MEMORANDUM

FOR : The Regional Executive Director
DENR MIMAROPA Region
1515 DENR By the Bay Building, Roxas Boulevard,
Barangay 668, Ermita, Manila

THRU : The ARD for Technical Services

FROM : The OIC, PENR Officer

SUBJECT : **PROGRESS REPORT ON THE CONSTRUCTION OF
SMALL WATER IMPOUNDING SYSTEM AT SO. KULI
KULI, BRGY. ARMADO, ABRA DE ILOG,
OCCIDENTAL MINDORO**

Forwarded is the memorandum dated June 21, 2023 of CENRO Sablayan regarding Progress Report on the Construction of Small Water Impounding System (SWIS) at So. Kuli-kuli, Brgy. Armado, Armado, Abra de Ilog, Occidental Mindoro. As per status report, the proposed SWIS is situated near or adjacent to the established NGP plantation of 2021 wherein the water discharge conformed to the requirements based on FMB Technical Bulletin No. 13-A.

Attached with the report are the geotagged pictures and sketch map of the proposed location of Small Water Impounding System (SWIS).

For information, evaluation and record.

Please be informed that the request for posting on the construction of Small Water Impounding System (SWIS) together with the detailed design, estimated cost of materials, location map of the identified source of water with Geotag photos were already submitted to PENRO thru Bids and Awards Committee (BAC) on April 03, 2023 for review, evaluation and comment.

On April 18, 2023, the submitted documents was returned to this office by the Bids and Awards Committee Chairperson Celso B. Almazan due to some comments and findings. Please be informed that we have already complied the comments, findings and recommendation of the BAC and we submitted the revised and rectified design of the SWIS, consultation/coordination meeting report with the stakeholders at So. Kuli kuli, Brgy. Armado, Abra de Ilog, Occidental Mindoro and the Geotag photos of possible source of water. The identified source of water is situated near or adjacent to the NGP established plantation of 2021 wherein the water discharge conformed to the requirements based on FMB Technical Bulletin No. 13-A.

On June 08, 2023, the BAC conducted Pre Bid conference for the construction of Small Water Impounding System (SWIS). On June 13, 2023 BAC Chairperson Celso B. Almazan returned again the submitted documents for compliance on the comments and findings that the design should be prepared and signed by licensed Civil Engineer. Relative to this, please be informed that this office is looking for an engineer and likewise the documents be submitted once the design is signed.

Attached are the documents relative hereto.

For information and reference.

MEMORANDUM

FOR : The CENR Officer
THRU : DMO IV/Deputy CENRO
FROM : Forester I/NGP Coordinator
SUBJECT : **CONSULTATION MEETING ON THE CONSTRUCTION
OF SMALL WATER IMPOUNDING SYSTEM (SWIS)
PROJECT AT SO. KULI KULI, BRGY. ARMADO, ABRA
DE ILOG OCCIDENTAL MINDORO**

Respectfully submitted herewith is the report pertaining to the above mentioned subject.

Please be informed that on April 26, 2023 the undersigned conducted coordination/courtesy call to the officials of Barangay Armado, Abra de Ilog Occidental and consultation/coordination meeting at So. Kuli Kuli, Brgy. Armado. The purpose and objectives of the meeting is to inform and obtain opinions of the community about the construction of the Small Water Impounding System (SWIS) project, its potential environmental impact and the benefits to the NGP established Plantation and the community as well.

The undersigned presented the identified possible source of water for the said project followed with the discussion of Technical Bulletin Number 13-A or the Supplemental Standard Cost and Design for the Small Water Impounding System (Spring Development). The undersigned also emphasized the importance of SWIS to the community.

The said meeting were attended by Barangay Kagawad, People's Organization/NGP Partners, Sitio leader and other stake holders.

The consultation meeting was ended with a question and answer sessions to which some queries were resolved and answered. During the discussion, the stakeholders of So. Kuli kuli have signified to accept and have no objection for the construction of the Small Water Impounding System (SWIS).

On May 5, 2023, the undersigned together with the Forest Extension Officer Marlon Dela Peña conducted survey on the possible source of water for the construction of the SWIS. Based on the survey, the identified source of water is near to the NGP established plantation of 2021 and adjacent to the graduated NGP Sites. Further, the source of water is near to the community. Furthermore, the flow of water discharge conformed to the requirements based on the FMB Technical Bulletin No. 13-A.

Attached is the photo documentation during the consultation meeting and survey, map and attendance sheet.

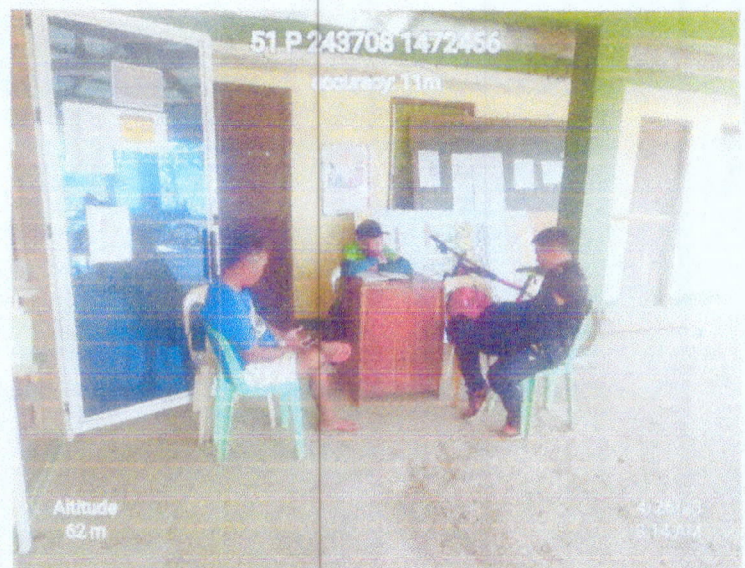

For information and record.
