April 28, 2023

MEMORANDUM

FOR : The Community Environment and Natural Resources Officer

FROM : The Undersigned

SUBJECT : **SURVEY OF FLYING FOX ROOSTING SITE IN BARANGAY MINARA, ROXAS, PALAWAN**

Since the team was not able to do the flying fox flyout count last April 13, 2023, the undersigned came back to the area to validate the information on the presence of flying fox's roost in the mangrove area of Barangay Minara, Roxas, Palawan on April 25 & 26, 2023. The weather was fair. The team tried to locate the roost with the help of Barangay Tanod Alvin Nangit and possibly do a direct count of flying foxes at their roost once found. However, the team failed to find the roost.

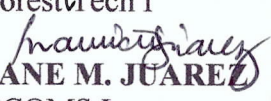

On the second day of locating the roost, the team got the same result, but, was able to interview several staff of C3 on the docking area. C3 is an NGO based in Roxas which was scheduled to do a seagrass assessment in Barangay Minara that day. They stated that they saw a roost of flying foxes within the mangrove area last October 2022. The barangay kagawad who was with them added that he also saw the roost on January of this year. This indicates that the flying foxes possibly transferred to a new roosting site.

Attached are photo documentation of the activity.
