Dear CENRO Caluya:

Greetings of peace!

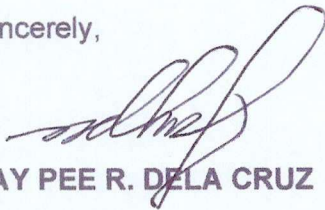

As part of our continuous marine protection efforts, the Berong Nickel Corporation (BNC) thru its Mine Environmental Protection and Enhancement Office (MEPEO) watched over another sea turtle nest which was found by a local resident, Mr. Jerry Monsale last August 3, 2022 in Berong Bay near our Old Pier. Temporary fence was immediately installed to secure the area and prevent possible threats caused by anthropogenic activities (i.e. poaching) and natural predators (e.g. monitor lizards and birds).

On September 20, 2022, forty-eight (48) days after it was reported and discovered, MEPEO personnel released the ninety-three (93) baby sea turtles, hours after it hatched. Photo documentations are provided in the next page.

For your information.

Sincerely,

**JAY PEE R. DELA CRUZ**

MEPEO/Pollution Control Officer
