**REPORT ON THE CONDUCTED LECTURE ON ENVIRONMENTAL EDUCATION
AND AWARENESS HELD AT ARACELI B. PANTILANAN-BACAWAN HIGH
SCHOOL, POLA, ORIENTAL MINDORO ON SEPTEMBER 20, 2022**

In support to the celebration of International Coastal Clean-up (ICC) 2022, a lecture on environmental education and awareness was conducted at Araceli B. Pantilanan- Bacawan High School (ABPBHS), Pola, Oriental Mindoro of September 20, 2022.

For this year, the ICC is celebrated with the theme “Fight for Plastic-Free Seas, Pilipinas: Ending the Flow of Trash at the Source”. ABPBHS is situated within the coastal area of Verde Island Passage (VIP). Sightings of marine turtles and other marine biodiversity were observed specially within their Marine Protected Area (MPA). Twenty-five (25) male and twenty-five (25) female participated the Communication, Education and Public Awareness activity.

The event started at 9:00AM with a prayer led by PO I John Jezreel M. Matre and followed by the singing of the National Anthem. Forest Technician Charity Aguila-Linatoc facilitated the activity. Tecaheer-in-charge Allan Jay F. Gonzales welcomed the personnel from DENR CENRO Socorro while DMO IV Leo G. Capon delivered an introductory message and gave an overview about the importance of learning about climate change and securing the cleanliness of the coastal areas.

EMS II Carlotta Levinia R. Jugno of DENR-EMB PEMU Oriental Mindoro discussed the Ecological Solid Waste Management (Republic Act 9003). The topic focused on what is solid waste, the generators of solid waste and the action taken by the government to address the issue on solid waste management.

Forester I Mackaley P. Martinez talked about mangrove forest and marine turtle conservation. The speaker shared ways on how to conserve and protect the mangrove forests and marine turtles (by-catch, stranded injured, and emergence of hatchlings) especially the cleanliness and maintenance of the surroundings. This is for the maintenance of various ecosystem services they provided for the present and future generation.

Tayo Ang Kalikasan was then discussed by Forester I Bea Natasha R. Fortu of DENR-PENRO Oriental Mindoro. It is a citizen's platform in the Program for Restoration, Rehabilitation and Development (PRRD) which aims to provide optimized, responsible and sustainable use of country's natural, human and social resources. Further, this seeks engagement of citizenry in taking care of the agency's priority program through solid waste management, environmental protection and ecotourism. In MIMAROPA Region, the advocacy is “No to Single-Use of Plastics.” Everyone is expected to be a part of the solution, whatever age groups the participants belong, for a better future of our world.

The last topic discussed was the Environmental Awareness and Education presented by Forest Technician Charity A. Linatoc. This is governed by R.A. No. 9512, otherwise

Republic of the Philippines
Department of Environment and Natural Resources
MIMAROPA Region
Community Environment and Natural Resources Office

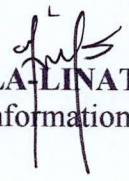

known as the National Environmental Awareness and Education Act. The lessons discussed include environmental education, environmental awareness, concepts and principles of R.A. No. 9512, environmental issues, actions to take and priority programs of the act. Participants, especially the youth, were encouraged to take a part of environmental advocacies for the better world we live.

In between the discussions were games, question and answer and other challenges to motivate and keep the participants active and participative. Activities facilitated were *Pinoy Henyo* about solid waste, "No Bag, No Problem Challenge!", Artist of the Day, Mr and Ms. Youth Environmental Steward. These activities promote creativity and resourcefulness of the students.

The program ended with a photo opportunity and a closing message of gratitude for the cooperation and support of the ABPBHS to the programs and activities of the Department.

Attached is the photo documentation of the lecture on environmental education and awareness.
