EFREN L. DELOS REYES

REPORT OF RADIO PROGRAM AIRED AT 96.9 and 99.3 THE BAY FM

In consonance with the celebration of the DENR 35th Anniversary, the Philippine Environment Month, World Environment Day and the upcoming National Arbor Day, a radio program was aired at 96.9 and 99.3 The Bay Fm on June 23, 2022.

The two-hour program which aired from 12:00 noon to 2:00 in the afternoon was anchored by Forest Technician II/ Information Officer designate- Aina Krizia S. Viray with CENR Officer Efren L. delos Reyes as the resource person.

CENRO delos Reyes briefly discussed the history of the formation of the DENR. The organizational structure from Central, Regional, Provincial and Community Offices was also explained to further introduce the different aspects of program implementation to fulfill this Agency's vision, mission and mandates.

Moreover, the conservation and developmental function as well as the regulatory function of the DENR was highlighted. Different programs such as reforestation, issuance of tenurial instruments and other agreements were also emphasized including the benefits of these programs to the community and the environment. On the other hand, while conserving and developing the environment, it is necessary to regulate its use to ensure that excessive and abusive utilization of these resources will be avoided that will result into a destructive impact.

Likewise, the acceptance and processing for issuance of residential and agricultural patent as one of the primary services provided by this Office was also discussed explaining that upon the approval of survey order from the Regional Office (RO) or Survey Authority to the applicant and private Geodetic Engineer by the CENRO, lot survey will be executed, and as a result, a survey plan will be submitted to RO for approval. When the approved survey plan was returned, processing of title will be facilitated by the Land Management Inspector/ Deputized Public Land Inspector. CENRO delos Reyes stressed that the standard turnaround time for the above-cited services as well as the other critical services is followed as this Office's adherence to RA 11032 also known as Ease of Doing Business and Efficient Government Service Delivery Act of 2018.

Before ending the program, Forester Efren delos Reyes reiterated that this Agency's strict and serious implementation of environmental laws and policies are all for the good of the environment and the public we serve. That the people only has one Earth to live and we must all protect it for it is our accountability to the future generations.
