OTHERS PRESENT: (See attached Attendance Sheet)

The meeting was held at three (3) cluster venues: Public Plaza of Magdiwang, Cajidiocan Municipal Hall, and Municipal Hall of San Fernando, Romblon.

Time started: 10:00 a.m.

I. PRELIMINARIES

The 2nd PAMB En Banc virtual meeting for CY 2022 of Mt. Guiting-Guiting Natural Park was opened with an invocation then followed by singing the Philippine National Anthem with the aid of an Audio Visual Presentation (AVP).

EcoMS I Ms. Nieves F. Penuliar first acknowledged the presence of the representative of DENR MIMAROPA Regional Executive Director, the three (3) Municipal Mayors of Magdiwang,

Cajidiocan, and San Fernando, National Agencies representative, Academe, NGOs and POs, Barangay Officials from the seventeen (17) barangays, Protected Area Management Office staff, the Chief, Technical Services Division & Concurrent PASu of MGGNP Malvin R. Rocero, members of the secretariat, guests and visitors.

Hon. Arthur Juan R. Tansiongco, M.D., Municipal Mayor of Magdiwang gave his welcome address for the 2nd Quarter MGGNP PAMB En Banc meeting. He welcomed the PAMB Members and stated his gladness for sparing their time and effort to attend the 2nd Quarter PAMB En Banc meeting of MGGNP for the objectives of protection and conservation of the Protected Area. He hopes that the meeting will be efficient and that the members will actively participate even though the internet connection might be unstable sometimes since the meeting is a cluster activity because of the pandemic.

On behalf of Hon. Salem R. Tansingco the municipal Mayor of San Fernando, Ms. Donna Romero gave her short message. She thanked all PAMB members attending the meeting most especially those who are in the cluster of San Fernando. She also hoped that the meeting will be successful and that the objectives of the meeting will be attained.

Ms. Michaela Rongavilla gave her message on behalf of the DENR MIMAROPA Regional Executive Director. She acknowledged the presence of the three (3) Municipal Mayors of Magdiwang, Cajidiocan and San Fernando, representatives of National Government Agencies, LGUs, POs, and all guests and visitors attending the meeting. She mentioned that the DENR MIMAROPA Regional Executive Director Lormelyn E. Claudio as the MGGNP PAMB En Banc Chairperson would like to extend her gratitude to every participants attending the meeting. RED Lormelyn E. Claudio wasn't able to attend the 2nd Quarter PAMB En Banc meeting because she was currently attending other meeting with higher officials that day and for the meantime Ms. Michaela Rongavilla as the Chief of Protected Area Management and Biodiversity Conservation Section together with her staff, Ms. Fatima Grate will actively participate on the meeting as observers and resource persons. She also assured that all concerns of every attendees will be noted and she just hoped that on the next incoming PAMB En Banc meeting will soon be a face-to-face activity to address every concern and for it to be acted quickly. She looked forward for a fruitful discussion on the meeting.

PASu Malvin R. Rocero gave his short message. He acknowledged the presence of the representative of the Regional Executive Director, Ms. Michaela Rongavilla, the three Mayors, Barangay Captains, and representatives of the NGOs/PO, In Charge of PENR Office, MSD Thelmo S. Hernandez, PAMO staff, guests and visitors. He thanked everyone for caring and loving our very own Mt. Guiting-Guiting Natural Park.

II. MEETING PROPER

A. Introduction of PAMB En Banc Members, DENR Staff and Secretariat

Member of the secretariat EcoMS I Nieves F. Penuliar acknowledged and introduced the members of the board in attendance headed by the representative of the Regional Executive Director, Ms. Michaela Rongavilla, the three (3) Municipal Mayors of Magdiwang, Cajidiocan, and San Fernando, National Agencies, representative of Academe, NGOs and POs, Barangay Officials from seventeen (17) barangays, Protected Area Management Office personnel, In Charge of PENR Office, MSD Thelmo S. Hernandez, and members of the secretariat and visitors.

B. Roll call and Call to Order

EcoMS I Nieves F. Penuliar officially roll-called the attendance of PAMB members from the Regional Office, Offices of the Congressman and Governor, the three (3) Municipal Mayors (Cajidiocan, Magdiwang and San Fernando), Department Heads of National Government Agencies, Non-Government Organizations, Peoples Organizations, Brgy. Local Government

Units, Academe and Indigenous Peoples. Out of Thirty five (35) regular PAMB En Banc members, twenty four (24) were present; hence, a quorum was declared.

In the absence of the MGGNP PAMB Chairperson Hon. Lormelyn E. Claudio, CESO IV, PASu Malvin R. Rocero opened the nomination for the presiding officer of the 2nd Quarter PAMB En Banc meeting. Hon. Arthur R. Tansiongco, Municipal Mayor of Magdiwang and MENRO Rommel Augustus Radan were nominated. Hon. Elizabeth Ibañez moved to close the nomination and seconded by Hon. Unique Muros and duly approved by the majority members of the PAMB. As per counting of votes, Hon. Arthur R. Tansiongco was appointed to be the presiding officer for the 2nd Quarter PAMB En Banc Meeting.

C. Reading and approval of the minutes of the previous meeting (January 27, 2022)

The presiding officer requested EcoMS I Nieves F. Penuliar to read the minutes of the 1st Quarter PAMB En Banc Meeting.

In the middle of reading the minutes, Hon. Rodne Galicia noticed that there are people who are not an official PAMB member attending the meeting. He also asked that the said person be removed on the meeting since it is against the rules. He is referring to the ALTAI mining corporation spokesperson Mr. Taule. PASu Malvin Rocero clarified that Mr. Taule was actually invited to discuss the alleged mining exploration on San Fernando. Hence, PASu Malvin R. Rocero suggested that Mr. Taule will be confined on a separate room and wait for his turn. Hon. Rodne Galicia moved that Mr. Taule will be accommodated once the agenda regarding the alleged mining exploration will be the discussion and it was unanimously seconded by all PAMB members.

Hon. Arthur R. Tansiongco asked if there are comments and objections regarding the minutes of the 1st Quarter PAMB En Banc meeting. Since there are no comments and objections from the 1st Quarter PAMB En Banc minutes, Hon. Rodne Galicia moved for the approval of the minutes of the previous meeting and seconded by Hon. Unique Muros and duly approved by the majority members of the PAMB.

D. Matters arising from the previous meeting

Hon. Arthur Juan R. Tansiongco announced to proceed to PASu report on the agreement reached during the previous meeting.

E. Report of the Protected Area Superintendent (PASu) on the agreement reached during previous meeting on January 27, 2022

PASu Malvin R. Rocero reported that the following resolutions numbered from MGGNP-PAMB En Banc Resolution No. 2022-01 to 2022-03 and minutes of the previous meeting dated January 27, 2022 were submitted to the Regional Executive Director/PAMB Chairperson for approval, thru the PENRO:

1. **PAMB En Banc Resolution No.2022-01, Series of 2022** "A Resolution Approving the Work and Financial Plan for FY 2022 of Mt. Guiting-Guiting Natural Park, Sibuyan Island, Romblon amounting to Two Million Pesos (P 2,000,000.00) from 25% share of IPAF Collection of Protected Areas deposited to the IPAF-SAGF;"
2. **PAMB En Banc Resolution No.2022-02, Series of 2022** "A Resolution Recommending Forester Manuel B. Romero as OIC Protected Area Superintendent (Pasu) of Mt. Guiting-Guiting Natural Park."
3. **PAMB En Banc Resolution No.2022-03, Series of 2022** "A Resolution Approving the Updated Protected Area Management Plan (PAMP) of Mt. Guiting-Guiting Natural Park."

In addition, PASu Malvin R. Rocero discussed other matters that were acted by the PAMO staff. Illegal mining incident at Brgy. Mabulo, San Fernando, Romblon and Brgy. Dulangan, Magdiwang, Romblon as reported by their Brgy. Captains were acted immediately wherein DENR personnel were dispatched to investigate in the area since March 16, 2022. Investigation come out that there are signs of ongoing operation of illegal mining activities however it has been stopped by the DENR. On the alleged report of skin conditions/illness that was triggered by the contaminated water of Mabulo River, PASu Malvin R. Rocero said that we cannot determine if the main cause of it is the mining activities happening on their area unless they consulted it to a doctor for them to have a basis. He assured that all Protected Area staff are conducting their regular counter operation on the said areas to stop the illegal mining activities. He then called the attention of every Brgy. Captain to be vigilant in reporting illegal forest activities most especially the illegal mining activity. He also mentioned that some people from the IP communities, specifically from Sitio Guintac-an, Agtiwa are conducting their patrolling and monitoring any illegal forest activities happening within the PA and CADT area. PASu Malvin R. Rocero asked the coordination of the IP communities with the DENR for them to avoid being suspected on the alleged illegal mining activities. Finally, he assured that regular patrolling of DENR personnel will be conducted in the areas to stop illegal mining activities.

Hon. Arthur R. Tansiongco asked the PAMB members if they have any comments and suggestion regarding the report of the PASu. Hon. Rodne Galicia commented asking what are the next legal actions to be taken to avoid the said issue. PASu Malvin R. Rocero answered that there are corresponding penalties in every violation with accordance to the Republic Act 11038 for those who are doing illegal activities in the protected area especially illegal mining. The DENR personnel who caught someone doing an illegal activity in the Protected Area will file a case to the Prosecutor's Office against a violator. He stated that he cannot let anyone destroy our beloved Mt. Guiting-Guiting Natural Park without being penalized for the damage they have done. At the end, he proposed that there will be a continuous operation on the said areas 24/7. Hon. Rodne Galicia added that if ever they can form a special task force of committee including law enforcers and PNP coupled with the DENR and he also asked the help of the PAMB members, PAMO staff and the secretariat on how to come up with that task force. Hon. Arthur R. Tansiongco assured that the three municipalities will help in forming the special task force to avoid such illegal forest activities.

F. Approval of the Agenda

Hon. Arthur R. Tansiongco, presented the agenda to be discussed in the meeting. It was suggested to add the concern about the mining in Brgy. Taclobo, San Fernando on the other matters. Hon. Rommel Augustus Radan moved for the approval of the proposed agenda. It was seconded by Hon. Unique Muros and approved by the majority members of the PAMB.

G. Meeting Agenda

1. Reporting of LAWIN patrolling inside Mt. Guiting-Guiting Natural Park

Forester I Rolly Morales reported the updates for LAWIN patrolling inside Mt. Guiting-Guiting Natural Park from January to May 18, 2022. According to him, the updated total distance of LAWIN patrolling is 288.40 kilometers. Threats were found during the patrolling such as wildlife trap specifically in *Sitio Banilad, Brgy. Mabini*, San Fernando, Romblon; the trap was intended for civet cat as allegedly described by the patrollers. Seven (7) illegal logging activities were also traced within the PA at Brgy. Espana, San Fernando, Romblon. The same in Brgy. Cantagda, Cajidiocan, Romblon, there were traces of illegal forest activities found on the area. Continuous IEC were conducted, coordination with the Brgy. Officials regarding the illegal forest activities happening in their areas. DENR patrollers likewise reported the incident on respective barangays for blotter or record purposes. Forester I Rolly Morales clarified that the alleged illegal mining activity is located in Mabulo, San Fernando, Romblon. PASu Malvin R. Rocero recommended for strict patrolling of the area to stop the illegal mining activities.

287
288 **2. Reporting of Barangay Captains on the status of illegal activities of the Protected**
289 **Area in their respective jurisdictions**
290

291 Hon. Unique Muros of Brgy. Agutay, Magdiwang, Romblon reported and gave the status of the
292 illegal forest activities on his jurisdiction. He said that they have sighted illegal logging on their
293 area and on their investigation, it has been said that the lumbers were used for personal
294 consumption specifically on repairing their houses. Hon. Salvador Mutia of Brgy. Agsao,
295 Magdiwang, Romblon said that there is no record of illegal forest activities on his area. Hon.
296 Jesse Roda stated that one of his Brgy. Tanods reported some incident of cutting of trees in their
297 area and they had conducted appropriate action on this matter. For Brgy. Mabulo, Hon. Arthur
298 Romero Jr. stated their concern that happened during the last week of March regarding the
299 alleged mining incidents that contaminated their river and cause skin diseases. They assumed
300 that the water flowing from their river was contaminated of chemicals used during mining
301 activities. Hon. Elizabeth Ibañez asked for the status of the PAMB resolution on the designation
302 of the remaining forest land and timberland surrounding Mt. Guiting-Guiting Natural Park as
303 buffer zones.
304

305 PASu Malvin R. Rocero clarified that copy of a Resolution that was approved in 2019 on the
306 designation of buffer zones was not yet furnished by the Regional Office to the PA Management
307 Office. Ms. Michaela Rongavila answered that they will trace the resolution as the same had
308 been approved/signed in their level and needed to have a technical description in order to be
309 approved by the DENR Secretary. She explained that Mt. Guiting-Guiting Natural Park will be
310 the first protected area to designate a buffer zones. She further assured the body that she will
311 update the PAMB the soonest time possible regarding the resolution's status.
312

313 PASu Rocero asked if the body needed to pass another resolution for the buffer zone as the issue
314 is included in the agenda. Ms. Rongavilla stated that it will be alright to pass another resolution
315 for fast tracking.
316

317 Hon. Elizabeth then stated that Mt. Guiting-Guiting Natural Park is threatened because of several
318 environmental issues and that the passing of the resolution on the buffer zone is a critical action
319 in combating these issues. Hon. Tansiongco agreed and stated that fast tracking of the resolution
320 is the best option for the PAMB. Ms. Rongavilla then stated that at that moment, she had already
321 instructed the tracing of the resolution and other pertinent documents and she will furnish a copy
322 to the Board immediately.
323

324 **3. Reporting of 1st Semester Biodiversity Monitoring System (BMS)**
325

326 EcoMS I Mylene Evallar presented the report on the 1st Semester Biodiversity Monitoring
327 System (BMS) of Mt. Guiting-Guiting Natural Park. She presented the basic methods in the
328 conduct of BMS such as Transect Walk, Photo documentation, Field Diary and Focus Group
329 Discussion. The 1st Semester BMS report covers the period of 1st and 2nd Quarter. After the
330 reporting of recommended PAMB Action, Hon. Tansiongco asked the Board if there are any
331 additional suggestions. He then suggested to include the BFP, CAFGU, Coast Guard, and other
332 uniformed personnel when having an operation in order to have more manpower when it comes
333 to combating the illegal activities in the Protected Area. Hon. Jesse Roda then asked for a copy
334 of the presentation for their reference. PASu Malvin suggested to add in the PAMB Action to
335 have a binding Agreement between Philippine National Police, Philippine Army and Philippine
336 Coast Guard in order to strengthen the cooperation with the LGUs as the manpower of DENR
337 had difficulty against illegal mining activities. It would be better to have a commitment between
338 the DENR and other law enforcement agencies. He also suggested the establishment of tree
339 plantations outside the Protected Area or outside the Timberland. This action will help preserve
340 the trees in the Protected Area and Timberland and will help in the preservation of biodiversity.
341 Thus, he suggested that the LGUs and BLGUs should invest to tree plantations in their areas so
342 that trees for local consumption and even for furniture will be sourced out from those plantation
343 areas.

Hon Tansiongco asked why owners of chainsaw find it difficult to register a chainsaw. PASu Rocero answered that it is because the chainsaw to be registered should be purchased only on registered distributors and chainsaws without or tampered serial numbers can not be registered since it is against the law. Hon. Tansiongco then asked to have a focal person when it comes to the processing of chainsaw registration. PASu Rocero assured that the office had focal persons for permit applications in the Office. Hon. Rodne Galicia also asked if the PAMO can provide a checklist of the requirements for the registration of chainsaw/regulation and provide a copy to the barangay thus they will be guided. PASu Rocero further explained that the PAMO in Brgy. Tampayan, Magdiwang accepts chainsaw applications and forward application documents to PENR Office, Odiongan, Romblon for further evaluation and approval.

4. Reported illegal mining incident at Brgy. Mabulo & Dulangan

EcoMS I Penuliar then stated that since the illegal mining incident in Brgy Mabulo and Dulangan had been tackled by PASu Rocero in the earlier part of the meeting, she asked the representative from Brgy. Mabulo of any updates on the status of Mabulo river and mining incidents in their area. Hon. Romero stated that for several days, the water in the river cannot be used because it is muddy and some of his constituents had skin rashes. However, after several days, the water returned back to normal. EcoMS Penuliar explained that upon receiving the information regarding the muddy water in Mabulo River, DENR personnel had been instructed to patrol the source of the river to know its cause since March 15, 2022. During the patrolling, signs of mining activities were observed in the area of Banilad. Hon. Tansiongco then asked what is the action of the PAMO on the observed mining activities in the area, PASu Rocero then called the attention of Forest Ranger Ludwin Ruado and Forest Ranger Dalvern Fesarit on the updates. Forest Technician Ramer Manalon updated on behalf of their team, he stated that the during the operation, they were not able to apprehend the illegal miner but they were able to take a picture of the person and they had verified it to Brgy. Dulangan. Brgy. Captain Joven Rodeo verified that the person is a resident of Brgy. Dulangan, then blotter the incident in the barangay. PASu Rocero then instructed to prepare the necessary documents in order to file a complaint against the person.

5. Presentation and Approval of Work and Financial Plan for C.Y. 2023 for the Repair of Land Rover amounting to P385,000.00

Forest Ranger Andy I. Regla presented the Work and Financial Plan for Repair of Land Rover amounting to P385,500.00 for approval of the PAMB. He further explained that the land rover is unserviceable and garaged in Laguna waiting for availability of budget for repair. Thus, this is the right moment to pass a resolution on approving the WFP on its repair. He further explained that the fund for the repair is from the collected fees from mountaineers and other ecotourism activities from March 1, 2018 and the first quarter of CY 2022. It also includes the payment of ROMELCO amounting to P100,000 from its counterpart commitment. He stated that the amount for repair costs P385,000 however, it would be better to have a margin/allowance considering inflation. He further stated that the Accountant from PENR Office suggested that considering the needed documents on the repair of the rover, it would be best that the WFP be implemented in CY 2023. Hon. Tansiongco then asked that why make it in 2023 if we already have the money/fund for the vehicle's repair. He also emphasized to fast track the land rover's repair in soonest possible time and would like PASu Rocero to oversee its repair and make sure it will be brought back to Sibuyan immediately. Hon. Romel Augustus Radan moved **PAMB En Banc Resolution No. 2022 - 04 -A Resolution Approving the Work and Financial Plan for C.Y. 2023 of Mt. Guiting-Guiting Natural Park, Sibuyan Island, Romblon Amounting to Three Hundred Eighty Five Thousand Pesos (P385,000.00) Representing the 75% Partial Share of IPAF Collection from March 01, 2018 To February 28, 2022 for the Repair of Land Rover,** it was seconded by Hon. Salvador Mutia.

6. Conduct of Training Needs Assessment of PAMB members and PAMO staff

EcoMS I Penuliar presented the guidelines on the conduct of Training Needs Assessment (TNA) for PAMB Members and PAMO Staff. She explained that one of target activities for CY 2022 of the PAMO is the drafting the Capacity Building Plan for PAMB members and PAMO Staff to be submitted to MIMAROPA Region, so personnel from the PAMO will conduct an interview to the PAMB Members. The interview will be guided by the Training Needs Assessment Questionnaire.

7. Reiteration on the re-opening of ecotourism activities in Mt. Guiting-Guiting Natural Park

Mr. Ramoncito Ruiz, a representative from the mountaineering group, presented his request for the re-opening of ecotourism activities in Mt. Guiting-Guiting Natural Park. He explained that he was one of the pioneer mountaineers that climbed Mt. Guiting-Guiting decades ago. He further explained that he does volunteer works but his passion is in mountaineering. He also explained that MGGNP had the cleanest mountain and river he had climbed and wants the re-opening of ecotourism activities to tourists to further promote the beauty of Sibuyan. He commended the efforts of the PAMB Members and the PAMO staff in protecting the mountain and also for having improvements when it comes to transportation in the Island. He also observed that there had been an increase in mountaineering fee in the past years. In line to this, he asked the proceeds of the fund and if there is a share for the guides and porters when they conduct activities such as tree planting and clean up campaign. He further explained that it would be better for the three (3) municipalities to utilize their funds and improve their facilities when it comes to tourists to encourage investments. It would also be better if Mt. Guiting-Guiting will have an official website to encourage tourists and also researchers. He also willing to help if there are any problems that hinder the protection/conservation of MGGNP and the opening of ecotourism as well. He then requests to climb Mt. Guiting-Guiting Natural Park as soon as possible before he leaves the country. Hon. Rodne Galicia suggested that since Mr. Ruiz is already in Magdiwang, it would be better that some PAMO personnel will go together with Mr. Ruiz in climbing Mt. Guiting-Guiting and conduct a biodiversity and trail assessment. The assessment will help the Board in determining the status of biodiversity and trail of G2 that is needed once the hiking activities resume. He further stated that they will allow Mr. Ruiz to climb G2 given that there will be PAMO members present during the hike and a biodiversity and trail safety assessment will be conducted. Hon. Rodne Galicia moved **PAMB En Banc Res. No. 2022-05, "A Resolution Granting Special Permit to Climb to Mr. Ramoncito Ruiz and PAMO Personnel to Conduct Biodiversity and Trail Safety Assessment"**, seconded by Hon. Ramona Rivero. PASu Rocero called the attention of Ms. Michaela Rongavilla on the copy of approved resolution on the re-opening of ecotourism activities in MGGNP. The resolution had been passed by MGGNP PAMB on CY 2021 and is waiting for the Regional Executive Director's approval. Hon. Rodne Galicia asked if the representative of RED Claudio could furnish a signed copy immediately before the meeting is adjourned so that body will not pass another resolution on the re-opening of ecotourism activities in the Park. Ms. Rongavilla explained that the resolution is already in RED's Office and the approval is being facilitated by the new OIC Assistant Regional Director for Technical Services (ARDTS) Maximo C. Landrito. She further explained that given the nature of the resolution, whereas it aims to help the people relying their income in mountaineering, it could be considered as approved in principle and they will immediately facilitate the provision of the signed copy back to PAM Office. Hon. Galicia asked for a clarification if the Special Permit to Climb in G2 is upon the power and approval of the PAMB/ PASu and Mr. Ruiz can climb the G2 as long as PAMO personnel and staff is included in the team to conduct biodiversity and trail safety assessment. Ms. Rongavilla agreed to this and reiterated that the PAMO Staff should make sure that the existing Park rules and regulations when climbing G2 is accordingly followed. Forest Ranger Andy I. Regla was instructed to conduct biodiversity assessment, to be assisted by Forest Ranger Dalvern F. Fesarit and Forest Technician Rolando Galicia.

458 **8. Reiteration on the recommendation/designation of Timberland and Forested**
459 **Zones of the Protected Area**
460

461 Ms. Rongavilla stated that the PAMB Resolution No 2019-020, had been approved and the
462 signed copy has been retrieved and they are currently locating the Annex containing the
463 Technical Description. She also stated that the formulation of DENR Administrative Order
464 (DAO) will be prioritized by the region for DENR Secretary's Approval. She also stated that the
465 PAMO personnel to send an email of the Technical Description of the designated Buffer Zones
466 to be verified by the Regional Office before its submission to the Central Office. She also said
467 that if there is an urgent management intervention needed, especially in the buffer zones, it
468 would be better to include it in the updating of the Management Plan. Thus, while it is being
469 implemented in Secretary's level, there will be a management intervention being done in the
470 level of PAMO. For the Regional Office's part, they will endorse the Resolution on the Buffer
471 Zones of Mt. Guiting-Guiting Natural Park and for the PAMO and PAMB, it should be included
472 in the Management Plan that can be implemented immediately. Ms. Rongavilla stated that there
473 is no need for a reiteration as the prior resolution had been approved and they will provide a copy
474 thru email.

475 **9. Other Matters**
476
477

478 Hon. Tansiongco stated that he wants to send Forest Ranger Andy I. Regla to a cross
479 visit/training on butterfly farms to gain knowledge and practical experience that will be
480 incorporated to the Butterfly garden located at the Protected Area Management Office (PAMO)
481 of Mt. Guiting-Guiting Natural Park. PASu Rocero then stated that there is a Butterfly Farming
482 in Marinduque that could cater for the needed training/practicum in the culture of butterflies.

483
484 Hon. Ramona Rivero suggested to ask for assistance on the requirements for the application of
485 Mt. Guiting-Guiting Natural Park for proclamation as National Heritage or World Heritage Site.
486 Hon. Rodne Galicia then moved to pass **PAMB En Banc Resolution No. 2022-06 Requesting**
487 **UNESCO Philippines, NCCA, and DENR to Assist the PAMB in the Proposed**
488 **Proclamation of Mt. Guiting-Guiting Natural Park as Natural Heritage**. It was seconded by
489 Hon. Ramona Rivero.

490
491 The proposed PAMO Uniform was also presented to the Board. A new design was presented
492 containing solid colors since using camouflage design that was prior presented to the board could
493 raise issues as only uniformed personnel is allowed to wear such design. Upon review, Republic
494 Act 493 prohibits the use of camouflage designs similar to the one the uniformed personnel use
495 (PNP, ARMY, etc). The new design is composed of solid colors (blue, green, and gray) and
496 contains a logo of DENR and PAMB of Mt. Guiting-Guiting Natural Park with names. Hon.
497 Ramona Rivero moved to pass **PAMB En Banc Resolution No. 2022-07 "A Resolution**
498 **Approving the Work and Financial Plan for C.Y. 2023 of Mt. Guiting-Guiting Natural**
499 **Park, Sibuyan Island, Romblon Amounting to Three Hundred Ninety Nine Thousand Five**
500 **Hundred Pesos (P399,500.00) Representing 75% Partial Share of IPAF Collection from**
501 **March 1, 2018 to February 28, 2022 for the Proposed Uniform of DENR Sibuyan Sub-**
502 **Station and PAMO Personnel**". It was seconded by Hon. Rommel Augustus Radan.

503
504 Hon. Galicia moved to recognize Engr. Steve Taule, one of the directors of Altai Philippines
505 Mining Corporation to clarify the issues of mining in San Fernando, Romblon. Before their
506 presentation, PASu Rocero narrated the alleged start of mining in Sibuyan particularly in San
507 Fernando based on the reports to him of concerned citizens. Thus, he instructed PAMO
508 personnel to invite and coordinate a representative of Altai Philippines Mining Corporation in
509 order to clarify and bring awareness to the mining issue and their activities in Sibuyan Island.
510 Engr. Steve Taule started his presentation on the background of Altai for the Board's
511 information. Altai Philippines Mining Corporation is the original proponent of the duly approved
512 Mining Tenement No. 304-2009-4B approved in CY 2009. The mining area in San Fernando
513 started as a patented lease contract No. 547 of Santa Barbara Development Corporation which
514 was approved in 1972 and this was good for 25 years. During the 1970s, the area was explored

515 by Japanese companies, however, the Japanese companies backed out and the property became
516 idle until 1996. Prior to its expiry in 1997, the mining title was reapplied as an application to
517 Mineral Agreement in compliance to the Mining Law. Going forward, in 2009, the mining
518 application was approved and was now numbered as 304-2009-4B covering an area of
519 approximately 1,580.00 hectares out of the original area of 1,854. After the approval in 2009,
520 Altai Phils. assigned the properties to Sibuyan Nickel Properties and Development Corporation
521 in October 2010. In Sept 19, 2011, the MGB issued a Cease and Desist order to the field
522 operations of Altai and Sibuyan Nickel. After the issuance and after a few years, there was a sale
523 and transfer of ownership of properties. Sibuyan Nickel and Properties Development Corporation
524 was to Dynamo Atlantic and as well as Altai Philippines Mining Corporation which was brought
525 up by Dynamo Atlantic. Then, in September 9, 2021, the DENR issued an order that lifted the
526 cease and desist order. He showed the map containing the area for mining reflected in their
527 application. He explained that in the original area of 1,854 hectares, the old company opted to
528 accept the decision of the DENR in surrendering the almost 300 hectares to Mt. Guiting-Guiting
529 Natural Park. He also showed the plotting of the approved mining claims reflecting the
530 boundaries and Protected Area boundary. He explained that the mining claim is outside the
531 Protected Area and is in the flat lands. The mining claim/area is around 70 meters above sea
532 level in So. Bato, 200asl in So. Binayaan, and 500asl in So. Silab, Taclobo. They also presented
533 an image that reflects the area and Cantingas River. He explained that years ago, the DENR and
534 MGB had prohibited the company to cross the boundary/area in Cantingas River thus the flowing
535 water of Cantingas will not be affected. Engr. Taule emphasized the location of the mining area
536 relative to Mt. Guiting-Guiting Natural Park. After the presentation, he also stated that on their
537 part, there is no nickel in the ragged part of MGGNP and further explained the nickel deposit
538 could be seen on flat lands. He further explained that Altai is in preparation of their venue/office
539 where most of the Information, Education and Communication (IEC) Campaign will be held.
540 After the IEC, exploration (drilling and sampling) will be conducted. In the next coming days,
541 the IEC Team of Altai will be going around the Island to conduct IEC with different
542 communities/barangays. Then, Engr. Taule asked if there are any question/clarification from the
543 Board. Hon. Rodne Galicia asked the chairman of the Board to comment on the presentation of
544 Engr. Taule. He also stated that Engr. Taule had not presented the other companies that took over
545 the said mining tenement. Hon. Galicia also stated that there are also various people are
546 connected to the Altai Mining Phils. Corporation, he also shared another view of the tenement,
547 he stated that the grounds of issuance of cease and desist order of the MGB is based on social
548 acceptability and he is currently asking the MGB on the ground of lifting the suspension on Altai
549 Mining Philippines Corporation. He also asked the activities being conducted in the area. Engr.
550 Taule answered the questions of Hon. Galicia that some of the companies were not mentioned
551 since they are not in the picture and that those are intervening companies and are having false
552 claims. They had claims on the area and showed interest, however, they had not proceeded with
553 an agreement with Altai thus Dynamo Atlantic was the one that managed to procure the area
554 with Altai Mining Phils. He also confirmed that the Gatchalians are connected with Altai on the
555 business side and it is being handled by a certain Mr. Kenneth Gatchalian, his siblings are into
556 politics and are not connected to mining or in the business. He also stated that the Gatchalians
557 are connected to politics and had no say on the mining business. Lastly on the plotting, some are
558 inside the Protected Area/ Timberland and he stated that they want to refine the plots and would
559 like to discuss it on details in order to take note of the concerns and properly address it. EcoMS I
560 Penuliar then read a question from Mr. Ruiz, asking "What are they (Altai) or what are you as a
561 mining corporation going to do with the dirty water used by the corporation. Are you going to
562 pay for the dirty water and the clean-up of the dirty water in Cantingas River." Engr. Taule then
563 stated that they are campaigning for responsible mining, therefore having dirty water will equal
564 to dirty water in their mining activities. Thus, one of Altai's activities is to conduct IEC with the
565 local community in order to inform them on responsible mining and the implementation of safety
566 network in compliance with environmental laws applicable. He also stated that it would be better
567 if there is a representative from multi-partite monitoring team, an independent team that will
568 oversee the activities of Altai. It will be the representative of the local community and they will
569 be the voice of the people directly to the company. If the multi-partite team found irregularities
570 in the company's activity, then they will suggest to stop the mining activity. Regarding the issue
571 on the dirty water, the company will ensure that all safety network will be done to avoid spillage

and pollution in the river and other water source. Hon. Galicia asked the process after the exploration if they will submit the study to MGB for the feasibility if they are to expand their area. Engr. Taule agreed to this, the company is going to do drilling activities thus large equipment are present in their office to mend the road, after this, they will go to the declaration of the mining project feasibility. It will determine if it is economical to conduct mining in the area or not, the volume of the nickel is for commercial or not. Based on the previous data, during the time of Japanese companies, there is a large potential for nickel operation in the area. And another point of clarification, the mining permit area coverage does not necessarily imply that it will be an active mining area. Out of the 1,500 hectares, it would be lucky to have 500 hectares of nickel. However, it will not be deposited in one area only, it could be found within 100 hectares from each other. Hon. Galicia asked how many trees will be cut during the exploration, building of camps and road. Engr. Taule stated that for the activities that involved cutting, especially during the exploration, there will be an inventory that will be done by the DENR before the cutting is allowed. They also stated that they will follow the policy whereas one tree will be replaced equivalent to 100 seedlings. They are also preparing an area for nursery production of the native species of trees. Ms. Elizabeth also said that as per Engr. Taule's statement, they will operate responsible mining, however, so far as per her experience in exploring different mining areas in the country, there are no responsible mining. Number one (1) is in part of Surigao, below sea level is being quarried and that the farmlands of the community had been affected even their watershed. She further expressed that the local community always suffer in the end. So how can we say that it is a responsible mining if the local community suffers in such mining activity. Second, she asked if the area presented, was not all flat lands and if most of the area are slopes. Engr. Taule answered that if the case of Surigao—was not responsible, then it should be reported to MGB because the MGB will issue cease and desist order. Economic wise, in Claver Surigao, the presence of nickel mining elevated the economic status of the whole municipality. It is not only the direct employees but also the sale and income of the businesses present in the community. However, being bystanders is one of the challenges for the local community instead of becoming proactive and making sure that even in the early start of exploration, what the mining company does is responsible mining. They should look into the process of responsible mining then give a recommendation or correction. Second, with regards to the topography of the area, it is normal that not all of it is flat as there are rolling terrains, however, it is not steep like the terrain of G2. Thus, it is the prospective area for depositing of nickel ore. Then, Ms. Ibañez answered that in line of responsible mining, particularly in Rio Tuba, traces of destruction is seen. In the issue of nursery and rehabilitation, the nursery and rehabilitation is very minimal compared to the destruction done in many years of operation. Hopefully, the issues could be discussed honestly. Engr. Taule agreed to this sentiment. He stated that in 50 hectares that quarrying will be done, the 50 hectares will be rehabilitated and they will show proof that it is rehabilitated. The mining areas are only on temporary land use. After quarrying it for 6 months or 1 year, rehabilitation should immediately take place. Rehabilitation should not only involve the cover up of the quarried area but it should also implement slope stability before planting the trees. He explained that the fully rehabilitated area in Rio Tuba after mining activities is one of the examples of responsible mining. Engr. Taule encouraged the Board to participate in the MPT to check if there is a nursery and if there seedlings of native trees suitable for Sibuyan Island. Those factors will be accounted for and those will be in concurrence with the monitoring team. He further stated that since the PAMB is first line of defense and protector of the environment of Sibuyan, he encouraged the PAMB to guard the company on their activities in the area. Ms. Ibañez stated that probably it would be better to include cost benefit analysis to show the community, LGU, and others, on the effect of mining in the area and in the community. If there is a large benefit for the local community once the mining activities commence, the people would definitely agree. Engr. Taule agreed to this and stated that it is already included in their IEC; taxation benefits, number of employment, investment and among others. He also stated that their mining activity is only a simple mining activity compared to copper and gold.

Engr. Taule then stated that this kind of discussion would be better in face to face activity. He then stated that their IEC team will conduct information dissemination in the Island of Sibuyan and they will invite representatives for a more fruitful conversation

H. Adjournment

Since there were no other agenda to be discussed, Hon. Rommel Augustus Radan moved for the adjournment of the meeting. It was seconded by Hon. Ramona Rivero and approved by the majority members of the board. The meeting was ended at exactly 3:42 p.m.

I hereby CERTIFY the accuracy of the foregoing minutes.

Prepared by:

MALVIN R. ROCERO
Chief, TSD PENRO Romblon &
PASu of MGGNP/
Head, PAMB Secretariat

Approved by:

ARTHUR JUAN R. TANSIONGCO
Municipal Mayor of Magdiwang/
Presiding Officer

DENR-MIMAROPA Region/
PAMB Chairperson/Presiding Officer

Name of P.A. : Mt. Guiting-Guiting Natural Park
 Type of Meeting : En Banc (Virtual)
 Date of Meeting : May 18, 2022
 Venue : Public Plaza of Brgy. Poblacion, Municipality of Magdiwang, Cajidiocan Municipal Lobby and Sangguniang Bayan Session Hall of San Fernando, Romblon
 Attendance : (Please see attached attendance sheet)

SUMMARY REPORT OF MINUTES OF PAMB MEETING

The meeting started at 10:00 am.

AGENDA/ISSUES/ CONCERNS	SUMMARY OF DISCUSSION	AGREEMENT REACHED	RESPON- SIBLE PERSON
I. Preliminaries	The 2nd PAMB En Banc virtual meeting for CY 2022 of Mt. Guiting-Guiting Natural Park was opened with an invocation then followed by singing the Philippine National Anthem with the aid of an Audio Visual Presentation (AVP). EcoMS I Ms. Nieves F. Penuliar first acknowledged the presence of the representative of DENR MIMAROPA Regional Executive Director, the three (3) Municipal Mayors of Magdiwang, Cajidiocan, and San Fernando, National Agencies representative, Academe, NGOs and POs, Barangay Officials from the seventeen (17) barangays, Protected Area Management Office staff, the Chief, Technical Services Division & concurrent PASu of MGGNP Malvin R. Rocero, members of the secretariat, guests and visitors. Hon. Arthur Juan R. Tansiongco, M.D., Municipal Mayor of Magdiwang gave his welcome address for the 2nd Quarter MGGNP PAMB En Banc meeting. He welcomed the PAMB members and stated his gladness for sparing their time and effort to attend the 2nd Quarter PAMB En Banc meeting of MGGNP for the objectives of protection and conservation of the Protected Area. He hoped that the meeting will be efficient and that the members will actively participate even though the internet connection might be unstable sometimes since the meeting is a cluster activity because of the pandemic. On behalf of Hon. Salem R. Tansingco the municipal Mayor of San Fernando, Ms. Donna Romero gave her short message. She thanked all PAMB members attending the meeting most especially those who are in the cluster of San Fernando. She also hoped that the meeting will be successful and that the objectives of the meeting will be attained.		

	Ms. Michaela Rongavilla gave her message on behalf of the DENR MIMAROPA Regional Executive Director. She acknowledged the presence of the three (3) Municipal Mayors of Magdiwang, Cajidiocan and San Fernando, representatives of National Government Agencies, LGUs, POs, and all guests and visitors attending the meeting. She mentioned that the DENR MIMAROPA Regional Executive Director Lormelyn E. Claudio as the MGGNP PAMB En Banc Chairperson would like to extend her gratitude to every participants attending the meeting. RED Lormelyn E. Claudio wasn't able to attend the 2nd Quarter PAMB En Banc meeting because she was currently attending other meeting with higher officials that day and for the meantime Ms. Michaela Rongavilla as the Chief of Protected Area Management and Biodiversity Conservation Section together with her staff, Ms. Fatima Grate will actively participate on the meeting as observers and resource persons. She also assured that all concerns of every attendees will be noted and she just hoped that on the next incoming PAMB En Banc meeting will soon be a face-to-face activity to address every concern and for it to be acted quickly. She looked forward for a fruitful discussion on the meeting. PASu Malvin R. Rocero gave his short message. He acknowledged the presence of the representative of the Regional Executive Director, Ms. Michaela Rongavilla, the three Mayors, Barangay Captains, and representatives of the NGOs/PO, In Charge of PENR Office, MSD Thelmo S. Hernandez, PAMO staff, guests and visitors. He thanked everyone for caring and loving our very own Mt. Guiting-Guiting Natural Park.	
II. Meeting Proper A. Introduction of PAMB En Banc Members, DENR Staff & Secretariat B. Roll call & Call to Order	Member of the secretariat EcoMS I Nieves F. Penuliar acknowledged and introduced the members of the board in attendance headed by the representative of the OIC Regional Executive Director Ms. Michaela Rongavilla, the three (3) Municipal Mayors of Magdiwang, Cajidiocan, and San Fernando, National Agencies, representative of Academe, NGOs and POs, Barangay Officials from seventeen (17) barangays, Protected Area Management Office personnel, In Charge of PENR Office, MSD Thelmo S. Hernandez, and members of the secretariat and visitors. EcoMS I Nieves F. Penuliar officially roll-called the attendance of PAMB members from the Regional Office, Offices of the Congressman and Governor, the three (3) Municipal Mayors (Cajidiocan, Magdiwang and San Fernando), Department Heads of National Government Agencies, Non-Government Organizations, Peoples Organizations, Brgy. Local Government Units, Academe and Indigenous Peoples. Out of thirty-five (35) regular PAMB En Banc members, twenty-four (24) were present; hence, a quorum was declared.	

		In the absence of the MGGNP PAMB Chairperson Hon. Lormelyn E. Claudio, CESO IV, PASu Malvin R. Rocero opened the nomination for the presiding officer of the 2nd Quarter PAMB En Banc meeting. Hon. Arthur R. Tansiongco, Municipal Mayor of Magdiwang and MENRO Rommel Augustus Radan were nominated. Hon. Elizabeth Ibañez moved to close the nomination and seconded by Hon. Unique Muros and duly approved by the majority members of the PAMB. As per counting of votes, Hon. Arthur R. Tansiongco was appointed to be the presiding officer for the 2nd Quarter PAMB En Banc Meeting.	
C. Reading and Approval of the Minutes of the Previous Meeting (January 27, 2022)		The presiding officer requested EcoMS I Nieves F. Penuliar to read the minutes of the 1st Quarter PAMB En Banc Meeting. In the middle of reading the minutes, Hon. Rodne Galicia noticed that there are people who are not an official PAMB member attending the meeting. He also asked that the said person be removed on the meeting since it is against the rules. He is referring to the ALTAI mining corporation spokesperson Mr. Taule. PASu Malvin Rocero clarified that Mr. Taule was actually invited to discuss the alleged mining exploration on San Fernando. Hence, PASu Malvin R. Rocero suggested that Mr. Taule will be confined on a separate room and wait for his turn. Hon. Rodne Galicia moved that Mr. Taule will be accommodated once the agenda regarding the alleged mining exploration will be the discussion and it was unanimously seconded by all PAMB members.	
D. Matters arising from the previous meeting.		Hon. Arthur R. Tansiongco asked if there are comments and objections regarding the minutes of the 1st Quarter PAMB En Banc meeting. Since there are no comments and objections from the 1st Quarter PAMB En Banc minutes,	
E. Report of the Protected Area Superintendent (PASu) on the agreement reach during previous meeting		Hon. Arthur Juan R. Tansiongco announced to proceed to PASu report on the agreement reached during the previous meeting. PASu Malvin R. Rocero reported that the following resolutions numbered from MGGNP-PAMB En Banc Resolution No. 2022-01 to 2022-03 and minutes of the previous meeting dated January 27, 2022 were submitted to the Regional Executive Director/PAMB Chairperson for approval, thru the PENRO: 1. PAMB En Banc Resolution No. 2022-01, Series of 2022 “A Resolution Approving the Work and Financial Plan for FY 2022 of Mt. Guiting-Guiting Natural Park, Sibuyan	Hon. Rodne Galicia moved for the approval of the minutes of the previous meeting and seconded by Hon. Unique Muros and duly approved by the majority members of the PAMB.

	Island, Romblon amounting to Two Million Pesos (P 2,000,000.00) from 25% share of IPAF Collection of Protected Areas deposited to the IPAF-SAGF.” 2. PAMB En Banc Resolution No. 2022-02, Series of 2022 “A Resolution Recommending Forester Manuel B. Romero as OIC Protected Area Superintendent (PASu) of Mt. Guiting-Guiting Natural Park.” 3. PAMB En Banc Resolution No. 2022-03, Series of 2022 “A Resolution Approving the Updated Protected Area Management Plan (PAMP) of Mt. Guiting-Guiting Natural Park.” In addition, PASu Malvin R. Rocero discussed other matters that were acted by the PAMO staff. Illegal mining incident at Brgy. Mabulo, San Fernando, Romblon and Brgy. Dulangan, Magdiwang, Romblon as reported by their Brgy. Captains were acted immediately wherein DENR personnel were dispatched to investigate in the area since March 16, 2022. Investigation come out that there are signs of ongoing operation of illegal mining activities however it has been stopped by the DENR. On the alleged report of skin conditions/illness that was triggered by the contaminated water of Mabulo River, PASu Malvin R. Rocero said that we cannot determine if the main cause of it is the mining activities happening on their area unless they consulted it to a doctor for them to have a basis. He assured that all Protected Area staff are conducting their regular counter operation on the said areas to stop the illegal mining activities. He then called the attention of every Brgy. Captain to be vigilant in reporting illegal forest activities most especially the illegal mining activity. He also mentioned that some people from the IP communities, specifically from Sitio Guintac-an, Agtiwa are conducting their patrolling and monitoring any illegal forest activities happening within the PA and CADT area. PASu Malvin R. Rocero asked the coordination of the IP communities with the DENR for them to avoid being suspected on the alleged illegal mining activities. Finally, he assured that regular patrolling of DENR personnel will be conducted in the areas to stop illegal mining activities. Hon. Arthur R. Tansiongco asked the PAMB members if they have any comments and suggestion regarding the report of the PASu. Hon. Rodne Galicia commented asking what are the next legal actions to be taken to avoid the said issue. PASu Malvin R. Rocero answered that there are corresponding penalties in every violation with accordance to the Republic Act 11038 for those who are doing illegal activities in the protected area especially illegal mining. The DENR personnel who caught someone doing an illegal activity in the Protected Area will file a case to the Prosecutor’s Office against a violator. He stated that he cannot let anyone destroy our beloved Mt. Guiting-Guiting Natural Park without being penalized for the damage they have done. At the end, he proposed that there will be a continuous operation on	
--	---	--

3. Reporting of 1st Semester Biodiversity Monitoring System (BMS)	resolution on the designation of the remaining forest land and timberland surrounding Mt. Guiting-Guiting Natural Park as buffer zones. PASu Malvin R. Rocero clarified that copy of a Resolution that was approved in 2019 on the designation of buffer zones was not yet furnished by the Regional Office to the PA Management Office. Ms. Rongavilla answered that they will trace the resolution as the same had been approved/signed in their level and needed to have a technical description in order to be approved by the DENR Secretary. She explained that Mt. Guiting-Guiting Natural Park will be the first protected area to designate a buffer zone. She further assured the body that she will update the PAMB soonest regarding the resolution's status. PASu Rocero asked if the body needed to pass another resolution for the buffer zone as the issue is included in the agenda. Ms. Rongavilla stated that it will be alright to pass another resolution for fast tracking. Hon. Elizabeth then stated that Mt. Guiting-Guiting Natural Park is threatened because of several environmental issues and that the passing of the resolution on the buffer zone should be a critical action in combating these issues. Hon. Tansiongco agreed and stated that fast tracking of the resolution is the best option for the PAMB. Ms. Rongavilla then stated that at that moment, she had already instructed the tracing of the resolution and other pertinent documents and she will furnish a copy to the Board immediately. EcoMS I Mylene Evallar presented the report on the 1st Semester Biodiversity Monitoring System (BMS) of Mt. Guiting-Guiting Natural Park. She presented the basic methods in the conduct of BMS such as Transect Walk, Photo documentation, Field Diary and Focus Group Discussion. The 1st Semester BMS report covers the period of 1st and 2nd Quarter. After the reporting of recommended PAMB Action, Hon. Tansiongco asked the Board if there are any additional suggestions. He then suggested to include the BFP, CAFGU, Coast Guard, and other uniformed personnel when having an operation in order to have more manpower when it comes to combating the illegal activities in the Park. Hon. Jesse Roda then asked for a copy of the presentation for their reference. PASu Malvin suggested to add in the PAMB Action to have a binding Agreement between Philippine National Police, Philippine Army and Philippine Coast Guard in order to strengthen the cooperation with the LGUs as the manpower of DENR had difficulty against illegal mining activities. It would be better to have a commitment between the DENR and other law enforcement agencies. He also suggested the establishment of tree plantations outside the Protected Area or outside the Timberland. This action will help preserve the trees in the Protected Area and Timberland and will help in the preservation of biodiversity. Thus, he suggested that the LGUs and BLGUs should invest	
--	--	--

	to tree plantations in their areas so that trees for local consumption and even for furniture will be sourced out from those plantation areas. Hon Tansiongco asked why owners of chainsaw find it difficult to register a chainsaw. PASu Rocero answered that it is because the chainsaw to be registered should be purchased only on registered distributors and chainsaws without or tampered serial numbers cannot be registered since it is against the law. Hon. Tasingco then asked to have a focal person when it comes to the process of chainsaw registration. PASu Rocero assured that the office had focal persons for permit applications in the Office. Hon. Rodne Galicia also asked if the PAMO can provide a checklist of the requirements for the registration of chainsaw/regulation and provide a copy to the barangay thus they will be guided. PASu Rocero further explained that the PAMO office in Brgy. Tampayan, Magdiwang accepts chainsaw applications and forward application documents to PENR Office, Odiongan, Romblon for further evaluation and approval.		
4. Reported illegal mining incident at Brgy. Mabulo & Dulangan	EcoMS I Penuliar then stated that since the illegal mining incident in Brgy Mabulo and Dulangan had been tackled by PASu Rocero in the earlier part of the meeting, she asked the representative from Brgy. Mabulo of any updates on the status of Mabulo river and mining incidents in their area. Hon. Romero stated that for several days, the water in the river cannot be used because it is muddy and some of his constituents had skin rashes. However, after several days, the water returned back to normal. EcoMS Penuliar explained that upon receiving the information regarding the muddy water in Mabulo River, DENR personnel had been instructed to patrol the source of the river to know its cause since March 15, 2022. During the patrolling, signs of mining activities were observed in the area of Banilad. Hon. Tansiongco then asked what is the action of the PAMO on the observed mining activities in the area, PASu Rocero then called the attention of Forest Ranger Ludwin Ruado and Forest Ranger Dalvern Fesarit on the updates. Forest Technician Ramer Manalon updated on behalf of their team, he stated that during the operation, they were not able to apprehend the illegal miner but they were able to take a picture of the person and they had verified it to Brgy. Dulangan. Brgy. Captain Joven Rodeo verified that the person is a resident of Brgy. Dulangan, then filed a blotter connecting to the incident in the barangay. PASu Rocero then instructed to prepare the necessary documents in order to file a complaint against the person.		
5. Presentation and Approval of Work and Financial Plan for C.Y. 2023 for the Repair of Land Rover	Forest Ranger Andy I. Regla presented the Work and Financial Plan for Repair of Land Rover amounting to P385,500.00 for approval of the PAMB. He further explained that the land rover is unserviceable and garaged in Laguna waiting for availability of budget for repair. Thus, this is the right moment to pass a resolution on approving the WFP on its repair. He further explained that the fund for the repair is from the collected fees from mountaineers and other ecotourism activities from March 1, 2018 and the first quarter of CY 2022. It also includes the payment of ROMELCO amounting to P100,000 from its counterpart	Hon. Romel Augustus Radan moved <u>PAMB En Banc Resolution No. 2022 - 04 -A</u> <u>Resolution Approving the Work and Financial Plan for C.Y. 2023 of Mt. Guiting-Guiting Natural Park,</u>	

amounting to P385,000.00.	commitment. He stated that the amount for repair costs P385,000 however, it would be better to have a margin/allowance considering inflation. He further stated that the Accountant from PENR Office suggested that considering the needed documents on the repair of the rover, it would be best that the WFP be implemented in CY 2023. Hon. Tansiongco then asked that why make it in 2023 if we already have the money/fund for the vehicle's repair. He also emphasized to fast track the land rover's repair in soonest possible time and would like PASu Rocero to oversee its repair and make sure it will be brought back to Sibuyan immediately.	Sibuyan Island, Romblon Amounting to Three Hundred Eighty Five Thousand Pesos (P385,000.00) Representing the 75% Partial Share of IPAF Collection from March 01, 2018 To February 28, 2022 for the Repair of Land Rover, it was seconded by Hon. Salvador Mutia.	
6. Conduct of Training Needs Assessment of PAMB members and PAMO staff.	EcoMS I Penuliar presented the guidelines on the conduct of Training Needs Assessment (TNA) for PAMB Members and PAMO Staff. She explained that one of target activities for CY 2022 of the PAMO is the drafting the Capacity Building Plan for PAMB members and PAMO Staff to be submitted to the MIMAROPA Region, so personnel from the PAMO will conduct an interview to the PAMB Members. The interview will be guided by the Training Needs Assessment Questionnaire.	Hon. Rodne Galicia moved <u>PAMB Res. No. 2022-05, "A Resolution Granting Special Permit to Climb to Mr. Ramoncito Ruiz and PAMO Personnel to conduct biodiversity and trail safety assessment"</u>, seconded by Hon. Ramona Rivero.	
7. Reiteration on the re-opening of ecotourism activities in Mt. Guiting-Guiting Natural Park	Mr. Ramoncito Ruiz, a representative from the mountaineering group, presented his request for the re-opening of ecotourism activities in Mt. Guiting-Guiting Natural Park. He explained that he was one of the pioneer mountaineers that climbed Mt. Guiting-Guiting decades ago. He further explained that he does volunteer works but his passion is in mountaineering. He also explained that MGGNP had the cleanest mountain and river he had climbed and wants the re-opening of ecotourism activities to tourists to further promote the beauty of Sibuyan. He commended the efforts of the PAMB Members and the PAMO staff in protecting the mountain and also for having improvements when it comes to transportation in the Island. He also observed that there had an increased in the mountaineering fee in the past years. In line to this, he asked the proceeds of the fund and if there is a share for the guides and porters when they conduct activities such as tree planting and clean-up campaign. He further explained that it would be better for the three (3) municipalities to utilize their funds and improve their facilities when it comes to tourists to encourage investments. It would also be better if Mt. Guiting-Guiting will have an official website to encourage tourists and also researchers. He also willing to help if there are any problems that hinder the protection/conservation of MGGNP and the opening of ecotourism as well. He then requests to climb Mt. Guiting-Guiting Natural Park as soon as possible before he leaves the country. Hon. Rodne Galicia suggested that since Mr. Ruiz is already in Magdiwang, it would be better that some PAMO personnel will go together with Mr. Ruiz in climbing Mt. Guiting-Guiting and conduct a biodiversity and trail assessment. The assessment will help the Board in determining the status of biodiversity and trail of Mt. Guiting-Guiting that is needed once the		

hiking activities resume. He further stated that they will allow Mr. Ruiz to climb Mt. Guiting-Guiting given that there will be PAMO members present during the hike and a biodiversity and trail safety assessment will be conducted. PASu Rocero called the attention of Ms. Michaela Rongavilla on the copy of approved resolution on the re-opening of ecotourism activities in MGGNP. The resolution had been passed by MGGNP PAMB on CY 2021 and is waiting for the Regional Executive Director's approval. Hon. Rodne Galicia asked if there the representative of RED Claudio could furnish a signed copy immediately before the meeting is adjourned so that body will not pass another resolution on the re-opening of ecotourism activities in the Park. Ms. Rongavilla explained that the resolution is already in RED's Office and approval is being facilitated by the new OIC Assistant Regional Director for Technical Services (ARDTS) Maximo C. Landrito. She further explained that given the nature of the resolution, whereas it aims to help the people relying their income in mountaineering, it could be considered as approved in principle and they will immediately facilitate the provision of the signed copy back to PAMO Office. Hon. Galicia asked for a clarification if the Special Permit to Climb in Mt. Guiting-Guiting is upon the power and approval of the PAMB/PASu and Mr. Ruiz can climb Mt. Guiting-Guiting as long as PAMO personnel and staff is included in the team to conduct biodiversity and trail safety assessment. Ms. Rongavilla agreed to this and reiterated that the PAMO Staff should make sure that the existing Park rules and regulations when climbing Mt. Guiting-Guiting is accordingly followed. Forest Ranger Andy I. Regla was instructed to conduct biodiversity assessment, to be assisted by Forest Ranger Dalvern F. Fesarit and Forest Technician Rolando Galicia. Ms. Rongavilla stated that the PAMB Resolution No 2021-09, had been approved and the signed copy has been retrieved and they are currently locating the Annex containing the Technical Description. She also stated that the formulation of DENR Administrative Order (DAO) will be prioritized by the region for DENR Secretary's Approval. She also stated that the PAMO personnel to send an email of the Technical Description of the designated Buffer Zones to be verified by the Regional Office before its submission to the Central Office. She also said that if there is an urgent management intervention needed, especially in the buffer zones, it would be better to include it in the updating of the Management Plan. Thus, while it is being implemented in Secretary's level, there will be a management intervention being done in the level of PAMO. For the Regional Office's part, they will endorse the Resolution on the Buffer Zones of Mt. Guiting-Guiting Natural Park and for the PAMO and PAMB, it should be included in the Management Plan that can be implemented immediately. Ms. Rongavilla stated that there is no need for a reiteration as the prior resolution had been approved and they will provide a copy thru email.	8. Reiteration on the recommendation of Timberland and Forested Zones of the Protected Area
--	---

9. Other Matters

Hon. Tansiongco stated that he wants to send Forest Ranger Andy I. Regla to a cross visit/training on butterfly farms to gain knowledge and practical experience that will be incorporated to the Butterfly Garden located in the Protected Area Management Office (PAMO) of Mt. Guiting-Guiting Natural Park. PASu Rocero then stated that there is a Butterfly Farming in Marinduque that could cater for the needed training/practicum in the culture of butterflies.

Hon. Ramona Rivero suggested to ask for assistance on the requirements for the application of Mt. Guiting-Guiting Natural Park as ASEAN Heritage Park to preserve and conserve its biodiversity.

The proposed PAMO Uniform was also presented to the Board. A new design was presented containing solid colors since using camouflage design that was prior presented to the board could raise issues as only Uniformed personnel is allowed to wear such design. Upon review, Republic Act 493 prohibits the use of camouflage designs similar to the one the uniformed personnel use (PNP, ARMY, etc). The new design is composed of solid colors (blue, green, and gray) and contains a logo of DENR and PAMO of Mt. Guiting-Guiting Natural Park with names

Hon. Rodne Galicia then passed PAMB Resolution No. 2022-06, “A Resolution Requesting ASEAN Ministers of Environment, NCCA, and DENR to assist the PAMB in the proposed proclamation of Mt. Guiting-Guiting Natural Park as ASEAN Heritage Park”. It was seconded by Hon. Ramona Rivero.

Hon. Ramona Rivero moved to pass PAMB En Banc Resolution No. 2022-07 “A Resolution Approving the Work and Financial Plan for C.Y. 2023 of Mt. Guiting-Guiting Natural Park, Sibuyan Island, Romblon Amounting to Three Hundred Ninety Nine Thousand Five Hundred Pesos (P399,500.00) Representing 75% Partial Share of IPAF Collection from March 1, 2018 to February 28, 2022 for the Proposed Uniform of DENR Sibuyan Sub-Station and PAMO Personnel”. It was

	seconded by Hon. Rommel Augustus Radan. Hon. Galicia moved to recognize Engr. Steve Taule, one of the directors of Altai Philippines Mining Corporation to clarify the issues of mining in San Fernando, Romblon. Before their presentation, PASu Rocero narrated the alleged start of mining in Sibuyan particularly in San Fernando based on the reports to him of concerned citizens. Thus, he instructed PAMO personnel to invite and coordinate a representative of Altai Philippines Mining Corporation in order to clarify and bring awareness to the mining issue and their activities in Sibuyan Island. Engr. Steve Taule started his presentation on the background of Altai for the Board's information. Altai Philippines Mining Corporation is the original proponent of the duly approved Mining Tenement No. 304-2009-4B approved in CY 2009. The mining area in San Fernando started as a patented lease contract No. 547 of Santa Barbara Development Corporation which was approved in 1972 and this was good for 25 years. During the 1970s, the area was explored by Japanese companies, however, the Japanese companies backed out and the property became idle until 1996. Prior to its expiry in 1997, the mining title was reapplied as an application to Mineral Agreement in compliance to the Mining Law. Going forward, in 2009, the mining application was approved and was now numbered as 304-2009-4B covering an area of approximately 1,580.00 hectares out of the original area of 1,854. After the approval in 2009, Altai Philippines assigned the properties to Sibuyan Nickel Properties and Development Corporation in October 2010. In Sept 19, 2011, the MGB issued a Cease and Desist order to the field operations of Altai and Sibuyan Nickel. After the issuance and after a few years, there was a sale and transfer of ownership of properties. Sibuyan Nickel and Properties Development Corporation was to Dynamo Atlantic and as well as Altai Phils. Mining Corporation which was brought up by Dynamo Atlantic. Then, in September 9, 2021, the DENR issued an order that lifted the cease and desist order. He showed the map containing the area for mining reflected in their application. He explained that in the original area of 1,854 hectares, the old company opted to accept the decision of the DENR in surrendering the almost 300 hectares to Mt. Guiting-Guiting Natural Park. He also showed the plotting of the approved mining claims reflecting the boundaries and Park boundary. He explained that the mining claim is outside the Park and is in the flat lands. The mining claim/area is around 70 meters above sea level in So. Bato, 200asl in So. Binayaan, and 500asl in So. Silab, Taclobo. They also presented an image that reflects the area and Cantingas River. He explained that years ago, the DENR and MGB had prohibited the company to cross the boundary/area in Cantingas River thus the flowing water of Cantingas will not be affected. Engr. Taule emphasized the location of the mining area relative to Mt. Guiting-Guiting Natural Park. After the presentation, he also stated that on their part, there is no nickel in the ragged part of MGNP and further explained the nickel deposit could be seen on flat lands. He further explained that Altai is in preparation of their venue/office where
--	---

most of the Information, Education and Communication (IEC) Campaign will be held. After the IEC, exploration (drilling and sampling) will be conducted. In the next coming days, the IEC Team of Altai will be going around the Island to conduct IEC with different communities/barangays. Then, Engr. Taule asked if there are any question/clarification from the Board. Hon. Rodhe Galicia asked the chairman of the Board to comment on the presentation of Engr. Taule. He also stated that Engr. Taule had not presented the other companies that took over the said mining tenement. Hon. Galicia also stated that there are also various people are connected to the Altai Mining Phils. Corporation, he also shared another view of the tenement, he stated that the grounds of issuance of cease and desist order of the MGB is based on social acceptability and he is currently asking the MGB on the ground of lifting the suspension on Altai Mining Philippines Corporation. He also asked the activities being conducted in the area. Engr. Taule answered the questions of Hon. Galicia that some of the companies were not mentioned since they are not in the picture and that those are intervening companies and are having false claim. They had claims on the area and showed interest, however, they had not proceeded with an agreement with Altai thus Dynamo Atlantic was the one that managed to procure the area with Altai Mining Phils. He also confirmed that the Gatchalians are connected with Altai on the business side and it is being handled by a certain Mr. Kenneth Gatchalian, his siblings are into politics and are not connected to mining or in the business. He also stated that the Gatchalians connected to politics had no say on the mining business. Lastly on the plotting, some are inside the Protected Area/ Timberland and he stated that they want to refine the plots and would like to discuss it on details in order to take note the concerns and properly address it. EcoMS I Penuliar then read a question from Mr. Ruiz, asking "What are they (Altai) or what are you as a mining corporation going to do with the dirty water used by the corporation. Are you going to pay for the dirty water and the clean up of the dirty water in Cantingas River." Engr. Taule then stated that they are campaigning for responsible mining, therefore having dirty water will equal to dirty water in their mining activities. Thus, one of Altai's activities is to conduct IEC with the local community in order to inform them on responsible mining and the implementation of safety network in compliance with environmental laws applicable. He also stated that it would be better if there is a representative from multi-partite monitoring team, an independent team that will oversee the activities of Altai. It will be the representative of the local community and they will be the voice of the people directly to the company. If the multi-partite team found irregularities in the company's activity, then they will suggest to stop the mining activity. Regarding the issue on the dirty water, the company will ensure that all safety network will be done to avoid spillage and pollution in the river and other water source. Hon. Galicia asked the process after the exploration if they will submit the study to MGB for the feasibility if they are to expand their area. Engr. Taule agreed to this, the company is going to do drilling activities thus large equipment are present in their office to mend the road, after this, they will go to the declaration of the mining project feasibility. It will determine if it is

economical to conduct mining in the area or not, the volume of the nickel is for commercial or not. Based on the previous data, during the time of Japanese companies, there is a large potential for nickel operation in the area. And another point of clarification, the mining permit area coverage does not necessarily imply that it will be an active mining area. Out of the 1,500 hectares, it would be lucky to have 500 hectares of nickel. However, it will not be deposited in one area only, it could be found within 100 hectares from each other. Hon. Galicia asked how many trees will be cut during the exploration, building of camps and road. Engr. Taule stated that for the activities that involved cutting, especially during the exploration, there will be an inventory that will be done by the DENR before-the cutting is allowed. They also stated that they will follow the policy whereas one tree will be replaced equivalent to 100 seedlings. They are also preparing an area for nursery production of the native species of trees. Ms. Elizabeth also said that as per Engr. Taule's statement, they will operate responsible mining, however, so far as per her experience in exploring different mining areas in the country, there are no responsible mining. Number one (1) is in part of Surigao, below sea level is being quarried and that the farmlands of the community had been affected even their watershed. She further expressed that the local community always suffer in the end. So how can we say that it is a responsible mining if the local community suffers in such mining activity. Second, she asked if the area presented, was not all flat lands and if most of the area are slopes. Engr. Taule answered that if the case of Surigao--was not responsible, then it should be reported to MGB because the MGB will issue cease and desist order. Economic wise, in Claver Surigao, the presence of nickel mining elevated the economic status of the whole municipality. It is not only the direct employees but also the sale and income of the businesses present in the community. However, being bystanders is one of the challenges for the local community instead of becoming proactive and making sure that even in the early start of exploration, what the mining company does is responsible mining. They should look into the process of responsible mining then give a recommendation or correction. Second, with regards to the topography of the area, it is normal that not all of it is flat as there are rolling terrains, however, it is not steep like the terrain of G2. Thus, it is the prospective area for depositing of nickel ore. Then, Ms. Ibañez answered that in line of responsible mining, particularly in Rio Tuba, traces of destruction is seen. In the issue of nursery and rehabilitation, the nursery and rehabilitation is very minimal compared to the destruction done in many years of operation. Hopefully, the issues could be discussed honestly. Engr. Taule agreed to this sentiment. He stated that in 50 hectares that quarrying will be done, the 50 hectares will be rehabilitated and they will show proof that it is rehabilitated. The mining areas are only on temporary land use. After quarrying it for 6 months or 1 year, rehabilitation should immediately take place. Rehabilitation should not only involve the cover up of the quarried area but it should also implement slope stability before planting the trees. He explained that the fully rehabilitated area in Rio Tuba after mining activities is one of the examples of responsible mining. Engr. Taule encouraged the Board to

10. Adjournment	participate in the MPT to check if there is a nursery and if there seedlings of native trees suitable for Sibuyan Island. Those factors will be accounted for and those will be in concurrence with the monitoring team. He further stated that since the PAMB is first line of defense and protector of the environment of Sibuyan, he encouraged the PAMB to guard the company on their activities in the area. Ms. Ibañez stated that probably it would be better to include cost benefit analysis to show the community, LGU, and others, on the effect of mining in the area and in the community. If there is a large benefit for the local community once the mining activities commence, the people would definitely agree. Engr. Taule agreed to this and stated that it is already included in their IEC; taxation benefits, number of employment, investment and among others. He also stated that their mining activity is only a simple mining activity compared to copper and gold. Engr. Taule then stated that this kind of discussion would be better in face to face activity. He then stated that their IEC team will conduct information dissemination in the Island of Sibuyan and they will invite representatives for a more fruitful conversation Since there were no other agenda to be discussed. The meeting was ended at exactly 3:42 p.m.	Hon. Rommel Augustus Radan moved for the adjournment of the meeting. It was seconded by Hon. Ramona Rivero and approved by the majority members of the board.

OTHERS PRESENT: *(See attached Attendance Sheet)*

RESOLUTION NO. 2022-04
Series of 2022

A RESOLUTION APPROVING THE WORK AND FINANCIAL PLAN FOR C.Y. 2023 OF MT. GUITING-GUITING NATURAL PARK, SIBUYAN ISLAND, ROMBLON AMOUNTING TO THREE HUNDRED EIGHTY FIVE THOUSAND PESOS (P385,000.00) REPRESENTING THE 75% PARTIAL SHARE OF IPAF COLLECTION FROM MARCH 01, 2018 TO FEBRUARY 28, 2022 FOR THE REPAIR OF LAND ROVER

WHEREAS, it is within the powers, duties and functions of the Protected Area Management Board (PAMB) to approve policies, guidelines, plans and programs, proposals, agreements and other related documents, including the Manual of Operation for the efficient and effective management of Mt. Guiting-Guiting Natural Park (MGGNP);

WHEREAS, Republic Act 10629 provides for the Retention by the Protected Area Management Board (PAMB) of the Seventy-Five Percent (75%) of the Revenues Accruing to the Integrated Protected Areas Fund (IPAF), Amending for the Purpose Section 16 of Republic Act No. 7586 known as the National Integrated Protected Areas System Act of 1992;

WHEREAS, the protected area has generated revenues covering the periods of **March 01, 2018 to February 28, 2022** in the amount of **One million forty seven thousand two hundred fifty three pesos (P1,047,253.00)** inclusive of Official Receipts **Nos.7950415 L to 7950450 L; Nos. 2486851 T to 2487000 T; Nos. 2487251 T to 2487574 T; and Nos. 2487575 T to 2487671 T** and part of this **Seven hundred eighty five thousand four hundred thirty nine and 75/100 pesos (P785,439.75)** represents the total 75% share of Mt. Guiting-Guiting Natural Park was deposited to Trust Fund Account of Mt. Guiting-Guiting Natural Park;

WHEREAS, disbursement of the 75% and 100% share shall be made solely for protection, maintenance, administration and management of protected area and duly approved projects endorsed by the PAMB, in the amount authorized by DENR;

WHEREAS, repair and maintenance of government vehicles-Other Transportation Equipment for official use of the PA Office staff for the protection and conservation of Mt. Guiting-Guiting Natural Park;

WHEREAS, the Land Rover owned by NIPAP was turned over to DENR since 2001 and it needs additional fund for the repair;

WHEREAS, presented before the body is Work and Financial Plan for C.Y. 2023 amounting to **THREE HUNDRED EIGHTY FIVE THOUSAND PESOS (P 385,000.00)** intended for repair and maintenance of government vehicles-Transportation Equipment for official use of the PA Office staff for the protection and conservation of Mt. Guiting-Guiting Natural Park;

WHEREFORE, premises considered after due deliberation and upon motion of Hon. Rommel Augustus Radan duly seconded by Hon. Salvador Mutia and approved by majority members of the PAMB of Mt. Guiting-Guiting Natural Park; be it

RESOLVE as it is hereby resolve the following:

1. Approval of Work and Financial Plan for C.Y. 2023 amounting **THREE HUNDRED EIGHTY FIVE THOUSAND PESOS (P 385,000.00)** to be derived from protected area’s 75% partial share from revenues generated for the period of **March 01, 2018 to February 28, 2022** which was distributed according to expense class, as follows:

Maintenance and Other Operating Expenses (MOOE)	=	P 385,000.00
Capital Outlay (CO)	=	-
TOTAL		P 385,000.00

Description of proposed activities under Maintenance and Other Operating Expenses (MOOE):

RESOLUTION NO. 2022-07
Series of 2022

A RESOLUTION APPROVING THE WORK AND FINANCIAL PLAN FOR C.Y. 2023 OF MT. GUITING-GUITING NATURAL PARK, SIBUYAN ISLAND, ROMBLON AMOUNTING TO THREE HUNDRED NINETY NINE THOUSAND FIVE HUNDRED PESOS (P399,500.00) REPRESENTING 75% PARTIAL SHARE OF IPAF COLLECTION FROM MARCH 1, 2018 TO FEBRUARY 28, 2022 FOR THE PROPOSED UNIFORM OF DENR SIBUYAN SUB-STATION AND PAMO PERSONNEL

WHEREAS, it is within the powers, duties and functions of the Protected Area Management Board (PAMB) to approve policies, guidelines, plans and programs, proposals, agreements and other related documents, including the Manual of Operation for the efficient and effective management of Mt. Guiting-Guiting Natural Park (MGGNP);

WHEREAS, Republic Act 10629 provides for the Retention by the Protected Area Management Board (PAMB) of the Seventy-Five Percent (75%) of the Revenues Accruing to the Integrated Protected Areas Fund (IPAF), Amending for the Purpose Section 16 of Republic Act No. 7586 known as the National Integrated Protected Areas System Act of 1992;

WHEREAS, the protected area has generated revenues covering the periods of **March 01, 2018 to February 28, 2022** in the amount of **One million forty seven thousand two hundred fifty three pesos (P1,047,253.00)** inclusive of Official Receipts **Nos.7950415 L to 7950450 L; Nos. 2486851 T to 2487000 T; Nos. 2487251 T to 2487574 T; and Nos. 2487575 T to 2487671 T** and part of this **Seven hundred eighty five thousand four hundred thirty nine and 75/100 pesos (P785,439.75)** represents the total 75% share of Mt. Guiting-Guiting Natural Park was deposited to Trust Fund Account of Mt. Guiting-Guiting Natural Park;

WHEREAS, disbursement of the 75% share shall be made solely for protection, maintenance, administration and management of protected area and duly approved projects endorsed by the PAMB, in the amount authorized by DENR;

WHEREAS, to gain respect from the public and safety measures on field works, provision of uniform, field materials and supplies for DENR personnel is needed;

WHEREAS, presented before the body is Work and Financial Plan for C.Y. 2023 amounting to **THREE HUNDRED NINETY NINE THOUSAND FIVE HUNDRED PESOS (P399,500.00)** intended for the purchase of three (3) sets of uniform (Blue, Green and Gray) with patches of DENR, MGGNP PAMB logo and names for 17 personnel, and field supplies such as, field booths, Hard hat, first aid kit and Hat/Cap;

WHEREFORE, premises considered after due deliberation and upon motion of Hon. Hon. Ramona Rivero duly seconded by Hon. Rommel Augustus Radan and approved by majority members of the PAMB of Mt. Guiting-Guiting Natural Park; be it

RESOLVE as it is hereby resolve the following:

1. Approval of Work and Financial Plan for C.Y. 2023 amounting **THREE HUNDRED NINETY NINE THOUSAND FIVE HUNDRED PESOS (P399,500.00)** to be derived from protected area’s 75% partial share from revenues generated for the period of **March 01, 2018 to February 28, 2022** and distributed according to expense class, as follows:
