However, the inventory of the remaining nine (9) standing acacia trees resulted to a total volume of 45.54 cubic meters.

16. The undersigned recovered old numbering of some trees from previous inventory and this is reflected in the attached tally sheet and stand and stock table. However, there is some discrepancy in the measurement of trees from the previous and latest inventory.

In view of the foregoing, the undersigned respectfully stands by the result of the inventory conducted last April 18, 2023.
