MEMORANDUM

FOR : The Regional Executive Director
MIMAROPA Region

THRU : The Assistant Regional Director
Management Services

FROM : The OIC-PENRO
Calapan City

SUBJECT : WORLD WATER DAY CELEBRATION 2023

Respectfully forwarded is the report on the celebration of the World Water Day 2023. Personnel of this Office conducted river clean-up activity at San Vicente West River, Calapan City on March 28, 2023.

The activity aims to raise public awareness on the importance of clean water for human consumption and healthy ecosystem. It also ensures our collaborative efforts towards conserving and protecting the river. A total of 38 kilos of non-biodegradable wastes (plastic bottles, rags, used clothes, gloves and face masks) were successfully collected during the clean-up operation.

For reference.

ALAN L. VALLE

WORLD WATER DAY CELEBRATION 2023
RIVER CLEAN-UP ACTIVITY
THEME: “Accelerating change to solve the water and sanitation crisis”
BRGY. SAN VICENTE WEST, CALAPAN CITY
MARCH 28, 2023

Annually, the **Department of Environment and Natural Resources** thru the **Provincial Environment and Natural Resources Office**, Oriental Mindoro celebrates “**World Water Day**” as a means of focusing attention on the importance of freshwater and advocating for the sustainable management of freshwater resources. It is about taking action to tackle the global water crisis in support of Sustainable Development Goal - water and sanitation for all by 2030.

On this day, March 28, 2023, marks the cooperation and collaboration of the employees of DENR-PENRO headed the **PENR Officer Allan L. Valle** in cleaning up the river along **San Vicente West, Calapan City**. In this way, we can able to raise public awareness on the importance of clean water for human consumption and a healthy ecosystem. This river clean-up activity ensures its contribution to conserving and protecting the river with the clean-up operation that successfully collected 38 kilograms of non-biodegradable wastes most of which were plastic bottles, rags, used clothes, disposable cups, gloves and face masks.

Clean water is crucial for people, animals and wildlife species. Efforts to strengthen the effects of climate change gradually destroy the environment and vital functions of biodiversity are at stake. It is important to protect our forests and watersheds for sustainable water management. We are also campaigning on ecological solid waste management to halt garbage from polluting the water.

By taking action now, we can ensure that future generations have access to this vital resource. We are all responsible for doing our part. We can reduce water stress, preserve ecosystems, and save money by conserving water.

As we celebrate World Water Day, we must recognize the importance of water and the need to conserve this precious resource.
