TECHNICAL BULLETIN NO. 2022-02**

DENR PENRO
PALAWAN REGION
RECEIVED

10-03-2022 22-8454

Submitted is the Report on the conducted Roll out on Biodiversity Management Bureau (BMB) Technical Bulletin No. 2022-02 "Guide in Mainstreaming the Integrated Coastal Management (ICM) Approach to the Local Government Units Comprehensive Land Use Plan (CLUP)".

The said roll out was conducted on September 13, 2022 at PENRO Training Hall, Puerto Princesa City, Palawan. It aims for the DENR Palawan personnel to fully understand the Technical Bulletin to provide the proper technical assistance to the LGUs in Palawan related to the mainstreaming of Integrated Coastal Management (ICM) approach to their Comprehensive Land Use Plan (CLUP).

**REPORT ON THE CONDUCTED ROLL OUT ON BMB TECHNICAL BULLETIN
NO. 2022-02 "GUIDE IN MAINSTREAMING THE INTEGRATED COASTAL
MANAGEMENT (ICM) APPROACH TO THE LOCAL GOVERNMENT UNITS
COMPREHENSIVE LAND USE PLAN (CLUP)"**

This pertains to the target activity under the Management of Coastal and Marine Resources/Areas- Technical Assistance on Integrated Coastal Management (ICM). On May 10, 2022, the Biodiversity Management Bureau (BMB) issued the Technical Bulletin No. 2022-02 "Guide in Mainstreaming the Integrated Coastal Management (ICM) Approach to the Local Government Units Comprehensive Land Use Plan (CLUP)".

Relative to the said technical bulletin, this office waited for the national roll out on July 11-16, 2022, however it was attended by limited participants. Hence, this office requested to the Regional Office a re-echo on the said roll out through memorandum dated August 8, 2022.

On September 13, 2022, the roll-out of the technical bulletin for DENR Palawan personnel was conducted. Held at PENRO Training Hall, Puerto Princesa City, Palawan and via zoom. It was participated by the different CENROs and PENRO personnel whom comprises the regional composite team for the ICM mainstreaming to CLUP.

Engr. Ronie E. Alpajaro, being the resource speaker for the roll out discussed a brief background of Integrated Coastal Management (ICM) approach and the provisions of Technical Bulletin No. 2022-02.

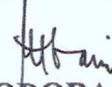

The roll-out was a success, giving the DENR Palawan personnel an understanding of the said guidelines including the different phases with corresponding set of activities. It also serves as an avenue to initially strategize on the prioritization of LGUs in Palawan giving the timeline for updating their CLUP.

The roll-out ended with an agreement among the participants to set the target on providing technical assistance to LGUs according to the duration of their CLUPs and other criteria for prioritization. It was also agreed to consider the Forest Land Use Plan (FLUP) in prioritizing the LGU to be assisted. Through this mainstreaming of ICM to CLUP, the DENR involvement to LGU's planning process is not just to increase the impacts of ICM initiatives but to ensure the sustainability of our Coastal and Marine Resources with visible achievements and impacts.
