DATE : SEP 01 2022

In compliance with Travel Order Nos. 2022-186 and 2022-187 dated August 26, 2022, respectfully submitted is the report on the facilitated tree planting activity at Sitio Bobot, Brgy. Busuanga, Busuanga, Palawan within BPR held on August 27, 2022.

In reference to the conducted Information Education Campaign (IEC) of the BPR Management Office on the results of Lawin monitoring and patrolling from January to June 2022 at Brgy. San Rafael, Busuanga, Palawan within the BPR on June 29, 2022. Which aims provide awareness and educate the community on the importance of maintaining ecological and environmental balance in the locality and the benefits that could be derive from the forest and climate change mitigation.

Another action of the BPRMO to compensate the recorded/observed threats under tree cutting during the Lawin activity that contributes to the forest degradation, this office will conduct rehabilitation activities such as tree planting, enrichment planting and assisted natural regeneration to maintain and accelerate the recovery of forest cover.

Prior on the tree planting, this office sent a communication letter dated August 01, 2022, address for the Brgy. San Rafael to provide assistance and coordination on the identification of the possible areas for tree planting activity of the BPRMO. As a result, the area in So. Bobot is the identified tree planting site. Correspondingly, in a communication letter dated August 08, 2022, address for the Brgy. San Rafael for the schedule of the tree planting activity tentatively on August 20, 2022 (Saturday). However, due to the conflict on the schedule of the Coron Kasadyaan Festival which starts on August 8, 2022, the BPRMO personnel were also a

participant on selected events, the tentative schedule of tree planting was rescheduled on August 27, 2022.

Hence, the site preparation on August 26, 2022 as per Travel Order Nos. 2022-184 and 2022-185, the BPRMO personnel preceded to So. Bobot, Brgy. San Rafael to prepare the planting materials in coordination and with the assistance of the barangay.

On August 27, 2022, the BPRMO personnel conducted a tree planting activity, with the participation of CENRO Coron personnel, group of 4Ps, REURASIA, Sangguniang Kabataan (SK) and officials from the Brgy. San Rafael.

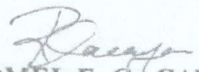

Moreover, the BPR Management Office together with the participants planted seedlings particularly species of one hundred forty-nine (149) Narra (*Pterocarpus indicus*), nine (9) Ipil (*Instia bijuga*), nineteen (19) Dulo (*Fagrea cochinchinensis*), twenty-one (21) Betis (*Madhuca betis*). Subject seedlings are collected and produced by the BPRMO Office Support Staff/Bantay Gubat intended for tree planting activity.

A total of one hundred ninety-eight (198) seedlings were planted. The planting site is an old growth forest dominated with Arecaceae species locally known as "banga". There are patches of the area to fill the gap with tree species, wherein the seedlings were planted based on the patches on the area with acceptable spacing to survive.

The tree planting activity ended around 10:10 am and departed back to the BPR Management Office.

For the Director's information and reference.
