**A RESOLUTION REQUESTING THE SANGGUNIANG BAYAN OF TAYTAY TO RECOMMEND TO DEPARTMENT OF ENVIRONMENT AND NATURAL RESOURCES (DENR) TO RECLASSIFY BARANGAY MAYTEGUED, TAYTAY, PALAWAN FROM TIMBERLAND TO ALIENABLE/DISPOSABLE LAND.**

**WHEREAS**, R.A. 7611, otherwise known as the Strategic Environmental Plan (SEP) for Palawan, took effect on 19 June 1992, section 6 of which provides that the SEP shall serve as the framework to guide the government agencies concerned in the formulation of plans, programs and projects affecting the environment and natural resources of Palawan;

**WHEREAS**, Section 2 thereof declares the policy of the State to protect, develop and conserve its natural resources towards which, it shall assist and support the implementation of plans, programs and projects formulated to preserve and enhance the environment, and at the same time pursue the socioeconomic development goals of the country; that it shall support and promote the sustainable development goals for the provinces through proper conservation, utilization and development of natural resources to provide optimum yields on a continuing basis;

**WHEREAS**, this same law provides that the SEP shall have, as its general philosophy, the sustainable development of Palawan, which is the improvement in the quality of life of its people in the present and future generations through the use of complementary activities of development and conservation that protect life-support ecosystems and rehabilitate exploited areas to allow upcoming generations to sustain development growth;

**WHEREAS**, Section 7 of the same provides that the SEP shall establish, as its main strategy, a graded system of protection and development control over the whole of Palawan, including its tribal lands, forests, mines, agricultural areas, settlement areas, small islands, mangroves, coral reefs, seagrass beds and the surrounding sea, known as the Environmentally Critical Areas Network (ECAN), and which shall ensure the following: forest conservation and protection; protection of watersheds; preservation of biological diversity; protection of tribal people and the preservation of their culture; maintenance of maximum sustainable yield; protection of the rare and endangered species and their habitat; provision of areas for environmental and ecological research, education and training; and provision of areas for tourist and recreation;

**WHEREAS**, Section 16 thereof provides that the governance, implementation and policy direction of the SEP shall be exercised by the Palawan Council for Sustainable Development (PCSD);

**WHEREAS**, Barangay Maytegued, an island barangay is considered as one of the oldest barangay in Taytay, Palawan is situated in the eastern coast of Northern Palawan specifically 17 kilometers north-east of the municipality of Taytay and is predominantly sloping and mountainous with its highest peak towering at 164 meters above sea level;

**WHEREAS**, the mentioned Barangay has four registered purok namely Sitio deJesus, Sitio Talisay, Sitio Payatpat and Sitio Sulucan constituting of more than 2000 residents was already teeming with migrants before Taytay became a municipality. Its strategic location attracted migrants from all over nearby Barangays. However, the slow process of distribution of lands to its actual occupants and tillers had somewhat created a climate of uncertainty to its residents and dampened the growth of the Barangay;

**NOW THEREFORE** upon motion of Hon. Jose Ano E. Violanda, and duly seconded by all Sangguniang Barangay Members in session, be it

**RESOLVED**, as it is hereby **RESOLVED** to **APPROVED** to request the Sangguniang Bayan of Taytay to recommend to DENR to reclassify Barangay Maytegued from timberland to alienable/disposable land;
