Request for Potential Planting Site Information for
 AFoCO Private Sector Engagement Program: Let's Forest – Plantree
 MIMAROPA Region

Basic Information	
Country	Philippines
Name of the Officer-in-Charge	Josephine Dela Cruz
Title and Affiliation	PO President
Contact Information	email: contact number: 09156849699
Address	Barangay Pancol, Taytay, Palawan
Name of Implementing Agency	DENR
Name of beneficiary	Malampaya Pancol Multi-Purpose Cooperative (MPMPC) members

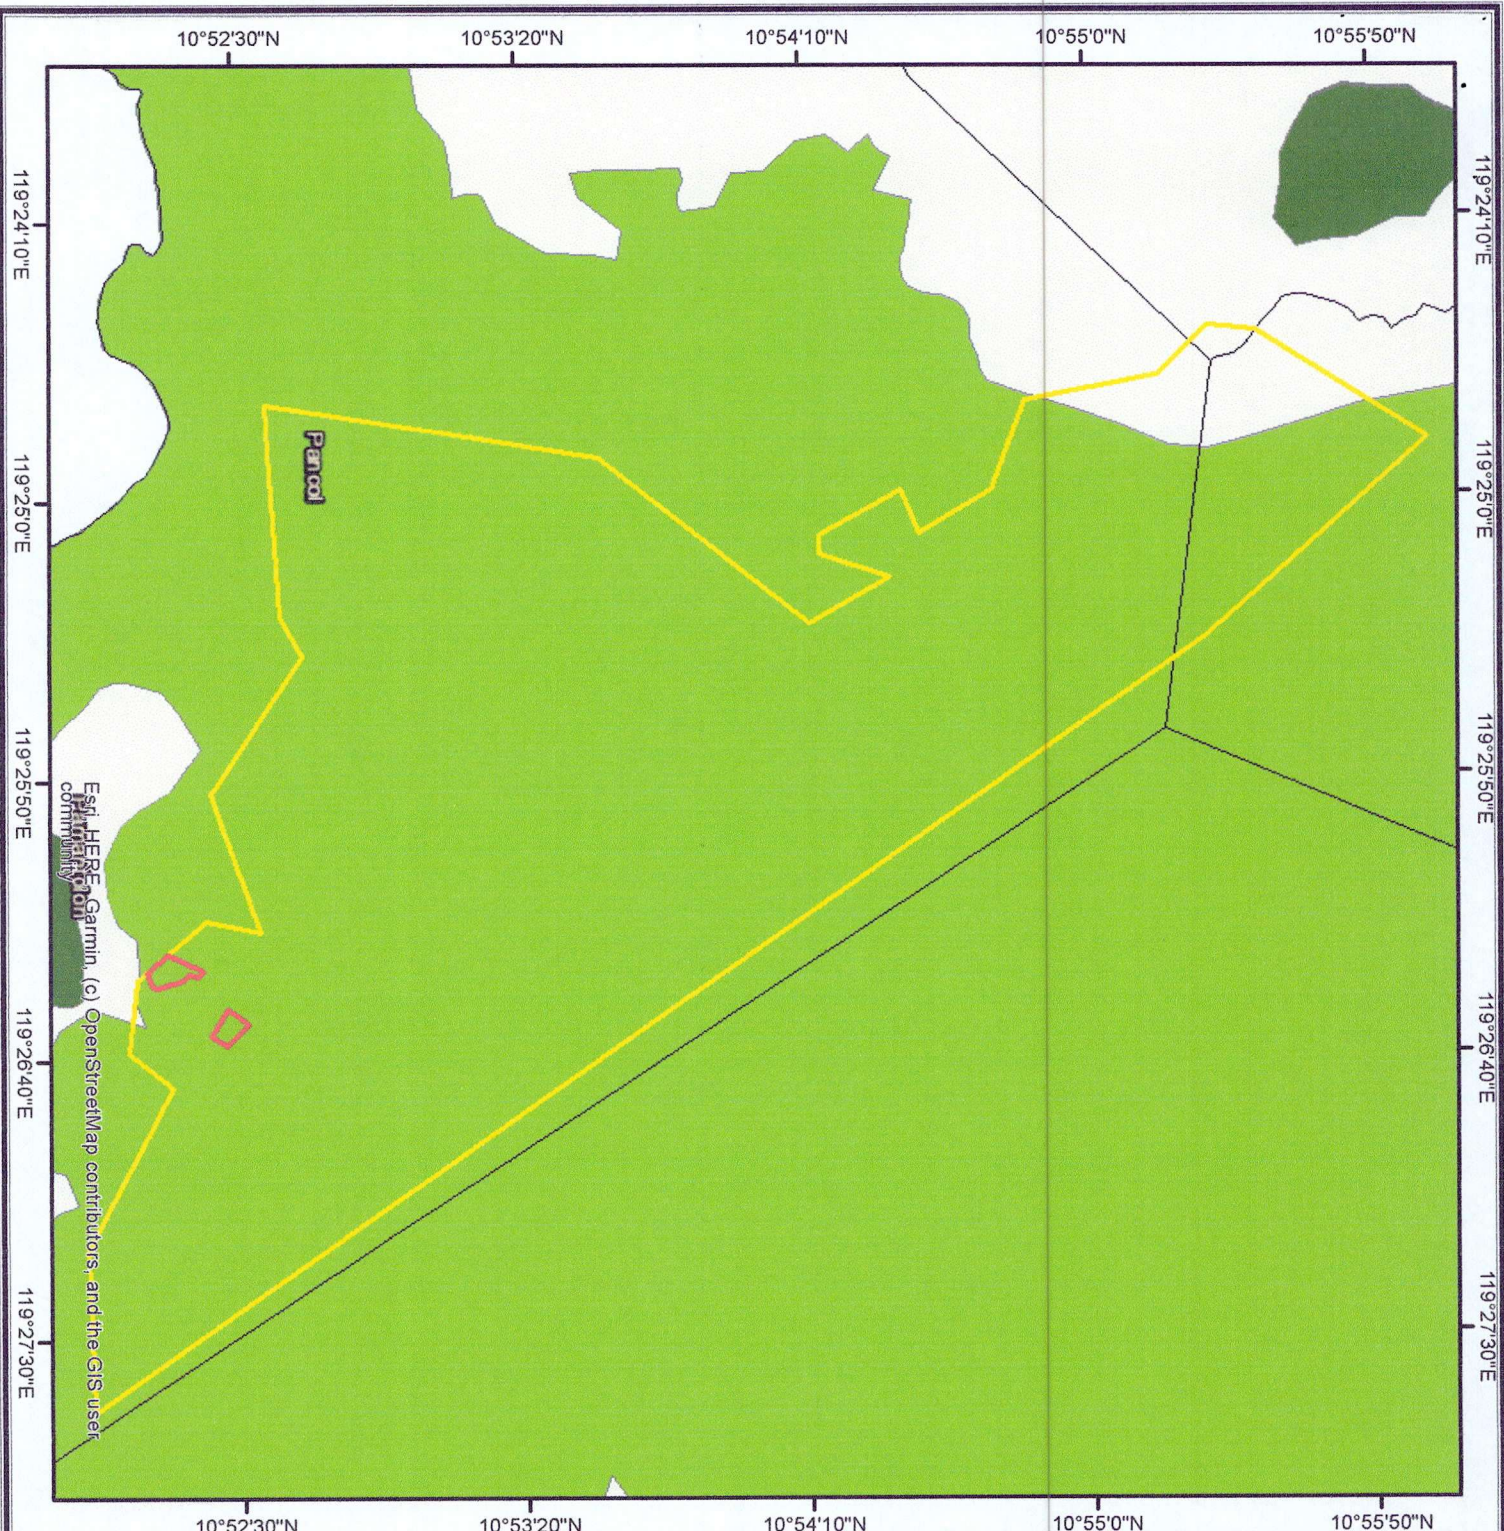

Planting Site Information (One per Country)	
Name	Malampaya Pancol Multi-Purpose Cooperative (MPMPC)
Location	Barangay Pancol, Taytay, Palawan
Map of Planting Site	See attached Map
Site Description	Plain to rolling area and used to be a rice field but abandoned due to no water supply. Other target areas have no large trees present.
Photos of the site and area nearby	See attached Photo
Applicable theme	<ul style="list-style-type: none"> ✓ Improvement of Forest Community Livelihood ✓ Restoration and/or rehabilitation of degraded landscapes/prevent desertification ✓ Ecological habitat protection for endangered animals and plants
Site management plan	Land owned by: Stateland The land is under tenorial instrument particularly Community Based Forest Management Agreement (CBFMA) and awarded to Malampaya Pancol Multi-Purpose Cooperative (MPMPC)
Available hectares	5 hectares
Available period	2024-2027
Accessibility	The area is accessible by shuttle van from nearest airport located at El Nido, Palawan (the famous tourism site) with 1.5 to 2 hours travel direct to planting site (with 5 minutes ride through feeder road).
Rationale for restoration / afforestation	The abandoned area is no longer feasible for rice field. Other area is possible for indigenous species and high value crops plantation to restore the area.

Tree Species Information (1)		
Name	Rambutan	
Scientific Name	<i>Nephelium lappaceum</i> Linn	
Planting Season of species mentioned	August - October	
Major Characteristics	Rambutan fruits are round or ellipsoid with a leathery skin densely covered in soft spines up to 2 cm long. The fruits are yellow to crimson and grow up to 7 by 5 cm in size. The white juicy flesh encloses an oval seed.	
Rationale for species selection	A tropical fruit belonging to the family Sapindaceae. The word rambutan is derived from the Malay word rambut which means "hair", a reference to the numerous hairy protuberances of the fruit. The fruit is often red but sometimes yellow. When peeled open, it reveals a sweet, white flesh clinging to a woody seed.	
Number of seedlings per hectare	400	
Estimated planting cost (State unit cost for each species mentioned)	Unit cost per seedling	50
	Planting cost per seedling/year	20,000
	Planting cost per ha/year	50 X 400 = 20,000 X 1 ha = 20,000
Estimated management cost (State unit cost for each species mentioned)	Management cost seedling ha/year	
	Management cost per ha/year	
	Any other maintenance costs	6,000 / Ha
Signboard Information		
Estimated signboard cost	25,000	
Signboard description	Polyvinyl sticker mounted on GI sheet 2mm with steel pipe stand and frame	

Tree Species Information (2)		
Name	Durian	
Scientific Name	<i>Durio zibethinus</i> L	
Planting Season of species mentioned	August - November	
Major Characteristics	A large, spiky, greenish-brown fruit that is well-loved in its native Southeast Asia. The fruit is known for its strong odor when ripe, which can vary depending on the variety of durian	
Rationale for species selection	The durian is the edible fruit of several tree species belonging to the genus Durio. There are 30 recognised Durio species, at least nine of which produce edible fruit. Durio zibethinus, native to Borneo and Sumatra, is the only species available in the international market.	
Number of seedlings per hectare	400	
Estimated planting cost (State unit cost for each species mentioned)	Unit cost per seedling	50
	Planting cost per seedling/year	20,000
	Planting cost per ha/year	50 X 400 = 20,000 X 1 ha = 20,000
Estimated management cost (State unit cost for each species mentioned)	Management cost seedling ha/year	
	Management cost per ha/year	
	Any other maintenance costs	6,000 / Ha
Signboard Information		
Estimated signboard cost	25,000	
Signboard description	Polyvinyl sticker mounted on GI sheet 2mm with steel pipe stand and frame	

Tree Species Information (3)		
Name	Lansones	
Scientific Name	<i>Lansium parasiticum</i>	
Planting Season of species mentioned	April -June	
Major Characteristics	Lanzones are trees from the Mahogany family, scientifically known as <i>Lansium parasiticum</i> . It bears a small, tangy, sour, and sweet combination of edible fruits that are similar to potatoes on outer appearance, and inside they have white flesh containing inedible, bitter seeds.	
Rationale for species selection	Lanzones, is popularly grown in Southern Tagalog (Laguna, Batangas, and Quezon), Camiguin, Sulu, Davao del Norte, and Zamboanga del Norte. April to June is the flowering season in Southern Tagalog while August to December marks the harvesting season in Mindanao.	
Number of seedlings per hectare	400	
Estimated planting cost (State unit cost for each species mentioned)	Unit cost per seedling	50
	Planting cost per seedling/year	20,000
	Planting cost per ha/year	50 X 400 = 20,000 X 2 has = 40,000
Estimated management cost (State unit cost for each species mentioned)	Management cost seedling ha/year	
	Management cost per ha/year	
	Any other maintenance costs	6,000 / Ha
Signboard Information		
Estimated signboard cost	25,000	
Signboard description	Polyvinyl sticker mounted on GI sheet 2mm with steel pipe stand and frame	

Tree Species Information (4)		
Name	Ipil	
Scientific Name	<i>Intsia bijuga</i>	
Planting Season of species mentioned	June	
Major Characteristics	A large tree growing up to 50m in height and a diameter of 150cm. Bark is smooth, sometimes flaky, and grayish green with occasional whitish patches. Leaves are shiny green. Observed to have white flowers in June.	
Rationale for species selection	Distribution: Northern Luzon, Babuyan Island, Palawan, and Mindanao. Economic Importance: Fruit and bark has reported medicinal properties. Wood used in interior decor and furniture making. Ecological status: Depleted due to logging and kaingin-making.	
Number of seedlings per hectare	400	
Estimated planting cost (State unit cost for each species mentioned)	Unit cost per seedling	20
	Planting cost per seedling/year	8,000
	Planting cost per ha/year	20 X 400 = 8,000 X 1 ha = 8,000
Estimated management cost (State unit cost for each species mentioned)	Management cost seedling ha/year	
	Management cost per ha/year	
	Any other maintenance costs	6,000 / Ha
Signboard Information		
Estimated signboard cost	25,000

MEMORANDUM

JAN 30 2023

FOR : The Regional Executive Director
All DENR Regions except NCR

FROM : The OIC, Forest Resources Management Division (FRMD), and
In-Charge, Office of the Assistant Director

SUBJECT : **LAUNCH OF LET'S FOREST – PLANTREE FOR AFoCO
PRIVATE SECTOR ENGAGEMENT PROGRAM**

DATE : **27 JAN 2023**

This has reference to the email of Ms. Han YoungJu, Assistant Program Officer of the Asian Forest Cooperation Organization (AFoCO) requesting member countries to submit ready-to plant sites for the Launching of the "Let's Forest – Plantree" under the Green Partnership, in response to the growing interest in planting trees by individuals, organizations, and companies.

Through the Let's Forest – Plantree, any individual, public or private entity will be able to plant a tree for the establishment of forests with a monetary contribution of less than USD 10. It will also contribute to raising public awareness of sustainable forest management and private sector engagement for more collaboration opportunities for new programs and projects of a larger scale.

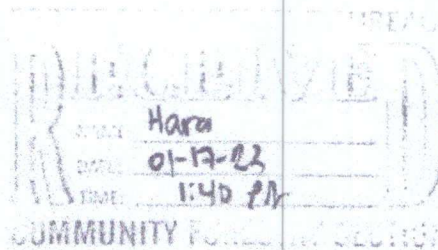

In this regard, may we request the Regions to submit proposed sites within the CBFM areas where you think we can carry out the Let's Forest – Plantree initiative of AFoCO for Private Sector Engagement program. For your guidance, attached hereto, is the Guidelines together with the Basic Information Template to be accomplished for each proposed site. You may propose at least 1 site with complete data or information required in the template, and submit to this Office on or before 6 February 2023, for our further evaluation and endorsement to AFoCO.

In case you have clarifications on this matter, please feel free to contact Forester Irene E. Custodio, FRMD - Community Forestry Section (CFS) with contact number 099828562407 and (02) 89277278 or send through email at frmd.cfs@fmb.denr.gov.ph or inremp.custodio@gmail.com

Thu, Jan 12 at 1:55 PM

Dear distinguished Representatives and focal officials of the participating countries,

Warm greetings from the Secretariat.

Under Green Partnership, the Secretariat plans to launch 'Let's Forest – Plantree', in response to the growing interest in planting trees by individuals, organizations, and companies, whether as part of one-time tree planting campaigns, donating a portion of their profits to forest restoration, or hosting a tree planting event on special occasions such as Arbor Day.

Through Let's Forest – Plantree, any individual, public or private entity will be able to plant a tree for the establishment of forests with a monetary contribution of less than USD 10. Plantree will contribute to raising public awareness of sustainable forest management and facilitating private-sector engagement which can result in more collaboration opportunities for new programs and projects of a larger scale. Hence the Secretariat strongly recommends that member countries join Plantree so that donors will have a wider range of tree planting options and afforestation/restoration activities could be carried out.

For the launch of the program, the Secretariat intends to secure up to five ready-to-plant sites in AFoCO member countries to conduct planting activities one to two times a year. The Secretariat will request member parties propose ready-to-plant sites for Plantree in accordance with the Guidelines (**Attachment-1**). Upon receiving the site proposals, the Secretariat will conduct an internal review and assessment to select suitable sites and inform the selected countries to proceed to signing an agreement between the country and the Secretariat on tree planting activities under Plantree.

Therefore, the Secretariat would like to request that the member countries carefully read the guidelines and fill out the site information form attached to this letter and submit it to the Secretariat (Ms. HAN YoungJu, yj.han@afocosec.org) by **10 February 2023**.

Thank you for your usual support and looking forward to your high participation for Plantree. Your acknowledgment of receipt of this email will be highly appreciated!

Sincerely,

Han YoungJu
