This pertains to the continuing target activity to conduct delineation and demarcation of legal easement under enforcement rules and regulation (SAA No. CO-R4B-101-2021-07-512). Respectfully submitted is this accomplishment report of the Easement Delineation Team for the conducted delineation and demarcation activities in barangay of Manlag, El Nido, Palawan which was completed on August 19, 2022.

Please be informed that, since the whole barangay of Manlag is within El Nido-Taytay Manage Resource Protected Area (ENTMRPA), the team demarcated a 40-meter legal easement on the shorelines of its mainland area. Be informed also that majority of its shorelines are almost covered with mangrove therefore, the team decided not to delineate those portions.

In general, the team was able to delineate and demarcate a total distance of **1,801 meters (1.80 km)**, the distance gathered are from the shorelines of Lagpan, Bucana, and Siminaytay, with thirty-two (**32**) pvc pipes marker placed on the ground.

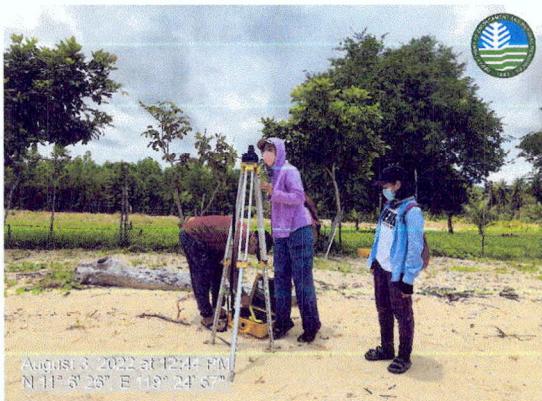

Attached herewith are the geotag photos during the conducted delineation and demarcation activity.
