- b. That the team observed that the area is randomly planted with Calamansi, Coconut, Pineapples, Banana, Jackfruit, Kawayan, Gmelina and Mahogany;

This pertains to the conduct of assessment and performance evaluation on the Certificate of Stewardship Contracts (CSCs) as reflected in the approved FY 2022 WFP. Please be informed that per verification and ground validation in the area, the following have been observed by the Performance Evaluation Team, to wit:

- That VIOLETA IBETA is the holder of CSC No. 042602107 awarded on October 16, 1995 containing an area of 1.12 hectares located at sitio Centro, Barangay Concepcion, Puerto Princesa City;
- That the area is randomly planted with Gmelina, Banana, Pineapple and Calamansi;
- That the team observed some felled Gmelina trees caused by super typhoon Odette last December 2021;
- That there is no reported encroachment in the area;
- That the CSC area has been verified to be within Timberland/Forestland per LC No. 1748, Project No. 1-k, April 5, 1954 and;
- That while undergoing mapping and overlaying, it has been observed that the actual CSC area and the issued map do not concur with each other and show different areas. This is probably due to the difference in projection of the devices used during the evaluation and mapping.

FOR : The OIC- Community Environment and Natural Resources Officer
Sta. Monica, Puerto Princesa City

FROM : The CSC Performance Evaluation Team

SUBJECT : **PERFORMANCE EVALUATION REPORT ON THE CSC AWARDED TO EDGAR ELEAZAR LOCATED AT BARANGAY STA. LOURDES, PUERTO PRINCESA CITY**

RECEIVED

SIGNATURE: [Signature]

This pertains to the conduct of assessment and performance evaluation on the Certificate of Stewardship Contracts (CSCs) as reflected in the approved FY 2022 WFP. Please be informed that per verification and ground validation in the area, the following have been observed by the Performance Evaluation Team, to wit:

- a. That MR. EDGAR ELEAZAR is the holder of CSC No. 04261844 awarded on February 5, 1993 containing an area of 4.8 hectares located at Barangay Sta. Lourdes, Puerto Princesa City;
- b. That the area is randomly planted with Rambutan, Bamboo, Mango, Avocado, Guava, Gmelina, Guyabano, Narra, Lansones and Curry trees;
- c. That the area is adjacent to the *Busngol* River;
- d. That the team found out that the holder waived his rights in favor of Marlon John R. Daquer due to disinterest and inability to develop the area; Mr Daquer then subsequently waived his rights to Flora Ferezihina Martinez Fankhauser, mother of the current occupant, Mark Martinez Fankhauser;
- e. That Mr. Fankhauser is the actual tiller of the area;
- f. That there is no reported encroachment in the area;
- g. That the CSC area has been found out to be within the CBFM area of Samahang Magsasaka ng Sta. Lourdes (SAMAKA);
- h. That per Section 4 of DAO 98-05, the CSC may be transferred under the following conditions:
 1. The transferee is a qualified beneficiary as defined under Section 2, hereof; provided that the total land area under the stewardship of the latter does not exceed 10 hectares;
 2. At least 50% of the area covered by the CS has been developed;
 3. The terms and conditions of the original Agreement shall remain in force and effect;
 4. The Agreement shall remain valid for the remaining unexpired term of the original agreement;

5. The Transfer is endorsed by the PO, through a resolution of its Officers; and
 6. The instrument of transfer is duly notarized.
- i. That among the requirements stated in Section 4 of DAO 98-05, the endorsement of the transfer by the PO through a resolution is the only lacking requirement;
 - j. That the CSC area has been verified to be within Timberland/Forestland per LC No. 203-Project No. I dated December 29, 1923; and
 - k. That while undergoing mapping and overlaying, it has been observed that the actual CSC area and the issued map do not concur with each other and show different areas. This is probably due to the difference in projection of the devices used during the evaluation and mapping.

Wherefore, the above-stated CSC is hereby recommended for **RENEWAL** due to violation of the terms and conditions of the CS Contract by selling and transferring the area to a third party not being next-of-kin.

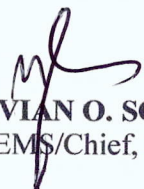

Attached are the duly accomplished and signed performance evaluation sheet, geotagged photos, GIS-generated map and shapefile of map in CD.

FOR : The OIC- Community Environment and Natural Resources Officer

FROM : The CSC Performance Evaluation Team

SUBJECT : **PERFORMANCE EVALUATION REPORT ON THE CSC AWARDED TO ROGER MAPA LOCATED AT SITIO MARIMRAS, BARANGAY MAGSAYSAY, ABORLAN, PALAWAN**

This pertains to the conduct of assessment and performance evaluation on the Certificate of Stewardship Contracts (CSCs) as reflected in the approved FY 2022 WFP. Please be informed that per verification and ground validation in the area, the following have been observed by the Performance Evaluation Team, to wit:

- a. That MR. ROGER MAPA is the holder of CSC No. 042702837 awarded on December 20, 1989 containing an area of 1.5 hectares located at Sitio Marimras, Barangay Magsaysay, Aborlan, Palawan;
- b. That the area is planted with Coconut and few Mangium;
- c. That Ms. Juliana Viernes is the actual tiller in the area;
- d. That upon records verification, the team found out that the Certificate of Stewardship Contract has already been transferred in favor to Ms. Juliana Viernes;
- e. That there is an annotation of the said transfer at the back of the original copy of the CS contract which was duly signed by the then CENRO Tactay of CENRO Quezon as during that time, the said CENRO had jurisdiction over the municipality of Aborlan;
- f. That the CSC area has been verified to be within Timberland/Forestland per LC No. 2638, Project No. 10-J, Block-V dated May 9, 1971; and
- g. That while undergoing mapping and overlaying, it has been observed that the actual CSC area and the issued map do not concur with each other and show different areas. This is probably due to the difference in projection of the devices used during the evaluation and mapping.

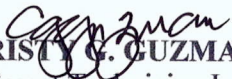

Wherefore, the above-stated CSC is hereby recommended for **RENEWAL** for having complied with the terms and conditions of the CS Contract and for not violating any such provision stated therein. It is also recommended that the CSC map be amended.

FROM : The CSC Performance Evaluation Team

SUBJECT : **PERFORMANCE EVALUATION REPORT ON THE CSC AWARDED TO RAUL REGALA LOCATED AT BARANGAY STA. STA. CRUZ, PUERTO PRINCESA CITY**

This pertains to the conduct of assessment and performance evaluation on the Certificate of Stewardship Contracts (CSCs) as reflected in the approved FY 2022 WFP. Please be informed that per verification and ground validation in the area, the following have been observed by the Performance Evaluation Team, to wit:

- a. That MR. RAUL REGALA is the holder of CSC No. 042602373 awarded on November 29, 1997 containing an area of 2.0 hectares located at Barangay Sta. Cruz, Puerto Princesa City;
- b. That the team observed some planted Coconut, Avocado and Pineapple in the area;
- c. That the portion of the area is vegetated with naturally grown trees;
- d. That the area has a rolling slope;
- e. That there is no reported encroachment in the area;
- f. That the CSC area has been verified to be within Timberland/Forestland per LC No. 1787, Project No. 1-O dated October 11, 1954; and
- g. That while undergoing mapping and overlaying, it has been observed that the actual CSC area and the issued map do not concur with each other and show different areas. This is probably due to the difference in projection of the devices used during the evaluation and mapping.

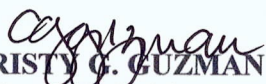

Wherefore, the above-stated CSC is hereby recommended for **RENEWAL** for having complied with the terms and conditions of the CS Contract and for not violating any such provision stated therein. It is also recommended that the CSC map be amended.
