MEMORANDUM

FOR : The Regional Executive Director
DENR MIMAROPA
1515 L&S Bldg., Roxas Blvd.
Ermita, Manila

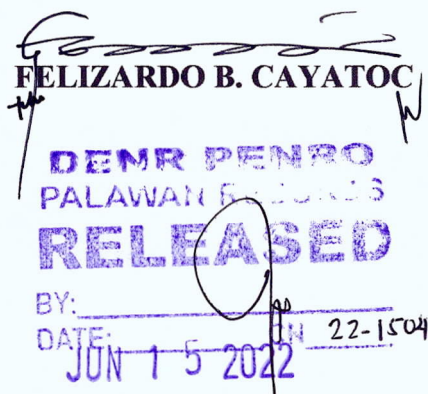

FROM : The Provincial Environment and
Natural Resources Officer

**SUBJECT : REPORT ON THE CONDUCTED INVENTORY OF
OCCUPANTS WITHIN DUMARAN ISLAND CRITICAL
HABITAT (DICH), DUMARAN, PALAWAN**

Forwarded is the memorandum dated May 6, 2022 of CENRO Roxas along with the report on the conducted inventory of occupants within Dumaran Island Critical Habitat (DICH), Dumaran, Palawan in compliance to the instruction of the Regional Executive Director per memorandum dated December 3, 2021.

Please be informed that the team inventoried a total of thirty-two (32) households within DICH without tenurial instrument, on top of the twenty-two (22) previously assessed CSC areas. Likewise, the said office is requesting the Local Government Unit of Dumaran for other data that will help in the sound resolution of this matter.

For information and record.

DATE: 05-17-2022 CN 22-4153

Respectfully forwarded is the report on the conducted inventory of occupants within Dumaran Island Critical Habitat (DICH), Dumaran, Palawan on March 30, 2022 to April 02, 2022 together with the representatives from Katala Foundation Inc (KFI).

This is in compliance to the instruction of Regional Executive Director Maria Lourdes G. Ferrer per memorandum dated December 3, 2021 and PENRO Memorandum dated January 13, 2022. Please be informed that the team inventoried a total of 32 households within DICH without tenurial instrument on top of the 22 previously assessed CSC areas.

Be informed further that this office is requesting the Local Government Unit of Dumaran, Palawan for other data that will help in the sound resolution of this matter.

For your information and further instruction on the matter.

MEMORANDUM

FOR : The Community Environment and
Natural Resources Officer
Roxas, Palawan

FROM : The Undersigned

SUBJECT : **REPORT ON THE CONDUCTED INVENTORY OF OCCUPANTS
WITHIN DUMARAN ISLAND CRITICAL HABITAT (DICH),
DUMARAN, PALAWAN**

Submitted is the report on the conducted inventory of individuals/households within the Dumaran Island Critical Habitat (DICH), Dumaran, Palawan in compliance to the instruction of Regional Executive Director Maria Lourdes G. Ferrer per memorandum dated December 3, 2021 and PENRO Memorandum dated January 13, 2022. Please be informed that the said activity was conducted last March 30, 2022 to April 02, 2022 together with the representatives from Katala Foundation Inc (KFI). The team used a questionnaire to get important data from the occupants such as name, proof of occupation, years of occupation, estimated area developed, crops planted and other developments. Grid coordinates of houses and developments were also taken for mapping purposes. The team inventoried a total of 32 households within DICH without tenurial instrument (see attached list) on top of the 22 previously assessed CSC areas. During the inventory, the team observed the following, to wit:

1. About 86% of the inventoried households had been occupying the area for 10-42 years and only 4 individuals (14%) occupied in the area less than 10 years;
2. The developed areas of inventoried individuals/households range from 3 to 11 hectares and about 20%-100% of same were converted as farm areas;
3. Farming is their main source of income and some of them only occupy the area for "kaingin" or upland rice farming;
4. Most commodities planted are cashew, coconut, banana and mango;
5. Many of them raise animals such as carabaos, cows and goats;
6. The monthly average income in farming is about Php 5,000.00;
7. Only five (5) of them presented tax declaration as their proof of ownership; and,
8. Most occupants identified themselves as residents of Barangay Sto. Tomas.

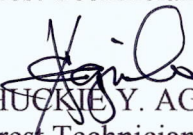

Upon projection in the map, the occupants concentrate in the southwestern part, near Manambaling area which is categorized as Core Zone of DICH (see attached map). The land occupied/developed within DICH have a total aggregate area of 119.45 hectares.

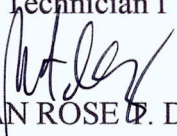

During the inventory, the inventoried residents were reminded that occupying timberland without approved tenurial instrument is prohibited pursuant to Section 78 of Presidential Decree 705 or Revised Forestry Code of the Philippines and that the protection and conservation of the Critical Habitat is crucial for the survival of threatened wildlife species residing therein.

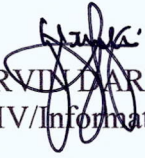

Based on the above findings, the team recommends to present the results of the inventory to the LGU of Dumarán, concerned Barangay Councils and LPAMC of DICH and to have dialogue with the inventoried individuals.

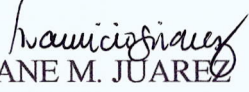

Attached are the summary of the results of inventory, accomplished survey forms, photo documentations and maps.
