MEMORANDUM

FOR : The CENRO
Roxas, Palawan

THRU : The OIC-CDS Chief

FROM : The Undersigned

SUBJECT : **TCAGP ALUMNI WEBINAR**

Please be informed that undersigned was one of the lecturer for the UP Diliman Training Center for Applied Geodesy and Photogrammetry (TCAGP) Alumni Webinar Day 1 on October 10, 2022.

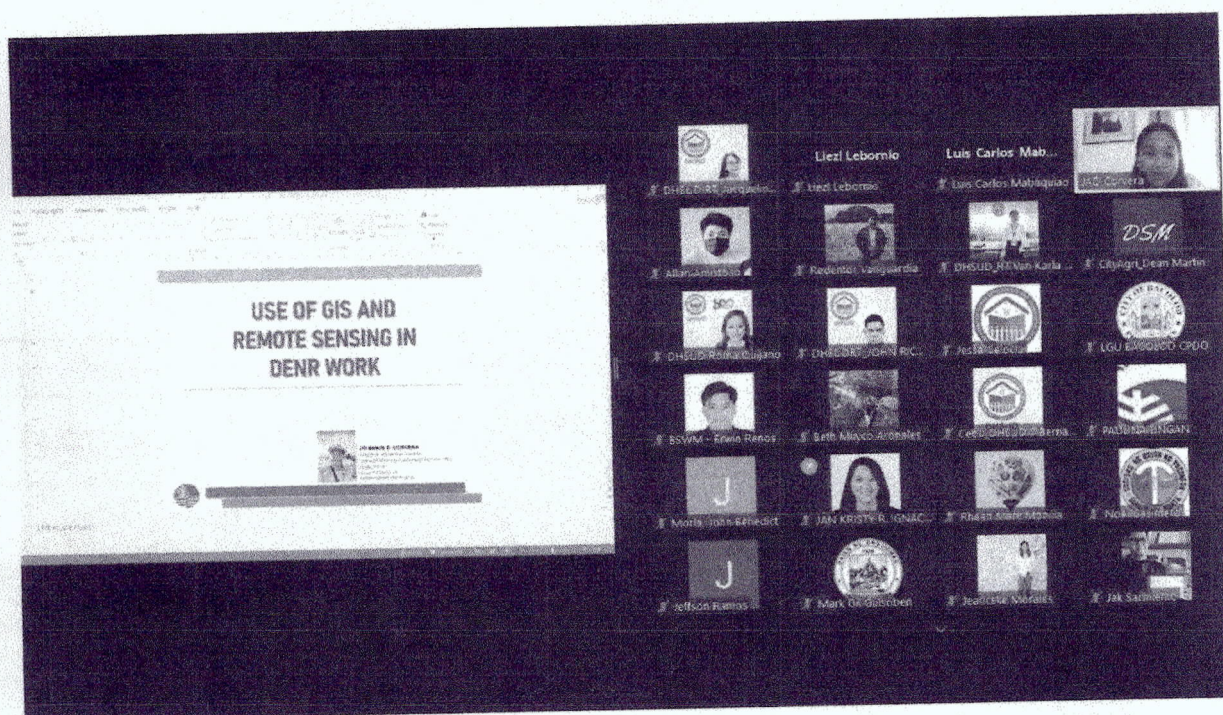

The first lecturer discussed how GIS was used in the Comprehensive Land Use Plan (CLUP) which the Department of Human Settlements and Urban Development reviews and approves. GIS is also used in Community-Based Monitoring System which the Planning Offices use for the delivery of services and projects.

The undersigned lectured on the use of GIS and remote sensing in resource planning, monitoring of wildlife, coastal management and generation of Forest Land Use Plans. In DENR, the free software QGIS, is not used. ArcGIS is used instead by as recommended by NAMRIA and the Regional Office. Remote sensing is not often used since our skills in processing satellite images must be improved.

For information and record.

JO ANNIE D. CORVERA
Ecosystems Management Specialist I
