This pertains to the memorandum from the OIC, ARD for Technical Services Maximo C. Landrito regarding the above-noted subject.

Please be informed that this office has an annual target for PLS survey 200 lots, 100 for Residential and 100 for Agricultural. The conduct of survey was posted by the BAC, unfortunately, the bidding process failed and set for a negotiated contract. This office makes an arrangement with a private Geodetic Engineer, however, it did not materialize because of the problem with the issuance of his BIR clearance. We immediately inform the PENRO that the survey will be conducted by Administration and it was discussed during the 3rd FDU to tap Engr. Nilo P. Salvador and no one reacted. Since Engr. Salvador is not an employee of CENRO Sablayan, we seek his assistance and on his part he is willing to assist the office. We immediately prepared the request for a Special Order for Engr. Salvador together with Survey Order which was granted. While we are waiting for the SO, we inform that we will now proceed while waiting for the Job Request. We instructed LMO II Honeyeth T. Juan to submit the documents to the PENRO for comment from MSD, TSD and the BAC. They informed this office that they will comment on this later.

On October 11, 2023, in a meeting held at the PENR Office, we are told that the rate indicated in the JOB Request was too high. When the documents were submitted, the members of the BAC commented on this. Accordingly, Accountant Donnebelle Mesina commented that premium cannot be allowed and remanded to this office on November 3, 2023. What we have done is to revise it again and resubmit.

For information, we already completed more than 100% of our target in the survey of Residential and Agricultural lots. We cannot submit the documents unless the Job Request has been approved. Once the Job Request was approved, we will immediately submit the survey returns for IVAS.

For information and record.

FOR: ANASTACIO A. SANTOS, MPA
