COSTOCHONDRITIS / CHEST WALL PAIN

Chest wall pain can be caused by many different problems including: bruises, muscle strain, (often due to lifting, coughing, vomiting), or costochondritis (inflammation of the rib cartilages). This type of chest pain is usually made worse by movements such as breathing or coughing.

INSTRUCTIONS:

* Anti-inflammatory drugs or pain medicine may be needed to provide relief.

* You may use heating pads or warm compress over the painful area for 20 minutes, 3 times a day.

CALL or RETURN IF:

* you have increased pain, pain now involving the arm, shoulder, neck or jaw

you have shortness of breath, productive cough, coughing out of blood

* you experience fever, chills, or generalized weakness

FOLLOW - UP IS IMPORTANT !!

HON. CORAZON C. DAVIS (CESO II)

Assistant Secretary for Administration and Finance Department of Environment and Natural Resources (DENR) Visayas Avenue, Diliman Quezon City

Dear Assistant Secretary Davis:

Attention

Dir. Ric G. Enriquez

Human Resource Development Service

I would like to express my sincere interest to apply for the vacant position of *Development Management Officer III* under the Policy Studies Division of Policy and Planning Office of the Department. I am presently working as a Policy Development Officer (contractual) under National Support Program – Environment and Natural Resources Management Projects (NPS-ENRMP) and currently assigned to the Office of the Undersecretary for Policy and Planning, of the Department.

I graduated in 2008 in the University of the Philippines Los Baños (UPLB) with a bachelor of science degree in Forestry major in Forest Biological Sciences with specialization in Forest Biotechnology. In the same year, I obtained my eligibility as a Licensed Forester given by the Professional Regulation Commission (PRC). Being a Licensed Forester, I became competent and was given the opportunity to handle technical matters mostly in environment and natural resources specifically on climate change, disaster management and mining. I was trained to work diligently and high performing during my first job in the Presidential Management Staff (PMS) under the Office of the President (OP), Malacañang as a Presidential Staff Officer. In the same office, I was assigned under the Social Policy Office, the unit in-charge of dealing not only with environment but also other sectors such labor, social welfare, and health matters, that directly deals with the President concerns. I was assigned to oversee the culture and arts, education, labor, social welfare sectors. My job includes coordination with concerned agencies, attending seminars and drafting memoranda for the President, among others.

In 2010, I worked as a Science Research Specialist II in the Climate Change Office of the Climate Change Commission, Office of the President. I was assigned as a resource/focal person of the said office to advocate its science, national and international policies, and initiatives toward mitigating and adapting to the adverse effects of climate change. During that time I further enhanced my skills in facilitating and documenting the work in the workshops, seminar and coordinating with different agency concerned in the development of the National Climate Change Action Plan.

With these competencies, skills and new learnings acquired from trainings and various experiences in the above offices I strongly believe I am qualified and fit to apply for the vacant position.

With my dedicated interest to work in the government service, I humbly seek for your consideration and favorable action on my application. Thank you.

Sincerely,

JONAS PAOLO M. SALUDO

BY: Santi,
DATE: U/3/W

THRU:

Bresilda M. Gervacio Officer-in-Charge, Assistant Secretary Human Resource Development and Information System

Dear Sir/Madame:

Thank you for the opportunity that your Office has given to us to apply for a permanent position in the Department. In accordance with your 20 October 2014 Memorandum, I hereby express my sincere interest in applying for the vacant position, Project Evaluation Officer II under the Project Management Division. Presently, I am working as a Policy Development Officer (Object 29) under the National Support Program — Environment and Natural Resources Management Projects (NPS-ENRMP). I was assigned to the Undersecretary for Field Operations and my work entails preparations of completed-staff-work on technical matter/issues. Also, I am acting as System Administrator of the E-Filing and Monitoring System for Illegal Logging and Wildlife Cases while administering the present Field Operations' database on Illegal Logging. Most of my work deals on the compliance of the Undersecretary for Field Operations as DENR Liaison Officer to the Office of the President such as status updating of Department's compliance to the Presidential directives, vetting documents, SONA inputs and other technical matter.

I graduated in 2008 at the University of the Philippines Los Baños (UPLB) with a Bachelor of Science in Forestry major in Forest Biological Sciences with specialization in Forest Biotechnology. In the same year, I obtained my eligibility as a Licensed Forester given by the Professional Regulation Commission (PRC). I was trained to work diligently and high performing during my stint in the Presidential Management Staff (PMS) under the Office of the President (OP), Malacañang as a Presidential Staff Officer I. I was assigned under the Social Policy Office, the unit incharge of dealing with sectors such as environment, education, culture and arts, labor, social welfare, health matters, sports, etc., which directly deals with the President's concerns. In 2010, I was given an opportunity to work as a Science Research Specialist II in the Climate Change Office of the Climate Change Commission, Office of the President. I was assigned as a resource/focal person of the said office to advocate the science of climate change, national and international policies, and initiatives toward mitigating and adapting to the adverse effects of climate change. I was also given the opportunity to represent the Philippines to the Jenesys Programe: East Asia Future Leaders Program in Climate Change held in Tokyo, Japan wherein different youth leaders from ASEAN member countries exchanged their views on climate change with the officials of Japan Government and Japanese researchers.

With these competencies, skills and new learning acquired from trainings and various experiences in the above offices I strongly believe I am qualified and fit to apply for the vacant position. With my dedicated interest to work in the government service, I humbly seek for your consideration and favorable action on my application.

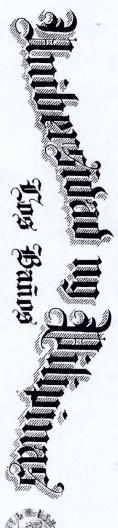

Thank you.

Sincerely,

FOR. JONAS POLO M. SALUDO

TIME:

THRU:

Bresilda M. Gervacio Officer-in-Charge, Assistant Secretary Human Resource Development and Information System

Dear Sir/Madame:

Thank you for the opportunity that your Office has given to us to apply for a permanent position in the Department. In accordance with your 20 October 2014 Memorandum, I hereby express my sincere interest in applying for the vacant position, Planning Officer II under the Planning and Programming Division. Presently, I am working as a Policy Development Officer (Object 29) under the National Support Program – Environment and Natural Resources Management Projects (NPS-ENRMP). I was assigned to the Undersecretary for Field Operations and my work entails preparations of completed-staff-work on technical matter/issues. Also, I am acting as System Administrator of the E-Filing and Monitoring System for Illegal Logging and Wildlife Cases while administering the present Field Operations' database on Illegal Logging. Most of my work deals on the compliance of the Undersecretary for Field Operations as DENR Liaison Officer to the Office of the President such as status updating of Department's compliance to the Presidential directives, vetting documents, SONA inputs and other technical matter.

I graduated in 2008 at the University of the Philippines Los Baños (UPLB) with a Bachelor of Science in Forestry major in Forest Biological Sciences with specialization in Forest Biotechnology. In the same year, I obtained my eligibility as a Licensed Forester given by the Professional Regulation Commission (PRC). I was trained to work diligently and high performing during my stint in the Presidential Management Staff (PMS) under the Office of the President (OP), Malacañang as a Presidential Staff Officer I. I was assigned under the Social Policy Office, the unit incharge of dealing with sectors such as environment, education, culture and arts, labor, social welfare, health matters, sports, etc., which directly deals with the President's concerns. In 2010, I was given an opportunity to work as a Science Research Specialist II in the Climate Change Office of the Climate Change Commission, Office of the President. I was assigned as a resource/focal person of the said office to advocate the science of climate change, national and international policies, and initiatives toward mitigating and adapting to the adverse effects of climate change. I was also given the opportunity to represent the Philippines to the Jenesys Programe: East Asia Future Leaders Program in Climate Change held in Tokyo, Japan wherein different youth leaders from ASEAN member countries exchanged their views on climate change with the officials of Japan Government and Japanese researchers.

With these competencies, skills and new learning acquired from trainings and various experiences in the above offices I strongly believe I am qualified and fit to apply for the vacant position. With my dedicated interest to work in the government service, I humbly seek for your consideration and favorable action on my application.

Thank you.

Sincerely,

FOR. JONAS POLOM. SALUDO

Human Resource Development and Information System

PERSONNEL DIVISION
DENR PROPER

RECEIVED

BY Santi
DATE: 4/3/14
TIME:

Dear Sir/Madame:

Thank you for the opportunity that your Office has given to us to apply for a permanent position in the Department. In accordance with your 20 October 2014 Memorandum, I hereby express my sincere interest in applying for the vacant position, Project Evaluation Officer II under the Project Evaluation Officer II under the Project Monitoring and Evaluation Division. Presently, I am working as a Policy Development Officer (Object 29) under the National Support Program — Environment and Natural Resources Management Projects (NPS-ENRMP). I was assigned to the Undersecretary for Field Operations of completed-staff-work on technical matter/issues. Also, I am acting as System Administrator of the E-Filing and Monitoring System for Illegal Logging and Wildlife Cases while administering the present Field Operations' database on Illegal Logging. Most of my work deals on the compliance of the Undersecretary for Field Operations as DENR Liaison Officer to the Office of the President such as status updating of Department's compliance to the Presidential directives, vetting documents, SONA inputs and other technical matter.

I graduated in 2008 at the University of the Philippines Los Baños (UPLB) with a Bachelor of Science in Forestry major in Forest Biological Sciences with specialization in Forest Biotechnology. In the same year, I obtained my eligibility as a Licensed Forester given by the Professional Regulation Commission (PRC). I was trained to work diligently and high performing during my stint in the Presidential Management Staff (PMS) under the Office of the President (OP), Malacañang as a Presidential Staff Officer I. I was assigned under the Social Policy Office, the unit incharge of dealing with sectors such as environment, education, culture and arts, labor, social welfare, health matters, sports, etc., which directly deals with the President's concerns. In 2010, I was given an opportunity to work as a Science Research Specialist II in the Climate Change Office of the Climate Change Commission, Office of the President. I was assigned as a resource/focal person of the said office to advocate the science of climate change, national and international policies, and initiatives toward mitigating and adapting to the adverse effects of climate change. I was also given the opportunity to represent the Philippines to the Jenesys Programe: East Asia Future Leaders Program in Climate Change held in Tokyo, Japan wherein different youth leaders from ASEAN member countries exchanged their views on climate change with the officials of Japan Government and Japanese researchers.

With these competencies, skills and new learning acquired from trainings and various experiences in the above offices I strongly believe I am qualified and fit to apply for the vacant position. With my dedicated interest to work in the government service, I humbly seek for your consideration and favorable action on my application.

Thank you.

Sincerely,

FOR. JONAS POLOM. SALUDO

DATE: 4/3/14
TIME:

Bresilda M. Gervacio Officer-in-Charge, Assistant Secretary Human Resource Development and Information System

Dear Sir/Madame:

Thank you for the opportunity that your Office has given to us to apply for a permanent position in the Department. In accordance with your 20 October 2014 Memorandum, I hereby express my sincere interest in applying for the vacant position, Development Management Officer II under the Service. Presently, I am working as a Policy Development Officer (Object 29) under the National Support Program – Environment and Natural Resources Management Projects (NPS-ENRMP). I was assigned to the Undersecretary for Field Operations and my work entails preparations of completed-staff-work on technical matter/issues. Also, I am acting as System Administrator of the E-Filing and Monitoring System for Illegal Logging and Wildlife Cases while administering the present Field Operations' database on Illegal Logging. Most of my work deals on the compliance of the Undersecretary for Field Operations as DENR Liaison Officer to the Office of the President such as status updating of Department's compliance to the Presidential directives, vetting documents, SONA inputs and other technical matter.

I graduated in 2008 at the University of the Philippines Los Baños (UPLB) with a Bachelor of Science in Forestry major in Forest Biological Sciences with specialization in Forest Biotechnology. In the same year, I obtained my eligibility as a Licensed Forester given by the Professional Regulation Commission (PRC). I was trained to work diligently and high performing during my stint in the Presidential Management Staff (PMS) under the Office of the President (OP), Malacañang as a Presidential Staff Officer I. I was assigned under the Social Policy Office, the unit incharge of dealing with sectors such as environment, education, culture and arts, labor, social welfare, health matters, sports, etc., which directly deals with the President's concerns. In 2010, I was given an opportunity to work as a Science Research Specialist II in the Climate Change Office of the Climate Change Commission, Office of the President. I was assigned as a resource/focal person of the said office to advocate the science of climate change, national and international policies, and initiatives toward mitigating and adapting to the adverse effects of climate change. I was also given the opportunity to represent the Philippines to the Jenesys Programe: East Asia Future Leaders Program in Climate Change held in Tokyo, Japan wherein different youth leaders from ASEAN member countries exchanged their views on climate change with the officials of Japan Government and Japanese researchers.

With these competencies, skills and new learning acquired from trainings and various experiences in the above offices I strongly believe I am qualified and fit to apply for the vacant position. With my dedicated interest to work in the government service, I humbly seek for your consideration and favorable action on my application.

Thank you.

Sincerely.

FOR. JONAS POLOM. SALUDO
