- In the said resolution, the LGU Mamburao has committed to hire Thirty Eight (38) Bantay Gubat- Wildlife Enforcement Officer that will help in the protection of the forest land and coastal areas of municipality which is being threaten by outside force due to lack of manpower. But, hiring of additional manpower to do forest protection activities is not an assurance that the existing problem will be addressed completely. The support of the entire community is essential for us to gain the battle. As a start, these participants who have shown their dedication and willingness to work with the government must be trained on the different environmental laws for them to equip with knowledge and authority before they embark in the real world situation and equally to be more effective in performing the given task.
- Thus, holding a seminar on environmental laws is deem necessary for them to be aware of their duties and responsibilities, to strengthen their abilities, and ultimately be a role model in their respective community.

**V- Output Objectives:** At the end of the seminar, it is expected that the Bantay Gubat- Wildlife Enforcement Officers;

1. Fully understand the provisions of various environmental Laws such as:

  - RA 9003 (Ecological Management Act)
  - RA 7942 (Philippine Mining Act of 1995)
  - Presentation of revised guidelines on the deputation of ENR Officer (DAO 2008-22); how to investigate document and gather evidence.
