MEMORANDUM

FOR : The Regional Executive Director
DENR MIMAROPA Region

THRU : The Assistant Regional Director for Technical Services

FROM : The OIC, PENR Officer
Oriental Mindoro

SUBJECT : **SUBMISSION OF THE REPORT ON THE TURNED-OVER OF ONE (1) RUFOUS NIGHT HERON BY MARITIME POLICE**

Submitted is the report on the turn-over of one (1) Rufous Night Heron (*Nycticorax caledonicus*). The said species was rescued by a resident from Brgy. San Antonio, Calapan City, Oriental Mindoro surrendered to the Maritime Police then turned-over to this office last March 22, 2023.

Due to its weak physical condition, the bird was brought to the Veterinarian Office for a physical check-up. It was observed that the individual had inflammation of the membranes along the nose and throat and was issued a vetracin prescription. The bird was surrendered to the custody of Bulusan Park and isolated from other wildlife for further health inspection.

Attached are the necessary files, receipts and photo-documentation of the turned-over wildlife species.

For information and record.

MEMORANDUM

FOR : The OIC, PENRO

THRU : The Chief, Technical Services Division

FROM : CDO-II Gerry C. Mamigo

SUBJECT : **TURNED-OVER OF WILDLIFE SPECIES BY MARITIME POLICE**

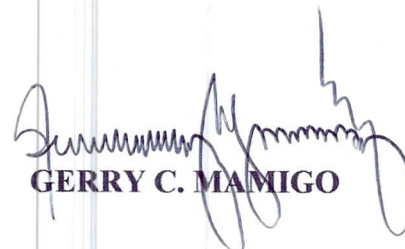

On March 22, 2023, a Maritime Police namely: Patrolman Christial Paul Paballa and Patrolman Mark Anthony Espinola had turned-over a Rufous Night Heron to this office. Information disclosed that the aforesaid wildlife species was turned-over by a resident of Barangay San Antonio, Calapan City and was found in a weak physical condition.

In regard to this, the undersigned immediately brought the herein bird to the City Veterinarian Office for physical check up. Findings revealed that the said wildlife has an inflammation of the membranes that line the nose and throat. Relative thereto, Chester M. Macatangay, DVM issued a prescription (vetracin capsule) in order that the bird can recuperate its physical condition and advised further to isolate from other animals and/or quarantine the said wildlife species. Thereafter, the Rufous Night Heron was turned-over to the Zoo Keeper for custody and safekeeping

This wildlife species is mainly nocturnal and primarily active during dusk and dawn prefer to live in ricefields, ponds, shores, tidal flats, river, marshes or any aquatic habitat around the fresh and salt water. They preys on small fish, insects, frogs, lizard, crustaceans and amphibians.

Attached are the turn-over receipt, prescription and photo documentation during the turned-over of the aforesaid wildlife species.

For your information and record.
