Mamburao, Occidental Mindoro

FROM : The CENR Officer

SUBJECT : **REQUEST FOR ASSISTANCE FOR THE WATER QUALITY ANALYSIS OF INLAND WETLAND PROFILING ON TABTABAN AND MARABONG LAKES WITHIN THE AOR OF CENRO SABLAYAN OCCIDENTAL MINDORO.**

This pertains to our target for CY 2023 regarding Inland Wetland Profiling for Tabtaban and Marabong lakes in consideration of the prescribed data that are needed based on BMB Technical Bulletin No. 2018-06, Inland Wetland Inventory and Profiling.

Part of the data that we will be needing is the water quality of the two (2) lakes. Hence, may we request technical assistance from the Environmental Management Bureau-MIMAROPA Region if their laboratory in Calapan City can accommodate the water samples which will be brought to their facility at their most convenient time. There will be two (2) water samples to be gathered, one (1) in summer and during rainy season. The following are the parameters that this office would like to obtain the numerical value, to wit:

- a) BOD (mg/L)
- b) Chlorine (mg./L)
- e) TSS (mg/L)

For consideration and approval.
