MEMORANDUM

FOR : The Regional Executive Director
DENR MIMAROPA Region
1515 DENR By the Bay Building, Roxas Boulevard,
Barangay 668, Ermita, Manila

THRU : The OIC, ARD for Technical Services

FROM : The Provincial Environment and
Natural Resources Officer

SUBJECT : INVENTORY OF APPREHENDED FOREST PRODUCTS AND
CONVEYANCES WITHIN THE COMPOUND OF CENRO
QUEZON, PALAWAN

Respectfully forwarded is the memorandum of CENRO Quezon, Palawan dated March 09, 2023 relative the above subject.

Per memorandum, CENRO Quezon conducted series of inventory, sorting and piling of all apprehended forest products and conveyances stored/stockpiled within their compound. During the conduct of the said activities, it was found out that more or less half of the total volume of all apprehended lumbers were already deteriorated due to direct exposure to sunlight and heavy rains and some of it were having molds but still in good condition.

Further, all apprehended lumbers that are still in good condition were transferred and piled in the newly constructed temporary lumber shed.

For information and further instruction.

MEMORANDUM

FOR : The OIC-Community Environment and Natural Resources Officer and Concurrent PASu, MMPL Quezon, Palawan

THRU : The Chief, MES

FROM : MES Personnel

SUBJECT : **INVENTORY OF APPREHENDED FOREST PRODUCTS AND CONVEYANCES WITHIN THE COMPOUND OF CENRO QUEZON, PALAWAN**

This pertains with the activity based on Work and Financial Plan CY 2023 relative to the above subject.

Please be informed that MES personnel together with MMPL and CDS staff conducted the inventory, sorting and piling of all apprehended forest products and conveyances with the following observation and findings, to wit:

- That during the conduct of the said activities, all apprehended lumber and conveyances were piled and parked in an open area highly exposed in direct sunlight and heavy rains;
- That, it was apparent that most of the stockpiled lumber especially the older ones were already deteriorated and cannot be transferred to the newly constructed temporary lumber shed;
- That most of the conveyances were evidently not in good condition due to the exposure to the sunlight and rains and without proper maintenance, however, there were few vehicles that are still in good condition;
- That, roughly estimated more or less half of the total volume of all apprehended lumber were already deteriorated and some of it were already having molds but still in good condition; and,
- That, all the lumber that are in good condition were transferred and piled in the newly constructed temporary lumber shed.

The undersigned recommend that proper piling, care and maintenance of apprehended forest products and conveyances be conducted.

Attached herewith the lists of all the apprehended lumber stockpiled within the compound of CENRO Quezon, Palawan and geo-tagged pictures of the conducted activities.

For your information and record.
