SUBJECT

SUBMISSION OF ACCOMPLISHMENT REPORT ON LAWIN

PATROLLING WITHIN THE AREA OF RESPONSIBILITY OF CENRO-ROXAS, PALAWAN FOR THE PERIOD OF AUGUST

16 TO SEPTEMBER 15, 2022

Respectfully submitted is our report re: above subject.

Please be informed that, the LAWIN patrollers have accomplished 234.8% of their target for the said period. The total distance patrolled was 117.40 kilometers. Further, there are thirty-nine (39) recorded threats (typhoon related threats, Fire, Garbage, Annual and Perennial Farming), these threats were already addressed and/or no further action needed.

For information and record.

Summary Patrol Report

Region 04B - Roxas-Pal

Number of days analyzed:

30

19 Sep 2022 2:22 PM

This report presents the patrol performance and quality of the implementing unit during the above stated period of time (number of days). The report contains information on accomplishment rate, coverage and intensity of patrolling in different forest types on patrol distance covered per patroller. The information is meant to provide a basis for patrol planning for the next planning period and implementation of adaptive measures to enhance patrolling as necessary.

Overall accomplishment rate*

Level of Accomplishment

Accomplishment Target

Accomplishment* for the period 117.40

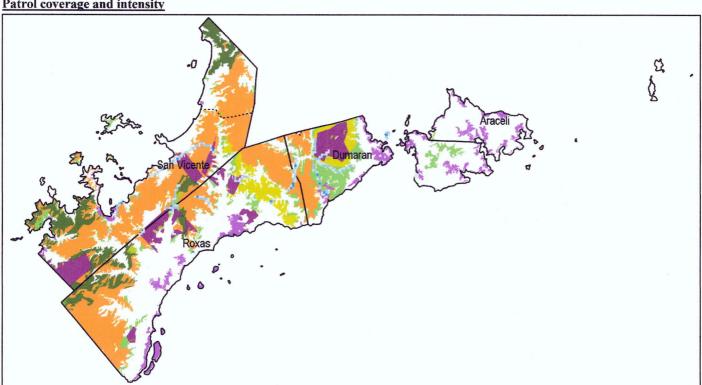

Target* distance for the period

108.00

Accomplishment Rate:

108.71%

Patrol coverage and intensity

^{*}Target is computed based on 10km target per team of 4 DENR patrollers per month

Patrol distance covered by each forest ranger

Forest Ranger	Patrol Distance Accomplished		
Donne Sabroso	59.66		
Merma Saddin	56.84		
Alonso Tabangay	49.09		
Christopher Padrones	48.67		
Marco Angelo Marquez	48.17		
Armando Gabayan	47.12		
Lemuel Bacalla	44.96		
Ronnie Jann Ian Mabitasan	33.00		
Markwilliams Sotoza	31.56		
Ryan Giganto	27.86		
Charlie Rabang	26.66		
Enrique Jardin	26.66		
Roy Mercader	26.66		
Alvin Maduro	25.70		
James Tajon	20.32		
Mark Anthony Ortega	17.25		
Rogelio Yaquitin	11.73

Forest Protection Effectiveness Report

Region 04B - Roxas-Pal

Number of days analyzed:

30

19 Sep 2022 2:24 PM

This reports presents trends in observations of forest condition, regeneration, threats and indicator species. The combined presentation allows for an evaluation if protection efforts are effective, conservation targets are met and the forest achieves the desired future forest condition. Protection efforts are effective, when records of forest condition, regeneration and indicator species show an upward trend towards more observations more and denser regeneration, particularly in degraded forest areas. Increasing trends in indicator species suggest that the improved forest condition is providing a better habitat for forest dependent species. All trends presented are put in relation to the patrol effort to provide comparability. Forest cover data were derived from 2003 and 2010 NAMRIA land cover maps.

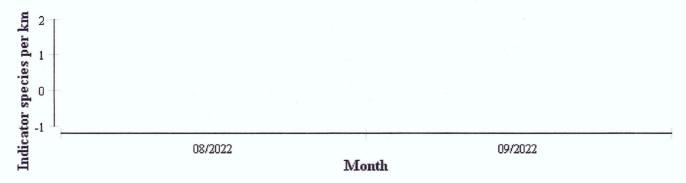

Trends of Observations per Patrol Kilometer in the Forest Conservation Area

Trend in Threats

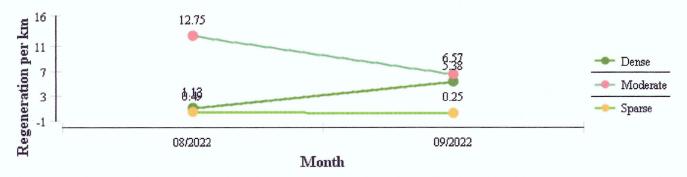

A decreasing trend in threats in the forest conservation area mean effective forest protection; an increasing trend means the opposite.

Trend in Indicator Species

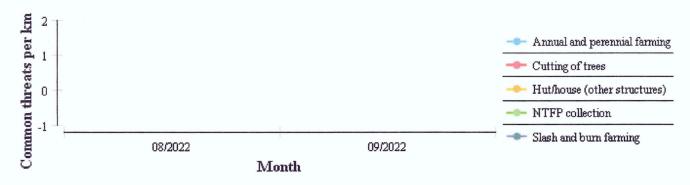

An increasing trend in indicator species in the forest conservation area means effective forest protection; a decreasing trend means the opposite.

Trends in Regeneration Density

An increasing trend in regeneration means effective forest protection; a decreasing trend means the opposite.

Trends of most common Threats

Summary Threat Report

Region 04B - Roxas-Pal

Number of days analyzed:

30

19 Sep 2022 2:20 PM

This report presents information for the implementing units of DENR to effectively plan and carry out actions for adressing observed threats to the forest.

Threats observed and level of response required

Threat	No. of Observations	Emergency - Immediate action required!	Level 1 - Action required within a week	Level 2 - Action required within a month
Annual and Perennial Farming	19	0	0	0
Typhoon-related Threats	17	0	0	0
Fire	2	0	0	0
Garbage	1	0	0	0
