Sir:

Kahusayan!

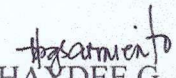

This is to respectfully request from your good office good lumbers for the renovation of our classroom building for our school San Roque National High School-Yunot Extension. Being an LGU funded school, the school constantly experiences the challenges brought about by poor facilities. The school finds it extra difficult to maintain the security of instructional materials and technology as well as the safety of school personnel.

We are looking forward for the generous approval of this request.

Thank you in advance and God bless!

Attached herewith are the measurements of good lumbers we needed.

Respectfully yours,
