SUBJECT : PROGRESS REPORT ON THE SURVEY, MAPPING AND PLANNING FOR CY 2022

This pertains to the target activities of Survey, Mapping and Planning (SMP) under the Enhanced National Greening Program (ENGP).

Please be informed that the undersigned together with the NGP Extension Officers had coordinated with the concerned Barangay Local Government Units (BLGU) as a first step in conducting the activity.

We have also conducted Information, Education and Communication (IEC) campaign in Brgy. Paglaum, Liminangcong and Talog, Taytay, Palawan. A total of seventy-nine (79) participants, composed of thirty-seven (37) males and forty-two (42) females.

As to this date, we have already assessed and mapped a total of 100 hectares areas in Brgy. Liminangcong, Taytay, Palawan. These areas are previously slashed and burned. Most of these areas have low to moderate elevation and have an undulating to rolling slope making it accessible during monitoring and site visitation. Other areas have easy access to nearest road while other sites have poor accessibility, but the potential contractors assure that the seedlings will be raised on the area/site of the plantations.

Those collected soils are still on the process of air drying before testing it using the testing kit given by the Bureau of Soil.

Attached are geo-tagged photos, map, attendance during the IEC and PENRO Special Order for documentations.
