**THRU :** The Provincial Environment and Natural Resources Office  
Planning Officer

**FROM :** The Community Environment and Natural Resources Officer

**SUBJECT :** **SUBMISSION OF ACCOMPLISHMENT REPORT ON LAWIN  
PATROLLING WITHIN THE AREA OF RESPONSIBILITY OF  
CENRO-ROXAS, PALAWAN FOR THE PERIOD OF MAY 16, 2023  
TO JUNE 15, 2023**

Respectfully submitted is our report re: above subject.

Please be informed that the LAWIN patrollers of this office have accomplished a total of 99.13 kilometers distance patrolled which corresponds to 198.26% of the total target of 50 kilometers to be patrolled from May 16 to June 15, 2023 base on the Work and Financial Plan (WRP) for C.Y. 2023.

Further informing, that there are five (5) threats recorded such as typhoon-related threats, annual and perennial farming that these threats were already addressed and/or no further action/s needed.

For record and consideration.

## Summary Patrol Report

Region 04B - Roxas-Pal

Number of days analyzed: 30

16 Jun 2023 4:05 PM

This report presents the patrol performance and quality of the implementing unit during the above stated period of time (number of days). The report contains information on accomplishment rate, coverage and intensity of patrolling in different forest types on patrol distance covered per patroller. The information is meant to provide a basis for patrol planning for the next planning period and implementation of adaptive measures to enhance patrolling as necessary.

### Overall accomplishment rate\*

#### Level of Accomplishment

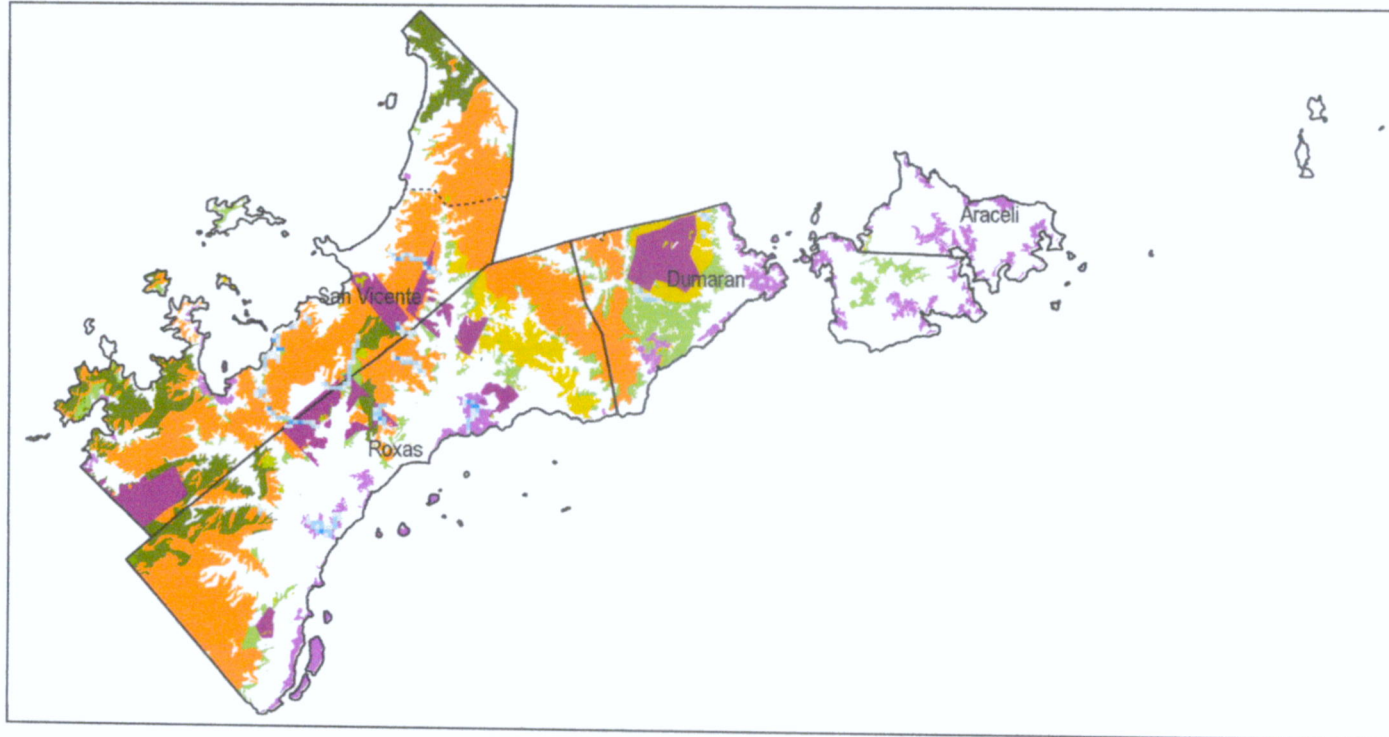

● Accomplishment  
● Target

Accomplishment* for the period	Target* distance for the period
99.13	114.75

**Accomplishment Rate:**  
86.39%

\*Target is computed based on 10km target per team of 4 DENR patrollers per month

### Patrol coverage and intensity

Republic of the Philippines

Department of Environment and Natural Resources

Lawin Forest and Biodiversity Protection System

Patrol distance covered by each forest ranger

Forest Ranger	Patrol Distance Accomplished
Efren Esparagoza	57.65
Merma Saddin	56.34
Nolly Billones	55.83
Jerick Ron Seño	54.45
Joven Aquino	54.21
Charlie Rabang	52.47
Jess Mark Falarcuna	45.09
Enrique Jardin	41.31
Roy Mercader	41.31
Rommel Allan Llaniguez	37.74
Manliguez Jeter	32.97
Armando Gabayan	32.44
Christopher Padrones	32.44
Lemuel Bacalla	32.44
Marco Angelo Marquez	32.44

Locations of actions taken to address threats

Actions taken to address observed threats during patrols

## Forest Protection Effectiveness Report

### Region 04B - Roxas-Pal

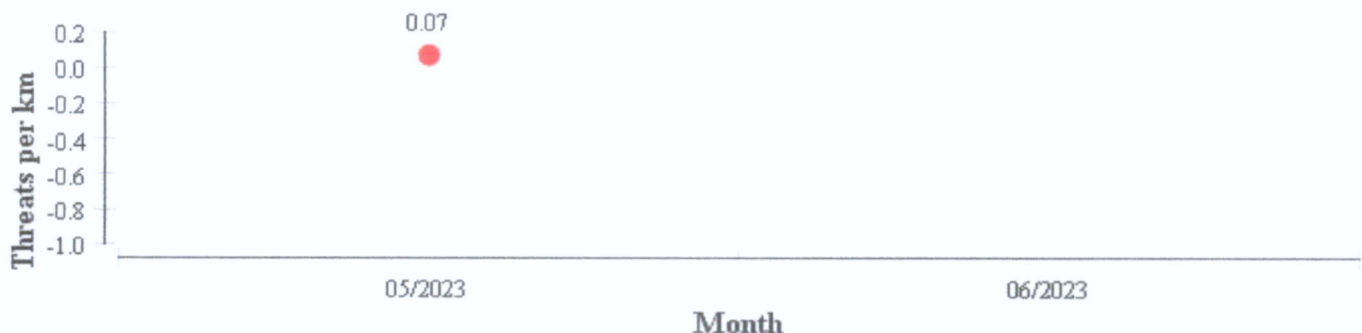

Number of days analyzed: 30

16 Jun 2023 4:06 PM

This reports presents trends in observations of forest condition, regeneration, threats and indicator species. The combined presentation allows for an evaluation if protection efforts are effective, conservation targets are met and the forest achieves the desired future forest condition. Protection efforts are effective, when records of forest condition, regeneration and indicator species show an upward trend towards more observations more and denser regeneration, particularly in degraded forest areas. Increasing trends in indicator species suggest that the improved forest condition is providing a better habitat for forest dependent species. All trends presented are put in relation to the patrol effort to provide comparability. Forest cover data were derived from 2003 and 2010 NAMRIA land cover maps.

### Trends of Observations per Patrol Kilometer in the Forest Conservation Area

#### Trend in Threats

A decreasing trend in threats in the forest conservation area mean effective forest protection; an increasing trend means the opposite.

#### Trend in Indicator Species

An increasing trend in indicator species in the forest conservation area means effective forest protection; a decreasing trend means the opposite.

### Trends in Regeneration Density

An increasing trend in regeneration means effective forest protection; a decreasing trend means the opposite.

### Trends of most common Threats
