serna Urieta formally opened the program by introducing herself along
14 with the DENR personnel in the person of CMEMP Officer Hugo Ignacio Salvador, Ms. Anna
15 Ritchelle Nicanor, For. I April Amores and GAD Staff Officer Martin. She also mentioned that
16 the said CEPA activity was an effort of DENR office in expressing support and unity to the
17 celebration of Month of the Ocean 2022.

18 For a welcome remarks, OMSC Campus Director Julie Urieta Lopez mentioned that they are
19 grateful that OMSC students were given the opportunity to be a recipient of the said
20 information drive relative to conserving and protecting environment, wherein they can employ
21 their skills and knowledge as a youth to be an asset of the present generation, to promote and
22 spread environmental concern and awareness.

23 It was followed by an introduction of the first resource speaker who was a graduate of UP LOS
24 Banos Laguna and the current CMEMP Officer of APO Reef Natural Park DENR CENRO
25 Sablayan, Mr. Hugo Ignacio Salvador.

26
27 **II. DISCUSSION**

28
29 The first speaker Mr. Hugo Ignacio Salvador discussed about Marine Ecosystem,
30 present status, threats and the possible help to employ to conserve and protect the
31 marine ecosystem as follows:

- 32
33 • Briefly discussed that Month of the Ocean was celebrated thru the verge of
34 Presidential Proclamation No. 57, s. 1998 every month of May because it was
35 the month of peak fishing season.

36
37 **Defined Three types of Marine Ecosystem**

- 38
39 • First was the Mangrove forest (bakawan) characterized by trees or shrubs that
40 can live on loose and wet soil and salt water that serves as nursery for small
41 fishes. Presented a video showing how Bakawan protect coast from storms and
42 tsunamis.

- Next was sea grass meadows (lusayan) characterized by underwater plants who have leaves, flowers, seeds and roots keeping the water clear, serves as food for marine animals and provide home to small fishes.
- Then Coral reefs (bahura) which composed of colonies of thousand animals or coral polyps. Played videos showing the importance and function of coral reefs.

Stated current status of Marine Ecosystems

- For Mangrove Forest, 0.21% average lost annually globally. In the Philippines 0.5% lost due to deforestation from 2000-2012.
- For sea grass, according to data from 1989-2009, 29% were lost and as for this day, rough estimate it could only be around 50% were only remains or even less.
- For coral reefs, study shows on year 2021, 50% were lost and fish catch decreased to 60% showcasing great impact on the livelihood of fisherfolks.

Defined Threats to Marine Ecosystems

- Climate change can cause high temperature on sea surface turning to acidic ocean resulting to coral bleaching. Also played video (titled "chasing coral") showing coral bleaching due to climate changes.
- Land reclamation/land-use Change as for example was the construction of San Miguel Aerotropolis on mangrove forest in Talipit wherein greatly affect and caused destruction of the mangrove forest as well as eliminating the resting site for the endangered black face spoon bill. Another example mentioned was the Chinese reclamation site at Kagitingan Reef and Zamora reef.
- Overfishing and destructive fishing practices particularly on the use of cyanide fishing and bottom trawling.
- Illegal poaching, cited example was poaching of hawksbill turtle for jewelry and accessories.
- Marine pollution or through the single use of plastics throwed to the ocean causing pollution resulting to fish kill and spread of microplastics pollutions which was according to study were now also transferred to human blood. He stressed out that it is true that what we throw to the nature will eventually come back to us.
- Lastly, he discussed positive ways on how the student council can help in conserving and protecting the environment by being a citizen scientist/wildlife watcher of Mindoro Wildlife Watch (by sending information on illegal poaching) and Mindoro Biodiversity Citizens Scientist (by sending photos, time, location and status upon encountered of Mindoro's wildlife species for their data base update and conservation). Can also send photos of bleaching corals and the presence of TAM-AG or the crowned thorned starfish to Coral Bleaching Watch. He also mentioned that students can also participate on online campaign supporting environment conservation, but what matters most was supporting candidates who has platform for environmental advocacy. He ended his discussion by stressing out that everyone can make an effort but only

THRU : The OIC, PENR Officer
Mamburao, Occidental Mindoro

FROM : The CENR Officer

SUBJECT : "OPLAN BAKLAS" ELECTION MATERIALS POSTED ON
TREES ((E-2022-84790))

In relation to Memorandum dated April 25, 2022 from the DENR Regional Office, the DENR CENRO Sablayan joined the conduct of "OPLAN BAKLAS" to intensify the promotion of an environmentally conscious national election campaign.

Personnel from DENR-CENRO Sablayan were able to remove illegal elections paraphernalia posted on trees and tarpaulins that did not comply with the prescribed rules of COMELEC prior and after the May Election. A total of 736 pieces of tarpaulins were removed by the Sablayan and MAPSA personnel. Likewise, personnel from Mount Calavite Wildlife Sanctuary-Protected Area Management Office (MCWS-PAMO) were able to removed 10.1 kilos of illegal election paraphernalia.

For your information and record.

3. Activity Proper

On May 4, 2022 at 6:30 in the morning, the DENR-CENRO Sablayan, spearheaded by CENR Officer Anastacio A. Santos conducted a kick-off activity for the Month of the Ocean 2022 with this year theme "The Science We Need for the Ocean We Want", thru a motorcade around the town of Sablayan.

The activity was also participated by the Local Government Unit of Sablayan, Occidental Mindoro thru its Municipal Environment and Natural Resources Office headed by Mr. Robert P. Duquil, bikers from 20/20 KPH group, and the members from the Philippine National Police (PNP).

After the motorcade, the participants proceeded to Municipal Plaza for a short program hosted by Ms. Helen M. Alcober. The program was started with a prayer led by Forest Ranger Reynaldo Barrera. It was followed by a welcome remarks given by CENR Officer Santos. He extended his greetings and appreciation to everyone who attended the event. He emphasized that the ocean plays an important role to humanity so there's a need to protect it. He also reminded and encourage everyone to actively participate and show support in the upcoming series of events in line with the celebration of Month of the Ocean.

MENRO Robert P. Duquil also gave a message in behalf of Honorable Mayor Andres D. Dangers. He greeted everyone and mentioned that Mayor Dangers is thankful for the invitation of the DENR-CENRO Sablayan in the said event. MENRO Duquil also assured that their Office will fully support and participate in all the activities to be conducted by the DENR-CENRO Sablayan.

Lastly, PASu Krystal Dayne T. Villanada of Apo Reef Natural Park discussed the schedule of upcoming events such as Coastal Clean-up at So. Tabuk, Brgy. Buenavista, Sablayan, Occidental Mindoro on May 6, 2022 (Friday), Mini Symposium/Lecture for the Celebration of Month of the Ocean at Occidental Mindoro State College on May 12, 2022 (Friday), Operation Baklas of Election Tarpaulin at MAPSA and Sablayan Area on May 18-20, 2022, Mini Bio-Camp at ARNP on May 19-20, 2022 and the Launching of the Year of the Protected Area Campaign on May 23, 2022 of the Department of Tourism in coordination with the DENR.

**REPORT OF THE CEPA CAMPAIGNS CONDUCTED
DURING THE MONTH OF THE OCEAN CELEBRATION 2022
AT CALINTAAN, OCCIDENTAL MINDORO**

In celebrating Month of the Ocean with the theme, “Protect and Restore Ecosystems and Biodiversity; The Science We Need, for the Ocean We Want”, this Office in partnership with the Task Force Cali-Kasan conducted series of activities that was attended by different partners including the Fraternity Organizations, Municipal LGU, Barangay LGU, other government offices and the ENR Ambassadors of Calintaan, Occidental Mindoro.

The celebration was also participated by PENRO Ernesto E. Tañada, the DENR Task Force Tayo ang Kalikasan Executive Director/ Assistant Director, SCIS - Maria Matilda A. Gaddi, SCIS-DCD Chief- Adona P. San Diego and team.

MAY 18, 2022 – Meeting with Lecture

In preparation for the continuous Mangrove rehabilitation and expansion project at Sitio Marumbol, Brgy. New Dagupan, Calintaan, Occidental Mindoro, TF Cali-Kasan held a meeting with the New Dagupan Barangay Officials, Bantay Dagat members and the community surrounding Marumbol River on May 18, 2022.

The meeting took place to inform the residents and explain the on-going ENR activities within the area. Likewise, it served as the venue to discuss the importance of the activities such as Mangrove planting, and its maintenance and protection to the safety of the community as well as their livelihood.

CENRO Efren L. delos Reyes discussed Mangroves and its importance together with the related policies being implemented. Also, he explained the impact of the activities in Marumbol River to Marumbol Marine Protected Area (MPA) and its resources.

MENRO Delmer B. Garingalo ended the meeting by soliciting the support of the community and other participants in protecting and conserving their natural resources.

MAY 20, 2022 – Meeting with Lecture

As part of the continuous endeavor of Task Force Cali-Kasan to engage the youth sector, a small group discussion was held at So. Wawa, Brgy. Iriron, Calintaan. The meeting was initiated by SK Federation President and ENR Ambassador Giebon L. Quiros immediately after the Seventh Day Adventist youth reached out and asked to join the Mangrove conservation and protection programs in Calintaan.

MENRO Delmer B. Garingalo and CENRO Efren L. delos Reyes attended the meeting and conferred the different programs that the Task Force have been implementing. Also, a brief discussion on the importance of Mangrove to the community and the environment took place. It was also emphasized that the programs executed in Calintaan are heading for sustainability and stability.

The ENR Ambassadors also attended the meeting and shared their contribution in protecting and maintaining the Mangrove rehabilitated area in So. Wawa. The young Adventists expressed their willingness and committed themselves into being part of the ENR projects and programs within their Municipality.

MAY 21, 2022 – Meeting with Lecture and Clean-up drive

Through the active involvement of the ENR Ambassadors of Brgy. Iriron, Calintaan, youth sectors from other Barangays had begun to appreciate the environmental activities conducted and reached out to be part of these interventions. Thus, another meeting was held at So. Wawa that was facilitated to cater the newly enlisted ENR Ambassadors from Brgy. Concepcion, Calintaan.

The meeting was done to further explain the role of ENR Ambassadors in the implementation of ENR projects in the municipality. The existing rehabilitation in So. Wawa Mangrove area was also presented during the meeting. The ENR Ambassadors shared their actual activities and contributions in the protection and maintenance of the area. Mangrove ecosystem, its importance and regeneration process was briefly discussed during the on-site meeting. Afterwards, a clean-up activity was done while explaining the importance of proper solid waste management in the protection of the coastal and marine resources and habitats.

MAY 25, 2022 – Bamboo and Bitao (*Calophyllum inophyllum*) planting

Emphasizing the Task Force Cali-Kasan's ridge-to-reef conservation and protection approach in implementing its projects and activities, phase three (3) of the Bamboolution

Republic of the Philippines
Department of Environment and Natural Resources
MIMAROPA Region
Community Environment And Natural Resources Office
Brgy. Labangan, San Jose, Occidental Mindoro
Tel. number (043) 457- 0236
Email: cenrosanjose@denr.gov.ph

project was conducted at the adopted Anahawin River in the celebration of the Month of the Ocean 2022. A total of 150 bamboo culm of *Kawayang Tinik* was planted during the event that was participated by DENR Task Force Tayo ang Kalikasan Executive Director/ Assistant Director, SCIS - Maria Matilda A. Gaddi, SCIS-DCD Chief- Adona P. San Diego and team. Barangay New Dagupan Officials together with other National and Local government offices also joined the activity.

During the program, CENRO Efren L. delos Reyes reiterated that the protection of the River systems must be consistent to compliment the coastal protection and conservation efforts made in consideration with the connectivity and interdependence of both ecosystems.

Right after the activity, bamboos planted during World Water Day celebration last March 22, 2022 were visited as part of the TF Cali-Kasan's regular monitoring and maintenance and protection of the area.

Late in the afternoon, Bitao tree planting took place at So. Wawa that was participated by Task Force Cali-Kasan, Bantay Dagat of Iriron and Barangay Officials. Planting of 100 seedlings of Bitao tree was conducted as a kick-off activity to highlighting the beginning of the Beach Forest establishment project of the Task Force along the 18-kilometer coastal area in Calintaan.

Bitao (*Calophyllum inuphyllum*) is an evergreen tree that is best for beach forest establishment. The above-cited project aims to protect the coastal and marine resources and habitat as well as the communities residing near the coastal areas. TF Cali-Kasan implements beach forest establishment specifically Bitao planting to also prevent further construction of permanent structures within the easement/ salvage zones in coastal barangays of Calintaan.

MAY 26, 2022 – Mangrove Planting

Mangrove planting was conducted at So. Marumbol, Brgy. New Dagupan in consonance with the Month of the Ocean Celebration and as a continuation of Mangrove expansion project within the area. The Task Force continued the enrichment planting of 1,000 propagules of Bakhaw Bato (*Rhizophora stylosa*) that was participated by different Offices, Fraternity partners and the Task Force Tayo ang Kalikasan.

Simultaneously happening during the celebration were clean-up drive as part of the maintenance and protection of the previously planted Mangroves, and planting of 100 Bitao tree seedlings in the coastal area of Marumbol Marine Protected Area.

SUBJECT : **COASTAL CLEAN-UP ACTIVITY
SPEARHEADED BY PENRO OCCIDENTAL
MINDORO FOR MONTH OF THE OCEAN 2022**

In celebration of this year's Month of the Ocean 2022 with the theme, "Protect and Restore Ecosystems and Biodiversity," PENRO Occidental Mindoro in coordination with the Local Government of Abra de Ilog conducted a coastal clean-up activity at Brgy. Lumangbayan, Abra de Ilog which resulted to the collection of thirty (30) sacks of waste.

Prior to the clean-up, a short program was held, wherein Brgy. Chairperson Carlito Subol expressed their willingness in participating to environment activities. He also added that volunteer from other organizations have regular clean-up activities within their area,

PENR Officer Ernesto E. Tañada explained the effect of the waste being washed in to the sea as it negatively affects the marine resources in the area. He discussed the biodiversity of the Verde Island Passage and how proper solid waste management greatly contributes to its protection and conservation.

The one hundred eighteen participants (118) participants were composed of barangay health workers, barangay police, barangay kagawad, Philippine Coast Guard and PENRO Personnel.
