March 23, 2023

MEMORANDUM

FOR : OIC CENRO & Concurrent PASu, MMPL
Quezon, Palawan

THRU : The Chief MES

FROM : Jesse O. Cascara
Forest Technician I/LAWIN Data Manager

SUBJECT : **ACCOMPLISHMENT REPORT OF LAWIN AND
BIODIVERSITY PROTECTION SYSTEM OF CENRO-
QUEZON, PALAWAN AS OF MARCH 22, 2023**

Respectfully submitting is the report regarding the abovementioned subject. This is in connection with the LAWIN Forest and Biodiversity Protection System of CENRO – Quezon, Palawan.

Please be informed that the total kilometer patrolled as of March 22, 2023 is 129.44 kilometers within the Area of Jurisdiction.

Some patrol id's and tracks are subject for deletion due to invalid patrol, outside the conservation area and outside the area of jurisdiction of CENRO Quezon.

No threat was observed.

Attached are the Summary Patrol Report, Summary Threat Report and Forest Protection Effectiveness Report.

For his information and further instruction.

Summary Patrol Report

Region 04B - Quezon

Number of days analyzed: 80

22 Mar 2023 4:26 PM

This report presents the patrol performance and quality of the implementing unit during the above stated period of time (number of days). The report contains information on accomplishment rate, coverage and intensity of patrolling in different forest types on patrol distance covered per patroller. The information is meant to provide a basis for patrol planning for the next planning period and implementation of adaptive measures to enhance patrolling as necessary.

Overall accomplishment rate*

Level of Accomplishment

● Accomplishment
● Target

Accomplishment*
for the period

129.44

Target* distance for
the period

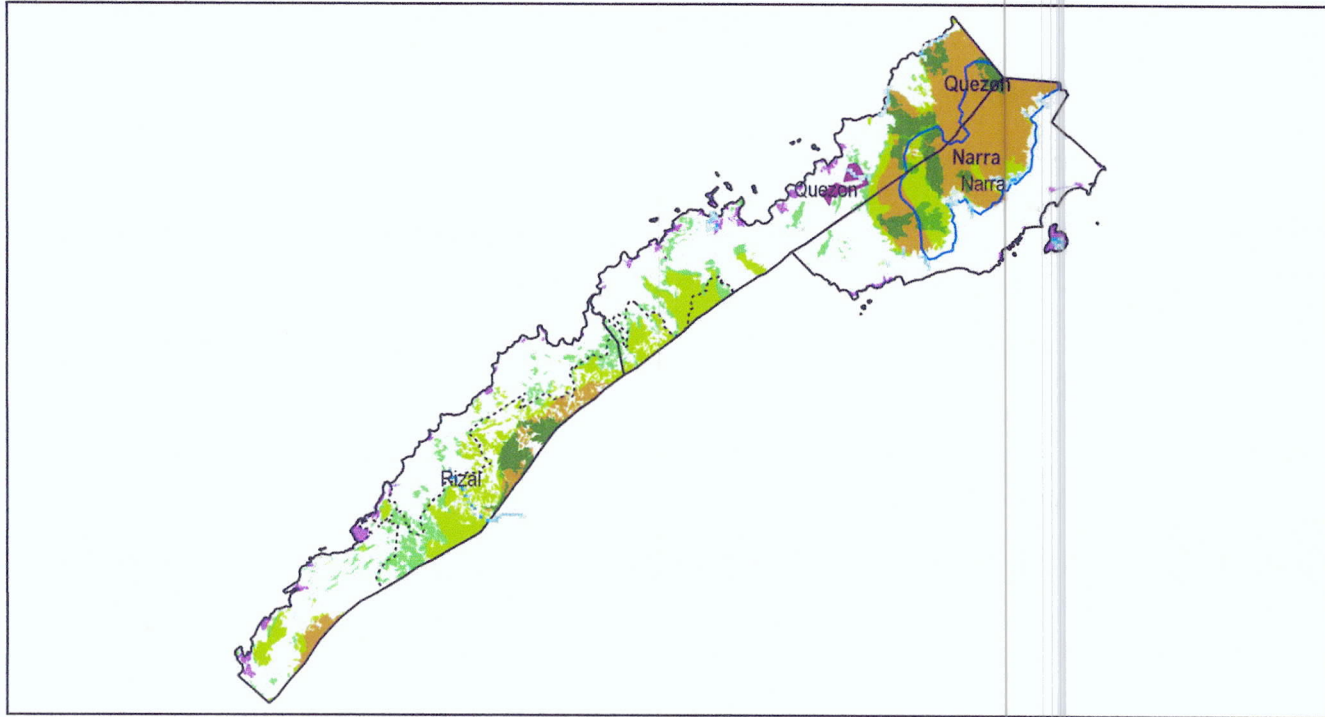

370.50

Accomplishment Rate:

34.94%

*Target is computed based on 10km target per team of 4 DENR patrollers per month

Patrol coverage and intensity

Republic of the Philippines
Department of Environment and Natural Resources
Lawin Forest and Biodiversity Protection System

Patrol distance covered by each forest ranger

Forest Ranger	Patrol Distance Accomplished
Jeremy Valdeztamon	89.69
John Marcelo Dayola	81.48
Armando Batayo	80.10
Avel Rodriguez	78.22
Michael Joven	66.14
Sanie Alcantara	66.14
Esmael Sonon Jr.	65.08
Juvy Tabaque	61.79
Saldo Tumanong	61.79
Henry Catapang	35.94
Jay Abdulgapar	32.69
Jesse Cascara	31.83
Joy Tindic	30.80
Edgar Panizales	16.98
Femie Ortega	13.81
Danilo Villaruz	1.93
Gearson Jr. Antonio	1.93
John Mark Baalan	1.93
Meduline Caminong	1.93
Ryan Torrico	1.93

Summary Threat Report

Region 04B - Quezon

Number of days analyzed: 80 22 Mar 2023 4:26 PM

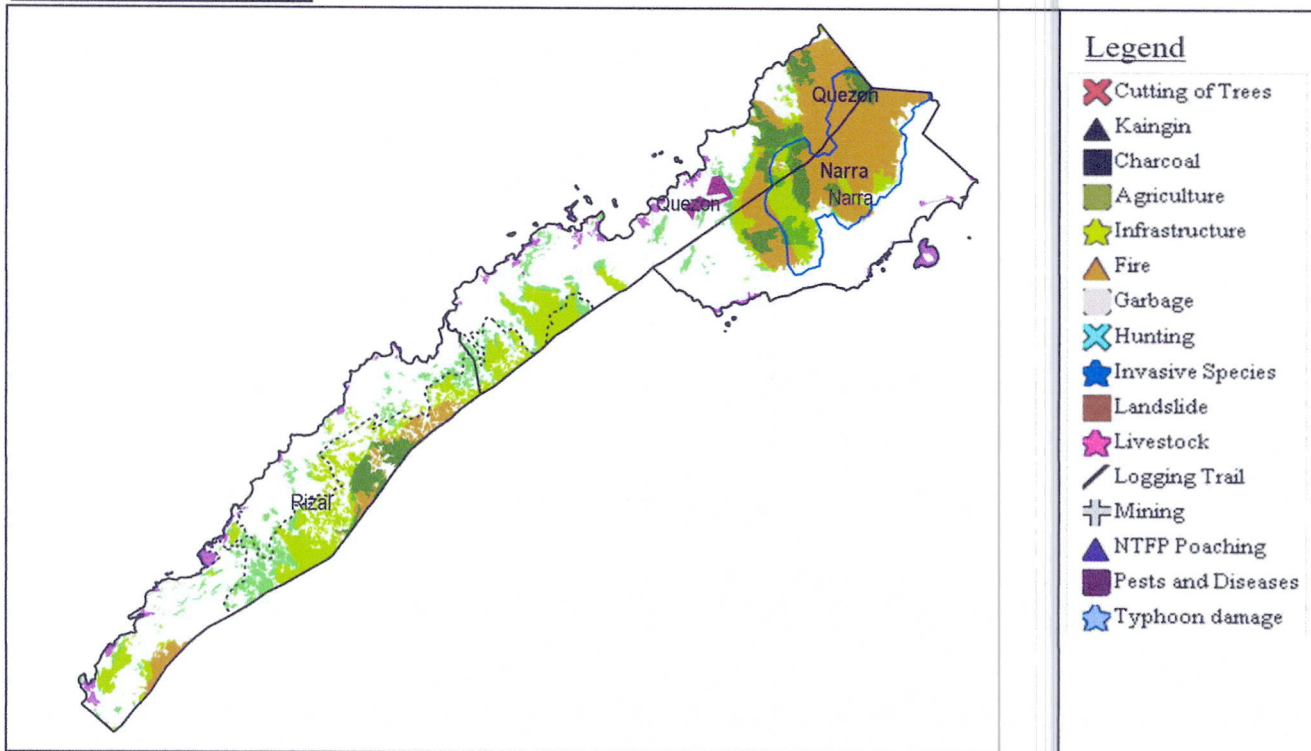

This report presents information for the implementing units of DENR to effectively plan and carry out actions for addressing observed threats to the forest.

Threats observed and level of response required

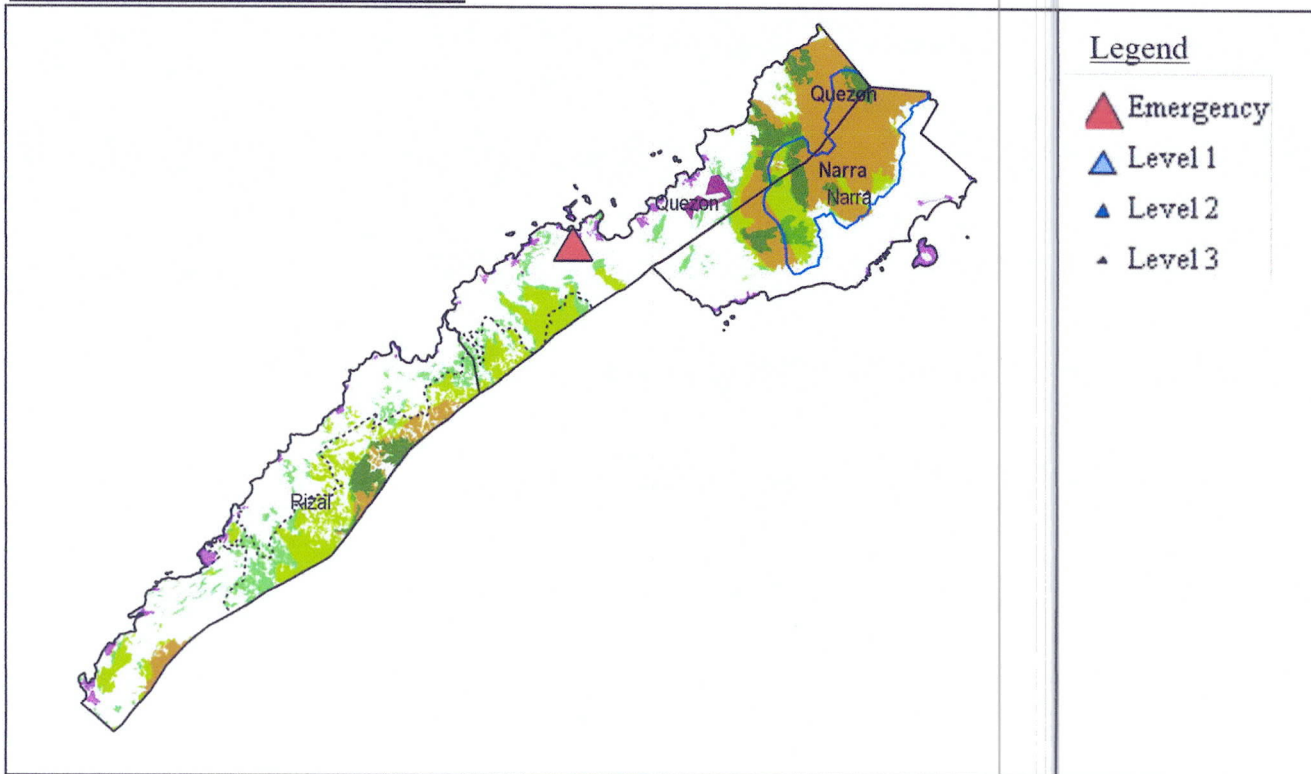

Threat	No. of Observations	Emergency - Immediate action required!	Level 1 - Action required within a week	Level 2 - Action required within a month
Garbage	2	2	0	0
Landslide and Mudslide	1	0	0	0

Location of observed threats

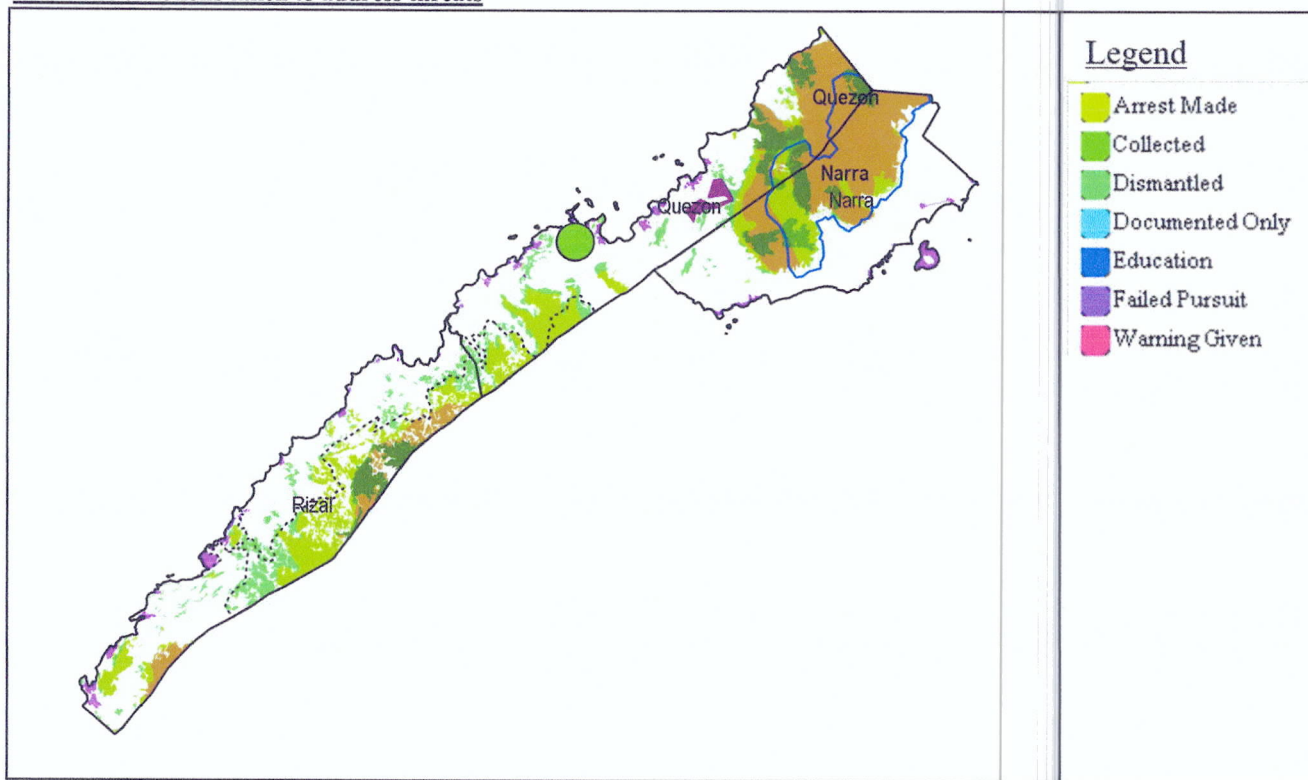

Locations and urgency of responses needed

Locations of actions taken to address threats

Actions taken to address observed threats during patrols

Forest Protection Effectiveness Report

Region 04B - Quezon

Number of days analyzed: 80

22 Mar 2023 4:26 PM

This reports presents trends in observations of forest condition, regeneration, threats and indicator species. The combined presentation allows for an evaluation if protection efforts are effective, conservation targets are met and the forest achieves the desired future forest condition. Protection efforts are effective, when records of forest condition, regeneration and indicator species show an upward trend towards more observations more and denser regeneration, particularly in degraded forest areas. Increasing trends in indicator species suggest that the improved forest condition is providing a better habitat for forest dependent species. All trends presented are put in relation to the patrol effort to provide comparability. Forest cover data were derived from 2003 and 2010 NAMRIA land cover maps.

Trends of Observations per Patrol Kilometer in the Forest Conservation Area

Trend in Threats

A decreasing trend in threats in the forest conservation area mean effective forest protection; an increasing trend means the opposite.

Trend in Indicator Species

An increasing trend in indicator species in the forest conservation area means effective forest protection; a decreasing trend means the opposite.

Trends in Regeneration Density

An increasing trend in regeneration means effective forest protection; a decreasing trend means the opposite.

Trends of most common Threats
