			<p>was dispatched in the area to help in the retrieval of the square logs. By using Carabao, the hot logs were brought down from the site to the nearest loading area. A total of 68 hot logs (877 Bd Ft) and 1 Chainsaw were brought to Yapang Forest Product Monitoring Station, Brgy. Batongbuhay, Sablayan, Occidental Mindoro for safekeeping. For now, identity of the culprit is unknown and this office is still conducting investigation. Comprehensive report will be submitted soon and if we will be able to identify the culprit, filling of case in court will be done. The team leaders of Mamburao was instructed to conduct LAWIN activity in the area to prevent recurrence of the problem.</p>
