August 8, 2022

**MEMORANDUM**

**FOR :** The Community Environment and  
Natural Resources Officer  
Taytay-El Nido, Palawan

**FROM :** The Chief of Regulation and Permitting Section

**SUBJECT :** **TRAVEL REPORT MEETING WITH THE LOCAL  
EXECUTIVE AND HEAD OF OFFICES OF THE  
MUNICIPALITY OF EL NIDO, PALAWAN ON AUGUST 4,  
2022**

Respectfully submitting is the above subject in compliance with the travel order dated August 2, 2022.

Please be informed that undersigned attended the said meeting held at the Municipal Hall of El Nido, Palawan with the Provincial Environment and Natural Resources Officer and Community Environment and Natural Resources Officer to tackle issues and concerns OF El Nido-Taytay Managed Resource Protected Area (ENTMRPA). Among the agenda discussed were the following:

**1. Lifting of the moratorium on issuance of building permit and construction**

It has been agreed during meeting that the Local Government Unit will submit a position paper to rebuff the result of the Carrying Capacity that effected to moratorium on issuance of building permit and construction, cite the issues and concerns commence and manifest the lifting of suspension.

**2. Easement and compliance**

With the continuance of the GEM project, strict observance of no construction within legal easement should be implemented. Issue on titled properties within easement has been raised, but, PENRO and CENRO insisted the compliance on easement regulation in accordance to PD 1067 (Water Code of the Philippines) and R.A. 11038 (ENIPAS)

**3. Seawall**

Another issue being raised by CENRO and PAMO-ENTMRPA to LGU is the ongoing construction of seawall in Barangay Buena Suerte, El Nido, Palawan, a project

of the DPWH Palawan 1<sup>st</sup> Engineering District. This project has no compliance of requirements for PAMB endorsement and has been issued with Cease and Desist Order by the DENR.

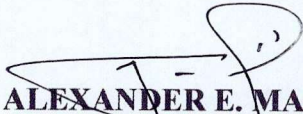

The LGU will conduct inspection and investigation relative to this project and DPWH will be advised to present during PAMB meeting.

**4. Identification of lots proposed for expansion area**

One of the thing that should be addressed in the ongoing Green Economy Model (GEM) activity is the identification of areas to relocate those who will be displaced from the easement zone. It is also among the target activity of GEM's current year Work and Financial Plan under the Regulation and Permitting Section that is still subject for approval of the Regional Executive Director. But it is better to discuss it in advance for the Local Government to allocate budget for this activity. On the other hand, the DENR CENRO Taytay commit to abet in identification of possible relocation area, public land survey and titling.

For information and records.
