This refers to the Accomplishment Report on the issuance of Residential and Agricultural Free Patents as of September 30, 2022, of DENR – MIMAROPA which was culled out from the consolidated monthly accomplishment report provided to this Office by the Project Monitoring and Evaluation Division (PMED) of Planning and Policy Service (PPS).

Upon review and evaluation of the reported accomplishment, a total of four hundred fifty-six (456) Residential Free Patents (RFPs) were issued. This represents forty-two percent (42%) based on the Annual Target of one thousand eighty (1,080) RFPs or fifty-five percent (55%) of the total target to date, which is eight hundred twenty-three (823) RFPs. MIMAROPA Region has a deficit of three hundred sixty-seven (367) RFPs for the 1<sup>st</sup> three (3) quarter target.

Likewise, on Agricultural Free Patents (AFPs), a total of two hundred eighty-eight (288) AFPs were issued. This represents sixty-three (63%) based on the Annual Target of four hundred fifty-eight (458) AFPs or eighty-one percent (81%) of the total target to date, which is three hundred fifty-seven (357) AFPs. The Region has a deficit of sixty-nine (69) AFPs for the 1<sup>st</sup> three (3) quarter target.

In view of the above evaluation, this office recommends that the Region should consider evaluating the operational issues that affect the CENROs and PENROs performance and institute appropriate remedial measures to ensure 100% accomplishment of your targets for the issuance of both Residential and Agricultural Free Patents.
