**MEMORANDUM**

**TO :** The CENR Officer  
CENRO, Roxas, Oriental Mindoro

**FROM :** IEC Officer

**SUBJECT :** **REPORT ON THE CONDUCT OF CORAL TRIANGLE DAY IN MINDORO STATE UNIVERSITY – LABORATORY HIGH SCHOOL ON JUNE 14, 2023**

Please be informed that the undersigned conducted an IEC related to coastal and marine protection, conservation, and management. This is part of the celebration of the regular special events celebrated during the month of June – Coral Triangle Day. The activity was participated by the students from Grade 7 to Grade 12 of Mindoro State University Bongbong Campus – Laboratory High School. A total of 56 females and 51 males participated in the activity. This was initially scheduled on June 9, however, due to some conflicting schedules during that time, it was rescheduled to further dates.

The activity was opened by a prayer followed by the singing of the National Anthem. Mr. Emmanuel Pineda one of the faculty of Mindoro State University Laboratory High School expressed his appreciation to the office for providing such initiatives in conducting information campaigns and environmental awareness, most especially to the students of the institution.

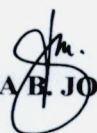

The first topic discussed was marine biodiversity, Verde Island Passage, and threats and benefits to marine biodiversity. It was presented and delivered by Mr. Jezreel John Matre, Ecosystems Management Specialist II. He discussed the threats like pollution, overfishing, destructive fishing, extreme weather condition brought by climate change, and urbanization. There he highlighted how the DENR contributes to the protection and conservation of our marine biodiversity.

The effects of oil spills on marine biodiversity and people were a further subject of discussion. The detrimental effects of either short- or long-term exposure to industrial oil were highlighted by Mr. Mark Conrad Abalos, a registered nurse, and employee of this office. Due to the fact that it had just occurred and that some of the students' parents were fishermen, it was understandable to and adaptive by the students.

After the lively discussion, the question and answer followed. All the queries were answered by the speakers and the students were satisfied by their answers.

The activity ended with a message from the OIC of Laboratory High School Ms. Hazelle Paulene Reamosio in which she expressed her gratitude to this office and expressed her anticipation of future events of similar nature taking place at their institution.

Attached is the photo documentation of the said activity.
