MAINIT REGARDING REVALIDATION OF SURVIVAL RATE OF
NGP AREA

Respectfully forwarded is the Memorandum of CENRO Brooke's Point, Palawan dated September 23, 2022 re: above cited subject.

Please be informed that per record Mr. Cosuan filed an appeal for the revalidation of their contracted NGP site that obtained 62.54% survival or below the required 85% survival to release their retention money. The subject request/appeal was endorsed by CENRO Brooke's Point thru channel per Memorandum dated August 1, 2022. However, per his letter dated September 23, 2022 informing that their members did not undertake replanting activities, thus the result of previous validation is still the same of not attaining the required survival rate and he is withdrawing his request. Kagabang galang na CENRO Conrado M. Corpuz,

Maka kalikasang pagbati,

Ako po'y sumulat sa kadahilatang pagdating ng Regional Validation Team, sa pagtugon sa aming request na re-validation ang aming NCP plantation 2018. Ako po'y humihingi ng paumanhin dahil ang aking mga mayembro ay hindi nakatupad sa aming pinag-usapan na maghulip ng mga pananim sa aming area bago dumating Regional Validation team.

Dahil dito, hindi na namin pinaakyat ang Regional team dahil alam din namin na hindi abot sa 85% survival. Kagabang galang na CENRO kami po ay nangangako na ipagpatuloy ang pagtatanim sa aming mga area upang matagpuan na pagyamanin ang aming mga lupain. Lubus na gamagalang at humihingi ng pang-unawa.
