MEMORANDUM

FOR : The Regional Executive Director
DENR, MIMAROPA Region
1515 L&S Bldg., Roxas, Blvd.
Ermita, Manila

THRU : The ARD, Technical Services

FROM : The OIC, PENR Officer

SUBJECT : REQUEST FOR CHANGE OF LOCATION FOR THE
CONSTRUCTION OF SMALL WATER IMPOUNDING SYSTEM
(SWIS)

Respectfully forwarded is the Memorandum dated January 23, 2023 of CENRO Sablayan requesting for change of location for the construction of Small Water Impounding System (SWIS) relative to the comments made by Asec. Marcial C. Amaro Jr., CESO III, Assistant Secretary for Policy, Planning and Foreign Assisted and Special Projects and Director in concurrent capacity regarding the then submitted Small Impounding System (SWIS) supposed to be constructed in So. Kuli-kuli, Brgy. Armado, Abra de Ilog, Occidental Mindoro in which he recommended that *"an alternative site for the establishment of the SWIS be proposed to supply the needs of newly established plantations and that the water holding capacity should be 50 cubic meters"*.

The then proposed site (So. Kuli-kuli) was submitted as the implementation site of SWIS construction for CY 2022, but unfortunately the said project was not included in the FY 2022 Work and Financial Plan (WFP). As per record, So. Lipawin, Brgy. Cabacao, Abra de Ilog, Occidental Mindoro has an existing established ENGP plantation with 33 Family partners maintaining 80 hectares of ENGP sites for the third year Maintenance and protection activity.

Attached are the GIS generated map and geotagged photos of the new location proposed SWIS project.

For your information, evaluation and approval.

MEMORANDUM

FOR : The Regional Executive Director
DENR MIMAROPA Region
1515 DENR By the Bay Building, Roxas Boulevard
Barangay 688, Ermita, Manila

THRU : The Assistant Regional Director for Technical Services
DENR MIMAROPA Region
1515 DENR By the Building, Roxas Boulevard
Barangay 688, Ermita, Manila

The OIC, PENR Officer
Mamburao, Occidental Mindoro

FROM : The CENR Officer

SUBJECT : REQUEST FOR CHANGE OF LOCATION FOR THE
CONSTRUCTION OF THE SMALL WATER IMPOUNDING
SYSTEM (SWIS)

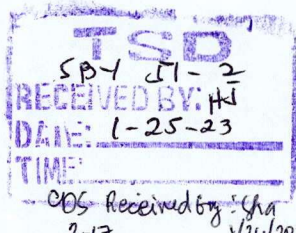

This is in relation to the comments made by the Assistant Secretary for Policy Planning and Foreign Assisted and Special Projects and Director, in concurrent capacity regarding the then submitted Small Water Impounding System (SWIS) at So. Kuli-kuli, Brgy. Armado, Abra de Ilog, Occidental Mindoro in which he recommended that *“an alternative site for the establishment of the SWIS be proposed to supply the needs of newly established plantations and that the water holding capacity should be 50 cubic meters”*.

The proposed site was submitted as the implementation site for 2022 but unfortunately was not included to the 2022 Work and Financial Plan (WFP). Considering that the said project is included in this year's WFP and in compliance to the memorandum from the Assistant Secretary for Policy Planning and Foreign Assisted and Special Projects and Director, in concurrent capacity Marcial C. Amaro, Jr, *CESO III* we are submitting that the SWIS be transferred from So. Kuli-kuli, Brgy. Armado, Abra de Ilog, Occidental Mindoro to So. Lipawin, Brgy. Cabacao, Abra de Ilog, Occidental Mindoro.

Further, if you find our proposal acceptable and feasible may we request that this office be informed so we could prepare all the necessary documents in the implementation of the project.

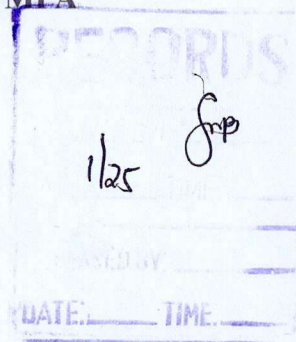

Attached are the GIS generated map and geotagged photos of the new location of the SWIS.

For information, consideration and approval.
