III. FINDINGS

Based on the monitoring conducted, the findings include:

1. The drafted Community Resource Management Framework was presented to the members on June 23, 2022. Said CMRF is now updated but needs affirmation from the Undersecretary.
2. The drafted Five Year Development Plan was also presented to the members on June 23, 2022 and needs affirmation from the Undersecretary as well.
3. Agro-forestry plays a major role in providing additional source of income to the People's Organization members.
4. Copra production provides another good source of income. The collective harvest per quarter amounts to two to four (2-4) tons, this year.
5. Two Carabaos were awarded to the PO on 2019, thru the CARP project. The PO's internal arrangement on the use of the Carabao is at least two years per family. A calf was born this year, and the other Carabao is on gestation.
6. Current problems of members are the presence of monkeys in the area and birds "kiyaw" that destroy the crops and fruit trees.
7. The Chairperson proposes the need to encourage youths/ members' children that will continue to till the CBFM areas
8. A relocation of CBFM area is also suggested by PO members so that private landowners may avoid encroaching on the area.
9. No regular quarterly meetings conducted for the year 2022.

IV. RECOMMENDATIONS

The Limon Sur Upland Farmer Producers Association needs to conduct quarterly regular meetings in order to address issues regarding the CBFM site.
