SUBJECT : **SUMMARY REPORT ON THE CONDUCTED PROTECTED AREA
MANAGEMENT BOARD (PAMB) ENBANC MEETING OF
MALAMPAYA SOUND PROTECTED LANDSCAPE AND
SEASCAPE (MSPLS), TAYTAY-SAN VICENTE, PALAWAN**

This pertains to the target activity on the conducted of Protected Area Management Board (PAMB) meeting under PAMB Operations of Malampaya Sound Protected Landscape and Seascape (MSPLS). Taytay-San Vicente, Palawan for CY 2022.

Please be informed that on September 9, 2022, the Protected Area Management Office (PAMO) of MSPLS facilitated the conduct of PAMB Enbanc meeting held at Tay Lelong's Pension House, Barangay Poblacion, Taytay, Palawan. The said meeting was presided by Mr. Zanie Seracarpio and was attended by twenty-seven (27) PAMB Enbanc members composed of eighteen (18) males and nine (9) females via zoom and face to face.

The agenda discussed are the following:

1. Resolution No. 2, "Resolution endorsing the prescribed measurement of nets used in Talakop fishing activities within the outer sound and proposed MPAs of MSPLS."
2. Resolution No. 3, "Resolution endorsing the re-opening of Kuyawyaw Falls at Barangay Cataban, Taytay, Palawan."
3. Resolution No. 4, "Resolution imposing conservation fees for camping, trekking, mountaineering, Irrawaddy Dolphin watching, snorkeling and other educational tourism activities in MSPLS."
4. Resolution No. 5, "Resolution requesting for an assistance from Mines and Geo-sciences Bureau (MGB), Environment Management Bureau (EMB), Local Government Unit (LGU) and other concern OGAs to conduct assessment and validation of Sand and Gravel within MSPLS."
5. Resolution No. 6, "Resolution imposing fees for commercial filming and photography in MSPLS."
6. Resolution No. 7, "Resolution enjoining partners who are intending to submit project proposals/development for communities and areas within MSPLS to secure PAMB endorsement prior to submission of the proposals to prospective local and international funders."
7. Resolution No. 8, "Resolution adopting the procedures for evaluating and endorsing research proposals in MSPLS."

Likewise, other matters include the letter of Mr. Nestor Dosal regarding his project proposal located at Barangay New Guinlo, Taytay, Palawan, presentation of Orientation on I-FIT Tool (Philippine IUU Fishing Index and Threat Assessment Tool), presentation of MSPLS

accomplishment such as 2nd semester BMS presentation for CY 2022, Enforcement accomplishment in MSPLS and IPAF collection as of September 9, 2022.

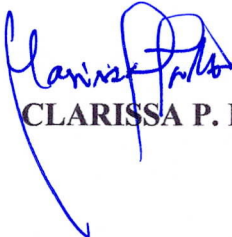

During the meeting, the board endorsed and approved the previous PAMB Enbanc meeting dated April 28, 2022 and six (6) resolutions stated above for review of the Regional Executive Director (RED), however, the Resolution No. 4, "Resolution imposing conservation fees for camping, trekking, mountaineering, Irrawaddy Dolphin watching, snorkeling and other educational tourism activities in MSPLS" was deferred for furtherance coordination to the Municipal Tourism Officer of LGU Taytay for his comments and suggestion. Said resolution will be included in the next meeting.

Further, the final minutes of this meeting will be submitted upon approval on the next PAMB Enbanc meeting.

Attached is the summary of minutes, attendance and geo-tagged photos.

7. Other official matters			
Letter of Mr. Nestor Dosal regarding his project proposal located at Barangay New Guinlo, Taytay, Palawan.	<p>On behalf of Mr. Nestor Dosal, Ms. Maria Mojena Gonzales-Plasus presented to the board the following purpose of their project proposal regarding fingerling Nursery.</p> <ul style="list-style-type: none"> ✓ Their main concern is the availability of good quality milkfish and green grouper fingerlings. ✓ Currently buying fingerlings from PPC and directly stocking them in the cages. ✓ Requesting assistance from WPU-ATBI to improve their current practices. ✓ Represent a sizeable community of fisherfolk in the area. ✓ To provide opportunity of the locals of New Guinlo to engaged in another source of livelihood. 	For information of the body and the PAMO-MSPLS to conduct an inspection on the subject area.	<p>All PAMB Enbanc members/PAMO-MSPLS</p> <p>Ms. Maria Mojena Gonzales - Plasus</p>

	<ul style="list-style-type: none"> ✓ New Guinlo has a potential to become supplier of the Bangus in Palawan. ✓ Relatively high income compared to existing livelihood (mussel and herring) of the locals of New Guinlo. ✓ Supply of Bangus fingerlings is readily available at BFAR. ✓ Government agencies provide assistance to those who engaged in Bangus Aquaculture. <p>a. Current Problems</p> <ul style="list-style-type: none"> ✓ High mortality of Bangus fry ✓ High production cost of Bangus in New Guinlo ✓ Inefficient culture of Bangus <p>b. Proposed Solution</p> <ul style="list-style-type: none"> ✓ Get fingerlings at smaller sizes so that the transport will be easier and they are less susceptible to extreme stress ✓ Fingerlings can grow bigger until they reach the ideal size for stocking in cages ✓ Fish are much more acclimatized and in better condition for them to survive the conditions in the open water <p>c. Fingerling Requirements</p> <ul style="list-style-type: none"> ✓ Fingerling requirements: 300,000 fingerlings per cycle ✓ 1 delivery – 20,000 fingerlings ✓ Nursery pond – will be used to condition fingerlings first prior to release in the cages. <p>d. Benefits of having nursery in the area</p> <ul style="list-style-type: none"> ✓ Increase in the survival rate of Bangus fingerlings ✓ Availability of well - conditioned fingerlings for farmers ✓ Help promote and improve the bangus industry in Taytay, Palawan 		
Presentation on Orientation on I-FIT Tool (Philippine IUU Fishing Index and Threat Assessment Tool)	<p>Ecosystem Management Specialist I Ana Liza D. Marasigan discussed to the board the Orientation on I-FIT Tool (Philippine IUU Fishing Index and Threat Assessment Tool)</p> <p>a. Rationale</p> <ul style="list-style-type: none"> ✓ We are already doing a lot to address IUU fishing ✓ We have many accomplishments in our efforts against IUU fishing ✓ And even some stories on intensified law enforcement operations 	<p>For the information of the body</p>	<p>EMS I Ana Liza D. Marasigan All PAMIB members</p>

	<p>b. How can these work help us fight IUU fishing?</p> <ul style="list-style-type: none"> ✓ IUU Fishing advantage is its covert nature; ✓ Need to keep the general public engaged and up-to-date on what is happening with IUU fishing; ✓ Science-guided and evidence-based planning for targeted, purposive, and measurable reduction of IUU fishing in hotspot areas; ✓ Provide basis to increase resources needed and generate additional support from community and other groups to eliminate IUU fishing in a whole-of-government / whole-of-community approach. <p>c. Why IUU Fishing Index and Threat Assessment Tool (I-FIT Tool)</p> <ul style="list-style-type: none"> ✓ <i>"IUU fishing in the Philippines is believed to be widespread although its actual magnitude remains to be quantified." (NPOA-IUU, EO 154, s. 2013)</i> ✓ current measures are output-based (e.g., number of patrols, number of apprehensions, cases filed, settled, etc), while useful, do not show state of IUU fishing and its impacts ✓ other measures such as remote sensing / satellite data (e.g., VIIRS Boat Detection, AIS) and anonymous reports only provide a partial perspective on the IUU fishing occurrence / incidences ✓ global/regional rankings are valuable at a macro level but too focused on international commitments and too generalized to sufficiently inform fisheries management at the LGU and even at the FMA or at the country level <p>d. What IUU Fishing Index and Threat Assessment Tool (I-FIT Tool)</p> <ul style="list-style-type: none"> ✓ a collection of "tools" to (a) assess the status of IUU fishing in a given area, (b) identify other longer-lasting and targeted solutions to reducing IUU fishing, and (c) track the progress towards preventing, deterring, and eliminating IUU fishing in Philippine waters across various levels of governance, from municipal waters to fisheries management areas to the entire country 	

	<p>e. IUU Fishing Index and Threat Assessment Tool</p> <ul style="list-style-type: none"> ✓ A collection of “tools” to guide the development of IUU Fishing Reduction Plans and assess interventions towards deterring, preventing, and eliminating IUU Fishing in Philippine waters across various levels of governance, from municipal to national. ✓ Envisioned to be used regularly (e.g., annually) <p>f. Why is there IUU fishing?</p> <ul style="list-style-type: none"> ✓ Benefits outweigh the costs ✓ Usually seen in terms of “monetary” ✓ But can be other factors that the individual values ✓ BENEFITS and COSTS can be non-monetary! <p>g. What else can we do to reduce IUU fishing?</p> <ul style="list-style-type: none"> ✓ Part A. IUU Fishing Assessment Guide <ul style="list-style-type: none"> • Complete guide kit for facilitating a 1-day workshop to assess IUU fishing prevalence, vulnerability, and responses in an area of interest; • Focused on stakeholder discussion and diving deep into the IUU fishing issues • Required workshop to fill out PART B. IUU Fishing Index Scoring Form. ✓ Includes: <ul style="list-style-type: none"> • Facilitators’ Guide (detailed process agenda and session guides) • Powerpoint presentations • Activity instructions • Forms ✓ Part B. IUU Fishing Index <ul style="list-style-type: none"> • Standardized scoring form to allow for objective comparison of IUU fishing across different areas and scaling up of information; • To be filled out as part of the IUU Fishing Threat Assessment Workshop (not separately) • 23 indicators grouped into Prevalence, Vulnerability, and Response components • Can be used to track your progress towards eliminating IUU fishing 		
--	--	--	--

	<ul style="list-style-type: none"> • Contains Annexes of forms to help rate the indicators <p>✓ Part C. IUU Fishing Reduction Planning Guide</p> <ul style="list-style-type: none"> • Complete guide kit for facilitating a 1-day workshop to develop a targeted and purposive plan to reduce specific IUU fishing threats the area of interest; • On-going development with DA-BFAR (for completion by end of May 2021) • Will contain similar types of content as in PART A. IUU Fishing Assessment Guide • Will be developed closely with DA-BFAR through a series of workshops using the outputs from the Masbate and Cebu assessments as inputs <p>h. Communicating Results</p> <ul style="list-style-type: none"> ✓ Fisheries Dashboard / BFAR FPED Fisheries Resources GIS ✓ Near real-time feedback ✓ Summarization ✓ Provincial, Fishing Grounds, FMAs, etc. ✓ Data analytics <p>i. Potential Uses of I-FTT Results</p> <ul style="list-style-type: none"> ✓ Evidence-based tracking of IUU fishing prevalence over time ✓ Can identify other ways to reduce IUU fishing where other sectors can participate (not just Bantay Dagat or FLE teams) ✓ Aids fishery managers in adjusting their IUU fishing reduction interventions based on important vulnerability factors ✓ Prioritized targeted responses ✓ Justify need for additional resources to combat IUU fishing ✓ Can eventually serve as a performance indicator matrix for DA-BFAR and LGUs and other fishery management bodies 		

	<p>j. I-FIT Flow</p> <ul style="list-style-type: none"> ✓ Assessment (1 day) <ul style="list-style-type: none"> • By individual LGU ✓ Planning (1 day) <ul style="list-style-type: none"> • By multi-LGUs / Provincial level ✓ Final Outputs: <ul style="list-style-type: none"> • IUU Fishing Index + Assessment highlights • IUU Fishing Reduction Plan ✓ Cycle (1st time is hardest; succeeding should be faster) ✓ Assessments & Planning should be timed with preparation of Annual Work & Financial Plans for following year <p>k. What does an I-FIT Tool implementation entail?</p> <ul style="list-style-type: none"> ✓ Coordination with LGUs ✓ Support / leading facilitation for 2x 1-day workshops ✓ Support for 1 day workshop on IUU Fishing Assessment (budget for venue, meals) ✓ Support for 1 day workshop on IUU Fishing Reduction Planning (could be part of annual planning) (budget for venue, meals) ✓ Encoding the data <p>l. BFAR thru Fish Right are willing to support interested NGOs and HEIs:</p> <ul style="list-style-type: none"> ✓ Training of trainors/ facilitating teams. ✓ Access to I-FIT Tool website and materials ✓ Support in consolidating, analysis (for cluster of LGUs) and visualization (Fisheries Dashboard) ✓ Inclusion of data in National Report ✓ Community of Practice and venue for sharing of lessons and enhancing the tools 		
Biodiversity System	<p>Forest Ranger Ricardo S. Tandoc presented the result of Biodiversity Monitoring System (BMS) conducted for the 2nd Semester of CY 2022. The presentation includes the proposed management intervention, important observations, summary of field diary, transect walk, transect swim, photo documentation, Focus Group Discussion (FGD), and Irrawaddy Dolphin monitoring in the established monitoring sites within the PA.</p>	<p>The body recommended to conduct Information, Education, Communication (IEC) campaign and recommends the continuous patrol and monitoring of the reported chainsaw and have</p>	<p>FR Tandoc All PAMB members PASu Pador and PAMO Office Support Staff</p>

		closed coordination to the Palawan Council for Sustainable Development (PCSDS) re: reported possession of unregistered chainsaw of some residents at Barangay Banbanan, Taytay, Palawan as a result of FGD on the mentioned barangay.	
Enforcement	<p>Forest Ranger Francis Abe G. Bose presented the accomplishment report of MSPLS Enforcement for the 2nd semester CY 2022. The following are the accomplishment of MSPLS enforcement team from June to July CY 2022.</p> <ul style="list-style-type: none"> Apprehended lumber at So. Tulduan, Barangay Liminangcong, Taytay, Palawan on June 6, 2022. Conducted inspection of furniture shop located at Sitio Nagtakayan, Barangay Poblacion, Taytay, Palawan on June 8, 2022. Conducted seaborne patrol within the vicinity of ENTMRPA and MSPLS on July 14 – 15, 2022. Apprehended abandoned twenty – five (25) pcs. Of Apitong lumber at So. Dapay, Bgy. Banbanan, Taytay, Palawan on July 19, 2022. Apprehended abandoned Amugis and Ipil lumber at So. Calapa, Barangay Banbanan, Taytay, Palawan on July 27, 2022. Continuously manning and monitoring the Park Ranger station and floating guardhouse located at Barangay Tumbod, Taytay, Palawan. 	<p>The body recommened to conduct continues patrolling and monitoring within MSPLS vicinity to lessen the threats and illegal activities.</p>	<p>FR Bose All PAMB members PASu Pador and PAMO Office Support Staff</p>
IPAF Collection	<p>PASu Pador presented the collection and revenues of MSPLS for the month of May to August CY 2022 amounting to Php6,080.00. Likewise, a total of P645,566.00 from CY 2016 to CY 2022 was collected and deposited to Bureau of Treasury and Land Bank, Puerto Princesa City.</p>	For information.	PASu Pador

ADJOURNMENT	Having no further matters to be discussed, the meeting adjourned at 3:00 in the afternoon.
