OCEAN TRASH DATA FORM

Ocean and waterway trash ranks as one of the most serious pollution problems choking our planet. Far more than an eyesore, a rising tide of marine debris threatens human health, wildlife, communities and economies around the world. The ocean faces many challenges, but trash should not be one of them. Ocean trash is entirely preventable, and data you collect are part of the solution. The International Coastal Cleanup is the world's largest volunteer effort on behalf of ocean and waterway health.

Dear POSU Mildred,

I hope you are doing well.

The Malampaya Foundation, Inc. (MFI) is a non-government organization that aims to promote, foster, and encourage the sustainable social, environmental and economic development of communities in areas where we operate. Our joint efforts in El Nido has been promoting environmental conservation cum resource management in areas where we operate.

As an integral part of our commitment, we conduct reef surveys on the permanent monitoring stations within ENMRPA twice a year, and have scheduled the next survey for **October 17, 2023**. In this regard, we would like to extend an invitation to your available divers to join us and provide assistance during this event.

Additionally, we kindly request the use of your boat for the activity. The remaining sites to be surveyed include Abdeens Rock, Seven Commando, and Ipil.

We are hopeful for a positive response regarding their participation and the boat request.

Respectfully yours,

EBENEZER C. HERRERA
Program Officer
