MEMORANDUM

FOR : The Regional Executive Director
DENR MIMAROPA Region
1515 DENR By The Bay Building
Roxas Blvd., Brgy. 668. Ermita, Manila

Attention : The Chief, Survey and Mapping Division

FROM : The OIC-PENR Officer

SUBJECT : **QUERRY ON DENR CENRO SABLAYAN'S
TARGET ON PUBLIC LAND SURVEY FOR CY 2023**

Respectfully forwarded is the Memorandum dated January 13, 2023 from CENR Officer Anastacio A. Santos, regarding the above-mentioned subject.

Relative thereto, please be informed that the position of Engineer II for CENRO Sablayan has been "*sede vacante*" since the promotion of Engr. Nilo P. Salvador to DMO IV. The vacant position created a great *vaccum* that has left considerable inability of the CENRO to accomplish the desired target on public land survey.

In this regard, please be informed that the concerned CENR Officer is inquiring on the possibility of entering into contract of service/hire a private Geodetic Engineer to conduct the public land survey. If that is allowed under such circumstances, what are the requirements to be submitted to the Regional Office.

For information and evaluation.

MEMORANDUM

FOR : **The Regional Executive Director**
DENR – MIMAROPA Region
1515 DENR By the Bay Building, Roxas Boulevard,
Barangay 668, Ermita, Manila

THRU : The PENR Officer
Mamburao, Occidental Mindoro

FROM : The CENR Officer

SUBJECT : **QUERY ON DENR CENRO SABLAYAN'S TARGET ON
PUBLIC LAND SURVEY ON C.Y. 2023**

This is in connection with DENR CENRO Sablayan's target for Public Land Survey on C.Y. 2023.

Please be informed that until now, the item of Engineer II of CENRO Sablayan hasn't been filled-up. In relation to this, our accomplishment last 2022 had been compromised due to unavailability of a licensed Geodetic Engineer who would focus on achieving our target within the prescribed time. The only Geodetic Engineer in Occidental Mindoro is currently detailed in the PENR Office at Mamburao, Occidental Mindoro holding the item of CENRO San Jose. This office cannot force the said Engineer to expedite the processing of our target since she is not an employee of CENRO Sablayan.

With this, we would like to know if instead of "By administration", can we hire or contract a private Geodetic Engineer to conduct the activity of Public Land Survey? If so, do we need to issue a survey authority or will the existing approved survey order would suffice? What are the requirements that we needed to submit to the Regional Office?

This office would like to avoid repeating what happened last year, that's why we decided to try other means possible in accomplishing the task given to us. Your guidance would be a great help in preventing any administrative problems along the way.

For your information, evaluation and further action, if any

FOR. ANASTACIO A. SANTOS, MPA
