MEMORANDUM

FOR : The PROVINCIAL ENVIRONMENT AND NATURAL RESOURCES OFFICER
Romblon Province

FROM : The CHIEF
Environmental Management Services
Romblon

SUBJECT : INCIDENT REPORT REGARDING THE OIL SPILL FEATURED AT ROMBLON NEWS FACEBOOK PAGE ON APRIL 18, 2023 AT THE SHORES OF CORCUERA, ROMBLON

DATE : April 19, 2023

This is to respectfully inform the PENRO that on April 18, 2023 Romblon News posted a video on their Facebook Page that showed black coloration of sand under rocks that indicate oil spill.

On April 19, 2023, 10:30 AM the undersigned coordinated with the Office of the PG ENRO at their satellite office at Odiongan Romblon. They informed the undersigned that they have not received any information from the LGU at that time. The undersigned then contacted the CGS Romblon, during the phone conversation, the undersigned was informed that the station commander of CGS Corcuera conducted inspection last Sunday, April 16, 2023 and conducted sampling. Samples were then transported to Batangas for verification is said oil came from the Naujan Oil spill. Their initial observations suggested that the oil spill is not from the Naujan incident since the characteristics of the oil from Naujan is asphalt or semi solid in form contrary to the oil found at the shoreline which is liquid in form. Accordingly, the Coast Guard had conducted cleanup on March 18, 2023. The undersigned then coordinated via phone call to the LGU. Mayor Elmer Fruelda informed the undersigned that the coast guard Marine Environmental Protection Unit conducted inspection on the 1.4 Km stretch of the coastline from the Pier. He informed the undersigned that the coast guard informed him that the oil was unlikely from the Naujan incident but is still awaiting results of sampling. He also disclosed that around 12 coast guard personnel conducted clean up and placed the collected oil contaminated materials at the MRF of the LGU.

The EMS Romblon will conduct inspection regarding the incident.

For the PENRO's further instruction.

IRWIN A. ANZALDO
